While the economy has boomed since the Great Recession, so too have real estate rents and gentrification in cities across North America; nonprofits priced out of formerly affordable neighborhoods lack adequate workplaces to meet their missions. *Shared Space and the New Nonprofit Workplace* presents a comprehensive overview of shared space as an innovative model and effective long-term solution for nonprofit organizations' need for stable and affordable office and program space. In particular, it focuses on co-locating multiple nonprofits in shared spaces, often called nonprofit centers, with shared services and a collaborative culture. This comprehensive resource provides a practical road map to develop new workspaces; documents benefits for nonprofit staff, organizations, and their communities; presents challenges and solutions from successful nonprofit shared spaces; and considers nonprofit centers' history and future trends. Further, it offers nonprofits an opportunity to engage in forward-thinking practices, such as collaborative service delivery, green building operations, and cross-sector alliances. The book will be useful to nonprofit executives, staff and board members, foundations, philanthropists, real estate and urban planning professionals interested in creating these projects, and researchers and students of the nonprofit sector.

A trillion-dollar industry, the US non-profit sector is one of the world's largest economies. From art museums and university hospitals to think tanks and church charities, over 1.5 million organizations of staggering diversity share the tax-exempt 501(c)(3) designation, if little else. Many social justice organizations have joined this world, often blunting political goals to satisfy government and foundation mandates. But even as funding shrinks, many activists often find it difficult to imagine movement-building outside the non-profit model. The Revolution Will Not Be Funded gathers essays by radical activists, educators, and non-profit staff from around the globe who critically rethink the long-term consequences of what they call the "non-profit industrial complex." Drawing on their own experiences, the contributors track the history of non-profits and provide strategies to transform and work outside them. Urgent and visionary, The Revolution Will Not Be Funded presents a biting critique of the quietly devastating role the non-profit industrial complex plays in managing dissent. Contributors. A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand

American blackness in the aftermath of his own death.

As the number and size of nonprofit organizations continues to grow, NFPs are coming under ever-increasing government scrutiny. Soon Congress will require that nonprofits comply with rigorous accounting and governance standards very similar to those set forth for for-profits in the Sarbanes-Oxley Act. If you work for a nonprofit and are concerned about meeting impending changes to tax and finance standards governing NFPs this book is for you. In simple, straight-forward language, this guide demystifies the often perplexing world of nonprofit governance in the age of Sarbanes-Oxley. Author, Jill Gilbert Welytok, an attorney who heads the Sarbanes-Oxley division of a major Midwest law firm, walks you step-by-step through the process of evaluating your governance structures. She arms you with tips and strategies for adopting uniform standards under current governance and tax laws, while preparing you for any upcoming changes. She shows you how to protect your tax status and reassure donors and volunteers while staying true to your organization's mission. And she fills you in on what you need to know to:

- Comply with state laws and regulations
- Get and keep tax-exempt status
- Avoid lawsuits and other legal landmines
- Handle the media
- Anticipate future trends
- Make sense of the Sarbanes-Oxley act

Including sample nonprofit bylaws and a complete audit committee report, *Nonprofit Law & Governance for Dummies, Second Edition* is an indispensable survival tool for 21st century nonprofits.

People will ask you throughout your life, "Where do you work?" and "What do you do?" They never ask you, "What are you building?" Business startup advice from the former president of the Ewing Marion Kaufmann Foundation and cofounder of Global Entrepreneurship Week and StartUp America, this "thoughtful study of 'how businesses really start, grow, and prosper'...dispels quite a few business myths along the way" (Publishers Weekly). Carl Schramm, the man described by *The Economist* as "The Evangelist of Entrepreneurship," has written a myth-busting guide packed

with tools and techniques to help you get your big idea off the ground. Schramm believes that entrepreneurship has been misrepresented by the media, business books, university programs, and MBA courses. For example, despite the emphasis on the business plan in most business schools, some of the most successful companies in history—Apple, Microsoft, Google, Facebook, and hundreds of others—achieved success before they ever had a business plan. *Burn the Business Plan* punctures the myth of the cool, tech-savvy twenty-something entrepreneur with nothing to lose and venture capital to burn. In fact most people who start businesses are juggling careers and mortgages just like you. The average entrepreneur is actually thirty-nine years old, and the success rate of entrepreneurs over forty is five times higher than that of those under age thirty. Entrepreneurs who come out of the corporate world often have discovered a need for a product or service and have valuable contacts to help them get started. Filled with stories of successful entrepreneurs who drew on real-life experience rather than academic coursework, *Burn the Business Plan* is the guide to starting and running a business that will actually work for the rest of us.

Exhorting readers to ensure their plan is a living instrument and not just a document sitting on a shelf, nonprofit expert Linda Lysakowski includes examples of typical development plan formats as well as timelines for the planning process to help users identify the level of detail that will be required. Whether large or small, your organization will benefit from Nonprofit Essentials: The Development Plan. This professional guide's nuts-and-bolts presentation equips your organization to create a dynamic development plan that fosters enthusiasm, cultivates a sense of confidence, and helps track success. Build an organization that is growth-minded, values-based, and innovative using the six steps to "responsible impact." At age 16, Michael 'Piecez' Prosserman, a professional b-boy (breakdancer), completed a school project that would grow to become a hip-hop-inspired mental health charity with global reach. Through a process of continuous discovery and reflection, Prosserman and his team grew

UNITY to the point where it benefitted over a quarter of a million young people. Building Unity, Prosserman breaks down the six steps to discovering "responsible impact" and building an organization that is growth-minded, values-based, and reflective of the needs of its community. Using stories of his own evolution, learning, and growth as a leader over 15 years, Prosserman parallels the creativity found in breakdancing with the innovation needed to build a sustainable non-profit. Six steps to discovering "responsible impact": Spark is the inspiration, the big "why," the motivation to wake up and do something. Build is the testing ground to clarify ideas, understand community needs, and challenge assumptions. Trust involves building the culture of your organization, leading by example, and hiring people with dreams. Trust sets the stage for growth by empowering awesome people. Grow is about finding the right size for your organization to create a responsible impact. Evolve is knowing when to step back so others can step forward by building a succession plan that leaves your organization in good hands. Re-Ignite is building from past experience and lighting the next spark within yourself.
