Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are***

INSTANT NEW YORK TIMES BESTSELLER From award-winning actress and political activist America Ferrera comes a vibrant and varied collection of first-person accounts from prominent figures about the experience of growing up between cultures. America Ferrera has always felt wholly American, and yet, her identity is inextricably linked to her parents' homeland and Honduran culture. Speaking Spanish at home, having Saturday-morning-salsa-dance-parties in the kitchen,

and eating tamales alongside apple pie at Christmas never seemed at odds with her American identity. Still, she yearned to see that identity reflected in the larger American narrative. Now, in *American Like Me*, America invites thirty-one of her friends, peers, and heroes to share their stories about life between cultures. We know them as actors, comedians, athletes, politicians, artists, and writers. However, they are also immigrants, children or grandchildren of immigrants, indigenous people, or people who otherwise grew up with deep and personal connections to more than one culture. Each of them struggled to establish a sense of self, find belonging, and feel seen. And they call themselves American enthusiastically, reluctantly, or not at all. Ranging from the heartfelt to the hilarious, their stories shine a light on a quintessentially American experience and will appeal to anyone with a complicated relationship to family, culture, and growing up.

This book is a study of the impact of citizen action on crime and on the fear of crime. The author obtained the consent and cooperation of the Guardian Angels to use their activities in Harlem and the Bronx as a model in determining the effectiveness of such operations. In addition, on-site interviews were conducted with 2,700 nighttime subway riders. Contradicting many previously held beliefs, these data show that actual incidents of subway crime are remarkably low and that fear of crime among nighttime riders, while high, is not exceptional when compared to fear previously found in above ground settings.

The fully revised and updated third edition of the classic Common Sense Economics.

Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

Ask the average American anywhere in the country to answer the association question Staten Island and you get Ferry in immediate response. what is regularly billed as America's favorite boatride- not least because a round trip still costs an astonishing

twenty-five cents- is the last public survivor of New York Harbor's once immense fleet of those doughty double-ended ferryboats. Dozens of ferryboats in a myriad of liveries crossed the harbor's waterways as recently as one generation ago. Most have vanished as though they never were, leaving in their ghostly wakes only fading memories and a few gorgeously restored ferry terminals. The handsomest of these terminals, on the New Jersey side of the Hudson, is probably the one dubbed by Christopher Morley the Piazza San Lackawanna. Over and Back captures definitively nearly two centuries of ferryboating in New York Harbor, by a master narrator of the history of transportation in America. In stories, charts, maps, photographs, diagrams, route lists, fleet rosters, and in the histories of some four hundred ferryboats, Brian J. Cudahy captures the whole tale as concisely as one could hope. The transportation expert, the ferry buff, the model builder, the urban historian: each will find grist for his or her mill. The photographs capture a highly significant footnote in America's past and present; the colored illustrations preserve some of the stylish rigs in which the owners garbed their boats, despite coal soot, oil smudge, and urban grime. Fully a third of the book comprises the most complete statistical compilation that the nation's public and private archives permit. The data show, among other things, that some of the former workhorses of New York Harbor are filling utilitarian

or social roles elsewhere in the United States and overseas, and that the newest boats in the harbor began life along the Gulf of Mexico and in New England.

This is the story of how one baby found his family in the New York City subway." So begins the true story of Kevin and how he found his Daddy Danny and Papa Pete. Written in a direct address to his son, Pete's moving and emotional text tells how his partner, Danny, found a baby tucked away in the corner of a subway station on his way home from work one day. Pete and Danny ended up adopting the baby together. Although neither of them had prepared for the prospect of parenthood, they are reminded, "Where there is love, anything is possible."

The heartbreaking story of college athlete Madison Holleran, whose life and death by suicide reveal the struggle of young people suffering from mental illness today in this #1 New York Times Sports and Fitness bestseller \*Instant New York Times Bestseller\* #1 New York Times Monthly Sports and Fitness bestseller If you scrolled through the Instagram feed of 19-year-old Maddy Holleran, you would see a perfect life: a freshman at an Ivy League school, recruited for the

track team, who was also beautiful, popular, and fiercely intelligent. This was a girl who succeeded at everything she tried, and who was only getting started. But when Maddy began her long-awaited college career, her parents noticed something changed. Previously indefatigable Maddy became withdrawn, and her thoughts centered on how she could change her life. In spite of thousands of hours of practice and study, she contemplated transferring from the school that had once been her dream. When Maddy's dad, Jim, dropped her off for the first day of spring semester, she held him a second longer than usual. That would be the last time Jim would see his daughter. WHAT MADE MADDY RUN began as a piece that Kate Fagan, a columnist for espnW, wrote about Maddy's life. What started as a profile of a successful young athlete whose life ended in suicide became so much larger when Fagan started to hear from other college athletes also struggling with mental illness. This is the story of Maddy Holleran's life, and her struggle with depression, which also reveals the mounting pressures young people, and college athletes in particular, face to be perfect, especially in an age of relentless connectivity and social media saturation.

Resting on a convincing body of evidence that violence is not a necessary component of conflict among states and between states and non-state actors, World BEYOND War asserts that war itself can be ended. We humans have lived without war for most of our existence and most people live without war most of the time. Warfare arose about 10,000 years ago (only 5% of our existence as Homo Sapiens) and spawned a vicious cycle as peoples, fearing

attack by militarized states, found it necessary to imitate them; and so began the cycle of violence that has culminated in the last 100 years in a condition of permawar. War now threatens to destroy civilization as weapons have become ever more destructive. However, in the last 150 years, revolutionary new knowledge and methods of nonviolent conflict management have been developing that lead us to assert that it is time to end warfare and that we can do so by mobilizing millions around a global effort. Here you will find the pillars of war which must be taken down so that the whole edifice of the War System can collapse, and here are the foundations of peace, already being laid, on which we will build a world where everyone will be safe. This book presents a comprehensive blueprint for peace rooted in three broad strategies for humanity to end war: 1) demilitarizing security, 2) managing conflicts without violence, and 3) creating a culture of peace. These are the interrelated components of our system: the frameworks, processes, tools and institutions necessary for dismantling the war machine and replacing it with a peace system that will provide a more assured common security.

**New York Times bestselling author David Duchovny reimagines the Irish mythological figure of Emer in *Miss Subways*, a darkly comic fantasy love story set in New York City. Emer is just a woman living in New York City who takes the subway, buys ice cream from the bodega on the corner, has writerly aspirations, and lives with her boyfriend, Con. But is this life she lives the only path she's on? Taking inspiration from the myth of Emer and Cuchulain and featuring an all-star cast of mythical figures from all over the world, David Duchovny's darkly funny fantasy novel *Miss Subways* is one woman's trippy, mystical journey down parallel tracks of time and love. On the way, Emer will battle natural and supernatural forces to find her true voice, power, and destiny. A fairy tale of love lost and regained, *Miss Subways* is also a love letter to the city that enchants us all: New York.**

**"Fresh off a new season of the evergreen *X-Files* and a late-blooming music career, the multitalented Duchovny (*Bucky F\*cking Dent*, 2016, etc.) offers a spooky domestic drama that is equal parts Nick Hornby and Neil Gaiman... An entertaining, postmodern fairy tale that tests the boundaries of love and fate." - Kirkus Reviews**
