184 pages, 64 black & white illustrations, size 5.5 x 8.5 inches. Originally published by Lliffe & Sons of London UK in 1925, this is a faithful reproduction of the 8th impression 1962 Floyd Clymer U.S.A. Edition published under special arrangement with Lliffe. From its initial introduction in 1925 'Speed and How to Obtain It' subsequently progressed through a number of editions and impressions and ultimately became one of the best selling motorcycle 'tune up' books ever. The 'dated information' contained in this publication is considered valuable today by those enthusiasts interested in vintage motorcycle racing, tuning and modification. Consequently, this makes the 1962 8th impression the most complete and desirable edition of this book. While predominantly a technical work, it is written in terms easily understood by the layman. To paraphrase the author, "This book is intended for the man whose technical knowledge is not on a par with his skills as a mechanic." Obviously, the primary focus of this publication is on 1960's and prior British motorcycles. However, the reader is reminded that engineering theory and the laws of physics do not change and as such, much of the information is also applicable to the current crop of high revving imports. In addition, there is a comprehensive section on modifying the two-stroke engine for both street and competition work. 'Speed and How to Obtain It' is considered by many knowledgeable motorcycle enthusiasts to be one of the better books ever written on how to improve, modify and fine tune a vintage British motorcycle engine. Therefore, it is our pleasure to offer this reprint to vintage British motorcycle enthusiasts worldwide.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

A stunning chronicle of a youth movement as seen through the lens of Mike Blabac, a man as dedicated to his craft as he is to the skateboarding lifestyle that has inspired it. Skateboarding is more than a hobby, it is a way of life that shapes everything from music to fashion, video to art. 300 awe-inspring images communicate the stories of some of skateboarding's finest athletes including Eric Koston and Stevie Williams.

Never before printed as a stand-alone book, The Worsted Monster is a little-known play with illustrated sets, characters, and props created by Edward Gorey. This very limited edition (26 lettered copies for sale, with three out-of-series), a miniature book, is a three part set. The overall structure includes a carousel format (of the play's acts) and two slipcases: one houses the separately bound script and the other a portfolio of the illustrations and Gorey's production notes. The book slips into a multi-colored hand-knitted woolen band, laid in a woolen sock, and rests in a bookcloth and bonded leather covered box. The edition and its presentation was designed by Patrice Miller, and printed by Chris Miller, both of Aredian Press.

This is—for the first time—the full and unedited story behind the sick life and mysterious death of Jeffrey Epstein that is being called one of the most significant scandals in American history He was the billionaire financier and close confidant of presidents, prime ministers, movie stars and British royalty, the mysterious self-made man who rose from blue-collar Brooklyn to the heights of luxury. But while he was flying around the world on his private jet and hosting lavish parties at his private island in the Caribbean, he also was secretly masterminding an international child sex ring—one that may have involved the richest and most influential men in the world. The conspiracy of corruption was an open secret for decades. And then in the summer of 2019, it all came crashing down. After his arrest on sex trafficking charges in July 2019, it seemed Epstein’s darkest secrets would finally see the light. But hopes for true justice were shattered on August 10, when he was found dead in his cell at the Metropolitan Correctional Center, New York. The verdict: suicide. The timing: convenient, to say the least. Now, Epstein: Dead Men Tell No Tales delivers bombshell new revelations, uncovers how the man President Trump once described as a “terrific guy” abused hundreds of underage girls at his mansions in Palm Beach and Manhattan... all while entertaining the world’s most powerful men—including President Clinton, Prince Andrew, and Donald Trump himself. How much did they know about his perversions? And did they take part? How might they have helped him to continue his abuse, and to escape justice for it? What responsibility might they have for his sudden, shocking death? And is there a shocking spy and blackmail story at the heart of the scandal? The answers to these questions and more will be explored in Epstein: Dead Men Tell No Tales with groundbreaking new reporting, never-before-seen court files, and interviews with new witnesses and confidants. Combining the very best investigative reporting from investigative journalists Dylan Howard, Melissa Cronin and James Robertson—who have been covering the case for close to a decade—will send shockwaves through the highest levels of the establishment.

This is one of the most famous pieces of music ever written. There have been various arrangements done including several for orchestra, wind ensemble, brass quintet and now for 2 trumpets and organ. This version still utilizes the power and majesty of the organ but adds the brilliant sound of two trumpets above that sound. The organ pedal work has been greatly reduced to be more accessible to more organists and so that this arrangement could be learned more quickly by all. The trumpet parts are for 1 e-flat and 1 b-flat.

