A Novel

A new heartfelt novel about the power of loneliness and the strength of love that overcomes it by critically acclaimed author Roselle Lim. Newly minted professional matchmaker Sophie Go has returned to Toronto, her hometown, after spending three years in Shanghai. Her job is made quite difficult, however, when she is revealed as a fraud—she never actually graduated from matchmaking school. In a competitive market like Toronto, no one wants to take a

chance on an inexperienced and unaccredited matchmaker, and soon Sophie becomes an outcast. In dire search of clients, Sophie stumbles upon a secret club within her condo complex: the Old Ducks, seven septuagenarian Chinese bachelors who never found love. Somehow, she convinces them to hire her, but her matchmaking skills are put to the test as she learns the depths of loneliness, heartbreak, and love by attempting to make the hardest matches of her life. Sophie and her family left England for Belgium when she was very young. At fourteen, she's doesn't understand why they left England until she makes a startling discovery that helps her unlock the mystery of who she really is.

A charming, meticulously researched, and illuminating look at how technology infiltrates every aspect of raising children today, filled with helpful advice parents can use to best navigate the digital landscape, and ultimately learn to trust their own judgment. There's an app or device for nearly every aspect of parenting today: monitoring your baby; entertaining or educating your toddler; connecting

with other new parents for tips, tricks, and community—virtually every aspect of daily life. But it isn't a parenting paradise; the truth is much more complicated. The mother of two young daughters, journalist Sophie Brickman wondered what living in a tech-saturated world was doing to her and her children. She turned to experts, academics, doctors, and innovators for advice and insight. Baby, Unplugged brings together Brickman's in-depth research with her own candid (sometimes hilarious) personal experience to help parents sort through the wide and often confusing tech offerings available today and to sort out what's helpful and what's not. Filled with relatable and entertaining stories as well as practical takeaways, Baby, Unplugged is destined to become a touchstone for parents today, giving them the permission to forge their own path through the morass of technological options, to restore their faith in themselves, and to help them raise good, social, and engaged people in the modern world.

A heartfelt exploration of faith and love and friendship, What Happened To Sophie Wilder is a beautiful, absorbing work about the redemptive power of storytelling: a literary love story.

Charlie Blakeman has just published his first novel, to almost no acclaim. He's living on New York's Washington Square, struggling with his follow-up, and floundering within his pseudointellectual coterie when his college love, Sophie Wilder, returns to his life. Sophie is also struggling, though Charlie isn't sure why, since they've barely spoke, after falling out a decade before. Now Sophie begins to tell Charlie the story of her life since then, particularly the story of the days she spent taking care of a dying man with his own terrible past and of the difficult decision he forced her to make. When she disappears once again, Charlie sets out to discover what happened to Sophie Wilder. Christopher Beha's debut novel explores faith, love, friendship, and, ultimately, the redemptive power of storytelling.

And when she tackled a math problem that male scholars said would be impossible to solve...still, nothing stopped Sophie. For six years Sophie Germain used her love of math and her undeniable determination to test equations that would predict patterns of vibrations. She eventually became the first woman to win a grand prize from France's prestigious Academy of Sciences for her formula, which laid the groundwork for much of modern architecture (and can be seen in the book's illustrations). Award-winning author Cheryl Bardoe's inspiring and poetic text is brought to life by acclaimed artist Barbara McClintock's intricate pen-and-ink, watercolor, and collage illustrations in this true story about a woman who let nothing stop her.

The 7 Habits of Happy Kids

A radically practical guide to making food choices that are good for you, others, and the planet. Is organic really worth it? Are eggs ok to eat? If so, which ones are best for you, and for the chicken-Cage-Free, Free-Range, Pasture-Raised? What about farmed salmon, soy milk, sugar, gluten, fermented foods, coconut oil, almonds? Thumbs-up, thumbs-down, or somewhere in between? Using three criteria-Is it good for me? Is it good for others? Is it good for the planet?-Sophie Egan helps us navigate the bewildering world of food so that we can all become conscious eaters. To eat consciously is not about diets, fads, or hard-and-fast rules. It's about having straightforward, accurate information to make smart, thoughtful choices amid the chaos of conflicting news and marketing hype. An expert on food's impact on human and environmental health, Egan organizes the book into four categories-stuff that comes from the ground,

stuff that comes from animals, stuff that comes from factories, and stuff that's made in restaurant kitchens. This practical guide offers bottom-line answers to your most top-of-mind questions about what to eat. "The clearest, most useful food book I own."—A. J. Jacobs, *New York Times* bestselling author

The book Jonathan Franzen dubbed the "ur-text of postwar fiction" and the "first great cultural critique, which, even if Heller and Pynchon hadn't read it while composing Catch-22 and V., managed to anticipate the spirit of both"—The Recognitions is a masterwork about art and forgery, and the increasingly thin line between the counterfeit and the fake. Gaddis anticipates by almost half a century the crisis of reality that we currently face, where the real and the virtual are combining in alarming ways, and the sources of legitimacy and power are often obscure to us.

This is a bumper edition of three bestselling Sophie titles. Sophie is small, but very determined. She's crazy about

animals and wants to be a farmer when she grows up. She'd love to have a pony, but doesn't think she'll ever be that lucky.

The beloved debut novel about an affluent Indian family forever changed by one fateful day in 1969, from the author of *The Ministry of Utmost Happiness* **NEW YORK TIMES BESTSELLER • MAN BOOKER PRIZE WINNER** Compared favorably to the works of Faulkner and Dickens, Arundhati Roy's modern classic is equal parts powerful family saga, forbidden love story, and piercing political drama. The seven-year-old twins Estha and Rahel see their world shaken irrevocably by the arrival of their beautiful young cousin, Sophie. It is an event that will lead to an illicit liaison and tragedies accidental and intentional, exposing "big things [that] lurk unsaid" in a country drifting dangerously toward unrest. Lush, lyrical, and unnerving, *The God of Small Things* is an award-winning landmark that started for its author an esteemed career of fiction and political commentary that continues unabated.
