The star of ABC’s "Shark Tank" demonstrates how starting a business on a shoestring can provide significant competitive advantages for entrepreneurs by forcing them to think creatively, use resources efficiently, and connect more authentically with customers. --Publisher’s description.

From the millionaire entrepreneur and New York Times bestselling author of The 10X Rule comes a bold and contrarian wake-up call for anyone truly ready for success. One of the 7 best motivational books of 2016, according to Inc. Magazine. Before Grant Cardone built five successful companies (and counting), became a multimillionaire, and wrote bestselling books... he was broke, jobless, and drug-addicted. Grant had grown up with big dreams, but friends and family told him to be more reasonable and less demanding. If he played by the rules, they said, he could enjoy everyone else ’ s version of middle class success. But when he tried it their way, he hit rock bottom. Then he tried the opposite approach. He said NO to the haters and naysayers and said YES to his burning, outrageous, animal obsession. He reclaimed his obsession with wanting to be a business rock star, a super salesman, a huge philanthropist. He wanted to live in a mansion and even own an airplane. Obsession made all of his wildest dreams come true. And it can help you achieve massive success too. As Grant says, we’re in the middle of an epidemic of average. The conventional wisdom is to seek balance and take it easy. But that has really just given us an excuse to be unexceptional. If you want real success, you have to know how to harness your obsession to rocket to the top. This book will give you the inspiration and tools to break out of your cocoon of mediocrity and achieve your craziest dreams. Grant will teach you how to: · Set crazy goals—and reach them, every single day. · Feed the beast: when you value money and spend it on the right things, you get more of it. · Shut down the doubters—and use your haters as fuel. Whether you’re a sales person, small business owner, or 9-to-5 working stiff, your path to happiness runs through your obsessions. It’s a simple choice: be obsessed or be average.

SUMMARY - The 10X Rule: The Only Difference Between Success And Failure By Grant Cardone

An inventive story collection that spans the globe as it explores love, childhood, and parenthood with an electric mix of humor and emotion. Acclaimed for the grace, wit, and magic of her novels, Ramona Ausubel introduces us to a geography both fantastic and familiar in eleven new stories, some of them previously published in The New Yorker and The Paris Review. Elegantly structured, these stories span the globe and beyond, from small-town America and sunny Caribbean islands to the Arctic Ocean and the very gates of Heaven itself. And though some of the stories are steeped in mythology, they remain grounded in universal experiences: loss of identity, leaving home, parenthood, joy, and longing. Crisscrossing the pages of Awayland are travelers and expats, shadows and ghosts. A girl watches as her homesick mother slowly dissolves into literal mist. The mayor of a small Midwestern town offers a strange prize, for stranger reasons, to the parents of any baby born on Lenin's birthday. A chef bound for Mars begins an even more treacherous journey much closer to home. And a lonely heart searches for love online--never mind that he's a Cyclops. With her signature tenderness, Ramona Ausubel applies a mapmaker's eye to landscapes both real and imagined, all the while providing a keen guide to the wild, uncharted terrain of the human heart.

"To some extent this book isn't about how to think at all. Many of the Rules are about how to remove the barriers that get in the way of good, clear thinking. How to avoid self-interest, sidestep assumption, dodge the pitfalls. Once you do that, it's easy to think clearly. It would be implausibly convenient if there just happened to be exactly 100 Rules of Thinking. So these are the key 100, which are more than enough to change your thought patterns significantly for the better. Once you've mastered these Rules, you'll be much better placed to notice more of your own. Please feel free to share them on my Facebook page if you'd like to, and help other people join you as a fully-fledged Rules thinker"--

The 10X Rule by Grant Cardone: Conversation Starters Grant Cardone has spent many years studying successful and unsuccessful people in order to better understand success and how it can be achieved. He says most people agree about the main aspects of success-setting goals, having discipline, managing your time, etc-but he wanted to know if there was "one thing" that can make the difference between success and failure. This questioning is what led to his creation of the 10X Rule, which, of course, is the basis for his latest book, The 10X Rule: The Only Difference between Success and Failure. Brian Tracy, bestselling author of over 45 books, said Grant Cardone "hit the nail on the head" when it comes to revealing the reason people are successful in life. A Brief Look Inside: EVERY GOOD BOOK CONTAINS A WORLD FAR DEEPER than the surface of its pages. The characters and their world come alive, and the characters and its world still live on. Conversation Starters is peppered with questions designed to bring us beneath the surface of the page and invite us into the world that lives on. These questions can be used to... Create Hours of Conversation: - Promote an atmosphere of discussion for groups - Foster a deeper understanding of the book - Assist in the study of the book, either individually or corporately - Explore unseen realms of the book as never seen before Disclaimer: This book you are about to enjoy is an independent resource meant to supplement the original book. If you have not yet read the original book, we encourage you to before purchasing this unofficial Conversation Starters.

