"In Staging Holiness. The Case of Hospitaller Rhodes (ca. 1309-1522) Sofia Zoitou offers a study of the history of relic collections, devotional rituals and sites invested with special meaning in Rhodes, during a time when the island became one of the most frequented ports of call for ships carrying pilgrims from Venice to the Holy Land. Scrutinizing late medieval travel reports by pilgrims from all over Europe along with extant historical, archaeological, visual and material evidence, Sofia Zoitou traces the various forms of the Rhodian cultic sites' evolution and perception, ultimately considered as an overall artistic strategy for the staging of the sacred"--

This book written by two practitioners is the culmination of 18 years work in Kirklees. It started as a co-operative learning project and developed into a wonderful resource for all those who not only want to Push Back the Furniture to do Circle Time but are looking to extend and develop their ideas. The notes are comprehensive and explicit to promote the development of: " Confidence and responsibility " Roles and responsibilities as

citizens " A healthy lifestyle " Good relationships As well as 25 lessons there are: " Themes on self, others, responsibilities and non-verbal communication. " A resource section with 29 co-operative games and activities " Photocopiable resources also provided on CD-ROM. This is an exciting and inspiring resource written by practitioners for practitioners in primary schools. The material demonstrates the authors blend of real experience with fresh enthusiasm from Circle Time.

A major modern conundrum is how the Arab/Israel conflict remains unresolved and, seemingly, unresolvable. In this inspirational book, Rabbi Michael Lerner suggests that a change in consciousness is crucial. With clarity and honesty, he examines how the mutual demonization and discounting of each sides' legitimate needs drive the debate, and he points to new ways of thinking that can lead to a solution. Lerner emphasizes that this new approach to the issue requires giving primacy to love, kindness, and generosity. It calls for challenging the master narratives in both Israel and Palestine as well as the false idea that "homeland security" can be achieved through military, political, economic, or media domination. Lerner makes the case that a lasting peace must prioritize helping people on all sides (including Europe and the U.S.) and that real security is best achieved through an

ethos of caring and generosity toward “the other.” As many spiritual leaders have taught, problems like these cannot be solved at the same level at which they originated—one must seek higher ground, and that becomes a central task for anyone who wants a sustainable peace. Embracing Israel/Palestine is written for those looking for positive, practical solutions to this ongoing dilemma.

Bill Laar and Jackie Holderness' Reclaiming the Curriculum examines the nature of a broad-ranging, content-rich primary school curriculum and presents case studies that exemplify how it can be effectively delivered. Many schools believe that the value of their work is undermined by a test-driven agenda that limits the breadth of the education they provide and who can blame them? In Reclaiming the Curriculum Bill and Jackie inspire teachers to escape such narrow confines by unearthing a rich seam of case study examples from schools who are broadening their provision

with specialist content that transcends the core curriculum: taking pupils into the realms of exploration and enquiry while also providing for higher attainment in the core subjects. Featuring a variety of exciting initiatives, ranging from the development of an IT-enabled collaborative learning space to the artful application of storytelling across the curriculum, this book will embolden primary schools to identify and enhance their own creative practice and more effectively prepare pupils for the tests of life, not a life of tests. The 18 case studies written by a diverse line-up of contributors including school leaders, teachers and special-ist coaches are sourced from a mixture of different settings and offer detailed descriptions of the initiatives' unique backgrounds: their genesis and inspiration, their underpinning aims and objectives, and the ways in which they were resourced, realised and, eventually, evaluated. At the beginning of each chapter, Bill and Jackie briefly summarise the educational value of each example of curriculum development, the significance of specific aspects and the ways in which they are likely to help maintain full and relevant learning. Each case study then presents the contributors' first-hand perspectives as they: describe in detail the structure that underpins the provision including the number of staff involved and the time and resources allocated; share interesting insights into the level of pupil involvement and, where relevant, the extent of parental and community participation; paint a vivid picture of how the initiatives have been made compatible with their school's wider educational programme; and provide practical guidance, useful links and relevant resources to aid readers' own pursuit of curriculum development. Suitable for primary school teachers and

leaders.

Ebook: Cultures of Staff Wellbeing and Mental

Health in Schools: Reflecting on Positive Case

Studies

Staff in schools have never been under so much pressure with high stakes accountability leading many teachers to rethink their profession. A third of Early Career Teachers are leaving within 5 years of training while Headteachers are less sure than ever that they will be able to continue to lead their schools. We have a staff wellbeing and mental health crisis in education. The schools in Cultures of Staff Wellbeing and Mental Health have addressed this crisis by implementing a

whole-school culture of staff wellbeing and mental health. It has taken courage, determination and authenticity to prioritise relationships over results, not only between the children and their teachers, but also between the staff themselves. This book will support your school with:

- 32 individual chapter case-study accounts by headteachers and mental wellbeing leads of how they are implementing staff and pupil wellbeing in their schools. A rich resource of strategies and ideas to adapt to your own context.*
- How to recognise and tackle staff burnout in your school, identifying the Maslach factors that cause it.*
- Why teachers putting 'a brave face on it' is ineffective: Jonathan Glazzard presents his ground- breaking research identifying a connection between teacher wellbeing, pupil emotional response and attainment.*
- What 'buffer' leadership is and why recognising it is crucial to the headteacher's mental health.*

This book belongs to the staff of the case-study schools that recount, in their own words, how focusing on wellbeing and mental health has transformed their schools. "This book exemplifies good practice and will hopefully inspire others to follow its case study leads." David Gumbrell, Founder of The Resilience Project

"This book is an outstanding reference guide for all school leaders who wish to implement a culture of wellbeing based on evidence and success. A must read!" Suneta Bagri (FCCT),

Former Head teacher, Founder of The Every Teacher Matters Project & Cultivate Coaching & Consultancy "The editor not only encourages the reader to engage & empower all staff to see and own their own wellbeing, but also for leaders to model self-care & the promotion of sustainable wellbeing behaviour." Patrick Ottley-O'Connor, Executive Headteacher "A must read for any school wanting to strengthen the wellbeing of their school community." Daniela Falecki, Founder and Director Teacher Wellbeing Pty Ltd, Sydney Australia Steve Waters is the founder and director of the Teach Well Alliance. He has thirty years' experience as a secondary school English teacher. During this time he fulfilled many roles including middle leader and Assistant Headteacher. His previous books include Doing Your Research Project which is in its seventh edition.
