

The Atlantis Enigma

Digging through History follows rabbi and archaeologist Richard Freund's journey through some of the most fascinating archaeological sites of human history including the mysterious Atlantis, Qumran and the Dead Sea Scrolls, and the long-buried Holocaust camp Sobibor. Each chapter takes readers through a different archaeological site, showing what we can learn about past religious life and religious faith through the artifacts found there, as well as what has given each site such strong "staying power" over time."

Syracuse was the place where Plato tried to approach his ideal state in reality — and failed because of the decadence and unjustness of the city and its ruler. Indeed, Syracuse shares many similarities with Plato's Atlantis: Like Atlantis, it was situated on a large and fertile island in the west, a city of abundant wealth and power. As in Atlantis, the ruler's castle and magnificent temples were gathered on a small island. As in Atlantis, there were several harbors, quarries and walls encircling the city. And like Atlantis, Syracuse waged war with Athens. But what sounds like a hot trail to decipher the enigma of Plato's Atlantis lay forgotten for a long time: As early as 1917, far ahead of his time, Gunnar Rudberg wrote this most coherent scientific analysis. The world did not, however, take notice of a Swedish text. Translated now for the first time, Rudberg's thesis is still a very good read on Plato's Atlantis, presenting not only one of the most credible solutions for Plato's Atlantis, but also offering an introduction to Atlantis research in general; the work confronts today's prevailing hypotheses with valuable criticism. Also included is a remarkable classification scheme of ancient and modern Atlantis hypotheses.

A comprehensive study of the major occult writings on Atlantis • Fully examines the many occult teachings on Atlantis, including those from G. I. Gurdjieff, Madame Blavatsky, Julius Evola, Edgar Cayce, Fabre d ' Olivet, and Dion Fortune • Shows how these writings correlate with the concept of cyclical history, such as the Mayan calendar and 2012, the Age of Aquarius, and the four Yugas • By a renowned scholar, author, editor, and translator of more than 30 books Atlantis has held a perennial place in the collective imagination of humanity from ancient Greece onward. Many of the great minds of the occult and esoteric world wrote at length on their theories of Atlantis--about its high culture, its possible location, its ultimate demise, and their predictions of a return to Atlantean enlightenment or the downfall of modern society. Beginning with a review of the rationalist writings on Atlantis--those that use geographic and geologic data to validate their theories--renowned scholar Joscelyn Godwin then analyzes and compares writings on Atlantis from many of the great occultists and esotericists of the 19th and 20th centuries, including Fabre d ' Olivet, G. I. Gurdjieff, Guido von List, Julius Evola, Edgar Cayce, Dion Fortune, and René Guénon, whose writings often stem from deeper, metaphysical sources, such as sacred texts, prophecy, or paranormal communication. Seeking to unravel and explain the histories and interpretations of Atlantis and its kindred myths of Lemuria and Mu, the author shows how these different views go hand-in-hand with the concept of cyclical history, such as the Vedic system of the four Yugas, the Mayan calendar with its 2012 end-date, the theosophical system of root races, and the precession of the equinoxes. Venturing broader and deeper than any other book on Atlantis, this study also covers reincarnation, human evolution or devolution, the origins of race, and catastrophe theory.

Atlantology: Basic Problems

Jaxx thought the Kelhoon were bad enough - a race of aliens enslaving humans, Atlanteans, and other ET's, and shipping them off to their factory farms on Callisto, Jupiter's second largest moon. But when Jaxx lands back on Callisto to free those bound in chains, he encounters something far worse. The Agadon has followed him there. A psychotic sentient race of artificial intelligent Beings hellbent on wiping out all life in the Sol system - human, Atlantean and Kelhoon alike. Now Jaxx must persuade rebel Kelhoon to join him in a battle against an intractable enemy. With only one chance to succeed, Jaxx might just save everyone, or he might fail and die. When the Atlanteans offer him a deal that fulfills both, he may have no choice. And he's running out of time. Book One in the international bestselling Fantasy series. Join thousands of readers all over the world in this thrilling saga. A classic epic fantasy bursting with intrigue and action. Discover a vast and fascinating universe, filled with lively, unique, entrancing characters. Immerse yourself in this adventure, packed with mystery and action. Decipher the Enigma of the Ilenians, which reigned in the dawn of time, only to disappear without trace. What happened to this Lost Civilization? What arcane mystery surrounds it? Tremia, a continent on the brink of war. Three kingdoms fighting to seize power over the great continent. Experience palace intrigues, spying, treachery, murder and relentless pursuits. Discover the sinister figure manipulating the fate of the continent from the shadows. A coming of age heroic quest with classic fantasy components: sword fights, magic, a witch, wizards, sorcery, shamans, necromancers, and non stopping action. All wrapped in mystery and intrigue. Fantasy, Steel, Magic and Love. Live an adventure filled with intense romance, all-out fighting and magic. Synopsis: Komir, a young warrior from the mountains of Tremia, is trying to find his place among his tribe, the Norriel, when Fate knocks at his door in the cruelest possible way, to claim him as the hero he still does not realize he is. Together with his good friend Hartz he will begin a quest, an adventure full of mysteries and magical enigmas, which will lead him to discover his past, understand his present, and face a future of epic proportions. The Ilenian Enigma: MARKED (Book #1) CONFLICT (Book #2) TRIALS (Book #3) DESTINY (Book #4) A saga that will keep you gripped!

