A world steeped in materialism, environmental destruction, and injustice, what can one individual possibly do to change it? While the present obstacles we face may seem overwhelming, author and humane educator Zoe Weil shows us that change doesn't have to start with an army. It starts with you. Through her straightforward approaches to living a MOGO, or "most good," life, she reveals that the true path to inner peace doesn't require a retreat from the world. Rather, she gives the reader powerful and practicable tools to face these global issues, and improve both our planet and our personal lives. Weil explores direct ways to become involved with the community, make better choices as consumers, and develop positive messages to live by, showing readers that their simple decisions really can change the world. Inspiring and remarkably inclusive of the interconnected challenges we face today, Most Good, Least Harm is the next step beyond "green" -- a radical new way to empower the individual and motivate positive change.

The essential guide to the theory and application of the Social Change Model Leadership for a Better World provides an approachable introduction to the Social Change Model of Leadership Development (SCM), giving students a real-world context through which to explore the seven C's of leadership for social change as well as approaches to socially responsible leadership. From individual, group, and community values through the mechanisms of social change itself, this book provides fundamental coverage of this increasingly vital topic. Action items, reflection, and discussion questions throughout encourage students to think about how these concepts apply in their own lives. The Facilitator's Guide includes a wealth of activities, assignments, discussions, and supplementary resources to enrich the learning experience whether in class or in the co-curriculum. This new second edition includes student self-assessment rubrics for each element of the model and new discussion on the critical roles of leadership self-efficacy, social perspective, and social justice perspectives. Content is enriched with research on how this approach to leadership is developed, and two new chapters situate the model in a broader understanding of leadership and in applications of the model. The Social Change Model is the most widely-used leadership model for college students, and has shaped college leadership curricula at schools throughout the U.S. and other countries including a translation in Chinese. This book provides a comprehensive exploration of the model, with a practical, relevant approach to real-world issues. Explore the many facets of social change and leadership Navigate group dynamics surrounding controversy, collaboration, and purpose Discover the meaning of citizenship and your commitment to the greater good Become an agent of change through one of the many routes to a common goal The SCM is backed by 15 years of research, and continues to be informed by ongoing investigation into the interventions and environments that create positive leadership development outcomes. Leadership for a Better World provides a thorough, well-rounded tour of the Social Change Model, with guidance on application to real-world issues.

"Psychology for a Better World is for people who believe it is worth trying to make a world in which both our species and the ecological systems we are part of can flourish. The book is based on the latest research in psychology and is jam-packed with action strategies. It offers new ways to think about how people interact in social settings, why we are tempted to stick with what we know, and how the same characteristics that currently keep us hooked into unsustainable practices can be used to move us forward. The final chapter is a guide to help you analyse what you are doing to contribute towards a better world, and how you can be more effective while simultaneously increasing your personal wellbeing."--Back cover.

The book combines humor with science to engage readers in a process of change. Based on empirical research of proven strategies, readers will learn how to leverage four drivers of change: interactions, context, awareness, and next steps. This is an action model aimed at motivating readers to engage in achievable steps to improve their lives.

"Every day we are confronted by challenging societal problems, from poverty and institutional racism to AIDS and homelessness. It can all seem so overwhelming. But while none of us can do everything, all of us call do something. This handbook will help you discover what you can do." "Mae Elise Cannon provides a comprehensive resource for Christians committed to social justice. She presents biblical rationale for justice and explains a variety of Christian approaches to doing justice. Tracing the history of Christians in social engagement, she lifts out role models and examples from the Great Awakenings to the civil rights movement. A wide-ranging catalog of topics gives background information about justice issues at home and abroad." "The handbook includes dozens of practical exercises for taking action, highlighting how Christians and churches can make a difference.

Also included are spiritual practices and resources to help us move from immobility to advocacy." "God has always worked through his peopleo accomplish improbable tasks. This handbook is an essential companion for living justly, loving mercy and walking humbly with your God."--BOOK JACKET.

In this debut collection of essays and poetry, musician, speaker, and activist Propaganda inspires us to create a better, more equitable world. "If we get to make the very cultures that shape who we are, then let us remake them in the best way possible." "In this deep, challenging, and thoughtful book, Propaganda looks at the ways in which our world is broken. Using the metaphor of terraforming—creating a livable world out of an inhospitable one—she shows how we can begin to reshape our homes, friendships, communities, and politics. In this transformative time—when we are redefining what a truly just and equitable world looks like, and reflecting on the work that needs to be done both in our spiritual and secular lives—Propaganda rallies readers to create that just world. He sheds light on how nefarious origin stories have skewed our views of ourselves and allowed gross injustices, and demonstrates how great storytelling and excellent art can create and shape new perspectives of the world and make all of us better.

