The great possessions of life are all GIFTS mysteriously bestowed: sight, hearing, aspiration, love or life itself. The same is true of ideas - the richest of them are given to us, as for instance, the powerful idea which this book has given you. What are you going to do with it? Are you surprised when I tell you the most profitable thing you can do is to give it away? You know people who are standing still or who are worried or discouraged. This is your chance to HELP YOURSELF AND THEM HELP THEMSELVES. If you

withhold this information of this book from them you will lose the conscious satisfaction that comes from doing good. If you see that they get to read this book, then you put yourself in line with the Law of Life which says, 'You get by giving, ' and you may rightly expect prosperity and achievement. At the very least you will have the inner sense of having done a good deed with no hope of being openly thanked and your reward will come secretly in added power and larger life

The year 1991 was a turning point in the history of the Indian economy. Liberalization saw a tremendous increase in competition from

multinationals in almost all industrial sectors. This book examines how a few 'Good' Indian companies became 'Excellent' by withstanding the onslaught of competitive pressures and flourishing despite a fast-changing and unpredictable economic environment. Distilling vast amounts of data on 23 Indian companies belonging to a range of industries, the book draws out the factors that made them achieve business excellence. The author uses a three-tier filtering process with increasingly strict criteria for narrowing down from the initial 144 companies to the 23 researched cases, and then to the

final seven exceptional organizations. In the quest to find the answer to what made these companies perform exceptionally, the author proposes a business model based on strategy, execution excellence and leadership, which provides a compelling explanation for the superlative performance of these outstanding companies.

`There?s no business like the car business!?' Within months of its launch in late 1998, with every well-known global automobile brand jockeying for a foothold in a small-car market almost monopolized by Maruti Udyog Limited, Hyundai Motor India?s debut

production, the Santro, emerged as a force to reckon with. The first car to be conceptualized and designed for ? and then developed and manufactured in ? India, the `Sunshine Car? has, over a period of sixteen years, set the record for the quickest small car brand to go from zero to one million units sold. It achieved profitability for Hyundai at an unprecedented speed and made an impressive global impact as a made-in-India automobile in markets as diverse as Algeria and Zimbabwe, Western Europe and North America. In Santro: The Car That Built a Company, BVR Subbu, who spearheaded much of

the Santro's success, reveals the hitherto untold story of how this small car made such a big impact. Vivid anecdotes detail the challenges of introducing a new product in a new market, the canny business strategies that were employed to get the better of rival brands, the unforgettable marketing campaigns that made all the difference ? and the thrills of the high-stakes power battles and everyday drama that characterize corporate India. By turns revelatory, insightful and delightfully engaging, this is a business story with a difference about a car like no other.

Can one car transform a nation? The Ford Model T did do so a century ago when it replaced the horse, brought about a revolution in agriculture, became a stimulus to urbanization that eventually changed the landscape of America. Though the Maruti 800, the Tata Indica, the Hyundai Santro and the Maruti Alto, became engines of growth for India, these cars neither drove away the cow nor changed the way

of the auto and motorcycle industry's oldest and most-respected car and motorcycle manufacturers. Over the past century, the company went through myriad developments. The BMW Century chronicles this remarkable transportation company through images of the cars and motorcycles it manufactured, from the 1923 R32 motorcycle to sleek electric cars of today. This handsome volume is filled with images, history, and in-depth looks at the incredible machines BMW created year after year. The BMW Century showcases how the company's new visionary team systematically rebuilt BMW in the post-World War II years into the spectacular success we know

today - that is, a company with sales projected to be upwards of two million cars annually by 2016, led by its 3-series, the best-selling luxury-performance car in the world. BMW's motorcycle division is no less legendary. It began with the 1923 avant-garde R32, which featured a 180-degree, horizontally opposed twin, the engine configuration that would become BMW's hallmark. Along the way, BMW would use that configuration to power groundbreaking machines like the R90S, R100RS, and R80GS. Beginning in 1983, they would add three- and four-cylinder machines to their offerings, culminating in today's spectacular S1000RR sport bike. From the pre-

war motorcycles to the iconic R-series twins of the 1970s and 80s to the mighty M-series cars and superbikes of today, The BMW Century offers a full review of German engineering at its finest. The book is illustrated with hundreds of historic, contemporary, and racing photographs - many sourced from BMW's archives - and detailed text relating the BMW's full history. This is the one volume no BMW aficionado can be without.

