With its teen appeal and carefully paced syllabus, Teen2Teen makes learning English irresistible and teaching English effortless. Teen2Teen reflects the social nature of teenagers. Realistic language models and dialogues correspond to their patterns of communication, and controlled speaking practice exploits their enjoyment of social interaction, thus building their confidence. The grammar syllabus is carefully paced and clearly presented, and new vocabulary is taught explicitly using visual cues and definitions.

The book aims to advance global knowledge and

practice in applying data science to transform higher education learning and teaching to improve personalization, access and effectiveness of education for all. Currently, higher education institutions and involved stakeholders can derive multiple benefits from educational data mining and learning analytics by using different data analytics strategies to produce summative, real-time, and predictive or prescriptive insights and recommendations. Educational data mining refers to the process of extracting useful information out of a large collection of complex educational datasets
