MATCHES THE LATEST EXAM! Let us supplement your AP classroom experience with this multi-platform study guide. The immensely popular **5 Steps to a 5: AP Physics 1 Algebra-Based** guide has been updated for the 2021-22 school year and now contains: **3 full-length practice exams (2 in the book and 1 online) that reflect the latest exam Access to a robust online platform Comprehensive overview of the Physics 1 exam format Hundreds of practice exercises with thorough answer explanations Proven strategies specific to each section of the test A self-guided study plan including flashcards, games, and more online**

Designed exclusively for use with The Practice of Statistics by Darren Starnes, Josh Tabor, David Moore and Daniel Yates, the Strive for a Five Guide helps students evaluate their understanding of the material covered in the textbook, develop conceptual understanding and communication skills, and ultimately prepare for success, equipping them with all the skills needed to excel on the AP® Statistics Exam. This book is divided into two sections. The first is a study guide to be used throughout the AP Statistics course, and the second includes preparation with additional AP® test strategies, including two full-length AP® style practice exams, each with 40 multiple-choice questions, 5 free response questions and finished with an investigative task. These features better enforce students' understanding of the subject.

Written as the ideal companion for the Stewart, et al., textbook, this valuable resource serves as both a study guide that delves into each topic area, and a practice section that provides two AP® Physics 1 practice exams.

The ideal textbook for the AP® World History classroom, Ways of the World focuses on significant historical trends, themes, and developments in world history, while building AP® skills. Authors Robert Strayer and Eric Nelson provide a thoughtful and insightful commentary that helps students see the big picture, while modeling historical thinking. This edition is even more focused on the needs of AP® students, with AP® Skills Workshops, a DBQ-aligned Working with Evidence feature, and more opportunities to hone AP® skills and practice for the exam.

You are likely familiar with the name Dr. David G. Myers. Now, he and his new co-author, Nathan DeWall, bring you a book that will allow you to use College Board's new Personal Progress Checks and Dashboard more effectively. This updated edition includes 100% of the new course content in the new nine-unit structure. All teacher and student resources will also be updated to correlate to the new student edition; this includes the TE, TRFD, TB, Strive, and LaunchPad. Everything will publish in summer 2020 such that you can use this new program for Fall 2020 classes. If you're not familiar with Myers/DeWall texts, you are in for a treat! Drs. Myers and DeWall share a passion for the teaching of psychological science through wit, humour, and the telling of poignant personal stories (individually identified in the text by the use of each author's initials [DM and ND]). Through close collaboration, these authors produce a unified voice that will teach,

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

From the bestselling author of Blink and The Tipping Point, Malcolm Gladwell's Outliers: The Story of Success overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. Outliers will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

The book has a study guide section that corresponds to each textbook unit/module and a test preparation section.

In 2014, College Board rolled out a new AP® U.S. History course, which centered less on memorizing content and more on developing skills. Since then, the course has been modified here and there, but very little has changed in AP® textbooks--content is still king. Until now. Fabric of a Nation is the first book to truly embrace this dramatic shift in the AP® course and in how history is taught. Built from the ground up by long-time AP® leaders Jason Stacy and Matthew Ellington, this book offers a new approach to AP® US History by seamlessly integrating: A brief historical narrative AP® skills practice Primary source documents Exact alignment to the AP® course Now, that's revolutionary!
