Diverse Perspectives and Practical Applications

” a fabulous resource for graduate advisors” Eric Mazur, Harvard University Successful Research Supervision offers a research-based practical framework for academics to be able to examine and further develop their effectiveness as research supervisors. Research supervisors working in all levels of higher education must ensure that their students gain efficiencies from working as part of an effective cohort and develop high levels of interdisciplinary understanding and critical thought. To impart these disciplines effectively is essential for any successful research supervisor. From helping researchers to begin to managing a project through to successful completion, this book guides the reader through a series of exercises to identify their individual strengths and weaknesses and then provides theoretically sound advice in a practical and easy to use format. Successful Research Supervision is full of examples of the best practice from outstanding scientists, social scientists and humanities supervisors from both the UK and the USA. This book will encourage and help academics to: Expand their own repertoire and array of actions and responses, thus giving them the flexibility to meet different situations with ease and confidence Identify the optimum combination of approaches to best fit individual students Understand the influence of their own value and experiences in the choice of their approach to research students Be able to choose the most appropriate combination of approaches for a particular curriculum or project Employ a neutral language for developing and assisting others It also provides policy makers and curriculum designers with practical guidelines for evaluating their work. Anne Lee is an independent academic and was Senior Academic Development Adviser at the University of Surrey

Corrections in the Community, Sixth Edition, examines the current state of community corrections and proposes an evidence-based approach to making programs more effective. As the U.S. prison system approaches meltdown, options like probation, parole, alternative

sentencing, and both residential and non-residential programs in the community continue to grow in importance. This text provides a solid foundation and includes the most salient information available on the broad and dynamic subject of community corrections. Authors

Latesa and Smith organize and evaluate the latest data on the assessment of offender risk/need/responsivity and successful methods that continue to improve community supervision and its effects on different types of clients, from the mentally ill to juveniles. This book

provides students with a thorough understanding of the theoretical and practical aspects of community corrections and prepares them to evaluate and strengthen these crucial programs. This sixth edition includes a new chapter on specialty drug and other problem-solving

courts. Now found in every state, these specialty courts represent a new way to deal with some of the problems that face our citizens, be it substance abuse or reentry to the community from prison. Chapters contain key terms, boxed material, review questions, and

recommended readings, and a glossary is provided to clarify important concepts.

Fundamentals of Clinical Supervision, 5/e offers a comprehensive, interdisciplinary presentation that makes it the most highly cited publication in the field. Addressing essential topics for supervisors, it has earned a reputation as an authoritative resource for anyone

seeking certification as an Approved Clinical Supervisor. Emphasizing central themes from a variety of mental health professions, the book covers supervision models, supervision modalities, administrative issues and professional concerns. This Fifth Edition covers the

latest research, more on second-generation models of supervision, a new section on triadic supervision, and the latest on technology. Its one-of-a-kind supervision toolkit, scholarly approach, and topic coverage set the book apart.

Metaphors in Counselor Education and Supervision provides counselor educators and supervisors with creative applications of metaphors to help students and supervisees who struggle with abstract clinical concepts or foundational clinical skills. This teaching and supervision guide provides a variety of metaphors to clarify different areas of counselor education and supervision, including but not limited to case conceptualization, self-care, the counseling process, countertransference, suicide assessments, and advocacy. Each metaphor is accompanied by ethical and cultural considerations, group supervision modifications, and alternative uses to help emphasize diversity and ethics. This book will prepare supervisees and students with unique methods for teaching and understanding counseling concepts and skills and supply professional counselors with creative and different perspectives to use in practice.

“ A fresh update to a true classic. This is one of the most reassuring and useful books you will ever read about doing your PhD, no matter your topic - or where you are enrolled. ” Professor Inger Mewburn, Director of Researcher Development, Office of the Dean of Higher Degree by Research, The Australian National University, Canberra, Australia “ How to get a PhD is both honest and thorough and thus immensely helpful, for supervisors as much as for students. ” Professor Paul Allain, Dean of the Graduate and Researcher College, University of Kent, UK “ The 7th edition! ‘ How to get a PhD ’ is proving its status as a must read for PhDs and supervisors. ” Dr Hans Sonneveld, Founder and Board member, Netherlands Centre of Expertise for Doctoral Education How to Get a PhD 7e provides a practical and realistic approach for all students who are embarking on a PhD. In addition, supervisors will find invaluable tips on their role in the process, good supervisory practices and how to support students to work effectively. Thoroughly revised and updated throughout, the seventh edition provides an overview of what it means to undertake a PhD within a modern university, exploring both the challenges and rewards of a doctoral degree, including: • Contemporary challenges for students including transgender issues, sexual harassment, and exploitation within the academic environment • Time demands, the balance of academia and paid work, and the uncertainty of academic careers and how this can impact students’ mental health • Academic debates surrounding the increased importance of technology and open access • Emphasising diversity with an increased focus on how students, supervisors and universities can work together to make a more effective and welcoming academic environment The new edition is structured so that users can find the section that will help the specific stage of their work. With practical guidance through the application process, research, viva and post-viva, this book supports PhD students of all disciplines across their journey and beyond, including part-time, those returning to study and those who are practice-based. Estelle M. Phillips has enjoyed a long career as an academic and independent educational consultant. She has published widely on various aspects of the PhD and has spoken at universities on four continents about the skills required to complete and supervise a PhD. Colin G. Johnson is an associate professor at the University of Nottingham, and was formerly Associate Dean for Graduate Studies in the sciences at the University of Kent. He is an experienced PhD supervisor and examiner, and has led training courses for new PhD students and advised on postgraduate strategy for a number of universities. Professor Derek S Pugh (1930-2015) was Emeritus Professor of International Management of the Open University Business School, UK. He published 17 books and over 100 papers in his field and had considerable experience in the design of doctoral programmes and the successful supervision and examination of PhD students.

