

The Artifacts Of Power

*The stars have gone... Long dormant relics bask in the light of a hundred comets, restoring magics of a previous age. Objects inert for eons become dangers and tools no one can ignore. The use of these artifacts will put everything at risk; all the while providing the greatest opportunity for human advancement in history. No matter what happens to the people of Godsland, the dragons have plans of their own. The Fifth Magic is Book Seven of the Godsland Series This epic fantasy series includes: The Dawning of Power trilogy: Call of the Herald (*Free ebook), Inherited Danger, Dragon Ore The Balance of Power trilogy: Regent, Feral, Regal The Artifacts of Power trilogy: The Fifth Magic, Dragonhold, The Seventh Magic Dragon Airways Onin Ascension PRAISE FOR THE WORLD OF GODSLAND EPIC FANTASY SERIES: "I have ripped through the first three books in this series, and I'm hooked." - Keith Hughes via Goodreads "The story line is easy to follow and is exciting also very consistent through out all of the books." - Joan Wiffen via Google Play Books "Loved it! Using the artifact’s power to steal the necessary armaments to crush the South African Army’s ill-prepared response, only the small contingent of Americans and Russians with their own artifacts can stop them, if they arrive in time.*

*A conceptual update of affordance theory that introduces the mechanisms and conditions framework, providing a vocabulary and critical perspective. Technological affordances mediate between the features of a technology and the outcomes of engagement with that technology. The concept of affordances, which migrated from psychology to design with Donald Norman's influential 1988 book, The Design of Everyday Things, offers a useful analytical tool in technology studies—but, Jenny Davis argues in How Artifacts Afford, it is in need of a conceptual update. Davis provides just such an update, introducing the mechanisms and conditions framework, which offers both a vocabulary and necessary critical perspective for affordance analyses. The mechanisms and conditions framework shifts the question from what objects afford to how objects afford, for whom, and under what circumstances. Davis shows that through this framework, analyses can account for the power and politics of technological artifacts. She situates the framework within a critical approach that views technology as materialized action. She explains how request, demand, encourage, discourage, refuse, and allow are mechanisms of affordance, and shows how these mechanisms take shape through variable conditions—perception, dexterity, and cultural and institutional legitimacy. Putting the framework into action, Davis identifies existing methodological approaches that complement it, including critical technocultural discourse analysis (CTDA), app feature analysis, and adversarial design. In today's rapidly changing sociotechnical landscape, the stakes of affordance analyses are high. Davis's mechanisms and conditions framework offers a timely theoretical reboot, providing tools for the crucial tasks of both analysis and design. Epic Fantasy Series - Power is back and no one is prepared... Echoes of the ancients' power are distant memories, tattered and faded by the passage of eons, but that is about to change. A new dawn has arrived. Latent abilities, harbored in mankind's deepest fibers, wait to be unleashed. Ancient evils awaken, and old fears ignite the fires of war. In times such as these, ordinary people have the power to save the world . . . or destroy it. Epic Fantasy Bundle: Books 1-9

Ancient China and its Eurasian Neighbors

The Golden Dragon

This volume examines the role of objects in the region north of early dynastic state centers, at the intersection of Ancient China and Eurasia, a large area that stretches from Xinjiang to the China Sea, from c.3000 BCE to the mid-eighth century BCE. This area was a frontier, an ambiguous space that lay at the margins of direct political control by the metropolitan states, where local and colonial ideas and practices were reconstructed transculturally. These identities were often merged and displayed in material culture. Types of objects, styles, and iconography were often hybrids or new to the region, as were the tomb assemblages in which they were deposited and found. Patrons commissioned objects that marked a symbolic vision of place and person and that could mobilize support, legitimize rule, and bind people together. Through close examination of key artifacts, this book untangles the considerable changes in political structure and cultural makeup of ancient Chinese states and their northern neighbors.