"In 1955, the height of the power of Howard Thurman, one of the most influential African American religious thinkers of the twentieth century, took a pivotal trip to India that would forever change him—and that would ultimately shape the course of the civil rights movement in the United States. When Thurman (1899–1981) became the first African American to meet with Mahatma Gandhi, he found himself called upon to create a new version of American Christianity, one that eschewed self-imposed racial and religious boundaries, and equaled itself to confront the enormous social injustices that plagued the United States during this period. Gandhi's philosophy and practice of satyagraha, or "soul force," would have a momentous impact on Thurman, showing him the effectiveness of nonviolent resistance. After the journey to India, Thurman's distinctly American translation of satyagraha into a Black Christian context became one of the key inspirations for the civil rights movement, fulfilling Gandhi's prescient words that "it may be through the Negroes that the unadulterated message of nonviolence will be delivered to the world." Thurman went on to found one of the first explicitly interracial congregations in the United States and to deeply influence an entire generation of black ministers—among them Martin Luther King Jr. Visions of a Better World depicts a visionary leader at a transformative moment in his life. Drawing from previously unarchived archival material and obscurely published works, Quinton Dixie and Peter Eisenstadt explore, for the first time, Thurman's development into a towering theologian who would profoundly affect American Christianity—and American history.

In the tradition of Fast Food Nation and The Omnivore's Dilemma, an extraordinary investigation into the human lives at the heart of the American grocery store. What does it take to run a wild American supermarket? How do products get to shelves? Who sets the price? And who suffers the consequences of increased convenience end efficiency? In this alarming exposé, author Benjamin Lorr pulls back the curtain on this highly secretive industry. Combining deep sourcing, immersive reporting, and compulsively readable prose, Lorr leads a wild investigation in which we learn: The secrets of Trader Joe's success from Trader Joe himself Why truckers call their job "sharcrepping on wheels" What it takes for a product to earn certification labels like "organic" and "fair trade" The struggles entrepreneurs face as they fight for shelf space, including essential tips, tricks, and traps for any new food business The truth behind the alarming slave trade in the shrimp industry The result is a page-turning portrait of an industry in flux, filled with the passion, ingenuity, and exploitation required to make this everyday miracle continue to function. The product of five years of research and hundreds of interviews across every level of the industry, The Secret Life of Groceries delivers powerful social commentary on the inherently American quest for more and the social costs therein.

This book provides a visionary look at the future of business, propelling past damaging industrial-age values to uncover the potential for humanistic, ecologically sustainable, and intergenerational prosperity. This edited collection, featuring contributions by some of the world's most prominent thinkers on the future of business, is an interdisciplinary and international collaborative project to articulate a new 21st century theory of business. This book will be our greatest aid in meeting the organizational opportunities and ecological challenges of the future. Through the exploration of robust cases and stories packed with deep insight and vital science, twenty of the world's leading thinkers explore how we can adapt our current notions of value, markets, models of cooperation and collective action, and intergenerational concern to create a world where economies and businesses can excel, all people can thrive, and nature can flourish for future generations. This book is not dispassionate but rather designed to galvanize change and unite a global community of inquiry. It expounds on the conceptual cornerstones of the new kind of business practice that will enable the ascent to better prosperity.

In A Better World, Inc., Korngold shows companies and their executives how to profit by developing solutions to the world's most daunting challenges – those that governments cannot and have not addressed. Using case studies of various global companies from Nike to Pfizer to Vodafone and GlaxoSmithKline, A Better World, Inc. delineates best practices for corporations to maximize profits, decrease costs, and build the longer-term value of their companies by ensuring a more sustainable and humane world. In declaring that "only global corporations have the resources, global reach, and self-interest to build a better world," Korngold shows how to ensure that this is a mutually beneficial and equitable relationship for business and society. A Better World, Inc. provides a roadmap to success, including stakeholder engagement, partnerships among businesses, NGOs, and governments; measurement, accountability and reporting; and effective corporate governance. Korngold also discusses the most powerful drivers for companies to further intensify their innovations in solving global challenges: consumers, employees, and investors.

