

Guide To The Blood Sugar Diet

"Haylie Pomroy, celebrated nutritionist, and New York Times bestselling author of The Fast Metabolism Diet shares a prescription for total health based on decades of work using food as metabolic medicine. Our bodies are always talking; we just need to learn how to listen to them. Sometimes they whisper to us--our energy is off, our body shape is morphing in ways we don't like. Sometimes they try to give us straight talk, pushing our cholesterol a little higher or we have IBS or indigestion. At other times they're screaming, we're pre-diabetic or full blown, our moods are a mess, and our immune systems confused and attacking us. Every one of these health signals hides a specific kind of metabolic dysfunction, and for each, food is the answer. In her new book, Haylie teaches us that anyone can achieve the body and health they want from the foods that they choose and use"--

A paradigm-shifting diet book that explains why one-size-fits-all diets don't work and helps readers customize their diet to lose weight and improve health. There are certain things we take as universal truths when it comes to dieting and health: kale is good; ice cream is bad. Until now. When Drs. Segal and Elinav published their groundbreaking research on personalized nutrition, it created a media frenzy. They had proved that individuals react differently to the same foods--a food that might be healthy for one person is unhealthy for another. In one stroke, they made all universal diet programs obsolete. The Personalized Diet helps readers understand the fascinating science behind their work, gives them the tools to create an individualized diet and lifestyle plan (based on their reactions to favorite foods) and puts them on the path to losing weight, feeling good, and preventing disease by eating in the way that's right for them.
