Souvenirs are part of global and local travel and tourism in all corners of the world. This book portrays souvenirs as expressions of culture and as triggers of cultural change. The volume provides critique and theorisation of souvenirs of places, people and experiences in the context of lives lived at the margins of society, politics, tourism flows and urbanisation. Case studies in sustainable tourism illustrate dynamic ways that consumers and suppliers use souvenirs to respond to, resist and (re)interpret global and local influences upon cultures across informal, hybrid and formal economies.

As the philosopher Martin Buber wrote, "All real living is meeting." People like to get together. That's why special events can often work so much better for nonprofit organizations than other, less social types of fundraising programs. From red-carpet galas to Saturday afternoon street fairs, special events offer nonprofits an unparalleled opportunity to both raise money and make friends. Yet for all the benefits—and they are great—inexperience and bad planning can make these events more trouble—and a greater financial drain—than they are worth. **Special Events: Proven Strategies for Nonprofit Fundraising**, Second Edition is the complete guide to making your next nonprofit event the rousing success it can be. Packed with author and development professional Alan Wendroff's realistic insights and pointers, this text provides a logical and comprehensive outline of event planning, with a special emphasis on fitting these events into the larger framework of the nonprofit's organizational goals. Inside you'll find such helpful tools as: Seven goals for a successful event; The Master Event Timetable (METT), a proven organizational tool that provides step-by-step guidance through the entire event process; A case study explaining in understandable detail how to implement the advice and methods outlined; An accompanying CD that includes sample timelines, worksheets, checklists, budgets, writing examples, decision tables, and contracts; From choosing the right event to the best way of expressing thanks afterwards. **Special Events** covers all aspects of producing a winning fundraiser for your organization. In addition to the brass tacks of managing logistics, the coverage includes thoughtful discussions on how to take full advantage of the networking, volunteer recruitment, public relations, and motivational opportunities your special event can provide. This updated Second Edition features new information in these areas, plus an entirely new chapter on using the Internet for event planning. With the needs of nonprofit organizations only growing as donations shrink, special events become more and more vital in sustaining the life of these organizations. Nonprofit lay leaders, professionals, and staff, as well as marketing professionals and event planners who work with nonprofits, will all find in **Special Events**, Second Edition a clearly drawn road map leading to fundraising success.

As you are reading this, you are obviously interested in how Marketing actually works and what is actually effective. You already have been through the wringer with all these online marketers who use the same copy-paste template of a sales page, with mailing lists which send you unwanted traffic several times a week and insist that you are stupid enough to believe their hype, over and over and over. The Masters of Marketing Secrets series brings you these classics so that you can make up your own mind. All that has been done with these books is to give you modern versions of them which have been (mostly) cleaned up of typos and poor editing - and also made available in ebook and paperback so you can study them at your leisure. J. George Frederick lived in those times and wrote about the people and principles of advertising they discovered. His book has been handed around for years, and as you study the other books in this series it starts pulling the pieces together for you.
