“Contemporary female friendship goes glam in this lively debut novel with remarkable depth.” -- Washington Post
“Great fun and extremely smart.” -- npr.org
NAMED A MOST ANTICIPATED BOOK OF 2022 BY Vogue * Marie Claire * Glamour * Essence * Oprah Daily * Entertainment Weekly * Bustle * PopSugar * CrimeReads * and more!
An incisive and exhilarating debut novel following three Anglo-Nigerian best friends and the lethally glamorous fourth woman who infiltrates their group. Ronke wants happily ever after and 2.2. kids. She's dating Kayode and wants him to be "the one" (perfect, like her dead father). Her friends think he's just another in a long line of dodgy Nigerian boyfriends. Boo has everything Ronke wants—a kind husband, gorgeous child. But she's frustrated, unfulfilled, plagued by guilt, and desperate to remember who she used to be. Simi is the golden one with the perfect lifestyle. No one knows she's crippled by impostor syndrome and tempted for a baby. She's not. When the high-flying, charismatic Isobel explodes into the group, it seems at first she's bringing out the best in each woman. (She gets Simi an interview in Shanghai Goes jogging with Boo!) But the more Isobel intervenes, the more chaos she sows, and Ronke, Simi, and Boo's close friendship begins to crack. A sharp, modern take on friendship, ambition, culture, and betrayal, Wahala (trouble) is an unforgettable novel from a brilliant new voice.

To make an open marriage work, Franklin and Celeste knew they needed to make sure no one ever came between them. That meant no overnights, no falling in love, and either one of them could ask the other to end an outside relationship if it became too much to deal with. It worked for nearly two decades—and their relentless focus on their own relationship let them turn a blind eye to the emotional wreckage they were leaving behind. The This is the new social media platform everyone is talking about. Allow it to be injected into the roof of your mouth and it will grow into your brain, allow you to connect with others without even picking up your phone. Its followers are growing. Its detractors say it is a cult. But for one journalist, hired to do a puff-piece interview with their CEO, it will change the world forever. Adan just wants to stay at home with his smart-companion Elegy - phone, friend, confidante, sex t army. Sentient robots are invading America, but it seems Adan has a surprising ability to survive their attacks. He has a purpose, even if he doesn't know what it is. And in the far future, war between a hivemind of AIs and the remnants of humanity is coming to its inevitable end. But one woman has developed a weapon which might change the course of the war. It's just a pity she's trapped in an inescapable prison on a hivemind ship.

Surveying for Construction 5e is an essential textbook for students of engineering new to surveying, and will also appeal to students of building and environmental studies and archaeology. Offering a strong grounding in land and construction surveying, the authors clearly and comprehensively guide the reader through the principles, methods and equipment used in modern-day surveying. Taking into account recent advances in the field, the material has been fully updated and revised to include EDM. A new chapter on GPS technology has been added. In keeping with the practical nature of the book, there are chapters on setting out construction works and surveying existing buildings, which guide the reader step-by-step through the fundamental procedures. The clear and methodical nature of the explanations, supported by a wide range of exercises and examples, make Surveying for Construction 5e an invaluable and modern introduction to surveying. Key features include:
• New Learning Objectives and Chapter Summaries which guide the student through the learning process and highlight the key principles and methods for each chapter
• Numerous diagrams and figures which give students a clear and detailed understanding of equipment and procedures
• Extensive boxed examples and exercises that guide students through real-world surveying methods and calculations
• Website material: online material for creating your own surveying

Poetry: Latino/Latina Studies. LGBT Studies. "Like Whitman, Quesada is a poet of motion—journeying to the center of the US, where the traditions and innovations of first-generation Americans traverse the meditative starbursts of hills, ford rivers; cross prairies; and seek out 'the aploglow of tomorrow and tomorrow.' From Costa Rica to Los Angeles and across the continent, Quesada's poems chronicle one family's history: from the courtship of his parents to their separation, from his childhood struggles to awakening desire from his mother's lottery winnings to his own personal losses. Ruben Quesada carries us toward 'that seam in space' where dream and experience intersect. This isn't the story of what it means to come to this country. It's the story of what it means to belong here"—D. A. Powell.

