The stories in the Thousand and One Nights, or the Arabian Nights, are familiar to many of us: from the tales of Aladdin, Sinbad the Sailor, Ali Baba and his forty thieves, to the framing story of Scheherazade telling these stories to her homicidal husband, Shahrayar. This book offers a rich and wide-ranging analysis of the power of this collection of tales that penetrates so many cultures and appeals to such a variety of predilections and tastes. It also explores areas that were left untouched, like the decolonization of the Arabian Nights, and its archaeologies. Unique in its excavation into inroads of perception and reception, Muhsin J. al-Musawi's book unearths means of connection with common publics and learned societies. Al-Musawi shows, as never before, how the Arabian Nights has been translated, appropriated, and authenticated or abused over time, and how its reach is so expansive as to draw the attention of poets, painters, illustrators, translators, editors, musicians, political scientists like Leo Strauss, and novelists like Michel Butor, James Joyce and Marcel Proust amongst others. Making use of documentaries, films, paintings, novels and novellas, poetry, digital forums and political jargon, this book offers nuanced understanding of the perennial charm and power of this collection. Alf layla wa layla (known in English as A Thousand and One Nights or The Arabian Nights) changed the world on a scale unrivalled by any other literary text. Inspired by a fourteenth-century Syrian manuscript, the appearance of Antoine Galland's twelve-volume Mille et Une Nuits in English translation (1704-1717), closely followed by the Grub Street English edition, drew the text into European circulation. Over the following three hundred years, a widely heterogeneous series of editions, compilations, translations, and variations circled the globe to reveal the absorption of The Arabian Nights into English, Continental, and global literatures, and its transformative return to modern Arabic literature, where it now enjoys a degree of prominence that it had never attained during the classical period. Beginning with a thorough introduction situating The Arabian Nights in its historical and cultural contexts-and offering a fresh examination of the text's multiple locations in the long history of modern Orientalism-this collection of essays by noted scholars from 'East', 'West', and in-between reassesses the influence of the Nights in Enlightenment and Romantic literature, as well as the text's vigorous after-life in the contemporary Arabic novel.

Almost three centuries have passed since the oldest manuscript of "The Thousand and One Nights" arrived in Europe. Since then, the "Nights" have occupied the minds of scholars world-wide, in particular the questions of origin, composition, language and literary form. In this book, Muhsin Mahdi, whose critical edition of the text brought so much praise, explores the complex literary history of the "Nights," bringing to fruition the search for the archetype that constituted the core of the surviving editions, and treating the fascinating story of the growth of the collection of stories that we now know as "The Thousand and One Nights,"

A magnificent and richly illustrated volume?with a groundbreaking translation framed by new commentary and hundreds of images—of the most famous story collection of all time. A cornerstone of world literature and a monument to the power of storytelling, the Arabian Nights has inspired countless authors, from Charles Dickens and Edgar Allan Poe to Naguib Mahfouz, Clarice Lispector, and Angela Carter. Now, in this lavishly designed and illustrated edition of The Annotated Arabian Nights, the acclaimed literary historian Paulo Lemos Horta and the brilliant poet and translator Yasmine Seale present a splendid new selection of tales from the Nights, featuring treasured original stories as well as later additions including “Aladdin and the Wonderful Lamp” and “Ali Baba and the Forty Thieves,” and definitively bringing the Nights out of Victorian antiquarianism and into the twenty-first century. For centuries, readers have been haunted by the homicidal King Shahriyar, thrilled by gripping tales of Sinbad’s seafaring adventures, and held utterly, exquisitely captive by Shahrazad’s stories of passionate romances and otherworldly escapades. Yet for too long, the English-speaking world has relied on dated translations by Richard Burton, Edward Lane, and other nineteenth-century adventurers. Seale’s distinctly contemporary and lyrical translations break decisively with this masculine dynasty, finally stripping away the deliberate exoticism of Orientalist renderings while reclaiming the vitality and delight of the stories, as she works with equal skill in both Arabic and French. Included within are famous tales, from “The Story of Sinbad the Sailor” to “The Story of the Fisherman and the Jinni,” as well as lesser-known stories such as “The Story of Dalila the Crafty,” in which the cunning heroine takes readers into the everyday life of merchants and shopkeepers in a crowded metropolis, and “The Story of the Merchant and the Jinni,” an example of a ransom frame tale in which stories are exchanged to save a life. Grounded in the latest scholarship, The Annotated Arabian Nights also incorporates the Hanna Diyab stories, for centuries seen as French forgeries but now acknowledged, largely as a result of Horta’s pathbreaking research, as being firmly rooted in the Arabic narrative tradition. Horta not only takes us into the astonishing twists and turns of the stories’ evolution. He also offers comprehensive notes on just about everything readers need to know to appreciate the tales in context, and guides us through the origins of ghouls, jinn, and other supernatural elements that have always drawn in and delighted readers. Beautifully illustrated throughout with art from Europe and the Arab and Persian world, the latter often ignored in English-language editions, The Annotated Arabian Nights expands the visual dimensions of the stories, revealing how the Nights have always been—and still are—in dialogue with fine artists. With a poignant autobiographical foreword from best-selling novelist Omar El Akkad and an illuminating afterword on the Middle Eastern roots of Hanna Diyab’s tales from noted scholar Robert Irwin, Horta and Seale have created a stunning edition of the Arabian Nights that will enchant and inform both devoted and novice readers alike.