A Soviet scientist examines geology, climate, oceanography and attempts reconstruction of Atlantis. Illustrated with maps, charts, tables, illustrations, seismic data, sonar images, etc. The fascinating age-old riddle of the legendary continent of Atlantis is a challenge to any investigator for it would be hard to name a problem of longer standing or one that has given rise to sharper controversies and differences of views and opinions. Some investigators have rejected it as a key to an ancient riddle throwing light on many aspects of human history and civilization. Thousands of books and papers have been devoted to the thrilling problem of Atlantis, and a new scientific trend, atlantology, studying Atlantis has emerged. Atlantology cannot advance without the aid of geomorphology and marine geology, which are relatively new spheres of human knowledge. Indeed, the problems linked up with Atlantis can be approached successfully only by drawing upon the latest achievements of world science in the study of the geological structure and relief of the ocean bed, only in the light of the new ideas about the youth and active development of oceans. The author believes that Atlantis existed and uses a great number of facts to back up his arguments. His work sums up much on what we know about atlantology. This book will unquestionably serve as the basis for elaborating on many aspects of one of the world's most dramatic problems. Zhironov was a chemist by trade and a leading Soviet Atlantologist. The book was written between 1959-63. New data was added for this English edition. Seismics, gravimetrics, climatology, paleobotanical data, geomorphology, plate tectonics, turbidity data, bottom current patterns, submarine erosion and geological data separate this book from most of the rest of the Atlantology field. Cites 825 separate sources in 34 pages of references - Russian, Ukrainian, Greek, German, English, Latin...

An examination of the mythological, historical, and archaeological evidence for lost civilizations throughout the world • Explores unexplained mysteries such as the Caucasian mummies of China, the pyramids of Caral in Peru, and the genetically unique X-woman of Siberia • Examines evidence of lost, ancient civilizations in Asia, Europe, and the Americas, including extensive investigation into Atlantis • Shows that Siberia and the Amazon may have been cradles of humanity before Africa Over and over again, mainstream views of early history--which state that the first civilizations arose around 3500 BCE--are plagued by evidence of much older civilizations, evidence ranging from artifacts and inexplicable remains to pyramids and ubiquitous myths that clearly speak of great empires prior to the rise of the Sumerian city states and pharaonic Egypt. Viewing Atlantis and its many related myths as a metaphor for a long-lost global civilization, Patrick Chouinard explores the mythological, cultural, religious, and archaeological evidence for many forgotten civilizations in Europe, Asia, and the Americas. He addresses unexplained mysteries from around the world, such as Caucasian mummies found in China, the pyramids of Caral in Peru, the "hobbit" remains on Flores Island, the giant heads of Easter Island, the lost legacy of Lemuria, the ideology and occult mysticism behind Nazi theory, and the genetically unique X-woman of Siberia. He also examines evidence of ancient alien visits and other supernatural phenomena in the distant past. Using recent archaeological findings, he shows that Siberia and the Amazon may have been cradles of humanity millennia before Africa. Sounding the call to continue searching ancient, remote, and formerly forbidden regions for lost cultures and genetic root races, Chouinard offers a new chronology for the emergence of human life and civilization as well as a new mechanism for how and why societies and species change over time. By finding lost peoples and their forgotten worlds, we can truly begin to understand the human race and learn from its long history.

