What are the consequences if the people given control over our government have no idea how it works? "The election happened," remembers Elizabeth Sherwood-Randall, then deputy secretary of the Department of Energy. "And then there was radio silence." Across all departments, similar stories were playing out: Trump appointees were few and far between; those that did show up were shockingly uninformed about the functions of their new workplace. Some even threw away the briefing books that had been prepared for them.***

Michael Lewis's brilliant narrative takes us into the engine rooms of a government under attack by its own leaders. In Agriculture the funding of vital programs like food stamps and school lunches is being slashed. The Commerce Department may not have enough staff to conduct the 2020 Census properly. Over at Energy, where international nuclear risk is managed, it's not clear there will be enough inspectors to track and locate black market uranium before terrorists do. Willful ignorance plays a role in these looming disasters. If your ambition is to maximize short-term gains without

regard to the long-term cost, you are better off not knowing those costs. If you want to preserve your personal immunity to the hard problems, it's better never to really understand those problems. There is upside to ignorance, and downside to knowledge. Knowledge makes life messier. It makes it a bit more difficult for a person who wishes to shrink the world to a worldview. If there are dangerous fools in this book, there are also heroes, unsung, of course. They are the linchpins of the system—those public servants whose knowledge, dedication, and proactivity keep the machinery running. Michael

Lewis finds them, and he asks them what keeps them up at night.

This edited collection examines conflicting assumptions, expectations, and perceptions of maternity in artistic, cultural, and institutional contexts. Over the past two decades, the maternal body has gained currency in popular culture and the contemporary art world, with many books and exhibitions foregrounding artists' experiences and art historical explorations of maternity that previously were marginalized or dismissed. In too many instances, however, the maternal potential of female

bodies—whether realized or not—still causes them to be stigmatized, censored, or otherwise treated as inappropriate: cultural expectations of maternity create one set of prejudices against women whose bodies or experiences do align with those same expectations, and another set of prejudices against those who do not. Support for mothers in the paid workforce remains woefully inadequate, yet in many cultural contexts, social norms continue to ask what is “wrong” with women who do not have children. In these essays and conversations, artists and writers discuss how maternal expectations

shape both creative work and designed environments, and highlight alternative ways of existing in relation to those expectations.

Alan Partridge is Britain's most remarkable broadcaster. He's scaled the giddy heights of a short-lived TV chat show, and the crashing lows of twenty-six weeks in a motel equidistant between Norwich and London. He's survived the death of a guest on air, his wife leaving him for a fitness instructor, an encounter with a mentalist fan, being crushed beneath a dead cow and incomplete sex with a woman he was supposed to be sacking. He's suffered a breakdown,

Toblerone addiction, weight gain and his autobiography Bouncing Back being withdrawn and pulped. But Alan continues to bounce back - resilience and Gordon are his middle names. He's still playing his eclectic mix of music and hosting phone-ins on subjects as controversial as 'Should the police learn Kung-Fu?' and 'How long could you survive on just crisps?' Alan Partridge: Every Ruddy Word charts Alan's incredible journey - from his first, unforgettable radio chat show, to the recent construction of a house to his own specifications. Why don't you

Something Borrowed Emily Giffin The smash-hit debut novel for every woman who has ever had a complicated love-hate friendship. Rachel White is the consummate good girl. A hard-working attorney at a large Manhattan law firm and a diligent maid of honor to her charmed best friend Darcy, Rachel has always played by all the rules. Since grade school, she has watched Darcy shine, quietly accepting the sidekick role in their lopsided friendship. But that suddenly changes the night of her thirtieth birthday when Rachel finally confesses her feelings*

to Darcy's fiance, and is both horrified and thrilled to discover that he feels the same way. As the wedding date draws near, events spiral out of control, and Rachel knows she must make a choice between her heart and conscience. In so doing, she discovers that the lines between right and wrong can be blurry, endings aren't always neat, and sometimes you have to risk everything to be true to yourself.

Build Your Best Life, "Understanding the Power of Your Actions and Your Credibility To Build Your Best Life" came out of a passion for assisting youth and young adults overcome the obstacles society throws their way. Obstacles come in all forms, such as murder, suicide, depression, bullying, generational curses, finances, lack of role models, hunger, and lack of education. These are only some of the roadblocks that deter young people. Whatever causes them

to pause is indeed an obstacle. I for, one, would like to see these obstacles eliminated. These individuals have tremendous talents and skills to share with the world. This book contains life principles that are relevant and will assist them to be the best they can be. As you read through his book and meditate on the principles, you will realize what is necessary to reach your impossible dreams, "As you travel on the road to Building a Better Life," there will be distractions, pitstops, rough terrain, and detours. Ignore each of these negative aspects of your journey. Although they

may slow you down, remain on the path of Being a Better You."

heads to Rhode Island, his miffed daughters in tow, for the annual Fall weekend thrown by the large and boisterous Burns family, everything changes. Soon after his arrival, he runs into an alluring woman named Marie (Juliette Binoche) in a bookshop. For the first time in a very, very long time, Dan experiences real live sparks—only to have to douse them liberally when he discovers Marie is, in fact, the brand-new girlfriend his brother Mitch (Dane Cook) is about to proudly introduce to the family. As the weekend gets under way in the close quarters of a crowded house filled with quirky, prying relatives, Dan and Marie try to squelch and cover up their growing mutual attraction at

every turn, leading to one comical situation after another. Yet, no matter how hard they try to do the very opposite, Dan and Marie can't help but fall in love. Now Dan is about to realize that no matter how wise safety might seem, when it comes to real life, he's going to have to break all the rules.

