Ant Anstead's Building a Special brings the
Haynes story full circle, coming 61 years after
the original Building a 750 Special was
written by John Haynes, Haynes Publishing's
founder, when he was still a schoolboy. This
book is a TV tie-in, following the 12-part TV
series Ant Anstead Master Mechanic, aired on
Motor Trend, part of the Discover Network in
the US and UK, following Ant Anstead's build
of his own-design 'special' car, taking
inspiration from the Alfa 158 - the first World***

Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and

interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.

We took a low-mileage, ex-military, unregistered Series III Land Rover, stripped it