Once there were four magical weapons, fashioned to be used only by the Magefolk, but their history has been lost, together with the artefacts themselves, in the Cataclysm which wrought changes on land and water alike. Now Aurian, child of renegade Mages, joins the Academy to train as a full Mage.

Baby-boomers, this book is for YOU! Hippie artifacts are a potential goldmine today. Abundant undiscovered material still lies in attics and basements from the 1965 to 1973 era. Many of these items are scarce today because they were made in limited quantities and were not considered worth keeping. This pictorial review of a counter culture demonstrates its significant impact on society then and now. 540 color photographs show thousands of items that reflect Peace and Love, protest causes, folk art, psychedelic images, the crash pad, Flower Power, and the headshop, as well as toys and novelties, the specialized wardrobes, literature, and especially music and entertainment of the hippie genre. Nostalgic for many and eye-popping for all, this collection will recall and immortalize the "far out, progressive, activist" music, happenings, and underground movie and coffee houses of the time. Children of baby-boomers will look at this book and howl "old hippie!" Current market values are in the captions.

Following the success of the Harry Potter Colouring Book and the Harry Potter: Magical Creatures Colouring Book, the Harry Potter: Artifacts Colouring Book is packed with even more stunning pieces of artwork from the Warner Bros. archive, giving fans the chance to continue to colour J.K. Rowling’s wizarding world. Containing intricate line drawings used in the making of the Harry Potter films, this colouring book includes all of the iconic, beautiful & bizarre artifacts that feature in the series, from the Golden Snitch to the items of the Deathly Hallows. Unique and interactive, Harry Potter: Artifacts Colouring Book is a great addition to this fantaststic colouring series, and a perfect collector's item for fans of the blockbuster saga.

"Alderman's writing is beautiful, and her intelligence seems almost limitless. She also has a pitch-dark sense of humor that she wields perfectly." --Michael Schaub, NPR
In THE POWER, the world is a recognizable place: there's a rich Nigerian boy who lounges around the family pool; a foster kid whose religious parents hide their true nature; a politician; a tough London girl from a tricky family. But then a vital new force takes root and flourishes, causing their lives to converge with devastating effect. Teenage girls now have immense physical power--they can cause agonizing pain and even death. And, with this small twist of nature, the world drastically resets. From award-winning author Lauren Beukes, THE POWER is a speculative fiction at its most ambitious and provocative, at once taking us on a thrilling journey to an alternate reality, and exposing our own world in bold and surprising ways.

The world was in ruin, corrupted by a powerful being using magical artifacts to shape the planet as his own. His plans were derailed when a certain Phantom arrived, stopped him and locked the magic away. Then another dark power stole the artifacts and once more, the power fell into the wrong hands. Riley Clark, an eighth grader who saved the world from the Phantom, is back in the present day, must now don the task of becoming the next Phantom. As a Phantom, she must recapture and secure all the unstable magic artifacts before the evil forces seal Riley and the world's fate.

The greatest tales of epic fantasy sometimes begin with a humble little bauble: a gem with mysterious powers, an amulet with a terrible curse ... or a ring that renders the wearer invisible. As the story goes on, though, these amazing items gradually reveal the full extent of their powers--and, often, the true nature of their destinies. Continuing the tradition of The Artifacts of the Ages: Swords and Staves, this book presents magic gems and jewelry that grow in power as wielders advance in level, allowing you to introduce artifact-caliber magic items to your campaign without giving the player characters too much power too early. Artifacts of the Ages: Rings provides gamemasters with rules for no-bracelets, crowns, gems, and other such items of extraordinary power. Artifacts of the Ages: Rings is the second in a series of innovative sourcebooks examining new ways to treat magic items in fantasy d20 System campaigns.

