Have you always wanted to learn how to speak Spanish but simply didn't have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced and revolutionary method that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work—discoveries that are detailed further in this book—Nitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversant—now. If you want to learn complicated grammar rules, or to speak perfectly proper and precise Spanish, this book is not for you. However, if you need to actually hold a conversation while on a trip to a Spanish-speaking country, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This method is designed for fluency in a foreign language, while communicating in the present tense. Nitzany believes that

what's most important is actually being able to understand and be understood by another human being right away. This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With Conversational Spanish Quick and Easy, all you need are fifty-three pages. Learn Spanish today, not tomorrow, and get started now!

Jews have always played an important role in the generation of culture in Latin America, despite their relatively small numbers in the overall population. In the early days of cinema, they served as directors, producers, screenwriters, composers, and broadcasters. As Latin American societies became more religiously open in the later twentieth century, Jewish characters and themes began appearing in Latin American films and eventually achieved full inclusion. Landmark films by Jewish directors in Argentina, Mexico, and Brazil, which are home to the largest and most influential Jewish communities in Latin America, have enjoyed critical and popular acclaim. Evolving Images is the first volume devoted to Jewish Latin American cinema, with fifteen critical essays by leading scholars from Latin America, the United States, Europe, and Israel. The contributors address transnational and transcultural issues

of Jewish life in Latin America, such as assimilation, integration, identity, and other aspects of life in the Diaspora. Their discussions of films with Jewish themes and characters show the rich diversity of Jewish cultures in Latin America, as well as how Jews, both real and fictional, interact among themselves and with other groups, raising the question of how much their ethnicity may be adulterated when adopting a combined identity as Jewish and Latin American. The book closes with a groundbreaking section on the affinities between Jewish themes in Hollywood and Latin American films, as well as a comprehensive filmography.

In the politically volatile period from the 1960s through the end of the twentieth century, Latin American authors were in direct dialogue with the violent realities of their time and place. Writing Revolution in Latin America is a chronological study of the way revolution and revolutionary thinking is depicted in the fiction composed from the eye of the storm. From Mexico to Chile, the gradual ideological evolution from a revolutionary to a neoliberal mainstream was a consequence of, on the one hand, the political hardening of the Cuban Revolution beginning in the late 1960s, and, on the other, the repression, dictatorships, and economic crises of the 1970s and beyond. Not only was socialist revolution far from the utopia many believed, but the notion that guerrilla uprisings would lead to an easy socialism proved to be unfounded. Similarly, the repressive Pinochet dictatorship in Chile led to unfathomable tragedy and social mutation. This double-edged phenomenon of

Online Library Span 203 Intermediate Spanish Book

revolutionary disillusionment became highly personal for Latin American authors inside and outside Castro's and Pinochet's dominion. Revolution was more than a foreign affair, it was the stuff of everyday life and, therefore, of fiction. Juan De Castro's expansive study begins ahead of the century with José Martí in Cuba and continues through the likes of Mario Vargas Llosa in Peru, Gabriel García Márquez in Colombia, and Roberto Bolaño in Mexico (by way of Chile). The various, often contradictory ways the authors convey this precarious historical moment speaks in equal measure to the social circumstances into which these authors were thrust and to the fundamental differences in the ways they themselves witnessed history.

Blended language courses, which combine face-to-face and online instruction, are becoming increasingly popular due to the need for more flexible yet effective learning opportunities. This book recognizes the associated opportunities and challenges for teachers, and provides the rationale, strategies and tools to design blended learning courses or to guide the transition from fully face-to-face or fully online courses to blended instruction. The authors propose a framework based on four phases, Design, Build, Teach and Evaluate, which facilitates a systematic approach to course development. The volume simplifies the connection between theory and practice, by including examples that readers can relate to and immediately implement as they build or teach a course. Including case studies of successful implementations, and effective instructional strategies and techniques, this book is accessible even for teachers without previous experience in course design, whilst also acting as a reference for more experienced

language educators.

*Beginning in 1990, thousands of Spanish speakers emigrated to Japan. A Cultural History of Spanish Speakers in Japan focuses on the intellectuals, literature, translations, festivals, cultural associations, music (bolero, tropical music, and pop, including reggaeton), dance (flamenco, tango and salsa), radio, newspapers, magazines, libraries, and blogs produced in Spanish, in Japan, by Latin Americans and Spaniards who have lived in that country over the last three decades. Based on in-depth research in archives throughout the country as well as field work including several interviews, Japanese-speaking Mexican scholar Araceli Tinajero uncovers a transnational, contemporary cultural history that is not only important for today but for future generations. Araceli Tinajero is professor of Hispanic literatures at The City College of New York and at the Graduate Center. She is the author of *Orientalismo en el modernismo hispanoamericano*, *El Lector: A History of the Cigar Factory*, and *Kokoro: A Mexican Woman in Japan*. Tinajero is the editor or co-editor of various volumes including *Exilio y cosmopolitismo en el arte y la literatura hispanica*, *Orientalisms of the Hispanic and Luso-Brazilian World*, *Technology and Culture in Twentieth Century Mexico*, and *Handbook on**

Cuban History, Literature, and the Arts. She is the Book Review Editor of the journal Asia / America Latina.

Demonstrates how film adaptations intersect with feminist discourse in neoliberal Mexico.

Adapting Gender offers a cogent introduction to Mexico's film industry, the history of women's filmmaking in Mexico, a new approach to adaptation as a potential feminist strategy, and a cultural history of generational changes in Mexico.

Ilana Dann Luna examines how adapted films have the potential to subvert not only the intentions of the source text, but how they can also interrupt the hegemony of gender stereotypes in a broader socio-political context.

