**They say hate is a strong word, but Eileen Parker is certainly no stranger to it. Parker hates her first name, hates her apartment, hates her life. Which, sure, sounds a bit cynical, but after the life that she’s led so far, you really can’t blame her. With her sophomore year of college overshadowed by circumstances that she never expected, Parker just wants to keep her head down, pass her classes, and take care of the responsibilities that are threatening to destroy her. And then she meets Ash. Ashton Carter is working to fix the messes that he’s made, but he’s still struggling with dark memories of a night that changed his life. He’s definitely not looking for someone to spend forever with, but when he meets Parker, his life changes once again. It doesn't bother him that Parker adamantly refuses to admit to the chemistry between them, or that she’s determined to keep him at arms length. Ash is convinced that Parker is everything he never knew he needed, and he’s not about to let her slip away. Fighting against overwhelming insecurities and secrets that feel too big to share, the two must make a choice. They can keep running from their pasts, or they can confront them and face their future together. \*\*\*This is the first book in a series of standalone novels. Due to adult language/situations and mild drug use, this book is recommended for readers 18+. As soon as I saw him, it was war. I thought at first it would be between me and him. Cade was cold and hard and didn’t want anything to do with the headmaster’s daughter. I was off-limits. He didn’t need that kind of trouble. I didn’t need that kind of trouble, either. And since I did my best to avoid any kind of trouble, that should have been the end of it. But when I saw him, he also saw me. All of me. The lonely parts. The dark parts. The secret parts. He became my ally. I lost the battle with myself and fell in love despite the risk. But the war isn’t over for either of us. Not as long as my father is alive. Book two of three in the final trilogy in the Dirty Universe. Can drinking coffee help people live longer? What makes a stock’s price go up? Why did you get the flu? Causal questions like these arise on a regular basis, but most people likely have not thought deeply about how to answer them. This book helps you think about causality in a structured way: What is a cause, what are causes good for, and what is compelling evidence of causality? Author Samantha Kleinberg shows you how to develop a set of tools for thinking more critically about causes. You’ll learn how to question claims, identify causes, make decisions based on causal information, and verify causes through further tests. Whether it’s figuring out what data you need, or understanding that the way you collect and prepare data affects the conclusions you can draw from it, Why will help you sharpen your causal inference skills.**

In response to the explosion of the Fukushima Daiichi power plant in March 2011, this book examines how the concept of a risk society was handled in the various education programs implemented in post-disaster Fukushima. The explosion and subsequent radiation contamination that affected the biosphere of the Fukushima region and beyond, revealed that we live in a risk society. Despite this revelation, official discourses in Fukushima have been geared strictly toward the future, with the aim of restoring communities and resuming development projects. Based on the ethnographic data the author collected in Fukushima between 2013 and 2016, various contested emotions emerged in those education spaces as students and teachers remembered their romanticized and difficult past and dealt with the challenges presented by the risk society in their present lives. The emotionally-charged interactions between past and present also shaped their vision of their future community and of the actions they might take. The dialogues and actions that took places in these education spaces encourage readers to examine the meaning of development and question the basic assumptions and methods of education as society shifts to a risk society. A valuable resource for scholars and students in the fields of globalization and education, curriculum studies, sociology of education, and Japanese studies.

?DNS Exercise Journal - A brochure for kids This journal or DNS Fit Kid App is intended for coaches and therapists who use DNS FIT KID in their practice, particularly those working with young children and their parents. The application consists of twenty exercises based on five developmental positions and serves as a home exercise program for children aimed at both the treatment and prevention of musculoskeletal pain. More generally, these exercises can also be used as a fundamental, dynamic warm-up for not only common recreational play, but also youth athletic training. The DNS exercise app explains the developmental exercise positions to children in a fun, relatable manner, comparing them with the way animals characteristically move and pose. The concise text and colorful illustrations help to explain not only how the child ought to move, but also what they should feel during each movement or position. Of course, these also describe how to detect and correct errors and movement faults typically found with each exercise. Furthermore, in order to help train exercise transitions, movement memory, mimicry, and team exercise (while also incorporating speech development), the DNS app has included a variety of rhythmic songs that are meant to be sung along with every global movement routine. By incorporating both animal imagery and catchy songs into each routine, the DNS Fit Kid App motivates children to exercise regularly in a pleasurable, playful way, while also emphasizing DNS principles like optimal posture and ideal movement coordination. Edwin Morgan was appointed Poet Laureate of Glasgow in 1999, and many of these poems reflect the life of the city both now and in the past. But equally the poetry moves to other places and other worlds. A sequence of poems about a demon allows the mind to expatiate on a wide range of subjects, social, psychological, philosophical. Some of the poems have been set to music, both jazz and classical. In many ways it is a book of voices and observation, a book of accessible storytelling.

She must marry. But she 'll do it her way. And she has a plan. Caroline Whitfield has it all figured out. Since all young ladies of the ton must marry, she plans to do just that. The only romances she 's interested in are between the pages of her beloved books, so love is not a consideration. She needs a husband willing to let her live her own life, and who better than a man for whom a wife is an inconvenience packed off to the country? Which means only one type of man will do. She needs a rake, a man who will barely notice his own wife in favour of his own pursuits. It 's the perfect plan. All she has to do is not fall in love. And most definitely not with the irritatingly handsome Baron Huntingford. He needs a wife. Preferably someone who is not Miss Whitfield. More at home on the battlefield than in a ballroom, Aaron, Baron Huntingford, is still getting used to his title and being a man of leisure rather than a soldier. A rake with a dangerous reputation he 's used to any woman he wants falling at his feet, but Miss Whitfield is not like other debutantes. For one thing, she seems to actively dislike him. For another, she 's his best friend 's new sister-in-law, and therefore off limits.

Never mind that he craves her touch and to find out if her lips taste as sweet as they look. But when he finds out about her scheme to bring a rake to the altar, all bets are off. If she wants a rake, she 'll get one. Him.