As the first of the nation's 78 million baby boomers begin reaching age 65 in 2011, they will face a health care workforce that is too small and woefully unprepared to meet their specific health needs. Retooling for an Aging America calls for bold initiatives starting immediately to train all health care providers in the basics of geriatric care and to prepare family members and other informal caregivers, who currently receive little or no training in how to tend to their aging loved ones. The book also recommends that Medicare, Medicaid, and other health plans pay higher rates to boost recruitment and retention of geriatric specialists and care aides. Educators and health professional groups can use Retooling for an Aging America to institute or increase formal education and training in geriatrics. Consumer groups can use the book to advocate for improving the care for older adults. Health care professional and occupational groups can use it to improve the quality of health care jobs.

Welcome to the City. In this place of peace and plenty, with no disease, no suffering, and no want, people find meaning in service to their gods. They know the gods were created by humans, of course. But the gods protect and provide for the people, so why wouldn't the people serve the gods? In a Utopian society, what better way to express service than through pleasure and faith? For Kheema and her seven fellow Potentials, that means entering the temple of the Sun God to undergo months of training and practice to determine which of them will be chosen as Sacrifice. On the day of the summer Solstice, the one chosen as Sacrifice must recite the entire litany from atop the temple, while enduring nonstop forced orgasms from dawn 'til dusk. For Terlyn, service means becoming part of the Garden, bound naked and asleep while worshippers help themselves to her body. Terlyn wakes in ecstasy over and over, only to fall asleep again. The experience changes her, and her relationship with her friend and lover Downin, who visits her while she is part of the Garden. Ashi's service to the god known as the Wild entails competing with other worshippers in a forest that appears overnight to demonstrate her resilience and will, so that she might become part of a ritual involving an altar, a long row of cages, and the complete abandonment of the self. The three stories brush against each other, revealing the heart of the City, as the people of the City serve, or ask for enlightenment from, multiple gods at once.

The world is changing. Markets have crashed. Jobs have disappeared. Industries have been disrupted and are being remade before our eyes. Everything we aspired to for "security," everything we thought was "safe," no longer is: College. Employment. Retirement. Government. It's all crumbling down. In every part of society, the middlemen are being pushed out of the picture. No longer is someone coming to hire you, to invest in your company, to sign you, to pick you. It's on you to make the most important decision in your life: Choose Yourself. New tools and economic forces have emerged to make it possible for individuals to create art, make millions of dollars and change the world without "help." More and more opportunities are rising out of the ashes of the broken system to generate real inward success (personal happiness and health) and outward success (fulfilling work and wealth). This book will teach you to do just that. With dozens of case studies, interviews and examples—including the author, investor and entrepreneur James Altucher's own heartbreaking and inspiring story—Choose Yourself illuminates your personal path to building a bright, new world out of the wreckage of the old.

Hot Rock Dreaming

Fracking 101

Practical Finite Element Analysis

Introducing Transformational Grammar

Fracking, or hydraulic fracturing to give its proper name, has become part of our lives recently, due to the massive exploitation of America’s shale oil and gas fields. Along the way it has stirred up controversy, with passionate opponents fighting against the oil companies. The fight has generated a lot of heat, but not much understanding. This guide, written by some-one who knows what he is talking about takes a detached, neutral view of the subject. Without pushing a view for or against, it provides the factual background you need to form an opinion of your own. An Informed and Neutral Introduction Like most people I have heard of fracking, but did I really understand what it was? To answer honestly, no. I knew it had something to do with mining and was perhaps destructive to the land. To me, it was just one of those words of the moment. This guide has given me a real sense and understanding of what fracking is. It allowed me, someone who has no experience in this field, to learn about the pros and cons of fracking, without having the good and bad of it forced down my throat. If you want an informed and neutral introduction into fracking, then this is the guide for you. - Debbie Brewer

A new play from an award-winning playwright, published as part of the innovative Abbey Theatre playscript series:On the day of her father's funeral, Eva – a young woman – is still haunted by the betrayal she witnessed from her childhood haven – the treehouse in the garden. On the same day another woman, Magda, relives the ghosts of another hiding place and a different betrayal – ghosts from which she still seeks forgiveness. Interweaving lives and secrets Treehouses is a magical tale of refuge, treachery and of love lost and found.

