The Amazing Animal Atlas

Animal Planet's definitive atlas of animal life takes readers on a continent-by-continent and habitat-by-habitat passport to adventure! Meet fierce snow leopards in the Tibetan mountains, giant helicopter damselflies in the rain forests of Central America, majestic eagles in the temperate forests of North America, and hundreds more fascinating creatures. What is a habitat? How is the North Pole's animal life different from the South Pole's? How and why do animals adapt to their environment? Is a food web different from a food chain? Animal Planet Animal Atlas answers all these questions and more in a

Read Book The Amazing Animal Atlas

kid-friendly, accessible format that young readers, parents, teachers, and librarians will adore. Through illustrated maps of every continent and its major biomes, full-color photographs of more than 200 animals, and illustrated animal travel guides presenting fun animal trivia, readers can track their favorite animals across the globe while learning about how animal habitats are affected by climate, food and water availability, migration, and human environmental impact. Additional special features throughout the book point out ways in which many animals on our planet share characteristics or behaviors with humans. "ROAR" sidebars discuss conservation and animal rescue efforts around the globe.

Read Book The Amazing Animal Atlas

find out fun facts about their natural environment. Kids will discover animals like: CHIMPANZEE, African Rainforests--Chimpanzees live in trees and grasslands. Like other apes, they are highly intelligent. They also laugh when they're playing! TARANTULA, Central America--Tarantulas are large spiders. They have eight legs like other spiders, but they do not spin webs. Instead, they live in an underground burrow. SIBERIAN CHIPMUNK, Northern Asia--Like all chipmunks, a Siberian chipmunk has stripes along its back. It also has cheek pouches that carry food--kind of like grocery bags! BELUGA WHALE, Arctic Ocean--This white whale produces all sorts of sounds and has a thick layer of fat under its skin, called blubber. Encourage kids' passion for the natural world with this entertaining choice in educational animal books for kids.
