Introduces Russia, describing its history, geography, wildlife, religion, people, art, food, and culture.

Resilience is largely an exercise of mindset and mindfulness, of perspective and persistence, of ways of thinking and of will. Inside, you will find personal stories and their lessons that are intended to help anyone who is struggling with a personal test or dealing with loss. Children will be delighted by exciting images of pyramids and mummies in this introduction to one of the world's oldest civilizations. Spotlight on Egypt covers everything from this country's ancient history under the ruling pharaohs to the customs and traditions of its people today. Egypt's wildlife and the importance of the Nile River and Sahara Desert are also highlighted.

The Battle for Control of the World Economy

8 starred reviews · Goodreads Choice Awards Best of the Best · William C. Morris Award Winner · National Book Award Longlist · Printz Honor Book · Coretta Scott King Honor Book · #1 New York Times Bestseller! "Absolutely riveting!" —Jason Reynolds "Stunning." —John Green "This story is necessary. This story is important." —Kirkus (starred review) "Heartbreakingly topical." —Publishers Weekly (starred review) "A marvel of verisimilitude." —Booklist (starred review) "A powerful, in-your-face novel." —Horn Book (starred review) Sixteen-year-old Starr Carter moves between two worlds: the poor neighborhood where she lives and the fancy suburban prep school she attends. The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? Catch Maverick and Seven's story in Concrete Rose, Angie Thomas's powerful prequel to The Hate U Give.

Presents an introduction to Argentina, describing its history, geography, climate, peoples, wildlife, cities, and culture.

Spotlight on Advanced is a comprehensive course that has been revised to be in line with the new Cambridge English exam specifications for January 2015. It prepares adults and younger learners to excel in the revised exam.

Spotlight on Spies. (The Story of Communist Spying in the United States.).

The Hate U Give

This definitive history of American xenophobia is "essential reading for anyone who wants to build a more inclusive society" (Ibram X. Kendi, New York Times-bestselling author of How to Be an Antiracist). The United States is known as a nation of immigrants. But it is also a nation of xenophobia. In America for Americans, Erika Lee shows that an irrational fear, hatred, and hostility toward immigrants has been a defining feature of our nation from the colonial era to the Trump era. Benjamin Franklin ridiculed Germans for their "strange and foreign ways."

Americans' anxiety over Irish Catholics turned xenophobia into a national political movement. Chinese immigrants were excluded, Japanese incarcerated, and Mexicans deported. Today, Americans fear Muslims, Latinos, and the so-called browning of America. Forcing us to confront this history, Lee explains how xenophobia works, why it has endured, and how it threatens America. Now updated with an epilogue reflecting on how the coronavirus pandemic turbocharged xenophobia, America for Americans is an urgent spur to action for any concerned citizen.

The book consists of high-interest reading passages on prominent regions across the United States. Each unit is divided into separate readings focusing on topics such as the history, geography, famous personalities, economics and culture of the particular region.

Illustrations and photographs in each passage heighten students' interest. Puzzles and games at the end of each passage reinforce the topics and vocabulary. Regular discussion points encourage cross-cultural comparisons. Glossaries at the end of every unit provide students with concise, easy-to-understand definitions. Maps featured throughout the text help students locate the areas

highlighted in the readings.

development of children's theatre in the United States. The discussions focus on the marked differences that have occurred from group to group and examine the ways in which children's theatre began to find definition, as theorists and writers such as Winifred Ward and Charlotte Chorpenning strove to articulate the differences between the child as participant in creative drama and the child as audience member. The introduction provides a review of early concepts and the evolution of present-day thought, and the essays illuminate facets of the rich and varied history of American theatre with and for children.

How Ordinary People Respond to the Media Spotlight

Spotlight on Mexico

Ready for the Spotlight!

Becoming the News studies how ordinary people make sense of their experience as media subjects. Ruth Palmer charts the arc of the experience of "making" the news, from the events that bring an ordinary person to journalists' attention through their interactions with reporters and reactions to the news coverage and its aftermath.

An exuberant and relatable picture book about sibling rivalry, ballet, and finding your free-form self. Confidence goes a

long way, and so does practice—but the support of a loving family and community matters even more in this winsome tale of dancing your way into your own unique talents. Tessie has taken ballet for a whole month and thinks she has it down. If it weren't for her big sister, Maya, who seems to own the spotlight, Tessie would dazzle the whole class. But when Maya lands the lead—and the coveted princess crown—in the fall recital, not even freestyle dancing can fully rescue Tessie's spirits. But maybe they each have something to teach and the spotlight is big enough for two? Jaime Kim's author-illustrator debut captures the shifting emotions of competition, sisterhood, and joy in movement with warmth, charm, and a delicious candy-bright palette.

The Urban Sketching Handbook Spotlight on Nature

Spotlight on Argentina

Told in letters, posters, blog posts, homework assignments, and more, The Pages Between Us is a totally fun, totally earnest snapshot of middle grade friendship—and what it truly means to be there for someone during the ups, downs, and everything in between. Piper and Olivia have been

best friends since...well, forever. But they're distressed to find that their new middle school schedules aren't giving them enough together-time. Luckily, an idea sparks when Piper finds a cute, sparkly notebook to disguise as her "French Class" homework. It's genius—now the two BFFs can stick together all the time. And document their adventures—you know, for anthropology's sake. But as the two navigate the tricky new world of sixth grade, they realize that they may need to branch out more than they originally thought. Their notebook, once a life raft, begins to feel like a big responsibility. Can they grow up, without growing apart?

