There's no doubt opposites attract for these enemies, but there's no way there could be any kind of a future for a wedding planner and a divorce attorney...right? All Sadie Rollins wants for Christmas is a break. Three years ago, she stumbled into her dream job as a wedding planner, but she's been so bogged down with the minutiae of inn ownership that she can't even enjoy it. She and her twin sister might have been bequeathed the Starlight Haven Inn, but the bed and breakfast didn't come with much more than extra-long hours and piles of debt. Cole Donovan was looking for a fresh start when he moved to Havenbrook following the worst kind of betrayal. Instead, his reputation as a cutthroat divorce attorney preceded him--and tainted his introduction to the only woman he's had eyes for since his own divorce. Too bad she can't stand him. When Sadie's cousin offers her an opportunity to have the inn featured in the country's leading wedding magazine in exchange for a bit of modeling, she jumps at the chance for some exposure. All she has to do is wear a wedding dress and pretend to be smitten with a stranger for a couple hours. The only trouble is the fake groom is no stranger, and as much as she loathes Cole, her body hasn't gotten the message. Neither, it seems, has his...

This box set includes the three books in the Brighten Magic Academy Series: REFLECTIONS OF YOU: What do you do when your Mother signs you up for the prestigious Brighten Academy of Magic? You pack up your things, grab your familiar, and pray this doesn't go horribly wrong. Having a sweet Mother like mine, whose mind is slowly deteriorating thanks to her Alzheimer's, it's my role to make her happy. After my older brother's death, I vowed to make her smile and do whatever she asked. So when she pulls some strings and gets me a golden ticket into the all male school, Brighten Magic Academy, there's no way

I can refuse. Well here I am, stuck in a dorm house with six sexy males - their attraction having no chill and magic that can make you fall to your knees in submission. But I can survive this trial because I'm a boy. Well, between you and me, I'm a girl using magic, pretending to be a guy, but you get my dilemma. What's the worst that can happen? I guess you're about to find out.

REFLECTIONS OF ME: Surviving my first semester at Brighten Magic Academy wasn't as simple as I thought it would be. Being a male was HARD, especially for a girl like me, but who would have thought I'd enjoy the pleasures of being a male, such as learning how to aim my weenie correctly in less than a week? As adventurous as it all sounds, it led me down a path full of trials and a near-death incident I'd never want to experience again. After four weeks, two of which I was unconscious and recovering from my wounds, I struggled to regain what I'd forgotten, which left a strain in my friendships; or should I say relationships? With bullies from Maximus' past returning for round two, Braxton dealing with personal issues he'd rather fight alone, Kage being followed by a mysterious person, and Nixon experiencing nightmares every night, I had my hands full. Logan tried his best to keep us from tearing at one another's throats, but with the tension of the next set of classes and with expectations rising higher with each passing day, his attempts only acted to add gasoline to the fire. It's Zane's turn to prove himself and help bring us back together. But with crazy mage competitions, intense familiar battles, and haunting silver eyes that continued to watch my every move, would we even last long enough to find the real culprit of this game? Or would we die trying?

REFLECTIONS OF US: Brighten Magic Academy held its set of challenges, but it didn't prepare us for the one year as Brighten Elite. A year has passed since my boyfriends and I made the executive decision to join

the Brighten Elite. Not only did our experiences during our year away strengthen our use of magic, it reinforced the bonds in our relationships- both with me as a male and female. With a more confident attitude and power to go along with it, we're back at Brighten Magic Academy for our final year, but not everyone is pleased with our return. Students are dying, professors are going missing, and someone is out to ensure I stop breathing before I reach graduation ceremony. Not to forget my primary goal: to find the organization that is keeping my loved one imprisoned to lure me into whatever scheme they're hatching. Being a male showed me a different side of life, and with it came benefits that would help me end the brewing war. With Logan, Nixon, Braxton, Maximus, Kage, and Zane by my side, we will show our hidden enemies what a true Mage Warrior can do. Will we prevail before we walk the stage of our graduation ceremony? We're about to find out. The breathless finale to the New York Times bestselling Rebel of the Sands series will have you on the edge of your seat until the dust from the final battle clears! When gunslinging Amani Al'Hiza escaped her dead-end town, she never imagined she'd join a revolution, let alone lead one. But after the bloodthirsty Sultan of Miraji imprisoned the Rebel Prince Ahmed in the mythical city of Eremot, she doesn't have a choice. Armed with only her revolver, her wits, and her untameable Demdji powers, Amani must rally her skeleton crew of rebels for a rescue mission through the unforgiving desert to a place that, according to maps, doesn't exist. As she watches those she loves most lay their lives on the line against ghouls and enemy soldiers, Amani questions whether she can be the leader they need or if she is leading them all to their deaths.

psychics in the art of invisibility so that they can physically go behind 'enemy lines' and snoop into the hidden chambers of foreign embassies. The group of 'super spies' has existed for years, though their existence has never been revealed by the 'brain trust' that secretly runs the 'invisible government' behind America's President, breaking the laws of the Constitution that should bind them as it should any official operating on the public's behalf. This book exposes the scientific, military and occult secrets about the phenomenon known as levitation and actually tells you how you can lift off from the ground by applying certain principles that have been known by avatars and wise men for centuries.