With a chapter of the New York Times bestseller, Just Ask! comes a fun and meaningful story about making the world—and your community—better, one action at a time, that asks the question: Who will you help today? Every night when Sonia goes to bed, Mami asks her the same question: Who will you help today? And since Sonia wants to help her community, just like her Mami does, she always makes sure she has an good answer to Mami's question. In a story inspired by her own family's desire to help others, Supreme Court Justice Sonia Sotomayor takes young readers on a journey through a neighborhood where kids and adults, activists and bus drivers, friends and strangers all help one another to build a better world for themselves and their community. The Business of Building a Better World

Across the globe, students are speaking up, walking out, and marching for social and ecological justice. Despite deficit discourses about students, youth are using their voice and agency to call forth a better world. Will educators respond to this call to stand with students in relational solidarity as co-constructors of a new tomorrow? What is possible when teachers and students engage together in new ways? Pedagogies of With-ness: Students, Teachers, Voice and Agency offers insight into the transformative possibilities of education when enacted as the art of being with. Driven by student voices and their experiences of marginalization, this text takes a clear ethical stance. It asserts that students are both capable and competent. Taking a narrative approach, this book honors academic work that is rooted in educational practice. Expanding beyond traditional conceptions of student voice, chapters engage in meditations on three themes: identity, pedagogy, and partnership. This book is an exploration of with-ness, a way of knowing, being, and acting. By centralizing the all-too-often suppressed wisdom of youth, teachers and researchers engage in new forms of critique and possibility-making with students. Editors reflect on this central theme, exploring the dimensions of such pedagogies of with-ness. Through this book, teachers are invited to imagine pedagogy under the new framework, actively committed to students, their voice, and mutual engagement. Click HERE to watch the editors discuss their book. Perfect for courses such as: Social Foundations | Student-Teacher Partnerships | Secondary Methods | Service Learning Leadership Ethnic Studies | Democracy and Civics | Social Justice and Education | Student Voice in Classrooms/Education | Ethical Issues in Education | Leadership for Social Justice

Interconnecting the concepts of sustainability, innovation and transformation, this book explains how organizations have successfully transformed themselves and wider society to foster a more sustainable future, and identifies the difficulties and challenges along the way. Part of the Principle of Responsible Management Education (PRME) series, the book promotes a strong voice for meeting sustainability challenges for transformative change in a globalized world through business education and practice. A transition to a more sustainable way of doing business can only be attained by combining technology with profound system innovations and new lifestyle changes. The chapters in the book, each written by a strong and well-recognized team of researchers in the field, open up the discussion about a new partnership between sustainability, innovation, and transformation that includes the global society (big world), the biosphere (small planet) and also requires a deep mind shift. The book presents cases from business (including Ikea and Eatly) and other service networks including the Base of the Pyramid (BoP), and illustrates how these organizations have transformed themselves for a sustainable future. The research perspectives are macro (policies and legislation), meso (institutional practices) and micro (business practices and individual behavior). This book is where research meets real-world business and societal practice. The chapters are grounded in business research, specifically the interdependencies between sustainability, innovation, and transformation, which makes for a robust basis for describing, explaining, and understanding the complex challenges faced by business and society in the 21st century. The book is intended for graduate- and postgraduate-level students and executive education with implications for practitioners. Furthermore, it contributes to multidisciplinary research in the field of interaction between business and society with a view to extending the firm-centric view to encompass a broader, systemic, and dynamic understanding of business and societal transformation.

Have you ever bought a cold drink at a lemonade stand? Or have you baked cookies for a school bake sale? If so, you're a consumer and a producer! Consumers, producers, buyers, and sellers all provide things other people want and need. How do they work together in the marketplace? Read this book to find out. By exploring such diverse issues as the management of child abuse, legal reforms following sex abuse inquiries, moral explanations for the actions of child murderers, the impossible task faced by social workers and the limitations of children's rights campaigns, Michael King examines the revolutionary ideas of the social theorist, Niklas Luhmann. He demonstrates how Luhmann's theory of autopoietic systems compels readers to re-examine exactly what they mean by society. Questioning the relationship between personal morality and political will, it challenges the assumption that changing society is merely a matter of changing attitudes and highlights the pitfalls associated with formulating social reform.