'My ambition is to give back to the women of my blood the power of speech confiscated by their men.' Badra is a young Berber girl from a North African village who is married off to an old man, and brutally raped on her wedding night. She thinks sexual pleasure exists only for men, until she escapes from her cruel husband to the city. Then she meets a handsome doctor who introduces her to a new world of sexual passion. L'AMANDE, written under a pseudonym by a North African man living in France, reads like an erotic manifesto for modern women who want to break free from the repressive bonds of cultural tradition to unashamedly demand their right to pleasure.

Here's a whole manual full of puzzles, games, and worksheets related to the novel! It includes: 1 unit word list & clues, 4 unit fill in the blank worksheets, 4 unit multiple choice worksheets, 4 unit magic squares, 4 unit word searches, 4 unit word searches, 4 unit crosswords, 32 unit bingo cards, 1 vocabulary word list & definitions, 4 vocab fill in the blank worksheets, 4 vocab matching worksheets, 4 vocab magic squares worksheets, 4 vocab word searches, 4 vocab crosswords, 4 vocab juggle letter review worksheets, 1 master set of vocab flash cards, 32 vocab bingo cards, and answer keys to all worksheets & puzzles. Unit words are character names, symbols, places, etc. Vocabulary words are chosen from the book and are the same words used in the LitPlan Teacher Pack. Great for review, reinforcement, substitute teachers, & more!

Time-Efficient Training Secrets for Ultimate Fitness

This collection of bone-chilling tales is sure to keep readers awake for many nights. It includes stories from classic writers such as Bram Stoker, H. P. Lovecraft, Edgar Allan Poe, M. R. James, William Hope Hodgson and Ambrose Bierce. Their haunting visions of cosmic terrors and everyday frights provide a thrilling excursion into the eerie depths of the horror genre.

Highlights of the book: Discussion about all the fields of Computer Aided Engineering, Finite Element Analysis Sharing of worldwide experience by more than 10 working professionals Emphasis on Practical usage and minimum mathematics Simple language, more than 1000 colour images International quality printing on specially imported paper Why this book has been written . . . FEA is gaining popularity day by day & is a sought after dream career for mechanical engineers. Enthusiastic engineers and managers who want to refresh or update the knowledge on FEA are encountered with volume of published books. Often professionals realize that they are not in touch with theoretical concepts as being pre-requisite and find it too mathematical and Hi-Fi. Many a times these books just end up being decoration in their book shelves . . . All the authors of this book are from IIT&I&ms & IISC and after joining the industry realized gap between university education and the practical FEA. Over the years they learned it via interaction with experts from international community, sharing experience with each other and hard route of trial & error method. The basic aim of this book is to share the knowledge & practices used in the industry with experienced and particular beginners so as to reduce the learning curve & avoid reinvention of the cycle. Emphasis is on simple language, practical usage, minimum mathematics & no pre-requisites. All basic concepts of engineering are included as & where it is required. It is hoped that this book would be helpful to beginners, experienced users, managers, group leaders and as additional reading material for university courses.

"No" is sometimes the hardest word to say. It's also the most necessary. How many times have you heard yourself saying yes to the wrong things—overwhelming requests, bad relationships, time-consuming obligations? How often have you wished you could summon the power to turn them down? This lively, practical guide helps you take back that power—and shows that a well-placed No can not only save you time and trouble, it can save your life. Drawing on their own stories as well as feedback from their readers and students, James Altucher and Claudia Azula Altucher clearly show that you have the right to say no: To anything that is hurting you. To standards that no longer serve you. To people who drain you of your creativity and expression. To beliefs that are not true to the real you. It's one thing to say no, the authors explain. It's another thing to have the Power of No. When you do, you will have a stronger sense of what is good for you and the people around you, and you will have a deeper understanding of who you are. And, ultimately, you'll be freed to say a truly powerful "Yes" in your life—one that opens the door to opportunities, abundance, and love.