Luna follows the industrial shifts that began with Salinas de Gortari's presidency, which made the long 1990s the precise moment in which

subversive filmmakers, particularly women, were able to participate more fully in the industry and portrayed the lived experiences of women and non-gender-conforming men.

The analysis focuses on Busi Cortés's *El secreto de Romelia* (1988), an adaptation of Rosario Castellanos's short novel *El viudo Román* (1964);

Sabina Berman and Isabelle Tardán's *Entre Pancho Villa y una mujer desnuda* (1996), an adaptation of

Berman's own play, *Entre Villa y una mujer desnuda* (1992); Guita Schyfter's *Novia que te*

vea (1993), an adaptation of Rosa Nissán's eponymous novel (1992); and Jaime Humberto Hermosillo's De noche vienes, Esmeralda (1997), an adaptation of Elena Poniatowska's short story "De noche vienes" (1979). These adapted texts established a significant alternative to monolithic notions of national (gendered) identity, while critiquing, updating, and even queering, notions of feminism in the Mexican context. "Adapting Gender demonstrates Luna's considerable skills as a scholar. She deftly carries out a careful analysis of the literary and cinematic texts, putting them in the context of the evolving publishing and film industries. Written in a lively and engaging style, this is a unique synthesis of the evolution of feminism and the roles women have had—indeed, at times, been limited to—in Mexico and what this has meant for their creative output." — Niamh Thornton, author of Revolution and Rebellion in Mexican Film

Critical Essays on Eugene O'Neill, Susan Glaspell, Thornton Wilder, Arthur Miller and

Other Playwrights

DOD Pam

The new essays in this collection, on such diverse writers as Eugene O'Neill, Susan Glaspell, Thornton Wilder, Arthur Miller, Maurine Dallas Watkins, Sophie Treadwell, and Washington Irving, fill an important conceptual gap. The essayists offer numerous approaches to intertextuality: the influence of the poetry of romanticism and Shakespeare and of histories and novels, ideological and political discourses on American playwrights, unlikely connections between such writers as Miller and Wilder, the problems of intertexts in translation, the evolution in historical and performance contexts of the same tale, and the relationships among feminism, the drama of the courtroom, and the drama of the stage. Intertextuality has been an under-explored area in studies of dramatic and performance texts. The innovative findings of these scholars testify to the continuing vitality of research in American drama and performance.

At the heart of crime fiction is an investigation into an act of violence. Studies of the genre have generally centered on the relationship between the criminal and the investigator. Focusing on

contemporary crime fiction from the Spanish-speaking world, this collection of new essays explores the role of the victim. Contributors discuss how the definition of "victim," the nature of the crime, the identification of the body and its treatment by authorities reflect shifting social landscapes, changing demographics, economic crises and political corruption and instability.

Humor and Evil proposes a new approach to invective and comic poetry in Italy during the thirteenth and fourteenth centuries and opens the way for an innovative understanding of Dante's masterpiece. The Middle Ages in Italy offer a wealth of vernacular poetic invectives—polemical verses aimed at blaming specific wrongdoings of an individual, group, city or institution— that are both understudied and rarely juxtaposed. Modern criticism has generally viewed these poems as disengaged

from concrete issues, and as a marginal form of recreation with little ethical value. Also, no study has yet provided a scholarly examination of the connection between this medieval invective tradition, and its elements of humor, derision, and reprehension in Dante's Comedy. This book argues that these comic texts are rooted in and actively engaged with the social, political, and religious conflicts of their time. Political invective has a dynamic ethical orientation that is mediated by a humor that disarms excessive hostility against its individual targets, providing an opening for dialogue. While exploring medieval comic poems by Rustico Filippi (from Florence), Cecco Angiolieri (from Siena), and Folgore da San Gimignano, this study unveils new biographical data about these poets retrieved from Italian state archives (most of these data are published here in English for the very first time), and ultimately shows what the medieval invective tradition can add to our understanding of Dante's Comedy. musical forms and styles and their transformation in the United States. Employing musical, historical, and sociocultural analyses, Loza addresses issues such as marginality, identity, intercultural conflict and aesthetics, reinterpretation, postnationalism, and mestizaje—the mixing of race and culture—in the production and reception of Chicano/Latino music. *Barrio Harmonics* opens with a comprehensive overview that begins with music in the US Southwest in the seventeenth century and ends with the Grammy Awards for Latin American music in the first decade of the twenty-first century. In the following chapters, Loza discusses artists whose music ranges from *sones*, *rancheros*, and *corridos* to Latin jazz, R&B, and rock and roll. Among those he considers in depth are Pancho S ́nchez, Lalo Guerrero, Tito Puente, and Los Lobos. He also surveys the contributions of scores of other individuals and groups who have shaped the current contour of Chicano/Latino music. Other topics include the music industry and the impact of globalization, the African diaspora, and Latin American music in Japan. In addition, Loza offers a candid assessment of intellectual capitalism and the void of nonwestern voices in contemporary scholarship.

Analyzes the diverse roles and pervasive presence of disability in Latin American literature and film. Libre Acceso stages an innovative encounter between disciplines that have remained quite separate: Latin American literary, film, and cultural studies and disability studies. It offers a much-needed framework to engage the representation, construction, embodiment, and contestation of human differences, and provides tools for the urgent resignification of a robust and diverse Latin American literary and filmic tradition. The contributors discuss such topics as impairment, trauma, illness and the body, performance, queer theory, subaltern studies, and human rights, while analyzing literature and film from Argentina, Brazil, Chile, Colombia, Cuba, Mexico, and Peru. They explore these issues through the work of canonical figures Jorge Luis Borges, Gabriel García Márquez, João Guimarães Rosa, and others, as well as less well-known figures, including Mario Bellatin and Miriam Alves.