This book successfully defies the view that The Thousand and One Nights is not worthy of serious literary debate.

At a time of violent fundamentalism, however, this is a dangerous proposition. Even the illustrious circle of artists are not allowed to know for whom they are working. The Arabian Nights Andrew Lang - One Thousand and One Nights is a collection of stories collected over many centuries by various authors, translators and scholars in various countries across the Middle East and South Asia. These collections of tales trace their roots back to ancient Arabia and Yemen, ancient Indian literature and Persian literature, ancient Egyptian literature and Mesopotamian mythology, ancient Syria and Asia Minor, and medieval Arabic folk stories from the Caliphate era. Though the oldest Arabic manuscript dates from the fourteenth century, scholarship generally dates the collection's genesis to somewhere between AD 800900.

A groundbreaking translation--along with new commentary and hundreds of images--enhances this celebratory publication of the most famous story collection of all time.

In The Thousand and One Nights and Twentieth-Century Fiction, Richard van Leeuwen challenges conventional perceptions of the development of 20th-century prose by arguing that Thousand and One Nights, as an intertextual model, has been a crucial influence on authors who have contributed to shaping the main literary currents in 20th-century world literature, inspiring new forms and concepts of literature and texts.

The essays in this volume scrutinize the expanse of sources for The Arabian Nights or The Thousand and One Nights in all of their static and dynamic complexity. They follow the trajectory of the Nights ’ texts, the creative, scholarly commentaries, artistic encounters and relations to science.

1001 Arabian Nights - The Complete Adventures of Sindbad, Aladdin and Ali Baba - Special Edition

"The Arabian Nights" has become a synonym for the fabulous and the exotic. Every child is familiar with the stories of Aladdin, Sinbad the Sailor and Ali Baba. Yet very few people, even specialists in oriental literature, have a clear idea of when the book was written or what exactly it is. Far from being a batch of stories for children, "The Arabian Nights" contains hundreds of narratives of all kinds - fables, epics, erotica, debates, fairy tales, political allegories, mystical anecdotes and comedies. It is a labyrinth of stories within stories. Widely held in contempt in the Middle East for its frivolity and occasional obscenity, the work has nevertheless had a major influence on European and American culture, to the extent that the story collection must be considered as a key work in Western literature. A full understanding of the writings of Voltaire, Dickens, Melville, Proust and Borges, or indeed of the origins of science fiction, is impossible without some familiarity with the stories of the "Nights". This companion aims to guide the reader into this labyrinth of storytelling. It traces the development of the stories from prehistoric India and Pharaonic Egypt to modern times, and explores the history of translation and imitation. Above all, it uses the stories as a guide to the social history and counter-culture of the medieval Near East and the world of the storyteller, the snake charmer, the burglar, the sorcerer, the drug-addict, the treasure hunter and the adulterer. The author continues his account of his adopted home of Morocco, exploring the tradition of the spiritual quest in terms of his own journey of self-discovery and his father's legacy of storytelling as he reveals Morocco's history, mystical beliefs, and culture.

Classic stories and dazzling illustrations of princesses, kings, sailors, and genies come to life in a stunning retelling of the Arabian folk tales from One Thousand and One Nights and other collections, including those of Aladdin, Sinbad the Sailor, and Ali Baba and the Forty Thieves. The magical storytelling of award-winning author Donna Jo Napoli dramatizes these timeless tals and ignites children's imaginations.

Selections from the over 600 stories which, according to legend, Shaharazad told a mighty king as a way to save the lives of the girls of her land. Includes stories of the voyages of Es-Sindibad, the magic horse, the wonderful lamp, and Ali Baba and the thieves.

Stories of Adventure, Magic, Love, and Betrayal

Every night for three years the vengeful King Shahriyar sleeps with a different virgin, executing her next morning. To end this brutal pattern and to save her own life, the vizier's daughter, Shahrazad, begins to tell the king tales of adventure, love, riches and wonder - tales of mystical lands peopled with princes and hunchbacks, the Angel of Death and magical spirits, tales of the voyages of Sindbad, of Ali Baba's outwitting a band of forty thieves and of jinnis trapped in rings and in lamps. The sequence of stories will last 1,001 nights.

Captain Sir Richard Francis Burton KCMG FRGS (1821-1890) was an English explorer, translator, writer, soldier, orientalist, ethnologist, linguist, poet, hypnotist, fencer and diplomat. He was known for his travels and explorations within Asia and Africa as well as his extraordinary knowledge of languages and cultures. According to one count, he spoke 29 European, Asian, and African languages. He was a captain in the army of the East India Company serving in India. Following this he was engaged by the Royal Geographical Society to explore the east coast of Africa and led an expedition guided by the locals which discovered Lake Tanganyika. His best-known achievements include travelling in disguise to Mecca, making an unexpurgated translation of The Book of One Thousand Nights and a Night. Burton was considered a controversial figure in his day; many considered him a hero, others jealous of his achievements called him a scoundrel. Burton remains possibly the greatest explorer ever because of his remarkable research and uncensored documentation of the lifestyles of the various cultures he encountered in his adventures.

