Mary Kristerie A. Baleva's *Regaining Paradise Lost: Indigenous Land Rights and Tourism* uses the UN Guiding Principles on Business and Human Rights as its overarching legal framework to analyze the intersections of indigenous land rights and the tourism industry. Drawing from treatises, treaties, and case law, it traces the development of indigenous rights discourse from the Age of Discovery to the adoption of the UN Declaration on the Rights of Indigenous Peoples. The book highlights the Philippines, home to a rich diversity of indigenous peoples, and a country that considers tourism as an important contributor to economic development. It chronicles the Ati Community's 15-year struggle for recognition of their ancestral domains in Boracay Island, the region's premiere beach destination.

The growing economic and political significance of Asia has exposed a tension in the modern international order. Despite expanding power and influence, Asian states have played a minimal role in creating the norms and institutions of international law; today they are the least likely to be parties to international agreements or to be represented in international organizations. That is changing. There is widespread scholarly and practitioner interest in international law at present in the Asia-Pacific region, as well as developments in the practice of states. The change has been driven by threats as well as opportunities. Transnational issues such as climate change and occasional flashpoints like the

the territorial disputes of the South China and the East China Seas pose challenges while economic integration and the proliferation of specialized branches of law and dispute settlement mechanisms have also encouraged greater domestic implementation of international norms across Asia. These evolutions join the long-standing interest in parts of Asia (notably South Asia) in post-colonial theory and the history of international law. The Oxford Handbook of International Law in Asia and the Pacific brings together pre-eminent and emerging specialists to analyse the approach to and influence of key states of the region, as well as whether truly 'Asian' trends can be identified and what this might mean for international order. democracy, one of the oldest in the Asian region, vis-à-vis Habermasian critical theory. Proceeding from a concise examination of the theory of law and democracy found in Habermas's *Between Facts and Norms*, Ranilo Balaguer Hermida explains how the law occupies the central role in both the legitimation of political power and the attainment of social integration. He then discusses how Habermas proposes to resolve the tension that exists in modern society between democratic norms and social facts, through the adoption of a lawmaking procedure whereby the informal sources of issues and opinions from the public sphere are allowed to develop and interact with the formal deliberations and decision processes inside the political system. He also explores certain provisions of the present Philippine Constitution that were expressly intended to restore democratic institutions and processes destroyed by decades of martial law, as well as the problems and hindrances that stand in the way of their full implementation.

"*Imagining Modern Democracy* presents a clear and convincing application of philosophical theory to practical politics. Hermida, using Habermas's theoretical reflections on law and democracy, provides a basis for understanding democratic practice in the Philippines. The book is essential reading for those interested in both Habermas's work and its implications for emerging constitutional democracies." – David M. Rasmussen, Editor-in-

Islam and the 1987 Philippine Constitution

Twenty-five years after its ratification, the 1987 Constitution of the Philippines has survived serious attempts to change it during several presidencies. Why were there attempts and why did they fail? What are the available options to explore Charter Change? What is a systematic way to explore and pursue it? These and more questions are examined and answered in this book.

The most authoritative international law documents in Philippine history are brought together in one book for the first time. These are primary materials that illuminate Philippine interpretations of international law doctrine.