David Smith is giving his life for his art—literally. Thanks to a deal with Death, the young sculptor gets his childhood wish: to sculpt anything he can imagine with his bare hands. But now that he only has 200 days to live, deciding what to create is harder than he thought, and discovering the love of his life at the 11th hour isn't making it any easier! This is a story of desire taken to the edge

response. If a loved one or friend hasn't informed you of a cancer diagnosis, it's only a matter of time until they will. Every year fourteen million people worldwide learn they are living with or may die from this insidious illness. The uncertainty of cancer causes anxiety in those diagnosed and feelings of inadequacy in loved ones and friends who want to help. When someone says "I have cancer," what will you say? More importantly, what will you do? In *Loving, Supporting, and Caring for the Cancer Patient*, readers will learn specific ways of going beyond the response "I'm so sorry," and practical behaviors that will ease a loved one or friend's journey. They range from being specific immediately after a

dystopian television series--Black Mirror and Electric Dreams--focuses on pop culture depictions of technology and its impact on human existence.

Representations of a wide range of modern and futuristic technologies are explored, from early portrayals of artificial intelligence (Rossum's Universal Robots, 1921) to digital consciousness transference as envisioned in Black Mirror's "San Junipero." These representations

reflect societal anxieties about unfettered technological development and how a world infused with invasive artificial intelligence might redefine life and death, power and control. The impact of social media platforms is considered in the contexts of modern-day communication and political manipulation.

Dan in Real Life

For seven years, Alison Arngrim played a wretched, scheming, selfish, lying, manipulative brat on one of TV history's most beloved series. Though millions of Little House on the Prairie viewers hated Nellie Oleson and her evil antics, Arngrim grew to love her character—and the freedom and confidence Nellie inspired in her. In Confessions of a Prairie Bitch, Arngrim describes growing up in Hollywood with her eccentric parents: Thor Arngrim, a talent manager

to Liberace and others, whose appetite for publicity was insatiable, and legendary voice actress Norma MacMillan, who played both Gumby and Casper the Friendly Ghost. She recalls her most cherished and often wickedly funny moments behind the scenes of Little House: Michael Landon's "unsaintly" habit of not wearing underwear; how she and Melissa Gilbert (who played her TV nemesis, Laura Ingalls) became best friends and accidentally got drunk on rum cakes at 7-Eleven; and the only time she and Katherine MacGregor (who played Nellie's mom) appeared in public in costume, provoking a posse of elementary schoolgirls to attack them. Arngrim relays all this and more with biting wit, but she also bravely recounts her life's challenges: her struggle to survive a history of traumatic abuse, depression,

and paralyzing shyness; the "secret" her father kept from her for twenty years; and the devastating loss of her "Little House husband" and best friend, Steve Tracy, to AIDS, which inspired her second career in social and political activism. Arngrim describes how Nellie Oleson taught her to be bold, daring, and determined, and how she is eternally grateful to have had the biggest little bitch on the prairie to show her the way. Computer manufacturing is--after cars, energy production and illegal drugs--the largest industry in the world, and it's one of the last great success stories in American business. *Accidental Empires* is the trenchant, vastly readable history of that industry, focusing as much on the astoundingly odd personalities at its core--Steve Jobs, Bill Gates, Mitch Kapor, etc. and the hacker culture they spawned as it does on the remarkable technology they created. *Cringley* reveals the manias and foibles of these men (they are always men) with deadpan hilarity and cogently demonstrates how their neuroses have shaped the computer business. But *Cringley* gives us much more than high-tech voyeurism and insider gossip. From the birth of the

The American West, as we know it, is defined by the movies, and the Western is the oldest film genre. When the movies were born, it was not that long after Promontory Point and the Civil War, so those memories were still there in the minds of the very first movie audiences as they watched *The Great Train Robbery*. And the myth-making is as important as the brutal truths of history. As the reporter tells Jimmy Stewart in Ford's *The Man Who Shot Liberty Valance*, "This is the West, sir. The Unsung Heroes & Villains of the Silver Screen