This special 16-book bundle collects fearless investigations into the paranormal from the pens of Lionel and Patricia Fanthorpe, who for several decades been researching and writing about ancient and eternal mysteries. Their entertaining and thought-provoking works span numerous topics, from numerology, freemasonry, voodoo, satanism and witchcraft to the very nature of death and time. Additionally, they have produced numerous volumes examining the great unexplained mysteries and places of history, including The Bible, European castles, strange murders, arcane objects of power, the mysterious depths of the sea and remarkable people. Take a strange and beautiful trip to the mystical side of life in this special set! Includes Death Mysteries and Secrets of Numerology Mysteries and Secrets of the Masons Mysteries and Secrets of the Templars Mysteries and Secrets of Time Mysteries and Secrets of Voodoo, Santeria, and Obeah Satanism and Demonology Secrets of the World's Undiscovered Treasures The Big Book of Mysteries The Oak Island Mystery The World's Greatest Unsolved Mysteries The World's Most Mysterious Castles The World's Most Mysterious Murders The World's Most Mysterious Objects The World's Most Mysterious People Unsolved Mysteries of the Sea

DAN KOTLER IS BACK, AND THIS TIME HE'S TACKLING ONE OF THE OLDEST MYSTERIES IN HISTORY The second Dan Kotler archaeological thriller! 1914—Thomas Edison stands and watches his West Orange laboratory burn to the ground, taking his life's work with it. And he smiles. In his pocket is a stone that is the key to untold mysteries, and with it he will start fresh, and create wonders beyond any of his previous work. 1974—Two US Army Special Forces officers uncover a lockbox filled with invaluable enemy intelligence that can turn the tide of the Vietnam conflict. Among the papers and maps is another stone, nearly identical to Edison's. With this, the two officers will build a financial empire, corrupt to its core but powerful enough to elude even the FBI. TWO STONES, FOUND SIXTY YEARS APART, AND BOTH HOLDING CLUES TO WHAT MAY BE THE LOST CITY OF ATLANTIS Today—Dan Kotler, independent researcher and archaeologist, is winding down from the events surrounding the theft and recovery of the Coelho Medallion, and discovering that the fallout of this history-altering adventure reaches further than he'd imagined. As academic colleagues shun him and the press hounds him, Kotler finds himself looking for a new purpose. When Gail McCarthy, granddaughter of one of Manhattan's wealthiest real estate moguls, brings an ancient stone to Kotler's attention, he finds himself embroiled once again in intrigue, jeopardy, and mystery. This time he may uncover one of history's oldest secrets—if he survives long enough. Working with his friend from the FBI, Agent Roland Denzel, Kotler strikes out on a quest to uncover and solve the Atlantis Riddle, and once again rewrite history as we know it. THE ADVENTURE CONTINUES IN THE SECOND DAN KOTLER THRILLER — HERE'S WHAT READERS ARE SAYING ABOUT

KEVIN TURLINSON'S BOOKS: ★★★★★ "Kevin has crashed onto the action-thriller scene as only an action-thriller author can: with provocative plot lines, unforgettable characters, and enough adrenaline to keep you awake all night." —Nick Thacker, author of *The Enigma Strain* ★★★★★ "[Kevin Turlinson] is what every writer should be—entertaining and thought-provoking." —Shana Tehan, Press Secretary, U.S. House of Representatives ★★★★★ "There was something so fascinating about [Citadel] and the cast of characters [Kevin Turlinson] put together." —Leah Petersen, Author of *Fighting Gravity* ★★★★★ "I discovered Kevin Turlinson from The Creative Penn podcast and immediately got his novel, *Evergreen*. I read it in like 3 seconds. It's the most fast-paced story I've encountered." —R.D. Holland, Independent Reviewer ★★★★★ "[Sawyer Jackson and the Long Land] was a great read! I love these style of books—magic, science fiction, alternate reality. I couldn't put it down." —S., Independent Reviewer Provides a dramatic new look at the ancient legend of the lost continent of Atlantis, from the original tales of Plato about a powerful ancient island world to the latest archaeological and scientific evidence regarding a cataclysm that transformed human history. Reprint.

