2nd Grade Jumbo Math Success Workbook

Addition

Spectrum Math for grade 8 keeps kids at the top of their math game using progressive practice, math in everyday settings, and tests to monitor progress. The math workbook covers rational and irrational numbers, solving equations, and interpreting statistical data. A best-selling series for well over 15 years, Spectrum still leads the way because it works. It works for parents who want to give their child a leg up in math. It works for teachers who want their students to meetand surpasslearning goals. And it works to help children build confidence and advance their skills. No matter what subject or grade, Spectrum provides thorough practice and focused instruction to support student success.

The Force is strong with this series! Introducing a line of workbooks that marries the iconic popularity of Star Wars with the unique mix of editorial quality, fun presentation, and rigorous educational standards that Workman applied to the BRAIN QUEST Workbooks. Twelve titles launch the seriesÑthree each for Pre-K through 2nd GradeÑand dig deep into core subjects, including numbers, ABCs, phonics, and reading readiness for younger grades, and math, reading, and writing for the older ones. The material, which aligns with national Common Core State Standards, is designed to reinforce essential concepts and lessons taught in schools. Any child, not just fans of Star WarsÑbut yes, those fans will be especially delighted (as will reluctant learners)Ñwill love the ÓAO is for Anakin approach to phonics. Kids will practice learning numbers by counting and circling X-wing starfighters and clone troopers. Master place values by sorting groups of Wookiees. There are math problemsÑYoda is holding 7 lightsabers. 5 of the lightsabers are blue. The rest are green. How many green lightsabers is he holding? And Language ArtsÑCircle the correct homophone in this sentence: Luke is a Jedi knight/night. Featuring favorite charactes like Luke Skywalker, Queen Amidala, Yoda, and Obi-Wan Kenobi, and other creatures, monsters, Jedi, and Sith, the workbooks are filled with thousands of original illustrations drawing from all six Star Wars movies and the expanded Star Wars universe. Learn well, you will.

*Prepare young learners for preschool and beyond with our Preschool Skills series. Designed to build a solid foundation for learning, each book in the series introduces an important early-learning concept. The series includes Alphabet, Numbers, Colors and Shapes, Same and Different, Ready for School, and Beginning Sounds--everything your child needs to get a jump start on preschool! This Beginning Sounds workbook contains matching activities, hidden pictures, and mazes to give your child lots of practice with beginning sounds. Each book contains 64 pages full of age-appropriate activities such as: coloring and matching activities, counting games, hidden pictures, dot-to-dot activities, patterning exercises, mazes and more!*

*Why does your first grader need more addition and subtraction drills? Because it is through drills that addition and subtraction skills can improve. Enough with the theories because math requires hands-on work. Your child needs to be exposed to as many equations as possible, and these should gradually progress in terms of the level of difficulty. Work on these exercises today.*

*A unique blend of age-appropriate tracing and writing activities are combined with puzzles to make learning fun while helping kindergarteners build early math skills and develop lifelong learning confidence. Identifying numbers, skip counting, and understanding basic addition and subtraction are important steps toward math readiness, and Highlights (TM) infuses Fun with a Purpose® into these essential learning activities. With vibrant art and engaging prompts, Math Concepts exposes kindergarteners to math through numbers practice and the fun of puzzles and other activities.*

*Practice makes perfect! This large collection of fun and engaging practice pages is designed to help students master essential skills in reading, writing, vocabulary, math, and more. With more than 300 skill-building practice pages, students are well on their way to succeed in school! Includes ready-to-use flash cards for extra skills practice. For use with Grade K.*

Brain Quest Workbook: Kindergarten

Comprehensive coverage of all essential kindergarten math topics in one easy-to-use bundle!

Easy-to-use, comprehensive coverage of all essential first grade math topics. This scripted, open-and-go program from math educator Kate Snow will give you the tools you need to teach math with confidence—even if you've never taught math before. Short, engaging, and hands-on lessons will help your child develop a strong understanding of math, step by step. Counting, comparing, and writing numbers to 100 Addition and subtraction facts to 20 Addition and subtraction word problems Beginning place-value and mental math Shapes, money, time, and measurement

Talking math with your child is simple and even entertaining with this better approach to shapes! Written by a celebrated math educator, this innovative inquiry encourages critical thinking and sparks memorable mathematical conversations. Children and their parents answer the same question about each set of four shapes: "Which one doesn't belong?" There's no one right answer--the important thing is to have a reason why. Kids might describe the shapes as squished, smooshed, dented, or even gooly. But when they justify their thinking, they're talking math! Winner of the Mathical Book Prize for books that inspire children to see

math all around them. "This is one shape book that will both challenge readers' thinking and encourage them to think outside the box."--Kirkus Reviews, STARRED review

\*\*\* BOOKS IN 1! \*\* Building a strong foundation in math is essential for children in the first grade. The activities in this 3-in-1 Super Workbook are designed to help your student become familiar with math concepts like numbers and operations, solid and plane shapes, and graphs and charts. They will help your child to catch up, keep up, and get ahead--and best of all, to have lots of fun doing it! Here are some of the great features you'll find inside: BASIC MATH The Cupcake Eater Counting cupcakes on a plate, and then crossing off the eaten cupcakes and counting how many are left, helps children learn subtraction. MATH

GAMES & PUZZLES Safe Crackers Children write numbers from smallest to largest or identify place-value digits to find the right combination for a safe. SHAPES & GEOMETRY Get In Place Children draw a line from each picture outside a Venn diagram to where it belongs inside the diagram, matching food and objects of different shapes. Give your child's confidence a boost with First Grade Super Math Success!