Social Studies for a Better World: An Anti-Oppressive Approach for Elementary Educators (Equity and Social Justice in Education)

A Simple Principle for a Better World and Meaningful Life

Plan and deliver a curriculum to help your students connect with the humanity of others! In the wake of 2020, we need today's young learners to be prepared to develop solutions to a host of entrenched and complex issues, including systemic racism, massive environmental problems, deep political divisions, and future pandemics that will severely test the effectiveness and equity of our health policies. What better place to start that preparation than with a social studies curriculum that enables elementary students to envision and build a better world? In this engaging guide two experienced social studies educators unpack the oppressions that so often characterize the elementary curriculum—normalization, idealization, heroicification, and dramatization—and show how common pitfalls can be replaced with creative solutions. Whether you're a classroom teacher, method student, or curriculum coordinator, this is a book that can transform your understanding of the social studies disciplines and their power to disrupt the narratives that maintain current inequities.

"What is mindfulness? Why should I practice it? What are its individual and collective benefits. If any? How should I meditate? How do I overcome the inherent difficulties of the practice? How can I live more mindfully? This is a book on mindfulness, spiritual search, and the promotion of social justice. Mindfulness is much more about exploration than explanation. As the Buddha repeatedly said, "Come and see for yourself." This book invites readers to investigate their paradigms, give free reins to their imagination, and contemplate the possibility that Heaven is here, if they want it to be. It encourages readers to roll up their sleeves and get involved in the work of saving our planet and bringing about a more humane and less violent society.

As we increase our awareness of the planetary challenges and how they intersect with the discipline or profession we choose to focus on, we have put our attention on the external forces and impacts. What remains untouched however is the set of beliefs, values, assumptions, mental processes, and paradigms that we hold and share: our mindset. But how do we change a mindset? This book is the first to introduce the 12 Principles for a Sustainability Mindset, presenting educators with a framework that makes it easy to include them into teaching plans and lessons of any discipline. Written in a very clear and practical way, the book provides examples, checklists, tips, and tools for professionals and educators. It transforms the development of a much-needed mindset for sustainability into an accessible, fun and intuitive task. The book is written with educators from a variety of disciplines in mind, including but not limited to management educators, coaches, and trainers. No other book comes close to providing such a well-organized and solid way of starting to shift our mindsets in the direction of sustainability.

This book contains assessment of the progress, or the lack of it, in implementing the UN Sustainable Development Goals (SDGs). Through review of the assessments and of case studies, readers can draw lessons from the actions that could work to positively address the goals. The 2030 Agenda for Sustainable Development is designed to catalyze action in critical areas of importance to humanity and the planet. The effort to implement the SDGs, however, demands a sense of urgency in the face of environmental degradation, climate change, emerging conflicts, and growing inequality, among a number of other socio-economic problems. Five years after the launch of the 2030 Agenda, this book takes stock of how far the world has come and how we can position ourselves to achieve the global targets. The book is one of the first to assess how the implementation is impeded by the onset of COVID-19. It contains a special chapter on COVID-19 and the SDGs, while many thematic chapters on different SDGs also assess how COVID-19 adversely affects implementation, and what measures could be taken to minimize the adverse effects. This publication thus provides a fresh look at implementation of the SDGs highlighting impactful and creative actions that go beyond the business-as-usual development efforts. The volume reinforces this analysis with expert recommendations on how to support implementation efforts and achieve the SDGs through international and national strategies and the involvement of both the public and private sectors. The result is an indispensable textual tool for policy makers, academia, intergovernmental organizations (IGOs) and non-governmental organizations (NGOs), as well as the public, as we march toward the 2030 deadline.

