## *The Call Of The Wild*

The classic story of an amazing dog caught up in the Alaskan gold rush. The Call of the Wild is a novel by Jack London published in 1903. The story is set in the Yukon during the 1890s Klondike Gold Rush—a period when strong sled dogs were in high demand. The novel's central character is a dog named Buck, a domesticated dog living at a ranch in the Santa Clara valley of California as the story opens. Stolen from his home and sold into the brutal existence of an Alaskan sled dog, he reverts to atavistic traits. Buck is forced to adjust to, and survive, cruel treatments and fight to dominate other dogs in a harsh climate. Eventually he sheds the veneer of civilization, relying on primordial instincts and lessons he learns, to

emerge as a leader in the wild. London lived for most of a year in the Yukon collecting material for the book. The story was serialized in the Saturday Evening Post in the summer of 1903; a month later it was released in book form. The novel's great popularity and success made a reputation for London. Much of its appeal derives from the simplicity with which London presents the themes in an almost mythical form.

The adventures of an unusual dog, part St. Bernard, part Scotch shepherd, forcibly taken to the Klondike gold fields where he eventually becomes the leader of a wolf pack.

with influence and themes so great that, after their publication, they changed literature forever. From the musings of literary geniuses like Mark Twain in *The Adventures of Huckleberry Finn* to the striking personal narrative of Harriet Jacobs in *Incidents in the Life of a Slave Girl*, this new series is a comprehensive collection of our history through the words of the exceptional few. Jack London's *The Call of the Wild* and *White Fang* are both adventure stories featuring animal protagonists—a sled dog named Buck and the appropriately named White Fang. Partially told from the perspective of the dogs, these stories gave London the opportunity to explore and predict how animals perceive our world. Buck was Judge Miller's pet and lived happily in Santa Clara Valley, California. Until one day,

when he's kidnapped by the gardener's assistant and sold to traders. Eventually he ends up in the Klondike region of Canada, where he is trained to become a sled dog. After he witnesses a fellow sled dog killed by a pack of huskies, Buck starts to shed his domesticated habits and embrace his primordial instincts in order to survive. White Fang, in a similar vein, tells the tale of another canine—a young gray wolf cub who is the strongest of his litter. As he grows, White Fang begins to understand the nature of the wilderness—that it is survival of the fittest: “The aim of life was meat. Life itself was meat. Life lived on life. There were the eaters and the eaten. The law was: EAT OR BE EATEN.” After wandering into an Indian camp, losing his mother, being severely beaten, and being forced into

days of the 19th century Klondike Gold Rushes. Published in 1903, *The Call of the Wild* is one of London's most-read books, and it is generally considered one of his best. Because the protagonist is a dog, it is sometimes classified as a juvenile novel, suitable for children, but it is dark in tone and contains numerous scenes of cruelty and violence. London followed the book in 1906 with *White Fang*, a companion novel with many similar plot elements and themes as *The Call of the Wild*, although following a mirror image plot in which a wild wolf becomes civilized by a mining expert from San Francisco named Weedon Scott.

These works echo and enrich the themes of The Call of the Wild and White Fang with their unique emphases on the primordial, the instinctual, and the quest for social justice.
