Golding’s iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn’t enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. (73,000 words) Other books in the series: 1: London. 2: Wasteland. (Zombies vs the Living Dead) 3: Family. 4: Unsafe Haven. 5: Reunion. 6: Harvest. 7: Home. & Here We Stand 1: Infected & 2: Divided. Post-apocalyptic detective novels: Serious Crimes, Counterfeit Conspiracy & Work, Rest, Repeat.

There is always hope. Northern France is a frozen morass of mud and snow across which rampages a horde of the undead, a hundred million strong. That won’t stop Chester Carson and his comrades. Seeking a way across the Channel, they make for the coast, unaware that Britain has been abandoned, Belfast is a ruin, and that radiation is seeping into the Irish Sea. If they knew, that wouldn’t stop them either. They’re on a quest to save their family, their friends, and humanity itself; failure is not an option. As they journey through war-ravaged ports and storm-wrecked beaches, a new truth becomes clear. The flotilla that found refuge on Anglesey wasn’t the only group of sea-borne refugees to have survived the outbreak. There are other survivors. Some good, some evil, some just determined to do their duty no matter the cost. Danger lurks along the French and Belgian coasts. So do answers, and hope that humanity now has a future.

Billions died during the global civil war that followed the outbreak. Anarchy took grip. Chaos ruled. The world collapsed. In Britain, the evacuation failed. Nowhere was safe from the undead. Four months after the outbreak Bill Wright has found safety in a ruined Abbey in southern England, but he is still alone. All he has for company are the files sent to him by his shadowy contact, Sholto. On those, he believes he has found the origins of the undead, and the vast conspiracy in which he discovers he played an unwitting part. He needs answers, and knows the only place they will be found is at the facility that created the virus. As he journeys through the desolate ruins of a dead civilisation, he meets other survivors. He rescues some, is rescued by others, but ultimately discovers that zombies are not the most deadly threat in an undead wasteland. This is the second volume of his journal. (76,000 words)

Surviving The Evacuation, Book 9: Ireland

Final Report of the National Commission on Terrorist Attacks Upon the United States. Authorized Edition

*Not all survivors are to be trusted. Not all the conspirators are dead. February: Within hours of the outbreak, the quarantine was sabotaged. Within days, the world was gripped by civil war. March: When the lights finally went out, billions were dead. Millions more had joined the ranks of the undead. May: Anglesey has become home to nearly ten thousand survivors from across the Atlantic. While there is still danger from the undead on the mainland, there is hope. Hope that the zombies might die, hope that the electricity supply might be restored, and hope that more survivors will be found. Hope is not enough. Sergeant Branefski and Chester Carson venture into northern Wales to set up a network of safe houses that will provide a route to Anglesey for those still trapped in the wasteland. Though they find survivors, they discover something far worse. September: Nowhere is safe from the living dead, not even The Tower of London. The ancient fortress has become home to nearly a hundred people. Food is scarce and the undead are many. The survivors are doomed unless help can be found, but the only place it can come from is Anglesey. Eamonn Finnegan sets out alone to seek their salvation. He never reaches Wales. November: In her heart, Greta knows that Eamonn is dead, yet she has to look for her lost love because he would look for her. Chester joins her in the futile quest to ensure the search doesn’t cost Greta her life. Before their journey has barely begun, they discover an old foe that they thought was dead. Set on Anglesey and in London, near Wrexham and in Birmingham, while hope is fading for the last survivors of humanity.*