In many jobs people work their way up through a hierarchy, an experience that prepares them for managing a team. In some professions, such as law, finance, accountancy, academia, engineering, education and healthcare, individuals may find themselves managing a team of equals. This book uses 50 simple lessons to show the reader in concise, pithy prose how to manage a team of equals with intelligence and diplomacy. Each lesson features a short introduction and example from the authors' experience, showing you how skills can be acquired. These are then followed by 6-10 action points to implement immediately. Core leadership skills are reevaluated for the leader of a smart team. The book teaches you core skills such as decision making and delegating, but also soft skills such as delivering good and bad news to team members and how to realise more general aims such as building trust and growing your team. The authors also offer advice on how to look after yourself as a team leader, how to build resilience in tough situations, but also how to develop creativity and extend your skill base so that you are constantly learning.

In a perfect corporate world, intellect, hard work, and professionalism would be recognized and rewarded regardless of the color of your skin. Kenneth Arroyo Roldan is here to tell you that nobody works in a perfect corporate world. Stellar performance alone will not determine corporate advancement—minorities need to learn and follow the rules of corporate politics. As one African American employee who started as a systems analyst at Xerox observed, "The reality was that despite your ability, if you weren't playing politics correctly, you would be derailed." In Minority Rules, Roldan gives a dose of tough love to minorities in corporate America while educating their majority counterparts. As the CEO of the top U.S. head-hunting firm specializing in placing minorities in fast track jobs, Roldan watched as minority superstars hired at Fortune 500 companies bailed out, disappointed and rejected after only a few years. The problem, Roldan says, is that minorities are not adequately prepared psychologically or culturally for corporate careers. In a six-step plan, he explains how to surmount the obstacles, play corporate hardball, and succeed as a minority in the workplace. Corporate culture is unforgiving to minorities, but it is possible to rise to the top with Roldan as your guide. With refreshing candor, Roldan prepares minorities both psychologically and culturally for corporate careers. Forget about using affirmative action and discrimination lawsuits to level the playing field. The only way to win is to know the landscape and master the rules of the game—from finding the right mentor to learning the art of networking to focusing on self-reliance, patience, and most of all, performance. Roldan shows minorities how to climb to the top jobs—and keep them.

Ian Whitworth built national companies from nothing. Coronavirus hammered some of them flat. Yet he's fine with that. Because when the chaos is swirling and shit is getting real, there's opportunity. Now is the time to put yourself in control - where no boss or virus can take you down. So many talented people want to give it a shot, yet they're held back by the big business myths. But success is simpler than your crusty CEO wants you to think. Ian built his businesses on simple rules, Year 6 maths, basic decency and no jargon. It generated profits that made the bank people say: 'We've never seen anything like this before.' Ian's advice is so readable that many of his readers have no interest in commerce, they just like his dry humour and guidance on living a better life. He takes you step-by-step through the whole entrepreneur experience, from the day you open the doors through to when you pay others to run the place for you. There are 60 short and often surprising chapters in the trademark style of his popular 'Motivation for Sceptics' blog, from 'Your Success Goals Are Built on Lies' to 'Business Whack-A-Mole Skills' and 'Remote Work Sucks Unless You're Old'. Whether you're running your own business, leading someone else's or freelancing, Undisruptable is the only handbook you need. And one you'll actually enjoy reading to the end.

The 10X Rule The Only Difference Between Success and Failure by Grant Cardone NOTE: This is a book summary. About Making big promises is what Grant Cardone does. So it comes as no surprise when he tells us that his 10X rule will guarantee success beyond our wildest dreams. But this is not some cheap gimmick or shortcut. The 10X Rule requires you to rethink everything you thought you knew about business and life management. Cardone is on a mission to help people bust out of the confines of "average" "normal" and "practical". In order to achieve the massive results he promises, you must be prepared to start taking massive action. This means setting sky-high goals and busting your butt to reach them. It means doing 10 times more than your colleagues and competitors, in order to not only rise above, but set the example for all others to follow. The big ideas from this book will also teach you how to banish fears, excuses and procrastination by showing you how to assume control over all aspects of your life, even the things you imagine are beyond your control. Cardone will show you how to say goodbye to being a victim of circumstance, and say hello to becoming the master of your life. Here's what you'll learn about in this summary: Why setting your targets at seemingly impossible high levels is the necessary first step towards beginning to take massive action. Why you need to assume responsibility for everything in your life - even situations that seem entirely down to bad luck - hurricanes, bad economy, illness, etc. Why it is crucial that you are prepared to overcommit and then obsess about following through.