A Financial Times Best Business Book of the Year Named one of 10 Best New Management Books for 2022 by Thinkers50 "An advocate of sustainable capitalism explains how it's done" — The Economist "Polman's new book with the sustainable business expert Andrew Winston...argues that it's profitable to do business with the goal of making the world better." — The New York Times Named as recommended reading by Fortune's CEO Daily "...Polman has been one of the most significant chief executives of his era and that his approach to business and its role in society has been both valuable and path-breaking." — Financial Times The ex-Unilever CEO who increased his shareholders' returns by 300% while ensuring the company ranked #1 in the world for sustainability for eleven years running has, for the first time, revealed how to do it. Teaming up with Andrew Winston, one of the world's most authoritative voices on corporate sustainability, Paul Polman shows business leaders how to take on humanity's greatest and most urgent challenges—climate change and inequality—and build a thriving business as a result. In this candid and straight-talking handbook, Polman and Winston reveal the secrets of Unilever's success and pull back the curtain on some of the world's most powerful c-suites. Net Positive boldly argues that the companies of the future will profit by fixing the world's problems, not creating them. Together the authors explode our most prevalent corporate myths: from the idea that business' only function is to maximise profits, to the naive hope that Corporate Social Responsibility will save our species from disaster. These approaches, they argue, are destined for the graveyard. Instead, they show corporate leaders how to make their companies "Net Positive"—thriving by giving back more to the world than they take. Net Positive companies unleash innovation, build trust, attract the best people, thrill customers, and secure lasting success, all by helping create stronger, more inclusive societies and a healthier planet. Heal the world first, they argue, and you'll satisfy your investors as a result. With ambitious vision and compelling stories, Net Positive will teach you how to find the inner purpose and courage you need to embrace the only business model that will matter in the years ahead. You will learn how to lead others and unlock your company's soul, while setting and delivering big and aggressive goals, and taking responsibility for all of your company's impacts. You'll find out the secrets to partnering with others, including your competition and critics, to drive transformative change from which you will prosper. You'll build a company that serves your people, your customers, your communities, your shareholders—and your children and grandchildren will thank you for it. Is this win-win for business and humanity too good to be true? Don't believe it. The world's smartest CEOs are already taking their companies on the Net Positive journey and benefitting as a result. In this debut collection of essays and poetry, musician, speaker, and activist Propaganda inspires us to create a better, more equitable world. "If we get to make the very cultures that shape who we are, then let us remake them in the best way possible." "In this deep, challenging, and thoughtful book, Propaganda looks at the ways in which our world is broken. Using the metaphor of terraforming—creating a livable world out of an inhospitable one—she shows how we can begin to reshape our homes, friendships, communities, and politics. In this transformative time—when we are redefining what a truly just and equitable world looks like, and reflecting on the work that needs to be done both in our spiritual and secular lives—Propaganda rallies readers to create that just world. He sheds light on how nefarious origin stories have skewed our views of ourselves and allowed gross injustices, and demonstrates how great storytelling and excellent art can create and shape new perspectives of the world and make all of us better.

"In 1955, the height of the power of Howard Thurman, one of the most influential African American religious thinkers of the twentieth century, took a pivotal trip to India that would forever change him—and that would ultimately shape the course of the civil rights movement in the United States. When Thurman (1899–1981) became the first African American to meet with Mahatma Gandhi, he found himself called upon to create a new version of American Christianity, one that eschewed self-imposed racial and religious boundaries, and equaled itself to confront the enormous social injustices that plagued the United States during this period. Gandhi's philosophy and practice of satyagraha, or "soul force," would have a momentous impact on Thurman, showing him the effectiveness of nonviolent resistance. After the journey to India, Thurman's distinctly American translation of satyagraha into a Black Christian context became one of the key inspirations for the civil rights movement, fulfilling Gandhi's prescient words that "it may be through the Negroes that the unadulterated message of nonviolence will be delivered to the world." Thurman went on to found one of the first explicitly interracial congregations in the United States and to deeply influence an entire generation of black ministers—among them Martin Luther King Jr. Visions of a Better World depicts a visionary leader at a transformative moment in his life. Drawing from previously unarchived archival material and obscurely published works, Quinton Dixie and Peter Eisenstadt explore, for the first time, Thurman's development into a towering theologian who would profoundly affect American Christianity—and American history.

Audible eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience. Winner of the Coretta Scott King Book Awards for Author and Illustrator A Caldecott Honor Book A Sibert Honor Book Longlisted for the National Book Award A Kirkus Prize Finalist A Boston Globe-Horn Book Honor Book "A must-have"—Booklist (starred review) Celebrated author Carole Boston Weatherford and Illustrator Floyd Cooper provide a powerful look at the Tulsa Race Massacre, one of the most incidents of racial violence in our nation's history. The book traces the history of African Americans in Tulsa's Greenwood district and chronicles the devastation that occurred in 1921 when a white mob attacked the Black community. News of what happened was largely suppressed, and no official investigation occurred for seventy-five years. This gripping and sensitive story will engage readers to this tragedy and concludes with a call for a better future.