Why Not? After all, no-one had ever done it before. It would be one of the longest of all overland journeys – half way round the world, from the English Channel to Singapore. They knew that several expeditions had

already tried it. Some had got as far as the deserts of Persia; a few had even reached the plains of India. But no one had managed to go on from there: over the jungle clad mountains of Assam and across northern Burma to Thailand and Malaya. Over the last 3,000 miles it seemed there were ‘ just too many rivers and too few roads ’ . But no-one really knew ... In fact, their problems began much earlier than that. As mere undergraduates, they had no money, no cars, nothing. But with a cool audacity, which was to become characteristic, they set to work – wheedling and cajoling. First, they coaxed the BBC to come up with some film for a possible TV series. They

then gently persuaded the manufacturers to lend them two factory-fresh Land Rovers. A publisher was even sweet-talked into giving them an advance on a book. By the time they were ready to go, their sponsors (more than 80 of them) ranged from whiskey distillers to the makers of collapsible buckets. In late 1955, they set off. Seven months and 12,000 miles later, two very weary Land Rovers, escorted by police outriders, rolled into Singapore – to flash bulbs and champagne. Now, fifty years on, their book, ‘ First Overland ’ , is republished – with a foreword by Sir David Attenborough. After all, it was he who gave them that film.

That Marcello Gandini is one of the greatest of automobile designers ever has never been disputed, and whether he is the greatest ever, only time and the directions automobile design takes, will tell. But there is no doubting Marcello Gandini's immense impact on automobile design in the last four decades of the 20th century that still remains valid well into the 21st century. the Lamborghini Miura to the

Maserati Quattroporte IV, the humble Innocenti Mini to the epic Cizeta V16T, Marcello Gandini has designed some of the most epochal of all automobiles. Iconic cars like the first-generation BMW 5 Series, the Audi 50/VW Polo, the Fiat X1/9, the Lamborghini Countach and the Diablo, the Lancia Stratos, the Renault Magnum super truck, and many others have all flowed his stylistic pen. -- Designing automobiles that really defined the late 1960s, 1970s, 1980s, even the 1990s, Marcello Gandini is, arguably, the one man who had the greatest impact, the one who changed automotive design the most.

E-Class was a 16 year old kid who had everything and then lost it but only to get it back. But then he'll lose it again. This is a story about love and betrayal and the determination of one to put back together a family. But in the process everything get worse and the pain keeps coming from ways unperceivable Haynes disassembles every subject vehicle and documents every step with thorough instructions and clear photos. Haynes repair manuals are used by the pros, but written for the do-it-yourselfer.

From the world-renowned agony aunts of award-winning podcast 'Dear Joan and Jericha' comes an unputdownable bible of sex and relationship advice on how to find, satisfy and maintain a husband, from dating right up until you or hubby pass away. We dedicate this tome to

Mahmoud: surgeon, prophet, model and friend. Capable of performing up to 30 hysterectomies a day (often blindfolded), it was Mahmoud that begged us to put pen to papyrus and share our wisdom with all the lost ladies suffering in the world today. As much revered celebrities, living glamorous and wealthy lifestyles, we do of course come under fire. There has recently been vicious slander circulating, regarding a small handful of folk who have written to

us with a problem, and having listened to our response, gone on to take their own lives. As if the two were somehow connected. These naysayers are generally bitter and jealous spinsters, taking perverse and sadistic pleasure in being vindictive and nasty, while no doubt masturbating at the same time. To these lonely ladies we would say, 'Go look in your own heart, knock ye there and ask yourself some difficult questions. Because you will find the real

guilt writhing within ye, like maggots mating in yesterday's apple'. What we offer here is a lifeline, a service, much like the NHS, or perhaps more accurately, the AA. Joan and Jericha: AA for the heart. Affording you the opportunity to have a breakdown, call for a pick-up truck, stop off for a Full English whilst a hairy guy in a grubby onesie fumbles under your bonnet and tweaks at your wiring, before sending you on your way, lubricated, primed,

I could have kept my cool, done my job, but then I saw her. Pure as a lily, dressed in skimpy lingerie, and being auctioned off to the foulest men in Brighton Beach. I'm not used to this white knight sh*t, but I did what I had to do. I outbid those pieces of trash and bought myself a bride. What the hell do I do with a sweet, subservient woman who's been trained to obey her husband? I can think of some things my baser instincts want me to do... But when she submits to me, I'm going to be the man that deserves it, not just the one she owes it to. So I'm going to make her life better. I'm going to make her want me just as bad as I want her.