How much wizard power is too much? Some people are born with magical powers. Others are not. It's that simple. Roland Tyre, High Wizard of the Citadel, has always wanted to be the most powerful wizard in the land and adored by all. But there is already someone else that vies for that title - Bakari, the Dragon King; one of his best friends is a dragon. How much wizard power is too much? Some people are born with magical powers. Godsland

Kaleidoscopic

When a mythical creature terrorizes fifteen-year-old Aise's village, she must seek out potent artifacts to protect her land from invasion by Edda, Queen of the North.Aise has always struggled with overwhelmingly vibrant emotions, but now this sensitivity to her inner landscape will help her wield the powerful artifacts. Aided by her adventurous best friend and an exceptionally handsome stranger, Aise races to find the artifacts before Edda razes the land. She gains strange abilities with each artifact and saves defenseless villages along her way, discovering sources of power she'd never imagined.The artifacts are meant to heal and protect, not to wage war. But after a tragic loss and a charm gone wrong, Aise might meet violence with violence, and let fire rain down on them all.

The Artifacts of Power includes books Seven, Eight and Nine of the Godsland Series: The Fifth Magic Dragonhold The Seventh Magic The stars have gone... Long dormant relics bask in the light of a hundred comets, restoring magics of a previous age. Objects inert for eons become dangers and tools no one can ignore. The use of these artifacts will put everything at risk; all the while providing the greatest opportunity for human advancement in history. The World of Godsland fantasy series in order: The Dawning of Power trilogy Call of the Herald Inherited Danger Dragon Ore The Balance of Power trilogy Regent Feral Regal The Artifacts of Power trilogy The Fifth Magic Dragonhold The Seventh Magic Clean Epic Fantasy Adventure for Teens and Adults Catrin Volker's dreams of a peaceful life training horses are not to be. While trying to save her friend from bullies, Catrin unknowingly triggers powerful, ancient magic. Her quest for peace captures the imagination with fantastical landscapes, magic, and dragons. The Dawning of Power trilogy: Call of the Herald, Inherited Danger, Dragon Ore The Balance of Power trilogy: Regent, Feral, Regal The Artifacts of Power trilogy: The Fifth Magic, Dragonhold, The Seventh Magic WHAT THEY FORESEEB WILL SHATTER THIS AGE - This is the first book in The Artifact War series by Rune S. Nielsen. Featuring intelligent, nuanced characters in a lushly drawn, intricate, and action-packed world, it presents a fresh take on magical systems and magic's impact on power dynamics in society. THE PLOT: In his vision, colossal artifacts stride across his homeland, destroying everything in their path. In a desperate attempt to save his home, Mage Prince Phytiax heads to the wild north in search of allies. On his journey, his magical powers become damaged at the worst possible time, and his destined allies need to be saved before they can help him: Pino, the weakest Mage of all time and wielder of a mysterious artifact sword; Emilai, a kidnapped noble woman-turned Witch to fight her captors; and Cordin, an old Light Master wanted for murder, but dead-set on getting his life back. With the brutal and mysterious force invading and destabilizing the Kingdoms around them, will his potential allies help or hinder him? And even if they save their homelands, the price might be worse than they ever imagined. WHAT THE READERS SAY: One reader called it, "A fresh take on the fantasy genre." It's always interesting to hear what readers think. Everyone I talked to about the Doomsayer Prince insist, that it's very much its own thing-and hard to compare with other fantasy they read, listen to, or watch. The readers do tell me they find that the characters act more intelligently than in most other fantasy. That they had fun reading it, and that they appreciate the immersive and epic world-building which makes you feel like you are in a real place. When I keep pestering a reader to tell me what other works of fantasy, they think the Doomsayer Prince reminds them of the most, they hesitate-and then give me vastly different answers. One told me the way I use historical details reminded her of the works of the acclaimed author Guy Gavriel Kay. I'm not sure if I agree, but still that is extremely high praise. Others tell me the beginning reminds them of Robin Hobb's Farseer Trilogy, because I introduce a completely new kind of magic and the first few chapters take place among royalty. Though these similarities are in no way intentional, I do appreciate the comparison. Others say the closest thing is Avatar: The Last Airbender, Assassin's Creed, or other movies, games, or novels that I have not explored all that much. I'm sure they are all right.

