*She's the one woman I'd give anything to forget--and now I'm stuck living with her. I'm making a fresh start in Lake Tahoe, until my stubborn sister decides to move Mira into our cabin. I'll be damned if I move out on Mira's account. Nothing has changed in the years since I last saw Mira. Her tempting body and smart mouth taunt me daily. The only hope I have at keeping my sanity is the knowledge that Mira is hiding something. Sooner or later I'll discover her secret, and knowing her, it'll be damning. But first, I have to ignore the urge to kiss and touch and make Mira mine again. --EXCERPT-- I grab her waist, guiding her back against the shelves. She kisses my cheekbone, nibbles my earlobe. "We can't do this here." That nibble shoots straight to my groin. "I beg to differ. I think we can manage." Once the walls come down, emotions run hot. **Britain, in the mid 21st century. A new prime minister, Lev Solokov is elected. In spite of his Russian surname, he is the charismatic politician who, on the surface, appears to be just what Britain needs. But he's not what Gavin needs. Gavin is a Pustoy, a human who, among countless others, Solokov's researchers has declared a soulless, subhuman race. Solokov joins a dark lineage of genocidal tyrants that have gone before him. In synthesizing his own race to persecute others, perhaps he has succeeded in a horror more insidious than any of his forebears, especially as he appears to have done so with both overwhelming public blessing and encouragement. Or at least he would have, if not for the increasing din of the Pustoy protesting outside his offices. Chosen at random owing to his position as a forefront campaigner for the rights of the Pustoy, Gavin is framed for a crime he didn't commit and is forced to go on the run, and so Solokov in one fell swoop kills any budding sympathy the people may have had for the Pustoy, and would appear to have silenced one of his loudest protestors. Just who are the Pustoy of this world? The persecutors or the persecuted? Will Gavin remain a hunted scapegoat? Is Solokov acting for the greater good; are the Pustoy really devoid of a soul? More importantly, how far away is this future, really?**

**Phillipe Blenkiron's conceptual poetry collection demands these questions of the reader, whilst offering an unflinching examination of the human psyche, exploring the clouded moral hues between black and white, between right and wrong, that exist inside all of us. For fans of "1984," "Brave New World," and other greats of dystopian fiction, Philippe Blenkiron's debut poetry collection is shocking, unsettling, and closer to real-life than we dare admit...**

**Victory Vaughn, Boston's only professional demon slayer, isn't exactly human... Boston's diverse South End is known for its architecture and great restaurants, not its body count. So when mutilated human corpses begin turning up in the area, the entire city takes notice. The killer-dubbed the South End Reaper-uses a curved blade for his grisly work. And even though there's no real evidence pointing to a paranormal culprit, the deaths are straining the already-tense relations between Boston's human and inhuman residents. As the bodies pile up, Vicky, her formidable aunt, Mab, and her werewolf boyfriend, Kane investigate, only to find that the creature behind the carnage is after something much more than blood...**

*There has been much opinion and little fact written on the subject of lock picking. It is the purpose of this book to clarify the facts about this delicate process, and at the same time to train you in proper procedure. Reading this book is certainly enough to get you started picking simple locks, but remember: a great deal of time and patience are needed to become a truly proficient locksmith. In this volume, you will learn the fundamental theories of lock picking in addition to proper terminology, the importance of tool design (i.e. how to select and use the right tool for a given job), the effects of tolerances, and finally the techniques most commonly used by locksmiths to successfully pick the vast majority of standard pin and wafer tumbler locks. Lock picking is a useful, engaging, and satisfying skill; with this book and a little determination, you'll be off to a great start.*

*A revolution has occurred during our lifetime in the collection, storage, and communication of information, a revolution whose full significance is scarcely understood even by those responsible for its development. At the core of this revolution, and its most visible component, is electronic data processing via the computer. The computer has shown an impressive ability to handle increasing complexity at greater speeds while decreasing its use of power, cost, and space. In this book, however, John McHale shows how the impact of the information revolution stretches far beyond these specific developments. It lies (1) in the expansion and interlinkage of computer-based systems and their extension into larger areas of automated control; (2) in the convergence and relationship of such systems with concurrently developing communications technologies; and (3) in the ways in which these combine together to create a radically new information environment, whose major impacts will be felt most critically within the next ten to twenty years. Mr McHale believes that the emergence of information and knowledge as our basic resources signifies profound consequences that will affect the structure of society itself and the institutional and value premises upon which it operates: The increased dependence upon information as key societal resource will move society, within the next ten to twenty years, from industrially based forms to post-industrial forms whose possible configurations of institutions, governance and value systems are still open to conjecture. In society in general, with the new social wealth generated by information and communications technologies, the whole character of the survival game is being changed. It is now more clearly a non-zero-sum game in which success or gain is predicated on all winning.*

**1001 Walks You Must Experience Before You Die** is the perfect guide to the world's most exhilarating walks. The ever-increasing passion for recreational walking is given fresh impetus with the creation of each new national park and wilderness area, the construction of every new walkway and the clearing of another fresh trail. The growth in popularity of pathways and woodland walks, and the conversion of canal banks and disused railways around the world to mixed-use walkand cycle-ways, means we now have unprecedented access to our cities and to ever-increasing tracts of our rural heritage. The wide-ranging, carefully chosen featured routes vary from the rugged delights of Wales's Pembrokeshire Coastal Path to the lush wilderness of Jamaica and the Harz Witches' Trail high in the German mountains. The hand-picked excursions cover overland paths, urban trails, mountain passes, coastal and shoreline strolls, and walks that explore the heritage of the world's most culturally rich destinations. There are gentle walks for beginners - some lasting barely an hour - and more demanding challenges for seasoned enthusiasts that will take

months to achieve. Every page provides a wealth of information about a must-try walk, including start and end points, overall distance, difficulty rating, terrain and an estimation of the time it should take to complete, along with links to specially commissioned digital route maps. In short, *1001 Walks You Must Experience Before You Die* is an essential reference guide for all those who love to get out of their cars, get off their bikes and lace up their walking shoes.

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

*In this inspirational and humorous collection of essays, author John Dietsch sees his addiction to and passion for fishing as a parable that can help us shift from compulsive thinking to mindfulness and a closer connection to God. From creating fishing scenes on the set of A River Runs Through It in Montana, to directing fly fishing shows in New Zealand and from exploring deep canyons in California to guiding in Colorado, John shares his experiences and asks the question: what are we really fishing for? Through John's journeys across the globe, we discover that the same pursuit in fishing—of what is elusive but attainable—can be applied to our own spiritual journey. In the end, Dietsch uncovers his own truth under the rocks of a childhood river, recognizing the loss of both his brothers as the path of acceptance and faith that is graced by waters.*

Following the Pulitzer prize-winning collection Stag's Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its

honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

**Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. Rusch to Glory is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.**