172 pages, and more than 140 illustrations and charts, size 8.25 x 10.75 inches. Owners of Norton Commando motorcycles are subjected to considerable confusion surrounding the selection of an appropriate workshop manual from the multitude of originals and reprints that have recently flooded the on-line marketplace. Many of the reprints found on internet websites are from 'bedroom sellers' at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality comb-bound photocopies that are scanned and printed complete with greasy pages and thumbprints and, as such, are deceptively described as 'pre-owned'. In addition, they are often advertised for the incorrect series and/or model years of motorcycles. The Norton Commando model range is especially subjected to incorrect identification by these 'bedroom sellers' and you are encouraged to read the paragraph below to help identify the correct manual for your model. During the 1968 to 1978 Commando model run there were 4 different manuals published by the factory: The original 52 page 750cc manual (part number 06-3062) is applicable to the 1968 to1970 models ONLY that were fitted with the external rev-counter drive and/or the Atlas style exhaust (refer to ISBN 9781588502421). This original manual was followed by part number 06-3419 which covers the 1970 to1973 750cc models ONLY. The next, and most comprehensive manual, part number 06-5146, was published in 1973 and the 850cc data was added making this manual applicable to the entire range of 750cc & 850cc models from 1970 to 1975. Finally, with the introduction of the electric start, left side gear change, rear disc brake Mark 3 models in 1975, a separate manual part number 00-4224 was published which is specific to the 1975 to 1978 MKIII 850cc series from engine no. 325001 & frame no. F125001. We are pleased to offer this reproduction of the Factory Workshop Manual 06-5146 to owners of the 1970 through 1975 models and we hope that the explanation above removes any doubt regarding which manual is correct for a particular series of Norton Commando model. Models and model years covered in this manual are: Interstate: 745cc 1972-1973 & 828cc 1973-1975 Roadster: 745cc 1970-1973 & 828cc 1973-1975 Hi-rider: 745cc 1971-1973 & 828cc 1973-1975 Interpol: 745cc 1970-1973 & 828cc 1973-1975 Fastback: 745cc 1970-1973 Fastback LR (Long Range): 745cc 1971-1972 S Type: (Scrambler) 745cc 1970 SS Type (Street Scrambler): 745cc 1970-1971 IMPORTANT: Owners of 1968-1970 750cc Commando models are directed to our workshop manual ISBN 9781588502421 and owners of the later MKIII models would require our 1975-1978 manual ISBN 9781588502445. VelocePress.com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product.

You've read the Jeffrey Epstein headlines, now get the full story. The world's bestselling author, James Patterson, has written the definitive book on the billionaire pedophile at the center of the newly unsealed federal sex crimes case. Jeffrey Epstein rose from humble origins into the New York City and Palm Beach elite. A college dropout with an instinct for numbers -- and for people -- Epstein amassed his wealth through a combination of access and skill. But even after he had it all, Epstein wanted more. That unceasing desire -- and especially a taste for underage girls --resulted in sexual-abuse charges, to which he pleaded guilty and received a shockingly lenient sentence. Included here are police interviews with girls who have alleged sexual abuse by Epstein, as well as details of the investigation against him.

BSA 'Service Sheets' Master Catalogue for All Models 1945 to 1967

More than 550 illustrations and charts, size 8.25x10.75 inches. In 1945, after the war had ended, BSA resumed production of their civilian line of motorcycles. However, they continued their pre-war practice of publishing repair, overhaul and technical information in the form of individual 'Service Sheets'. It should be noted that BSA never intended that these service sheets would be distributed to the general public, they were 'dealer only' publications and the print quality was at times somewhat questionable. It was not until the early 1960's that BSA eventually started publishing model specific workshop manuals that were available to the general public. Consequently, these 'Service Sheets' were the only publications available for the maintenance and repair of BSA models that were manufactured through the mid 1960's. The most complete compilation of the 1945 and onwards service sheets was issued by BSA in the form of a 'dealer only' ringbinder that contained 166 individual service sheets (516 pgs) for the entire range of 1945 thru 1967 motorcycles. It is extremely difficult to find. It is this ring-bound publication that was used to create this 'Service Sheets Master Catalogue'. It includes every service sheet issued/updated by BSA from 1945 until the Service Sheet program was discontinued in the mid 1960's, models covered are as follows: A7 & A10 1947-62 B31-B32-B33 and B34 1945-60 (Inc. Gold Star & competition models) C10-C10L-C11-C11G and C12 1945-58 C15-C15T-C15S-C15SS and B40 1958-67 D1-D3-D5 and D7 (Bantam) 1948-66 M20-M21 and M33 1945-63 Dandy 1956-62 At some point in the 1930's, BSA adopted the practice of identifying their various model types by 'groups' and the models manufactured from 1945 through the mid 1960's were in Groups A, B, C, D and M. The service sheets that were associated to a particular group were identified numerically and, while there were some exceptions due to overlapping data between models, in general terms the numbers relate to a particular model group. They are as follows: The 200 series of service sheets were applicable to Group A models, the 300 series to Group B, the 400 series to Group C, the 500 series to Group D and the 600 series to Group M. In addition, there were a 700 series applicable to mechanical maintenance and an 800 series for electronic service and wiring diagrams. Both the 700 and 800 series of service sheets contained information that was not model specific but was applicable across multiple model groups. Finally, there were a 900 series for the BSA Dandy and a 1000 series for the BSA Sunbeam and Triumph Tigress scooter. The 1000 series sheets were published under the generic title, 'Scooter Service Sheet'. These sheets did not display either company logo and they were never intended to be included in the ring-bound dealer album. Unfortunately, as these service sheets were issued individually and at random times, the numbering sequence within any group is, at times, illogical and not necessarily consecutive. Consequently, owners of BSA motorcycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of reprints that have recently flooded the online marketplace. Many of the reprints found on internet websites are from 'bedroom sellers' at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality comb-bound photocopies that are scanned and printed complete with greasy pages and thumbprints and are deceptively described as 'pre-owned', 'used' or even 'refurbished'! In addition, they are often advertised for the incorrect series and/or model years of motorcycles.