Atlantis, a legendary land full of heroes and magic everywhere. While the terrible Titans tried to invade, prince Neptune and the prophetess Cassandra struggled to decipher a enigma that could change the fate of the Atlanteans forever. Among the formation of the Amazons in the beautiful Temyscera Island and the war of Titania, a mystical adventure was about to begin and that draw the history of the Atlantis lost continent, glorifying kings, warriors and gods.

Delve into an ancient mystery and witness the unveiling of the most complete and persuasive evidence for the real location of the lost empire of Atlantis. More than two thousand years ago, Plato laid out a series of cryptic clues about the location of Atlantis. Since then, countless experts have tried to crack his code. Today, some experts claim Atlantis lies under the volcanic rocks of Santorini. Others place it in the Bermuda Triangle or off the coast of Africa or say it vanished forever beneath the waves of the Atlantic Ocean. But what if Atlantis is closer than we think? What if we could walk the streets of its ancient capital today? After a twenty-year forensic examination of Plato's writings, Peter Daughtrey believes we can do just that. Having matched an unprecedented number of Plato's clues to a modern locale, Daughtrey pinpoints the exact location of the once-glittering capital city of Atlantis and outlines the full reach of the empire. Daughtrey's quest takes him from the dusty stone quarries of Portugal and the hieroglyphs of Egyptian temples to the newly refurbished museums of Baghdad. Along the way, he unearths long-forgotten, vitally significant artifacts, pieces together sensational evidence of a lost alphabet, and identifies today's descendants of this early civilization—and even reveals the location of another undersea settlement from the empire of Atlantis. Hailed as "an intriguing, thought-provoking read" by Graham Hancock, the bestselling author of *Fingerprints of the Gods*, *Atlantis and the Silver City* is a detailed and accurate account of an adventurous journey of discovery, told with enthusiasm and verve.

In the darkest depths of the ocean, the ancient city of Poseidia has secretly thrived, protected by a sentient dome. Its inhabitants, genetically engineered shape-shifters and protectors of the ocean, teeter on the brink of extinction as the reach of humanity grows. When a pregnant Anna Ryan is murdered at sea, her life doesn't end—it begins. She awakens in this unknown world in a new body, enhanced with iridescent skin, fins, and the ability to breath underwater. Grieving the loss of her baby and her humanity, Anna vows to make her murderer pay, but it's no easy task to brave the wide ocean alone. Anna finds an ally in Roman, a giant, scarred mystery of a man, and together they forge a bond sharing former human pasts. The easy part is convincing Roman to help her retrieve a cherished locket—an item she believes essential to endure the challenges of a new life—but she carelessly endangers Poseidia. Can Anna set aside everything she's known and embrace all she's ever wanted? What is the cost of happiness?

- Traces the course of Atlantean civilization through its three empires, as well as the colonies and outposts formed by its survivors in Egypt, Göbekli Tepe, India, Mesopotamia, the Mediterranean, and North and South America
- Shows how pyramids and other megalithic monuments testify to the survival of a "Sacred Science" of Atlantean origin and how this Sacred Science provided the foundation for esoteric traditions and secret societies throughout the ages
- Draws on more than 500 ancient and modern sources and the author's own personal exploration of hundreds of archaeological sites Exploring more than 100,000 years of Earth's history, Marco Vigato combines recent discoveries in the fields of

archaeology, geology, anthropology, and genetics with the mystery teachings of antiquity to investigate the true origins of civilization. Establishing the historical and geological reality of Atlantis stretching all the way back to 432,000 BCE, he traces the course of Atlantean civilization through its three empires, revealing how civilization rose and fell several times over this lengthy span of time. The author shows that Atlantis did not vanish "in one terrible day and night" but survived in a variety of different forms well into the historical era. He reveals how the first Atlantean civilization lasted from 432,000 to 33,335 BCE, the second one from 21,142 to 10,961 BCE, and the third Atlantis civilization--the one celebrated by Plato--collapsed in 9600 BCE, after the Younger Dryas cataclysm. The author examines the role of Atlantean survivors in restarting civilization in different parts of the world, from Göbekli Tepe and Egypt to India, Mesopotamia, and the Americas. He explains how they created colonies and outposts around the globe, as evidenced by the colossal network of pyramids, earthen mounds, and other megalithic monuments they left behind. He shows how these monuments testify to the survival of a "Sacred Science" of Atlantean origin, and he documents the survival of the primeval Atlantean Tradition through various secret societies into the modern era. Drawing on more than 500 ancient and modern sources and his own personal exploration of hundreds of archaeological sites around the world, the author shows not only that Atlantis was real but that the whole world is now being called to become a New Atlantis and awaken into a new Golden Age.