The stars have gone... Long dormant relics bask in the light of a hundred comets, restoring magics of a previous age. Objects inert for eons become dangers and tools no one can ignore. No matter what happens to the people of Godsland, the dragons have plans of their own."

On the heavily forested planet of Lumin, the Network has slept, dormant, for over six hundred cycles. Only a select few remember that it resides beneath the crust of the planet, waiting, and for those who remember, the battle for Lumin's future has raged in the shadows. When Mia Jayne's path crosses with an ancient volume in the Archives of the Order of Vis Firmitas, this ancient battle moves from the shadows into the light. Compendium opens up a world of knowledge, and, for the first time since arriving at the Order, Mia has the key to reclaim the freedom she has lost. To do so, she must choose between her conscience and her heart. Conceived against an ailing world of fantastical beauty where long-lost technology tips the balance between extinction and survival, Mia must remember that there is always a choice, and that makes all the difference.Book One in the Artifacts of Lumin Series.

Many years after their flight from Murkurio, Marik Ferrikwind and Raine have rebuilt their lives and honed their talents. With Newland in a state of peace and growth, the two heroes stand at the threshold of a monumental change, one that is both magical and technological in nature. But, agents of darkness and shadows have begun to chip away at the fragile stability of the land, threatening everything Marik, Raine, and others have worked so hard to achieve--as well as everything they hold dear.

American Artifacts is a complex and poetic photographic portrait of America as it simmered its way through the first decade of the twenty-first century. It reflects that span of years some have called the "lost" decade. American Artifacts is a personal exploration by an empathetic neighbor - the Canadian documentary photographer Phil Bergerson (Born Toronto, 1947). Much like the discovery process of the archaeologist, Bergerson describes his photographic approach as sifting through the remains of a culture - sifting through the shards of artifacts left behind by a rushing humanity as it made its way through the streets of a tumultuous America. His book is a collection of these message shards - often ironic, sometimes full of pathos. All represent the concerns of a struggling humanity: their fears, desires, and hopes with many images vibrating between reality and metaphor. A variety of recurring themes are reflected in photographs of shop window displays, and in the objects and signs from the forgotten corners of hundreds of towns and cities he visited. In organizing his 120 color photographs to best portray the complexity of America, Bergerson turned to the art of sequencing as his primary expressive, vehicle. Working in the sequencing traditions of Walker Evans, Robert Frank and Nathan Lyons, Bergerson has orchestrated the dynamic interplay between several inter-spliced themes in order to project their multi-layered meanings. The book's photographic sequence is bracketed by two powerful pieces of writing, beginning with Margaret Atwood's brilliant writing on debt from Payback, and ending with Nathan Lyons' insightful essay on "Sequencing". Phil Bergerson has photographed for over 30 years. His work has been exhibited internationally and is found in many prestigious collections, including the National Gallery of Canada, the Bibliotheque Nationale in Paris, and the Canadian Museum of Contemporary Photography. His photographs have been published in The New Yorker, The New York Times Magazine, Toronto Life and The Walrus Magazine, and his book, Shards of America was published in September 2004. From 1975 - 2007, Bergerson was a professor of photography at Ryerson University in Toronto where he established and organized the annual international Kodak Lecture Series on photography. In 1979, he organized Canadian Perspectives, a National Conference on Photography in Canada, and in 1983, the first International Symposium on Photographic Theory. He has also arranged several photographic study trips to Europe and Asia.

