Relics of the Reich is the story of what happened to the buildings the Nazis left behind. Hitlers Reich may have been defeated in 1945 but many buildings, military installations and other sites remained. At the end of the War, some were obliterated by the victorious Allies but others survived.For almost fifty years, these were left crumbling and ignored with postwar and divided Germany unsure what to do with them, often fearful that they might become shrines for neo-Nazis. Since the early 1990s, Germans have come to terms with these iconic sites and their uncomfortable part. Some sites are even listed buildings.Relics of the Reich visits many of the buildings and structures built or adapted by the Nazis and looks at what has happened since 1945 to try to discover what it tells us about Germany's attitude to Nazism now.It also acts as a commemoration of mankind's deliverance from a dark decade and serves as renewal of our commitment to ensure history does not repeat itself.

Friendship comes in all shapes and sizes! Originally published in 1969, this original Bernadette Watts story is now back in print with brand new, radiant illustrations. Hans Millermann is lonely and longs for the company of a friend. The little green caterpillar that lives with him in the mill is not good enough, so he goes out into the world to find a real friend. He is happy to befriend a snowflake, a flower, or even a fox. But none are willing to be his friend in return—not even the wind. The wind reminds Hans that they both still have something important to do. When Hans returns home to the mill, he finds a surprise: a beautiful butterfly is waiting for him. Could it be the caterpillar that Hans had previously disregarded? Bernadette Watts has delighted children around the world with her timeless tales and expressive art. This sweet story about recognizing friendship in all of its disguises will warm hearts and open minds. The original edition of Hans Millerman was published in 1969.