The everyday life of the modern Japanese people is highlighted along with traditional customs, such as the tea ceremony, and modern leisure activities, such as manga and karaoke, and the way of life of the ancient samurai warrior.

Objects: USA 2020 hails a new generation of artist-craftspeople by revisiting a groundbreaking event that redefined American art. In 1969, an exhibition opened at the Smithsonian Institution that redefined American art. Objects: USA united a cohort of artists inventing new approaches to art-making by way of craft media. Subsequently touring to twenty-two museums across the country, where it was viewed by over half a million Americans, and then to eleven cities in Europe, the exhibition canonized such artists as Anni Albers, Sheila

Hicks, Wharton Esherick, Wendell Castle, and George Nakashima, and introduced others who would go on to achieve widespread art-world acclaim, including Dale Chihuly, Michele Oka Doner, J. B. Blunk, and Ron Nagle. Objects: USA 2020 revisits this revolutionary exhibition and its accompanying catalog--which has become a bible of sorts to curators, gallerists, dealers, craftspeople, and artists--by pairing fifty participants from the original exhibition with fifty contemporary artists representing the next generation of practitioners to use--and upend--the traditional methods and materials of craft to create new forms of art. Published to coincide with an exhibition of the same title at the renowned gallery R & Company, and featuring essays by some of the foremost authorities on craft at the intersection of art, including Glenn Adamson, curator and former director of the Museum of Arts & Design; James Zemaitis, curator and former head of twentieth-century design at Sotheby's; and Lena Vigna, curator of exhibitions at the Racine Art Museum; an interview with Paul J. Smith, the cocurator of Objects: USA; archival photographs of the original exhibition and important historical works; and lush full-color images of contemporary works, Objects: USA 2020 is an essential art historical reference that traces how craft was elevated to the status of museum-quality art, and sets its trajectory forward.

Learn how to make the most of nature in on-location drawings and paintings with artists and Urban Sketcher educators Gail L. Wong and Virginia Hein. In The Urban Sketching Handbook: Spotlight on Nature, Gail and Virginia share their secrets for getting beyond basic greenery. Presenting a variety of approaches, including detailed step-by-step examples and quick, insightful tips, this book explains and clarifies important fundamentals for composition and color and inspires unique treatments and points of view. Whatever your skill level, you can bring nature to life on the page for urban parks as well as expansive landscapes with The Urban Sketching Handbook: Spotlight on Nature. The Urban Sketching Handbook series offers artists expert instruction on creative techniques, on-

location tips and advice, and an abundance of visual inspiration. These handy references come in a compact, easy-to-carry format—perfect to toss in your backpack or artist's tote.

A portrait of the divergent lives of Thomas Jefferson's three daughters reveals how his white daughters struggled with the realities of lives they were ill-prepared to manage, while the daughter he fathered with a slave did not achieve freedom until adulthood.

Provides an overview of Italy, discussing such topics as its geography, history, government, architecture, celebrations, and food.

Modern airborne and spaceborne imaging radars, known as synthetic aperture radars (SARs), are capable of producing high-quality pictures of the earth's surface while avoiding some of the shortcomings of certain other forms of remote imaging systems. Primarily, radar overcomes the nighttime limitations of optical cameras, and the cloud- cover limitations of both optical and

infrared imagers. In addition, because imaging radars use a form of coherent illumination, they can be used in certain special modes such as interferometry, to produce some unique derivative image products that incoherent systems cannot. One such product is a highly accurate digital terrain elevation map (DTEM). The most recent (ca. 1980) version of imaging radar, known as spotlight-mode SAR, can produce imagery with spatial resolution that begins to approach that of remote optical imagers. For all of these reasons, synthetic aperture radar imaging is rapidly becoming a key technology in the world of modern remote sensing. Much of the basic 'workings' of synthetic aperture radars is rooted in the concepts of signal processing. Starting with that premise, this book explores in depth the fundamental principles upon which the spotlight mode of SAR imaging is constructed, using almost exclusively the language, concepts, and major building blocks of signal processing. *Spotlight-Mode Synthetic Aperture Radar: A Signal Processing Approach* is intended for a variety of audiences. Engineers and scientists working in the field of remote sensing but who do not have experience with SAR imaging will find an easy entrance into what can seem at times a very complicated subject. Experienced radar engineers will find that the book describes several modern areas of SAR processing that they might not have explored previously, e.g. interferometric SAR for change detection and terrain elevation mapping, or modern non-parametric approaches to SAR autofocus. Senior undergraduates (primarily in electrical engineering) who have had courses in digital signal and

image processing, but who have had no exposure to SAR could find the book useful in a one-semester course as a reference.

Bestselling author Sherman Alexie tells the story of Junior, a budding cartoonist growing up on the Spokane Indian Reservation. Determined to take his future into his own hands, Junior leaves his troubled school on the rez to attend an all-white farm town high school where the only other Indian is the school mascot. Heartbreaking, funny, and beautifully written, *The Absolutely True Diary of a Part-Time Indian*, which is based on the author's own experiences, coupled with poignant drawings by Ellen Forney that reflect the character's art, chronicles the contemporary adolescence of one Native American boy as he attempts to break away from the life he was destined to live. With a forward by Markus Zusak, interviews with Sherman Alexie and Ellen Forney, and four-color interior art throughout, this edition is perfect for fans and collectors alike.

Provides an overview of the United States of America, discussing such topics as its geography, history, government, indigenous peoples, plants and animals, holidays, and symbols.