This atlas serves as a comprehensive working reference for a wide range of clinicians practicing in the field of clinical neurophysiology, including adult and pediatric neurologists, epileptologists, neurocritical care specialists, and electroneurodiagnostic technologists. Covering EEG, EMG, MEG, evoked potentials, sleep and autonomic studies, and ICU, critical care, and intraoperative monitoring, expert authors share examples of common and novel artifacts and highlight signature features to help practitioners recognize patterns and make accurate distinctions. This visual compendium of information in atlas format addresses the artifact in all areas of clinical neurophysiology and highlights the traps and pitfalls that can taint studies and lead to misdiagnosis if not properly identified. Atlas of Artifacts in Clinical Neurophysiology provides full-page examples of waveforms and recordings to enhance appreciation of the nuances involved in distinguishing artifacts from neurological findings that require intervention. With the most up-to-date information available on artifacts present during procedures in both adult and pediatric patients, this book provides readers with an in-depth understanding of artifact interpretation that is essential to any clinician working in the field of clinical neurophysiology given the ubiquitous nature of artifact during electrophysiological recording. Key Features: The only dedicated reference on artifacts in all areas of clinical neurophysiologic testing Large-format examples of both common and unusual artifacts encountered in each procedure category Up-to-date text in each chapter provides greater depth of explanation Draws on the expertise and clinical wisdom of leading practitioners to develop mastery in recognizing artifacts and avoiding diagnostic pitfalls Includes access to the digital ebook and 19 videos

Wisdom is the reward for surviving our own stupidity... The Balance of Power trilogy (Regent, Feral, Regal) is the second trilogy in the World of Godsland fantasy series. There had been four Artefacts of Power, belonging to the four branches of the Magefolk. Now, millennia later, only the human Mages survived, and the Artefacts were lost. Until the coming of Aurian... Child of wizards, swordmistress, the headstrong Aurian had set her power against that of Miathan, the evil Archmage. Whilst he possessed the Cauldron of Rebirth, Aurian had recreated the Staff of Earth, the first of the three lost weapons, the only defence against Miathan's plans of conquest. Trapped in the Southern Lands, her powers reft by pregnancy, Aurian must rely upon the untried powers of the half-blood Mage Anvar as their odyssey takes them to the realm of the mysterious Xandim, to the peaktop city of the Skyfolk, and to the worlds beyond. But, Miathan's webs of deceit are only beginning to unravel...

The quest continues for the ancient artifacts to perform the most powerful spell of all time; the spell to hold the most power out of any being. The spell to let you be whatever and who ever you desire. Now that Briar and Porter have the medallion and the Aztec pot hidden in safe places, it's Brandon's turn. Before anyone else finds the lead artifact, Brandon and his wife must pass the test of power and strength to beat everyone else to the artifact.

American Artifacts

Red Schuhart is a stalker, one of those young rebels who are compelled, in spite of extreme danger, to venture illegally into the Zone to collect the mysterious artifacts that the alien visitors left scattered around. His life is dominated by the place and the thriving black market in the alien products. But when he and his friend Kirill go into the Zone together to pick up a "full empty," something goes wrong. And the news he gets from his girlfriend upon his return makes it inevitable that he'll keep going back to the Zone, again and again, until he finds the answer to all his problems. First published in 1972, Roadside Picnic is still widely regarded as one of the greatest science fiction novels, despite the fact that it has been out of print in the United States for almost thirty years. This authoritative new translation corrects many errors and omissions and has been supplemented with a foreword by Ursula K. Le Guin and a new afterword by Boris Strugatsky explaining the strange history of the novel's publication in Russia.

Artifacts in organizations are ubiquitous but often overlooked. The chapters in this book illustrate that artifacts are everywhere in organizational life. They prevail in how offices are decorated, language is used, business cards are designed, and office cartoons are displayed. In addition, artifacts can be seen in the name of an organization and its employees, products, buildings, processes, and contracts, and they represent people, organizations, and professions. Artifacts and Organizations suggests that artifacts are neither superficial nor pertinent only to organizational culture. They are relevant to a rich and diverse set of organizational processes within and across multiple levels of analysis. Artifacts are shown to be integral to identity, sense-giving and sense-making processes, interpretation and negotiation, legitimacy, and branding. The book seeks to communicate that artifacts are often much more than what is currently recognized in organizational research. The four sections of this edited volume address various aspects of what is known about and known through artifacts. Together, the full set of chapters challenge the field to move beyond a narrow conceptualization and understanding of artifacts in organizations. This book leads students to embrace the full complexity and richness of artifacts. In addition, the text seeks to inspire those who focus on artifacts as symbols to delve deeper into the complexities of artifacts-in-use, for individuals, organizations, and institutions.