Ancient Greek Beliefs explores the mysteries of the ancient myths and religious beliefs of a great people. The text is divided into three sections, Greek mythology, the ancient Greeks, and conclusions. A brief history and lengthy glossary are included. The book is designed as a basic text for the introduction to ancient Greek mythology and beliefs, and the text muses about the religious lessons we might learn from them. It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of the works of the great writers, including Aeschylus, Euripides Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

Australia's most famous Aboriginal painter is dead...supposedly killed when a heavy object tumbled onto him in his studio during an earth tremor. But then doubts arise. For a start, the police now suspect murder. And why was the victim heard earlier predicting his own violent death? Enter private detective Johnny Ravine to solve the mystery...he suddenly finds himself thrust into a byzantine world of art and artists where questions are far more numerous than answers. Where did the victim's art dealer obtain the incredibly rare artwork that he was secretly selling? Is the controversial 'green energy' company Rokpower really going to harness power from hot rocks deep under the ground, and did it kill the artist's Dreaming spirit when it injected water onto the rocks? And who is the beautiful and mysterious Asian lady who seems to be able to converse with the dead, and who says she knows how the artist really died? A killer is on the loose and even Johnny's own life is in danger. But first he needs to understand that the death of the artist has unleashed spiritual forces that threaten an entire community.

Pirate Island, North Carolina, is an unlikely vacation destination for Prince Alexander of Moreno. But when a detour brings him to the rustic campground, he jumps at the chance to be just Alex, no media glare, no royal responsibilities, for four glorious weeks. That the manager is a beautiful, fun-loving redhead unlike any woman he's ever met makes the prospect even sweeter... Katherine Kendal doesn't trust men easily, including the wickedly handsome stranger who practically washes up on her island. But most of all she doesn't trust her body's reaction to this uncommon man—and when he offers to tutor her in the nuances of lovemaking, to awaken the sensual woman within, she cannot resist... Days with Katherine bring out a playful side Alex thought long-buried, and nights are filled with passion. As summer wanes, Alex begins to crave something he never has before. But will his secret tear them apart?

*** Ajax is one of the hottest topics in the developer community right now! and this will be the first Ajax book that offers detailed explanation of how Ajax works and how to use it to best effect. Theory and practice covered immediately in one volume. * Ajax works across many platforms and different groups of developers - this book is designed to be suitable for all those developers across all those platforms, who are interested in the hot new topic of Ajax. * Demand for Ajax knowledge will be strong. Leading technology companies like Google, Yahoo, Adaptive Path, and Amazon are adopting Ajax techniques, and many other companies are doing the same in order to compete with Ajax. This book connect the developer community to the new Ajax functionality.**

His father's over expectations only ruined his self-confidence further with each failure. A ray of hope walked into his life as his wife, a charismatic personality spreading joy wherever she went. Everything is going per plan, but darkness comes knocking soon. He finds out that she does not have much time to live and takes it up upon himself to fight all odds – even his family, if need be – to help her fight her medical condition. His father sees his own redemption in helping them; he knows his son will be a winner only if he will fight for her, with her. Will a defeated son prove himself to be a good husband? Will the father-son duo together be able to change the course of fate? Her Last Wish is an inspiring story of love, relationships and sacrifice, which proves once again how a good wife makes the best husband.

America's beloved author, humorist, and storyteller offers a selection of meaningful and enjoyable poems Every day people tune in to The Writer's Almanac on public radio and hear Garrison Keillor read them a poem. And here, for the first time, is an anthology of poems from the show, chosen by Keillor for their wit, their frankness, their passion, their "utter clarity in the face of everything else a person has to deal with at 7 p.m." Good Poems includes verse about lovers, children, failure, everyday life, death, and transcendence. It features the work of classic poets, such as Emily Dickinson, Walt Whitman, and Robert Frost, as well as the work of contemporary greats such as Howard Nemerov, Charles Bukowski, Donald Hall, Billy Collins, Robert Bly, and Sharon Olds. It's a book of poems for anybody who loves poetry whether they know it or not.

Ever dream of being an elite endurance athlete and competing in races like Hawaii's Ironman? Professional athletes are not the only people who have the ability to attain superior athletic accomplishments. Every season tens of thousands of amateur triathletes compete head-to-head, pushing their physical and mental strength to the absolute limits. The standard Ironman competition is a true test: a 2.4-mile open-water swim, followed by a 112-mile bike leg, and a 26.2-mile marathon run. Sought-after multisport coach, Don Fink assures readers that the challenge is not too difficult, the dream is not impossible. His time-efficient training methods have been honed over the years and have been proved to aid anyone in achieving their athletic dreams. Be Iron-Fit provides practical training information in a step-by-step, enjoyable way so that even everyday athletes can attain ultimate conditioning. Included in this revolutionary guide is information on: - The essential workouts - The training cycle- Core training - 12-week training programs - Effective time management - The principle of gradual adaptation - Effective heart-rate training - Preparing with training races - Proper technique - Equipment tips - Race and pre-race strategies - Mental training - Effective goal setting and race selection- Nutrition - And much more With the proper preparation and training techniques explained here, virtually anyone can attain supreme fitness.