The Book of Atlantis Black: The Search for a Sister Gone Missing will have you questioning facts, rooting for secrets, and asking what it means to know the truth. A young woman is found dead on the floor of a Tijuana hotel room. An ID in a nearby purse reads "Atlantis Black." The police report states that the body does not seem to match the identification, yet the body is quickly cremated and the case is considered closed. So begins Betsy Bonner's search for her sister, Atlantis, and the unraveling of the mysterious final months before Atlantis's disappearance, alleged overdose, and death. With access to her sister's email and social media accounts, Bonner attempts to decipher and construct a narrative: frantic and unintelligible Facebook posts, alarming images of a woman with a handgun, Craigslist companionship ads, DEA agent testimony, video surveillance, police reports, and various phone calls and moments in the flesh conjured from memory. Through a history only she and Atlantis shared—a childhood fraught with abuse and mental illness, Atlantis's precocious yet short rise in the music world, and through it all an unshakable bond of sisterhood—Bonner finds questions that lead only to more questions and possible clues that seem to point in no particular direction. In this haunting memoir and piercing true crime account, Bonner must decide how far she will go to understand a sister who, like the mythical island she renamed herself for, might prove impossible to find.

The author of The Atlantis Enigma introduces new theories on the mysteries of ancient Egypt in a study that traces the rise and fall of this technologically advanced civilization and shares provocative ideas about ancient Egyptian science and technology, the origins of the pyramids, the Sphinx, and more. Original.

Take an extraordinary trip through some of the most fascinating discoveries of archaeology and physics, and learn that not only is time travel theoretically possible, but that future generations may actually be engaged in it. Unique to this book is a program which enables you to structure your own group investigation into a form of vivid mental time travel. For the skeptical . . . survey the evidence, then decide. Index. Bibliography.

The Agadon ET race has survived. Earth is about to die. Too bad for them, Kaden Jaxx is back. To top it off, Jaxx has a secret weapon - a six-year-old girl named Mya who can manipulate energy like no other. For Jaxx, finding himself back on Earth is great. With his nephew by his side, even better. Their happy reunion lasts an entire ten minutes. Blasts, destruction, and cities in chaos signify one thing: the Agadon live on. And what makes it worse, Jaxx confronts an enormous task: Correct the pyramid network across the entire world and save the human race in the process. If he doesn't, death comes knocking...on everyone's door.

The Atlantis Enigma

Ever since Plato created the legend of the lost island of Atlantis, it has maintained a uniquely strong grip on the human imagination. For two and a half millennia, the story of the city and its catastrophic downfall has inspired people--from Francis Bacon to Jules Verne to Jacques Cousteau--to speculate on the island's origins, nature, and location, and sometimes even to search for its physical remains. It has endured as a part of the mythology of many different cultures, yet there is no indisputable evidence, let alone proof, that Atlantis ever existed. What, then, accounts for its seemingly inexhaustible appeal? Richard Ellis plunges into this rich topic, investigating the roots of the legend and following its various manifestations into the present. He begins with the story's origins. Did it arise from a common prehistorical myth? Was it a historical remnant of a lost city of pre-Columbians or ancient Egyptians? Was Atlantis an extraterrestrial colony? Ellis sifts through the "scientific" evidence marshaled to "prove" these theories, and describes the mystical and spiritual significance that has accrued to them over the centuries. He goes on to explore the possibility that the fable of Atlantis was inspired by a conflation of the high culture of Minoan Crete with the destruction wrought on the Aegean world by the cataclysmic eruption, around 1500 b.c., of the volcanic island of Thera (or Santorini). A fascinating historical and archaeological detective story, *Imagining Atlantis* is a valuable addition to the literature on this essential aspect of our mythohistory.

