Foundation Science to 14 has been brought completely up-to-date for the 2000 National Curriculum but the page numbering has been kept the same as the old edition allowing you to use the two side-by-side. It is particularly useful for home study with questions on every spread, 'test and check' sections to identify areas of weakness and a summary of key facts. Key Points:

- Same page numbering as the old edition
- Concise summary of KS3 at levels 2-5
- Combines a lower reading level and diagrams with cloze-style questions and simple comprehension exercises to reinforce key concepts

This title is being produced in collaboration with the exam board and they will be marketing it to centres who follow AQA Physics B A level. It consists of concise content, exactly tailored to and following the sequence of the specification. This A2 book covers the second half of the course. In October 2000 the AS book, covering the first half of the course, was published. The book provides the student with:- information about the examination papers- advice on how to tackle exam questions effectively, including synoptic questions- definitions and facts which need to be learnt- essential concepts and principles explained carefully and concisely- real-life applications of content, particularly in the context of Information and Communication which is the underlying theme of the specification- lots of practice exam questions. It's the essential guide to this exam.

"Music" referred only to the artistic, classical tradition of Western Europe and North America at the beginning of the twentieth century. However, several different traditions emerged by the end of the century. Written by experts in the field, this book surveys how the Western tradition was affected by the development of jazz, popular music, and world music and links the history of music with that of its social contexts.

Target Science (Modular Science AQA) is a new series of three science books designed to fit the AQA Examination Board syllabus/specification Modular Science. It has been created from the Target Science series - and contains essentially the same content. It is presented in a different order to satisfy the specific AQA Modular Science examination.
