Have you ever wanted to know the Bible and really understand what it is saying? This study guide will help you explore Revelation, including every section in every chapter, allowing God to reveal Himself through His Word. It is an inductive study with no sermons or commentaries given, no theological box into which the questions must fit and no theme that must be followed, except what the scripture itself gives. There are questions for all levels of students. The questions include what it says, what context it is in, what it means, what it says about the character of God, why it is included in scripture, and how it can change your life. This study is about eight months in length and has space to complete all the answers in the workbook. It can be used in a variety of situations, though primarily intended to be used in a small group study or in a large group, accompanied by a teaching, it can also be used for personal study.

The text's paleogeographic maps are excellent in detail and are a vital component in understanding the earth's history. Stunning artwork brings the ancient world to life.