- Reveals evidence of advanced ancient technology, anomalous ancient maps, time travel, crystal science, ancient Armageddon, and Atlantis in the Bible
- Explores the true age of the Sphinx, the Stone Age high-tech found at Gobekli Tepe, the truth of Rapa Nui (Easter Island), the Zep Tepi monuments of Egypt, the mysteries of the Gulf of Cambay, and what lies beneath the ice of Antarctica
- Examines the advanced knowledge of the ancients and how the search for Atlantis and other lost worlds reflects the search for the lost soul of humanity

We live within the ruins of an ancient civilization whose vast size has rendered it invisible. Remembered in myth as Atlantis, Lemuria, or other lost world archetypes, the remains of this advanced civilization have lain buried for millennia beneath the deserts and oceans of the world, leaving us many mysterious and inexplicable clues. Investigating the perennial myth of a forgotten fountainhead of civilization, J. Douglas Kenyon presents extensive physical and spiritual evidence of a lost great culture, the collective amnesia that wiped it from planetary memory, and the countless ways ancient catastrophes still haunt modern civilization. He explores evidence of advanced ancient technology, anomalous ancient maps, extraterrestrial influence, time travel, crystal science, and the true age of the Sphinx. He examines evidence of Atlantis in the Bible and ancient Armageddon, the Stone Age high-tech found at Gobekli Tepe, the truth of Rapa Nui (Easter Island), the Zep Tepi monuments of Egypt, the mysteries of the Gulf of Cambay, and what lies beneath the ice of Antarctica. He looks at extinction events, Earth's connection with Mars, and how our DNA reveals that humanity has had enough time to evolve civilization and lose it more than once. Exploring the advanced esoteric and spiritual knowledge of the ancients, Kenyon shows that the search for Atlantis and other lost worlds reflects the search for the lost soul of humanity. Drawing upon Velikovsky's notion of a species-wide amnesia caused by the trauma of losing an entire civilization, he reveals how the virtual ruins of a lost history are buried deep in our collective unconscious, constantly tugging at our awareness. As Kenyon reveals, by overcoming "the Great Forgetting," humanity can find its way out of the haunted labyrinth in which we find ourselves lost today and rediscover the heights of spiritual and technological advancement of our ancient ancestors.

Are history books giving us the whole story? Or is civilization far more complex and far older than we have been taught? Our school textbooks barely mention the 6,000-year-old Sumerian civilization, yet the latest archaeological findings at sites such as Jericho and, most recently, Gobekli Tepe in Turkey have been dated to 10,000 BC. Civilization goes back at least another 10,000 years, if we are willing to believe what our ancestors themselves claimed. *The Lost Civilization Enigma* reveals the truth about: Lost magnitudes to known cultures, such as the Bosnian Pyramids and the civilization of "Old Europe"; The fabled lost "golden" cities of South America and the Amazon, which are slowly being rediscovered; Fascinating examples of lost technology, such as the Antikythera Device; Atlantis and the fact that it was a real civilization. Analyzing the historical and archaeological record, best-selling author Philip Coppens demonstrates that there is substantial evidence that civilization is far older, far more advanced, and far more special than is currently accepted. Clearly, our history books have left out a great deal!

An island civilization, home to a forgotten race, destroyed in one terrible day and night - lost forever beneath the waves of a merciless ocean. Nearly all of us are familiar with the story of Atlantis, and yet how much do we truly know? In this work, the authors explore the Egyptian roots of Plato's famous narrative, and examine the strange similarities between Atlantis and worldwide creation mythologies. A fresh and unique look at an ancient enigma, the book is essential for anyone interested in the mystery of Atlantis, layman and scholar alike. With an appendix on Egyptian mythology and its connection to Plato's Atlantis by renowned musicologist Ernest G. McClain.

The Atlantis EnigmaBerkley

A readable account of the history of natural disasters throughout history.

A unique and topical feature of the Carnot USA list is a collection of titles that deal with the puzzling, often enigmatic events of our world. Titled Orbis Enigma, the series is designed to advance the level of human understanding on an array of topics, many of which have not yet been fully explored.

Whether it is in the realm of politics, religion, science, or metaphysics, this new line of books crosses boundaries and broadens the scope of examination, offering alternative approaches to awareness and ultimately, to enlightenment. Looking for the key in Plato's original dialogues, amateur archaeologist,

Jacques Hebert, undertook a rigorous investigation into the mystery of Atlantis. After ten years spent studying these documents and the related literature. Hebert has good reason to believe he has found the true location of the mysterious continent. The author's unique contribution to the field is the result of his professional training, in strangely enough, police work. Using the skills that a distinguished career as a detective have honed, he has taken a new approach to the clues, discarding some and rearranging the others. The conclusion he reached is that Plato's words were badly misinterpreted, and his designation for the location of Atlantis seriously misconstrued. While many writers have claimed to have the real answer to the Atlantis mystery, none has been able to provide such a plausible explanation of what actually became of the Atlantis civilization. Compared to previous theories, moreover, Hebert's is the first that is in complete harmony with Plato's writings, up to and including descriptions of the vegetation. His findings are illustrated with 10 maps, a colorful 8-page insert, and dozens of additional illustrations. With the results thus validated Hebert's work calls into question some fundamental historical concepts.