Appropriate for Supervision, Supervision Management, and Intro to Management. Pediatric Primary Care - E-Book

The book is written in a conversational mode and is designed to be easy for students in supervision courses and for new and experienced supervisors. Shulman notes that most social work supervisors describe making the transition from frontline worker to supervisor as a very difficult process in which they received very little support. Many of the books on clinical supervision lack specific examples of individual and group supervision. To address this paucity of examples in the literature, Shulman, in the introductory chapter of the book, outlines some of the experiences that have been drawn from participant presentations at supervision workshops, including the following: After six years of frontline work with a large child welfare agency, a worker was promoted on the retirement of the previous supervisor. On the first Monday morning in her new role, she walked into the common room for coffee and her former peers became quiet. Two of them had also applied for the supervisory job and were upset that they didn’t get it. She knew they were talking about her because she used to talk about the former supervisor with them. She wondered if this meant the end of her friendship with them. Finally, Interactional Supervision, 3rd Edition, argues for what Shulman calls “the parallel process,” where supervisors model in their interactions with frontline workers the manner in which the staff should ideally interact with clients, an approach that is well documented in scholarly research.

Differentiate yourself in a competitive marketplace with SUPERVISION: CONCEPTS AND PRACTICES OF MANAGEMENT, 13E. A blend of traditional management concepts and emerging insights, the text draws from the authors’ firsthand business experience to deliver the leadership skills hiring managers want but rarely find in new recruits. Culturally Sensitive Supervision and Training: Diverse Perspectives and Practical Applications is a comprehensive text that exposes readers to an array of culturally competent approaches to supervision and training. The book consists of contributions from a culturally and professionally diverse group of scholars and clinicians who have been on the frontline of providing culturally competent supervision and training in a variety of settings. Many of the invited contributing authors have developed innovative clinical-teaching strategies for skillfully and effectively incorporating issues of culture into both the classroom and the consulting room. A major portion of the book will provide the reader with an insider's view of these strategies as well as a plan for implementation, with one chapter devoted to experiential exercises to enhance cultural sensitivity in supervision and training. The text is intended for use in supervision courses, but trainers and supervisors will also find it essential to their work.

The must-read text for criminal justice students, prospective police supervisors, and police promotional exams. Supervision of Police Personnel, Eighth Edition, offers complete coverage of the principles and practices of police supervision for leadership training of supervisors in law enforcement and allied fields. This newly updated text explores relationships involved in individual and group management methods and the practical techniques for carrying out the various responsibilities of the police supervisor. Discussions focus on real issues faced by police supervisors in interpersonal, operational, and administrative relationships. Written by experienced police officers, the text presents time-tested content that is an indispensable resource for promotional exams.

Critical Theories for School Psychology and Counseling introduces school psychologists and counselors to five critical theories that inform more equitable, inclusive work with marginalized and underserved student populations. Offering accessible conceptualizations of each theory and explicit links to application in practice and supervision, the book speaks to common professional functions and issues such as cognitive assessment, school-based counseling, discipline disproportionality, and more. This innovative collection offers graduate students, university faculty, and practicum and internship supervisors an insightful new direction for serving learners across diverse identities, cultures, and abilities.

Ethics and Law for School Psychologists is the single best source of authoritative information on the ethical and legal issues school psychologists face every day. Designed specifically to meet the unique needs of psychologists in school settings, this book includes the most up-to-date standards and requirements while providing an introduction to ethical codes, ethical decision making, and the legal underpinnings that protect the rights of students and their parents. This new seventh edition has been extensively updated with the latest research and changes to the law, with an increased focus on ethical-legal considerations associated with the use of digital technologies. Coverage includes new case law on privacy rights, electronic record keeping, the 2014 Standards for Educational and Psychological Testing, digital assessment platforms, the latest interpretations of the Individuals with Disabilities Education Act, and more. Ethics texts for counseling and psychology are plentiful, and often excellent—but this book is the only reference that speaks directly to the concerns and issues specific to psychologists in school settings. Case vignettes, end-of-chapter questions, and discussion topics facilitate deeper insight and learning, while updated instructor's resources bring this key reference right into the classroom. Keeping up with the latest research and legal issues is a familiar part of a psychologist's duties, but a practice centered on children in an educational setting makes it both critical and more complex. Ethics and Law for School Psychologists provides a central resource for staying up to date and delivering ethically and legally sound services within a school setting.

Good police officers are often promoted into supervisory positions with little or no training for what makes a good manager. Effective Police Supervision provides readers with an understanding of the group behaviors and organizational dynamics necessary to understand the fundamentals of police administration. The Effective Police Supervision Study Guide, which includes quizzes and other study tools, gives students, as well as professionals training for promotional exams, a way to review the material and be fully prepared for examinations and the world of police supervision. This new edition, like the new edition of the textbook it accompanies, includes information on the following topics: police accountability, police involvement with news media, dealing with social media, updates on legal considerations, and avoiding scandals. Updated to coincide precisely with the 7th edition of Effective Police Supervision Each chapter includes learning objectives, key terms, chapter summaries, and review questions Includes access to the instructor and companion sites for Effective Police Supervision
