Medical-Surgical Nursing: Assessment and Management of Clinical Problems, 4th Edition is the most comprehensive go-to reference for essential information about all aspects of patient nursing care of patients. Using the nursing process as a framework for practice, the fourth edition has been extensively revised to reflect the rapid changing nature of nursing practice with an increasing focus on key nursing care priorities. Building on the strengths of the third Australian and New Zealand edition and incorporating relevant global nursing research and practice, the prominent US title Medical-Surgical Nursing, 9th Edition, Lewis's Medical-Surgical Nursing, 4th Edition is an essential resource for students seeking to understand the role of the professional nurse in the contemporary health environment. 49 expert contributors from Australia and New Zealand Current research data and Australian and New Zealand statistical evidence-based practice Review questions and clinical reasoning exercises Evolve Resources for instructor and student, including quick quiz's, test banks, review questions, image galleries and videos. • Chapter on current national patient safety and clinical reasoning • Over 80 new and revised case studies • Chapter on rural and remote area nursing • Fully revised chapters on chronic illness and complex care • Chapter on patient safety and clinical reasoning • Greater emphasis on contemporary health issues, such as obesity and emergency and disaster nursing • Australia and New Zealand sociocultural focus

This guide to neonatal and maternal nursing contains appealing icons, such as Time-out for Teaching, and highlighted text draws attention to passages that alert students to potentially threatening situations, improve patient teaching, and promote critical thinking. The CD-ROM contains hundreds of NCLEX-style questions, including the new alternative format questions with rationales for correct and incorrect answers.

Fundamentals of Nursing - E-Book

**Master the essential medical-surgical nursing content you'll need for success on the Next Generation NCLEX® Exam (NGN) and safe clinical practice! Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 10th Edition uses a conceptual approach to provide adult health knowledge and help you develop the clinical nursing judgment skills that today's medical-surgical nurses need to deliver safe, effective care. "Iggy" emphasizes three emerging trends in nursing – interprofessional collaborative care, concept-based learning, and clinical judgment and systems thinking – trends that will ground you in how to think like a nurse and how to apply your knowledge in the classroom, simulation laboratory, and clinical settings. A perennial bestseller, "Iggy" also features NCLEX Exam-style Challenge and Mastery questions to prepare you for success on the NGN! Consistent use of interprofessional terminology promotes interprofessional collaboration through the use of a common healthcare language, instead of using isolated nursing-specific diagnostic language. UNIQUE! Enhanced conceptual approach to learning integrates nursing concepts and exemplars, providing a foundation in professional nursing concepts and health and illness concepts, and showing their application in each chapter. Unparalleled emphasis on clinical reasoning and clinical judgment helps you develop these vital skills when applying concepts to clinical situations. Emphasis on QSEN and patient safety focuses on safety and evidence-based practice with Nursing Safety Priority boxes, including Drug Alert, Critical Rescue, and Action Alert boxes. Direct, easy-to-read writing style features concise sentences and straightforward vocabulary. Emphasis on health promotion and community-based care reflects the reality that most adult health care takes place in environments outside of high-acuity (hospital) settings.**

**Lewis's Medical-Surgical Nursing ANZ 5th edition continues as the most comprehensive, go-to reference for developing the core aspects of professional nursing care in Australia and New Zealand. With a clear framework of person-centred care, critical thinking, clinical reasoning and evidence-based practice underpinning the assessment and management of adults with complex, acute and chronic healthcare issues, the 5th edition provides nursing students with the foundations for developing expert clinical practice. Thoroughly revised, the new edition responds to key health priorities, providing an innovative approach to addressing Indigenous health in Australia and New Zealand. Greater emphasis is also given to the issues of: self-care; examination of the nurse's role within an interprofessional team; and management of the deteriorating patient, to reflect the changing nature of nursing practice in the contemporary healthcare environment. Additional resources on Evolve eBook on VitalSource Student and Instructor Resources Review Questions Conceptual Care Map creator Student Case studies Fluids and Electrolytes tutorial Nursing Care Plans Instructor Resources Test Bank PowerPoint slides Image bank Now available in either hard cover or 2-volume set paperback formats New chapters: Chapter 3: Stress and coping. This chapter explores theoretical models of stress, the impact of stress on human functioning, and strategies for coping with stress in the context of nursing practice and healthcare delivery Chapter 5: Working with Indigenous peoples of Australia and New Zealand. Co-authored by highly respected Indigenous and non-Indigenous academics from Australia and New Zealand, the chapter role-models Indigenous and non-Indigenous health professionals working alongside each other to improve health outcomes, and the practical role that nurses can play to improve the healthcare experiences of Indigenous people. Chapter 69: Recognising and responding to the deteriorating patient. Authored by one of Australia's leaders in emergency response education, this chapter is designed to develop capability in relation to the National Safety and Quality Health Service Standards 2017, specifically Standard 8: Recognising and responding to acute deterioration. Chapter 70: Cardiopulmonary resuscitation: basic and advanced life support. Based on the Australian and New Zealand Committee on Resuscitation (ANZCOR) guidelines, this chapter promotes a problem-solving approach to the management of a patient in cardiac arrest by providing the science behind the techniques and interventions used to treat a patient in cardiac arrest.**