Naval intelligence is one of the most vital, and sometimes decisive, forms of intelligence. Over the centuries, and with particular velocity over recent decades, the techniques of detecting and destroying military (and commercial) shipping have improved, leapfrogging the equally frantic race to keep ahead of them and safeguard the huge investments involved. Today the new challenges range from an increasingly aggressive strategy adopted by Pyongyang's submarine fleet and the exclusion of illegal immigrants heading for Australia and southern Europe to the capture of cocaine-laded submarines in the Caribbean and the interdiction of Somali pirates off the Gulf of Aden. Any accurate assessment of the comparative threat these activities pose is just as dependent on good intelligence today as it was to Admiral Lord Nelson in the days of sail. The Historical Dictionary of Naval Intelligence relates the long and fascinating history of naval intelligence through a chronology, an introduction, a bibliography, and hundreds of cross-referenced dictionary entries on the organizations, operations, and events that made Naval intelligence what it is today.

In the Homeric Epics, important references to specific autonomous systems and mechanisms of very advanced technology, such as automata and artificial intelligence, as well as to almost modern methods of design and production are included. Even if those features of Homeric science were just poetic concepts (which on many occasions does not explain the astonishing details of design and manufacture, like the ones included in the present volume), they seem to prove that these achievements were well within human capability. In addition, the substantial development of machine theory during the early post-Homeric age shows that the Homeric descriptions were a kind of prophetic conception of these machines, and scientific research must be a quest for the fundamental principles of knowledge available during the Late Bronze Age and the dawn of the Iron Age. Such investigations must of necessity be strongly interdisciplinary and also proceed continuously in time, since, as science progresses, new elements of knowledge are discovered in the Homeric Epics, amenable to scientific analysis. This book brings together papers presented at the international symposium Science and Technology in Homeric Epics, which took place at Ancient Olympia in 2006. It includes a total of 41 contributions, mostly original research papers, covering diverse fields of science and technology, in the modern sense of these words.

It's one of the oldest books on Earth, and it has a message for you. The I Ching is a mystical collection of ancient wisdom, generally explained as a simple look-up-the-answer method of fortune telling. Now, J.H. Brennan reveals to Western practitioners the magical spiritual techniques behind this most ancient oracle, in *The Magical I Ching*. This is a unique, exciting, and easy-to-use version of the ancient oracle. Using the information in *The Magical I Ching*, you will be able to contact the spirit sage waiting to tell you the inner meaning of any of the six-line symbols you bring forth (the hexagrams) and how that meaning can change your life. *The Magical I Ching* explains the history of the I Ching and how to develop the symbols by using several different methods, including using six sticks or wands, sixty-four wands, eight coins, or the popular three-coin technique. The book analyzes each of the possible sixty-four hexagrams that form the basis of the oracle, in clear, modern language anyone can understand. That is just the beginning. The I Ching has survived for so long because of its spirituality. You'll learn how to use the book to enter astral doorways to mystic realms of reality. It will allow you to create a new framework for operations of real magic. You'll probe the deepest mysteries of Eastern esoteric thought. It even shows you ways to put your life on a new and better course. After 5,000 years, the I Ching remains one of the most popular sources of spiritual wisdom in the world. If it puzzled you in the past, you'll be able to understand it at the deepest level possible when you read *The Magical I Ching*.

Humanity's oldest stories and songs show that man has always been captivated by the mysteries of the sea. Though modern geographers and oceanographers have discovered many of the oceans' secrets, some stories about the water's strange powers remain popular. This book explains the tales surrounding the Bermuda Triangle and Atlantis, debunking myths through scientific and historical evidence.