A Guide to Communication, Compassion, and Courage

An intimate look at movie star Steve McQueen's reckless life of fast cars, women, and drugs all the way up to his dramatic life-change and terminal cancer

diagnosis. Join Greg Laurie as he takes a cross-country drive in his 1968 Highland Green Ford Mustang 390 GT through the canyons of Malibu, the alleys of Hollywood, the wide and open roads of the Midwest, and the streets of New York as he traces the woolly geography of actor Steve McQueen's life, relationships, career, and spiritual journey. This iconic muscle car was the vehicle McQueen drove in his most raucous and enduring film, Bullitt. In the 1960s, McQueen was, according to

box office receipts, the biggest movie star of his generation and one of the coolest men to ever walk the planet. Greg Laurie was a teen at the time and an ardent fan of "The King of Cool," first mesmerized by McQueen in 1963's The Great Escape. Like millions of cinema fans, Greg developed a lifelong fascination with the actor. Now he has a chance to tell McQueen's story. McQueen was a complex, contradictory man who lived the same way he drove his motorcycles and cars:

fearlessly, ruthlessly, and at top speed. After a lifetime of fast cars, women, and drugs, McQueen took a surprising detour. In this book, Laurie thoughtfully interviews Steve McQueen's friends, co-stars, associates, widow, and pastor to tell of the dramatic life-change for the actor in the spring of 1979--six months before McQueen was diagnosed with terminal cancer. What were the critical steps that led McQueen to make such a life-altering decision? Perhaps more importantly, why is that part of his story

so rarely told? This book answers these questions. Greg Laurie will follow the seeds of Christianity that were sown throughout McQueen's improbable life where a Light finally shone into the darkness of his troubled life. These seeds miraculously germinated, allowing McQueen to see that redemption through Jesus Christ is a lasting truth more glittering and real than any magic of the entertainment industry. Steve Martin has been an international star for over thirty years. Here, for the

first time, he looks back to the beginning of his career and charmingly evokes the young man he once was. Born in Texas but raised in California, Steve was seduced early by the comedy shows that played on the radio when the family travelled back and forth to visit relatives. When Disneyland opened just a couple of miles away from home, an enchanted Steve was given his first chance to learn magic and entertain an audience. He describes how he noted the reaction to each joke in a ledger - 'big

laugh' or 'quiet' - and assiduously studied the acts of colleagues, stealing jokes when needed. With superb detail, Steve recreates the world of small, dark clubs and the fear and exhilaration of standing in the spotlight. While a philosophy student at UCLA, he worked hard at local clubs honing his comedy and slowly attracting a following until he was picked up to write for TV. From here on, Steve Martin became an acclaimed comedian, packing out venues nationwide. One night,

however, he noticed empty seats and realised he had 'reached the top of the rollercoaster'. BORN STANDING UP is a funny and riveting chronicle of how Steve Martin became the comedy genius we now know and is also a fascinating portrait of an era.

NEW YORK TIMES

BESTSELLER • The #1 New York Times bestselling author of World War Z is back with “the Bigfoot thriller you didn’t know you needed in your life, and one of the greatest horror novels I’ve ever read” (Blake

Crouch, author of Dark Matter and Recursion).
FINALIST FOR THE LOCUS AWARD As the ash and chaos from Mount Rainier's eruption swirled and finally settled, the story of the Greenloop massacre has passed unnoticed, unexamined . . . until now. The journals of resident Kate Holland, recovered from the town's bloody wreckage, capture a tale too harrowing—and too earth-shattering in its implications—to be forgotten. In these pages, Max Brooks brings Kate's

extraordinary account to light for the first time, faithfully reproducing her words alongside his own extensive investigations into the massacre and the legendary beasts behind it. Kate's is a tale of unexpected strength and resilience, of humanity's defiance in the face of a terrible predator's gaze, and, inevitably, of savagery and death. Yet it is also far more than that. Because if what Kate Holland saw in those days is real, then we must accept the impossible. We must accept that the

creature known as Bigfoot walks among us—and that it is a beast of terrible strength and ferocity. Part survival narrative, part bloody horror tale, part scientific journey into the boundaries between truth and fiction, this is a Bigfoot story as only Max Brooks could chronicle it—and like none you've ever read before. Praise for Devolution “Delightful . . . [A] tale of supernatural mayhem that fans of King and Crichton alike will enjoy.”—Kirkus Reviews (starred review) “The story is told in such a

compelling manner that horror fans will want to believe and, perhaps, take the warning to heart.”—Booklist (starred review)

Steve Harvey, the host of the nationally syndicated Steve Harvey Morning Show, can't count the number of impressive women he's met over the years, whether it's through the "Strawberry Letters" segment of his program or while on tour for his comedy shows. Yet when it comes to relationships, they can't figure out what makes men tick. Why?

According to Steve it's because they're asking other women for advice when no one but another man can tell them how to find and keep a man. In Act Like a Lady, Think Like a Man, Steve lets women inside the mindset of a man and sheds light on concepts and questions such as: The Ninety Day Rule: Ford requires it of its employees. Should you require it of your man? The five questions every woman should ask a man to determine how serious he is. And much more . . . Sometimes funny,

sometimes direct, but always truthful, Act Like a Lady, Think Like a Man is a book you must read if you want to understand how men think when it comes to relationships.