**Known for its reliable, clinically focused content, Swearingen's Manual of Medical-Surgical Nursing provides a quick reference to 125 of the most commonly encountered medical-surgical conditions. Expert authors Fran Monahan, RN, PhD, ANEF, Marianne Neighbors, EdD, RN, and Carol Green, PhD, RN, CNE make it easy to find and use the information you need to know to provide optimal patient care. Unique**

**to this manual, outcome criteria include specific and measurable timeframes to help in establishing realistic treatment goals and evaluating the effectiveness of care. For students, it's an ideal resource for care planning and clinicals; for practitioners, it's a great clinical reference! More than 125 common medical-surgical conditions are organized by body system for convenient use as a clinical reference. A quick-reference, easy-to-use format includes these headings for each med-surg disorder: Overview/Pathophysiology Assessment Diagnostic Tests Collaborative Management Nursing Diagnoses and Interventions Patient-Family Teaching and Discharge Planning Outcome criteria feature specific and measurable timeframes for each outcome. Patient teaching for each disorder helps you educate patients and their families for self-care and discharge. Clinical notes and cautions stress key points or alerts related to various disorders and conditions. An overview of nursing considerations for the hospitalized patient includes concepts relevant to many disorders, such as perioperative care, pain, prolonged bed rest, psychosocial support, and older adult care. Attractive two-color design highlights key information for fast reference. A durable, water-resistant cover prolongs the life of the book. Thorough updates provide you with the latest evidence-based practice content and clinical developments, including the newest Joint Commission standards, latest screening recommendations, revised treatment guidelines, new drugs, and lab tests. New Burns section covers the care of burns in the medical-surgical setting. New Immunologic Disorders unit discusses transfusion reactions, hypersensitivity, and AIDS. New Cancer Care unit updates and expands coverage of lung cancer, nervous system tumors, GI malignancies, neoplastic diseases of the hematopoietic system, head/neck cancers, breast cancer, and GI cancer. An emphasis on patient safety addresses preventable patient safety issues.**

Revised for nursing students, educators, and practicing nurses, this complete reference contains almost 100 comprehensive clinical care plans for adult patients in medical-surgical units. New to this edition are care plans for acute alcohol withdrawal, hypertensive crisis, Parkinson's disease, sickle cell disease, transplantation, and end of life.

The Nursing series of handbooks presents core nursing information in the clear, conversational, practical style of the award-winning Nursing journal. Each handbook features to-the-point bulleted text, explanatory illustrations, and icons that echo familiar column names in the journal. Understanding Diseases covers more than 450 diseases and disorders in body-system organization. Coverage of each disorder includes causes, signs and symptoms, diagnostic tests that may be performed, up-to-date treatment modalities, nursing actions and considerations, and more. Icons include Action Stat! for urgent interventions, Alert for important clinical facts, Do's & Don'ts for intervention advice, and Drug Challenge for critical drug information.

The first medical specialty selection guide written by residents for students! Provides an inside look at the issues surrounding medical specialty selection, blending first-hand knowledge with useful facts and statistics, such as salary information, employment data, and match statistics. Focuses on all the major specialties and features firsthand portrayals of each by current residents. Also includes a guide to personality characteristics that are predominant with practitioners of each specialty. "A terrific mixture of objective information as well as factual data make this book an easy, informative, and interesting read." --Review from a 4th year Medical Student
