leadership
across the broad

feel the horizon of their strategic plans rushing ever closer, resulting in decision making that often feels closer to guesswork than science. We see leaders battling to manage their

to develop
succession plans
and to ensure
everyone is
focused on the
same outcomes.
We see leaders
exasperated at
the lack of

teams have, and

bound by

regulation,
bureaucracy and
inertia. We see

Whatever the specific issues are, we're sure you'll agree with us that leadership isn't what it used to be. And a big part of the reason for this is that leadership

For the most

part, the way in which we review and measure leadership practice no longer works.

The only way to change all this is for leaders (and those tasked with the responsibility of
