The anthrax incidents following the 9/11 terrorist attacks put the spotlight on the nation's public health agencies, placing it under an unprecedented scrutiny that added new dimensions to the complex issues considered in this report. The Future of the Public's Health in the 21st Century reaffirms the vision of Healthy People 2010, and outlines a systems approach to assuring the nation's health in practice, research, and policy. This approach focuses on joining the unique resources and perspectives of diverse sectors and entities and challenges these groups to work in a concerted, strategic way to promote and protect the public's health. Focusing on diverse partnerships as the framework for public health, the book discusses: The need for a shift from an individual to a population-based approach in practice, research, policy, and community engagement. The status of the governmental public

The Future of Australian Federalism

**South-Western Federal Taxation 2023:
Comprehensive**

This report examines the links between inequality and other major global trends (or

megatrends), with a focus on technological change, climate change, urbanization and international migration. The analysis pays particular attention to poverty and labour market trends, as they mediate the distributional impacts of the major trends selected. It also provides policy recommendations to manage these megatrends in an equitable manner and considers the policy implications, so as to reduce inequalities and support their implementation.

At a time when the operation and reform of federal relations within Australia is squarely on the political agenda, this volume brings together eminent lawyers, economists and political scientists who explain, analyse and evaluate the theory and principles underpinning the Australian federal system. Topics covered include the High Court's approach to the interpretation of the Constitution and how this has influenced federal relations in practice; different forms of inter-governmental co-operative arrangements; fiscal relations between the Commonwealth and the States; and emergent ethno-cultural and socioeconomic diversity within the Australian Federation. Comparative perspectives from Germany, America, Canada, Switzerland, India and the European Union provide unique prisms
