Handbook for Travellers

And Muhammad Is His Messenger

Sura, Mik, and Bailar set sail for the Northern Reach, with Lord Darin in pursuit. Their journey is anything but smooth, with storms, raiders, and the prince of Westmarch standing in the way. Joining an expedition to the ruins of Isenbund, Bailar disappears in the night. Now, Mik and Sura must help rescue their mentor from a legendary foe thought long extinct.

Toward a New Civilization

Civilization is a term used by literary circles, historians, and publicists to describe a superior level of accomplishments of certain nations. After many later attempts to refine the

definition, references are made to the difficulty posed by the physical environment and nature's physical challenges, which had to be overcome because they presented a danger to the human race. Astonishingly, ignored was the importance of morality and the influence it exercised on the way humans treat each other within the framework of a social setting. For the actions of men and women, if unhindered in the struggle for self-preservation and seeking material prosperity to attain the desired level of creature comforts, give rise to self-made obstacles in their quest to defy the natural order. We humans are the cause of hazards to our existence created by overpopulation, environmental degradation, and injecting various toxic substances into the food supply; we are the designers of an unbalanced economy whose stratification favors the well-to-do to the detriment of the disadvantaged, keeping most in a state of turmoil; we are the contrivers of religious systems, some of which are responsible for the most unnatural crimes committed by humans against humans; last but not least, we are the instigators of mass slaughters resulting from wars fought in anger, causing ever increasing casualties and destruction reaching totally destabilizing magnitudes. These acts bode ill for civilization. Humanity, that flawed creation of a flawed nature, in bondage to survival instincts and a virtual slave to circumstances beyond its control, nevertheless possesses the capacity to free itself from some of the burdens imposed by the natural order to rise above the gravitational pull confining all living species. We must discover that our welfare and that of society depend on the rejection of the natural order, so as to be freed, however moderately, from nature's evolutionary competition and the struggle for the survival of the fittest, an order totally in conflict with morality. For the aims of morality are antithetical to nature's imposed scheme of things, reflecting the conflict between our aims and nature's designs.-From the

TNPCEE Physics

The important role of the Prophet Muhammad in the everyday lives of Muslims is usually overlooked by Western scholars and has consequently never been understood by the Western world. Using original sources in the various Islamic languages, Annemarie Schimmel explains the central place of Muhammad in Muslim life, mystical thought, and poetry. She sees the veneration of Muhammad as having many parallels in other major religions. In order to understand Muslim piety it is necessary to take into account the long history of the veneration of Muhammad. Schimmel discusses aspects of his life, birth, marriage, miracles, and heavenly journey, all of which became subjects for religious devotions. By using poetic texts and artistic expressions and by examining daily Muslim religious practices, Schimmel shows us the gentler side of Islamic religious culture, providing a much-needed understanding of religion as it is experienced and practiced in the Islamic world. This is the first book in English to deal with all aspects of the veneration of the Prophet Muhammad. It is an expanded version of Schimmel's *Und Muhammad Ist Sein Prophet*, originally published in German in 1981.
