Drawing on newspaper accounts, private correspondence, historical documents, and cookbooks, Thanksgiving brings to life the full history of the holiday and what it has meant to generations of Americans. Many famous figures walk these pages—Washington, who proclaimed our first Thanksgiving as a nation amid controversy about his Constitutional power to do so; Lincoln, who wanted to heal a divided nation sick of war when he called for all Americans—North and South—to mark a Thanksgiving Day; FDR, who set off a debate on state's rights when he changed the traditional date of Thanksgiving. *Late in 1755, an army of British regulars and Massachusetts volunteers completed one of the cruelest, most successful military campaigns in North American history, capturing and deporting seven thousand French-speaking Catholic Acadians from the province of Nova Scotia, and chasing an equal number into the wilderness of eastern Canada. Thousands of Acadians endured three decades of forced migrations and failed settlements that shuttled them to the coasts of South America, the plantations of the Caribbean, the frigid islands of the South Atlantic, the swamps of Louisiana, and the countryside of central France. Using documents culled from archives in France, Great Britain, Canada, and the United States, Christopher Hodson reconstructs the lives of Acadian exiles as they traversed oceans and continents, pushed along by empires eager to populate new frontiers with inexpensive, pliable white farmers. Hodson's compelling narrative situates the Acadian diaspora within the dramatic geopolitical changes triggered by the Seven Years' War. Faced with redrawn boundaries and staggering national debts, imperial architects across Europe used the Acadians to realize radical plans: tropical settlements without slaves, expeditions to the unknown southern continent, and, perhaps strangest of all, agricultural colonies within old regime France itself. In response, Acadians embraced their status as human commodities, using*