Any Silver had a conventional life as a suburban housewife married to a successful man. That all changed the day she discovered her husband's affair—and how she responded surprised her. When she caught him red-handed, she proposed a solution that would avoid the mess of a loud and public divorce. Instead, she told her husband and his mistress that they would belong to her for nineteen weeks, the same length of time the affair had been going on. For those nineteen weeks, both of them would help her to fulfill her wildest fantasies, no questions asked. The things all three of them learned during that time would change their lives forever.

Distributed Database Systems discusses the recent and emerging technologies in the field of distributed database technology. The material is up-to-date, highly readable, and illustrated with numerous practical examples. The mainstream areas of distributed database technology, such as distributed database design, distributed DBMS architectures, distributed transaction management, distributed concurrency control, deadlock handling in distributed systems, distributed recovery management, distributed query processing and optimization, data security and catalog management, have been covered in detail. The popular distributed database systems, SDB-1 and R*, have also been included.

Meredith Davis draws on her many years' experience teaching graphic design students to explain complex theories with total clarity, encouraging readers to evaluate existing design work critically, and to use theoretical frameworks to enhance their own studio practice

The Obsidian Mountain Trilogy, Book One

The first edition of this book quickly established itself as one of the clearest and most readable introductions to generative grammar. Together with a complete introduction to the principles of Universal Grammar, it traced the major shifts of perspective that have influenced the developments of the theory over the last forty years. This revised and expanded new edition introduces students with no previous training to Transformational Grammar. Covering the framework known as Principles and Parameters as well as the more recent framework known as Minimalism, it includes a range of new exercises, making it ideal for students at all levels.

Welcome to the far-future City, a post-scarcity Utopia with no disease, no war, and no want. The people worship AIs as gods through ritualized sex, and in return, the gods provide anything anyone could ever want from Providers in every room. But in this City, the gods demand a price for their benevolence. They make use of those who worship them, for in a place with no scarcity and no money, the only thing you have to bargain with is your body. Three very different women embark on three separate paths to become the Sacrifice to, and Avatar of, their gods. The lives of each of these women will be forever altered by their experiences.

The Outstretched Shadow, the first book in The Obsidian Trilogy from Mercedes Lackey and James Mallory Kellen Tavadon, son of the Arch-Mage Lycaelon, thought he knew the way the world worked. His father, leading the wise and benevolent Council of Mages, protected and guided the citizens of the Golden City of the Bells. Young Mages in training—all men, for women were unfit to practice magic—memorized the intricate details of High Magic and aspired to seats on the council. Then he found the forbidden Books of Wild Magic—or did they find him? The three slim volumes woke Kellen to the wide world outside the City's isolating walls. Their Magic was not dead, strangled by rules and regulations. It felt like a living thing, guided by the hearts and minds of those who practiced it and benefited from it. Questioning everything he has known, Kellen discovers too many of the City's dark secrets. Banished, with the Outlaw Hunt on his heels, Kellen invokes Wild Magic—and finds himself running for his life with a unicorn at his side. Kellen's life changes almost faster than he can understand or accept. Rescued by a unicorn, healed by a female Wild Mage who knows more about Kellen than anyone outside the City should, meeting Elven royalty and Elven warriors, and plunged into a world where the magical beings he has learned about as abstract concepts are flesh and blood creatures-Kellen both revels in and fears his new freedom. Especially once he learns about Demons. He'd always thought they were another abstract concept-a stand-in for ultimate evil. But if centaurs and dryads are real, then Demons surely are as well. And the one thing all the Mages of the City agreed on was that practicing Wild Magic corrupted a Mage. Turned him into a Demon. Would that be Kellen's fate? Deep in Obsidian Mountain, the Demons are waiting. Since their defeat in the last great War, they've been biding their time, sowing the seeds of distrust and discontent between their human and Elven enemies. Very soon now, when the Demons rise to make war, there will be no alliance between High and Wild Magic to stand against them. And all the world will belong to the Endarkened.
