For

For decades, Mark Juergensmeyer has been studying the rise of religious violence around the world, including

groups like ISIS and Christian militias that have been involved in acts of terrorism. Over the years he came to realize that war is the central image in the worldview of virtually every religious movement engaged in violent acts. Access Free Terror In The Mind Of God Global

Much of the current work on extremism in Pakistan tends to study extremist trends in the country from a detached position—a top-down security perspective, that renders a one-dimensional picture of what is at its heart a complex, richly textured country of 200 million people. In

Pakistanis ' own views
on terrorist groups, on

minorities and non-
Muslims, on America,
and on their place in

are not radical at first

with conspiracy
theories. Afzal
explains how the two
pillars that define the

Pakistani state–Islam and a paranoia about India–have led to a regressive form of Islamization in Pakistan ’ s narratives, laws, and curricula. These, in turn, have shaped its citizens ’ attitudes. Afzal traces this outlook to Pakistan ’ s unique and tortured birth. She examines the rhetoric