This fascinating book provides curious readers with new ways of evaluating the relationships that exist between texts and objects.

Ancestral magic swords whose names fill the pages of history, handed down through generations of heroes ... arcane staves of power, crafted by legendary mystics and passed from master to apprentice ... These are staples of fantasy literature—but difficult to recreate in the d20 System. Artifacts of the Ages provides rules for introducing legendary swords and staves that grow in power as their wielders advance in level. Special "scion" prestige classes ensure that the heroes only unlock an item's full power when the campaign is ready for it—helping to ensure that the game stays balanced. The book also presents over two dozen unique and interesting legendary magic items, with accurate d20 stats, detailed histories, and adventure hooks. Are you worthy to bear the Artifacts of the Ages?

Artifacts of Power

Blood has been spilled. Battle lines have been drawn. Time is getting short as Tolaria races to find the one who will wield the power of the Legacy. Deep in the inner circle, the dark lord Yawgmoth sends out an edict: Kill Urza Planeswalker. From the bloodlines of the Benalish plains, a hero is born.

NATIONAL BOOK AWARD WINNER • A renowned historian traces the life of a single object handed down through three generations of Black women to craft an extraordinary testament to people who are left out of the archives. KIRKUS PRIZE FINALIST • LONGLISTED FOR THE PEN/JOHN KENNETH GALBRAITH AWARD • ONE OF THE TEN BEST BOOKS OF THE YEAR: The Washington Post, Slate, Vulture, Publishers Weekly • ONE OF THE BEST BOOKS OF THE YEAR: The New York Times, NPR, Time, The Boston Globe, Smithsonian Magazine, Book Riot, Library Journal, Kirkus Reviews “Deeply layered and insightful . . . [a] bold reflection on American history, African American resilience, and the human capacity for love and perseverance in the face of soul-crushing madness.”—The Washington Post “A history told with brilliance and tenderness and fearlessness.”—Jill Lepore, author of These Truths: A History of the United States In 1850s South Carolina, an enslaved woman named Rose faced a crisis, the imminent sale of her daughter Ashley. Thinking quickly, she packed a cotton bag with a few precious items as a token of love and to try to ensure Ashley’s survival. Soon after, the nine-year-old girl was separated from her mother and sold. Decades later, Ashley’s granddaughter Ruth embroidered this family history on the bag in spare yet haunting language—including Rose’s wish that “It be filled with my Love always.” Ruth’s sewn words, the reason we remember Ashley’s sack today, evoke a sweeping family story of loss and of love passed down through generations. Now, in this illuminating, deeply moving book inspired by Rose’s gift to Ashley, historian Tiya Miles carefully unearths these women’s faint presence in archival records to follow the paths of their lives—and the lives of so many women like them—to write a singular and revelatory history of the experience of slavery, and the uncertain freedom afterward, in the United States. The search to uncover this history is part of the story itself. For where the historical record falls short of capturing Rose’s, Ashley’s, and Ruth’s full lives, Miles turns to objects and to art as equally important sources, assembling a chorus of women’s and families’ stories and critiquing the scant archives that for decades have overlooked so many. The contents of Ashley’s sack—a tattered dress, handfuls of pecans, a braid of hair, “my Love always”—are eloquent evidence of the lives these women lived. As she follows Ashley’s journey, Miles metaphorically unpacks the bag, deepening its emotional resonance and exploring the meanings and significance of everything it contained. All That She Carried is a poignant story of resilience and of love passed down through generations of women against steep odds. It honors the creativity and fierce resourcefulness of people who preserved family ties even when official systems refused to do so, and it serves as a visionary illustration of how to reconstruct and recount their stories today.