In this inspirational and humorous collection of essays, author John Dietsch sees his addiction to and passion for fishing as a parable that can help us shift from compulsive thinking to mindfulness and a closer connection to God. From creating fishing scenes on the set of A River Runs Through It in Montana, to directing fly fishing shows in New Zealand and from exploring deep canyons in California to guiding in Colorado, John shares his experiences and asks the question: what are we really fishing for? Through John's journeys across the globe, we discover that the same pursuit in fishing—of what is elusive but attainable—can be applied to our own spiritual journey. In the end, Dietsch uncovers his own truth under the rocks of a childhood river, recognizing the loss of both his brothers as the path of acceptance and faith that is graced by waters.

252 pages, and more than 240 illustrations and charts, size 8.25 x 10.75 inches. This publication is a faithful reproduction of the 1962-1965 BSA Factory Workshop Manual part number 00-4113 that covers the A50 (500cc) and A65 (650cc) unit-construction twins manufactured between August 1961 through the end of July 1965. It shows, for example, the 1962 models were released in August 1961, the 1963 models in August 1962 etc. This can, at times, cause confusion and the only sure method of determining 'what year is it?' is by the serial number. The various engine and frame numbers for the 1962 to 1965 unit-construction twins are shown in the table below. This is the first comprehensive critical study of the Organisation Todt (OT), a key institution which oversaw the Third Reich's vast slave labour programme together with the SS, Wehrmacht and industry. The book breaks new ground by revealing the full extent of the organisation's brutal and murderous operations across occupied Europe and the voice for camp survivors overseen by the OT, drawing on an extensive collection of personal accounts and analysing the violence they endured. Builders of the Third Reich shows Hitler used the OT, which had a labour force of around 1.5 million people in 1944, as an instrument of subjugation and occupation to project German imperial power. The book demonstrates how the organisation participated in the plunder of Europe's raw materials and manpower, greatly boosting the German war economy. The book reveals how OT staff shot, beat or worked tens of thousands of prisoners to death, both within the SS-run concentration camp system and outside it, with analysis of OT operations in the camps, prisoner death rates were extremely high. Examining how engineers and builders, individuals who fitted the category of 'ordinary men' as precisely as any other group so far examined by historians, perpetrated war crimes, this volume reflects on how few OT personnel were interrogated or came to trial and how the organisation passed on the general public.

When I started in magnetic recording nearly fifty years ago, it was easy to perceive the common sense of it. There was very little mathematics and every new finding was a source of wonder. I have tried to recapture this spirit with simple explanations, while maintaining a high density of information and covering the entire field. This book introduces a novice to magnetic recording and its many branches. It includes reference data for designers and users. Each chapter stands by itself; no prerequisites are essential. For a quick survey, the equations and worked out examples can be disregarded. The magnetic recording art is changing so rapidly that new advances are announced almost every month. These are properly covered by journal articles and manufacturers' catalogs. This book will fulfil its purpose if it gives a background for easily comprehending the new advances. I have included subjects and devices not found elsewhere, and some unconventional viewpoints. I would welcome comments from readers. To Jay McKnight I am deeply grateful for important suggestions and helpful comments. I appreciate also the help of BASF, John Boyers, Joseph Dundovic, Charles Ginsburg, Peter Hammar, Yasuo Imaoka, Hal Kaitchuk, Otto Kornei, Harold Miller, Jack Mullin, Jim Novak, Lenard Perlman, Carl Powell, Sidney Rubens, John Shennan, Shigeo Shima, Heinz Thiele, Yoshimi Watanabe and many others; and to my daughter Ruth for typing.