The Atlantis Riddle

Poseidia

The Answer to the Great Enigma

A Sci-Fi Fantasy Technothriller, Ascendant Saga Book 1

The Origins of Ancient Civilizations and Mystery Traditions throughout the Ages

The Empires of Atlantis

Banyak fenomena alam yang terjadi secara misterius di dunia ini menarik perhatian khalayak ramai. Buku ini merupakan lanjutan dari buku enigma jilid I. Di dalam buku ini kalian akan menemukan penjelasan mengenai fenomena misteri yang sangat populer di dunia, seperti fenomena UFO, peninggalan sejarah, dan makhluk-makhluk yang misterius. Termasuk salah satunya berita tentang tanggapan para ahli yang menyatakan bahwa Indonesia adalah Atlantis yang hilang atau klaim bahwa situs Gunung Padang berisi struktur buatan manusia dari kebudayaan maju puluhan ribu tahun yang lampau. Yang tidak kalah menarik perhatian ketika ditemukannya Peta Piri Reis yang diklaim sebagai peta super akurat pemberian alien. Beberapa kasus misterius lainnya juga dibahas di sini, yaitu penjelasan kosmologis atas ukiran bola lampu pijar berusia 4250 tahun di kuil kuno Dendera dan penjelasan atas ukiran astronot pada Sarkofagus

Raja Pakal yang berusia sekitar 1400 tahun. Menambah daftar panjang fenomena populer di dunia. Buku Enigma juga mengupas tuntas tentang penemuan Mermaid di Maluku 300 tahun lalu yang pernah dicatat lengkap dengan ilustrasinya. Apakah betul Mermaid itu ada? Dan tahukah kalian bahwa dokter-dokter Indonesia dan Malaysia pernah meneliti jenglot? Enigma berhasil mengupas secara detail hasil penelitiannya. Diharapkan setelah membaca buku ini, masyarakat bisa mendapatkan informasi yang lebih akurat dan masuk akal.

History is written by the winners—and the powerful—but how much of it is fiction? And who is really in control today? From the dawn of civilization to the 21st century, from ancient aliens to the New World Order, *Secret History: Conspiracies from Ancient Aliens to the New World Order* examines, explores, and uncovers the hidden, overlooked, and buried history of mankind. The book moves from biblical, Egyptian, Mayan, Greek, and early mysteries of antiquity to the clandestine doings of the Nazis and the Masons and assassination plots of the more recent past to the surveillance, monitoring, mind-control, and secret schemes of today. Researcher Nick Redfern investigates the stories, mythologies, lore behind incredible events and clandestine groups of yesterday and today. More than 60 entries dig deep into the manipulation of events by influential groups, including ...

- Historical riddles—alien visitations, space gods, and human–alien crossbreeding.
- Government cover ups—mind control, murders, scientists, and secret agents.
- Powerful groups and intended consequences—9-11, new world order, bird-flu, and chemtrails.

Tracing the chilling and lasting effects of conspiracies, cabals, and plots, *Secret History: Conspiracies from Ancient Aliens to the New World Order* exposes their deep reach in shaping today's world. Our world is mysterious and conspiratorial. Networking is key - people who exercise power accept that success depends upon who you know. Some of these networks are obvious and visible, while others are hidden. Criminals and fundamentalist cults are sinister - but some secret societies help and guard us. There are wheels within wheels. Unsuspected power sources are interconnected. Concealed watchers and listeners monitor phones, emails, and the Internet. Knowledge is power - and secret knowledge is greater power. Masonry has many secrets. Signs, codes, ciphers, passwords, and symbols abound - for those who recognize their meanings. Masons are prominent throughout the world today in academic circles, armed services, police, government, commerce and industry, finance, and medicine. What are their aims and how important is their influence? Researchers believe some of Masonry's famous members have included Edward VIII, George VI, Franklin Delano Roosevelt, Harry S. Truman, General Douglas MacArthur, Gene Autry, and Virgil Grisson

Crack the code or die. A black-ops agency discovers hieroglyph-covered pyramids on Jupiter's moon Callisto. The government forcibly taps rebel archeologist Kaden Jaxx with only two instructions: 1) decode the ancient writings and 2) keep his overactive mouth shut...or else. But what if the writing spells out an ancient prophecy for Earth's doom? "A spine-tingling space thriller that combines elements of *Stargate Atlantis*, *The Da Vinci Code*, and *Raiders of the Lost Ark* into a must-read sci-fi adventure." Caution: This book contains dangerous ancient secrets and a lot of kick-butt action. If you're ready, grab a copy today!