The cold, stygian dark of the extreme sea depths is home to some of our planet's strangest creatures. Even their names evoke a science fiction adventure: dragonfishes, greeneyes, viperfishes, mirrorbellies, lanternfishes. Marine biologist Henry "Hank" Compton (1928–2005) of the Texas Parks and Wildlife Department's Rockport Marine Lab was present on some of the earliest

Gulf of Mexico cruises on which these fishes were collected for the first time in Texas waters. Upon returning, Compton would retire to the darkroom he had constructed beneath a stairwell at the lab and photograph the specimens. A talented artist, Compton then painted watercolors based on his photographs. He allowed free rein to both his scientific judgment and his artistic vision as he constructed representations of how the specimens might have appeared in the crushing pressure of their alien environment. Compton dubbed the series of deep-water paintings “Fire in the Sea” because of the shimmering bioluminescence common to these deep-water species. Then, along with taxonomic descriptions, he drafted fanciful narratives to accompany the paintings: quirky, humorous, and sometimes cryptic stories of the fishes in their unreachable habitat. Professor, researcher, and author David A. McKee has taken Compton’s work, discovered in cardboard boxes following his death, and, along with others, provided chapters on bioluminescence, life in the deep, taxonomic arrangement, and life history information.

As Russian tanks roll through the cobblestone streets of Budapest and shots ring out, young Robert and Attila Beck, inseparable brothers, peer from the boot of a toppled statue of Stalin at the first grisly signs of revolution. The year is 1956. That October day, Russian soldiers will storm their family home, prompting the boys' hurried escape from the city with their parents, grandmother, and two cousins. Not all will survive. Their immediate destination is Paris, and the town house of Hermina, their great-aunt, once a renowned opera singer, now a recluse who wears long gloves to preserve her dignity against a past scarred by an unspeakable violence. Along the way, these two brothers encounter mysterious fellow travelers, witness the bewildering sights of a nation in transition, and grapple with rivalry and loss, while never losing their capacity for joy or their appreciation of humor, and each other, as they stare down the unaccountable and the absurd. Robert, the younger, idolizes the fiery Attila, whose growing edge of anger and rebellion threatens to endanger them both. As exiles in Paris, they seek adventure and whatever semblance of home they might find, from the unfamiliar streets to the labyrinthine sewers beneath. When the duo uncovers a long-held family secret involving a

double agent and a daring Holocaust rescue, this novel hurtles toward its cataclysmic conclusion. A fleeting decision by Attila has consequences that will last a lifetime, and the bond that has proved unbreakable may be the brothers' undoing. With dazzling storytelling and a firm belief in the power of humor in the face of turmoil, Joseph Kertes has crafted a fierce saga of identity and love that resonates through its final page. The Afterlife of Stars is not only a stirring account of one displaced family's possibilities for salvation, but also an extraordinary tale of the singular and enduring ties of brotherhood. Shadow demons plague the city reservoir, and Red King Consolidated has sent in Caleb Altemoc—casual gambler and professional risk manager—to cleanse the water for the sixteen million people of Dresediel Lex. At the scene of the crime, Caleb finds an alluring and clever cliff runner, Crazy Mal, who easily outpaces him. But Caleb has more than the demon infestation, Mal, or job security to worry about when he discovers that his father—the last priest of the old gods and leader of the True Quechal terrorists—has broken into his home and is wanted in connection to the attacks on the water supply. From the beginning, Caleb and Mal are bound by lust, Craft, and chance, as both play a dangerous game where gods and people are pawns. They sleep on water, they dance in fire...and all the while the Twin Serpents slumbering beneath the earth are stirring, and they are hungry. Set in a phenomenally built world in which lawyers ride lightning bolts, souls are currency, and cities are powered by the remains of fallen gods, Max Gladstone's *Craft Sequence* introduces readers to a modern fantasy landscape and an epic

struggle to build a just society. Why do I exist? Is this all there is? What is my true nature? What is most important in life? How should I live? These are humanity's oldest spiritual questions. At the year 2000, however, many who ask them are profoundly estranged from religion. To some, religion is belief in the unbelievable--incom-patible with intelligence and learning. To others, it's just another bureaucratic institution--legalistic, hypo-critical, untrustworthy. Still others have been alienated by their birth traditions, while an increasing number lack any such grounding. What unites this diverse group of skeptical, ambivalent "neoagnostics" is a sense of something deep and vital that eludes the reach of their intellect and education and an inchoate desire for meaning. A half-century of the great secular experiment of Einstein, Marx, and Freud has proved that if religion--the record of our struggle to understand existence and behave accordingly--has grave flaws, so do the materialistic "faiths" that were intended to replace it. After looking for answers in some obvious places, from relationships and accomplishment to art and science, Winifred

Gallagher realized that she had not seriously considered religion since childhood's version of Christianity collided with a college education. Asking the question "What if religion could be about something else?" she decided to explore her own heritage, as well as Buddhism, Judaism, and the New Age. She discovered a vast, quiet, "millennial" spiritual revolution that is transforming religion into a process of moving toward--and struggling with--the sacred. Transcending denominational boundaries, this new sensibility embraces modern realities from physics to psychiatry, addresses existential questions, values personal experience over institutional authority, draws insights from multiple traditions, welcomes women as clergy and teachers, and expands morality beyond the personal to the systemic, from economics to ecology. A reporter of behavioral science, Winifred Gallagher began her investigation of postmodern religion with research and interviews, but watched it also become a very personal story of epektasis--straining toward mystery. Journalism and journey unfold over time spent in a Zen monastery and a cloistered convent, small-group discussions and healing rituals, a Conservative synagogue that shares a Christian church, and the birthplace of the New Age. Written with humor, empathy, and a rigorous curiosity, Working on God breaks new ground in depicting the broad-based spiritual movement that is transforming culture

as well as religion.