Including "Ali Baba and the Forty Thieves," and "Aladdin and the Magic Lamp," this modern edition of the classic tales weaves a beautiful tapestry of stories that are filled with humorous and valuable lessons and magical adventures. Reissue.

Inspired by tales of Sinbad, Aladdin, Ali Baba, and other exotic characters, this original collection features more than 185 color and black-and-white images by acclaimed artists from the Golden Age of Illustration.

This work comprises a literary comparison of surviving alternative versions of selected narrative-cycles from the “Nights.” Pinault draws on the published Arabic editions - especially Bulaq, MacNaghten, and the fourteenth-century Galland text recently edited by Mahdi - as well as unpublished Arabic manuscripts from libraries in France and North Africa. The study demonstrates that significantly different versions have survived of some of the most famous tales from the “Nights.” Pinault notes how individual manuscript redactors employed - and sometimes modified - formulaic phrases and traditional narrative topoi in ways consonant with the themes emphasized in particular versions of a tale. He also examines the redactors’ modification of earlier sources - Arabic chronicles and Islamic religious treatises, geographers’ accounts and medieval legends - for specific narrative goals. Comparison of the narrative structure of diverse story-collection also sheds new light on the relationship of the embedded subordinate-narrative to the overarching frame-tale. All cited passages from the “Nights” and other Arabic story- collections have been fully translated into English.

The final volume of The Cambridge History of Arabic Literature explores the Arabic literary heritage of the little-known period from the twelfth to the beginning of the nineteenth century. Even though it was during this time that the famous Thousand and One Nights was composed, very little has been written on the literature of the period generally. In this volume Roger Allen and Donald Richards bring together some of the most distinguished scholars in the field to rectify the situation. The volume is divided into parts with the traditions of poetry and prose covered separately within both their 'elite' and 'popular' contexts. The last two sections are devoted to drama and the indigenous tradition of literary criticism. As the only work of its kind in English covering the post-classical period, this book promises to be a unique resource for students and scholars of Arabic literature for many years to come.

1001 Arabian Nights is a beloved collection of folk tales and other stories. It is often known in English as Arabian Nights, from the first English language edition (1706), which named the title, Arabian Nights Entertainments. Originally, there were 12 volumes published, totaling more than 2,000 pages. This full sized paperback edition has been restored for a modern audience, and contains the 3 most popular and well known sagas from Arabian Nights, including the complete Seven Voyages of Sindbad, Aladdin and the Magic Lamp, as well as Ali Baba and the Forty Thieves. Excerpt from The Fifth Voyage of Sindbad Reprinted by permission. All rights reserved Scarcely had they finished their repast, when there appeared in the air, at a considerable distance, two great clouds. The captain of my ship, knowing by experience what they meant, said they were the male and female parents of the roc, and pressed us to re-embark with all speed, to prevent the misfortune which he saw would otherwise befall us. The two rocs approached with a frightful noise, which they redoubled when they saw the egg broken, and their young one gone. They flew back in the direction they had come, and disappeared for some time, while we made all the sail we could in the endeavor to prevent that which unhappily befell us. They soon returned, and we observed that each of them carried between its talons an enormous rock. When they came directly over my ship, they hovered, and one of them let go his rock; but by the dexterity of the steersman it missed us and fell into the sea. The other so exactly hit the middle of the ship as to split it into pieces. The mariners and passengers were all crushed to death or fell into the sea. I myself was of the number of the latter; but, as I came up again, I fortunately caught hold of a piece of the wreck, and swimming, sometimes with one hand and sometimes with the other, but always holding fast the plank, the wind and the tide favoring me, I came to an island, and got safely ashore. I sat down upon the grass, to recover myself from my fatigue, after which I went into the island to explore it. It seemed to be a delicious garden. I found trees everywhere, some of them bearing green and others ripe fruits, and streams of fresh pure water. I ate of the fruits, which I found excellent; and drank of the water, which was very light and good.

Tales from the Arabian Nights is one of the oldest continuously circulated collections of shorts stories in the world. It consists of well-known Arabic folk tales penned during the Islamic Golden Age, including "Aladdin's Lamp," "Ali Baba and the Forty Thieves," "The Three Apples," "The Seven Voyages of Sinbad the Sailor," and many more. Since their origins they have inspired countless adaptations, most notably the Disney film Aladdin. The stories begin with one of the earliest female protagonists in literature, Scheherazade, who is set to be executed by an evil Arabian king. The book highlights the incredible adventure stories she tells to the king each night, and how she purposefully ends them on cliffhangers in order to peak his interest and survive the next morning. These exciting tales, with their languid prose and wild adventures, form the basis of the book and its narrative arc. Accompanying these timeless short stories are stunning, vintage illustrations by renowned artist Milo Winter, only enhancing their glow and adding to their magic.

Maxfield Parrish was the greatest illustrator of his day, and his illustrations are some of the best in the Nights tradition.
