The tale of two American teenagers recruited as killers for a Mexican cartel, and the Mexican-American detective who realizes the War on Drugs is unstoppable. “A hell of a story...undeniably gripping.” (The New York Times) In this astonishing story, journalist Dan Slater recounts the unforgettable odyssey of Gabriel Cardona. At first glance, Gabriel is the poster-boy American teenager: athletic, bright, handsome, and charismatic. But the ghettos of Laredo, Texas—his border town—are full of smugglers and gangsters and patrolled by one of the largest law-enforcement complexes in the world. It isn't long before Gabriel abandons his promising future for the allure of juvenile crime, which leads him across the river to Mexico's most dangerous drug cartel: Los Zetas. Friends from his childhood join him and eventually they catch the eye of the cartel's leadership. As the cartel wars spill over the border, Gabriel and his crew are sent to the States to work. But in Texas, the teen hit men encounter a Mexican-born homicide detective determined to keep cartel violence out of his adopted country. Detective Robert Garcia's pursuit of the boys puts him face-to-face with the urgent consequences and new security threats of a drug war he sees as unwinnable. In Wolf Boys, Slater takes readers on a harrowing, often brutal journey into the heart of the Mexican drug trade. Ultimately though, Wolf Boys is the intimate story of the lobos: teens turned into pawns for the cartels. A nonfiction thriller, it reads with the emotional clarity of a great novel, yet offers its revelations through extraordinary reporting.

The definitive account of the disappearance of forty-three Mexican students On September 26, 2014, a party of students from the Ayotzinapa Rural Teachers' College were en route to a protest when intercepted by local police. A confrontation ensued. Come the morning,

the students were nowhere to be found. The crime that had transpired and the resultant cover-up brought the profound depths of corruption in the Mexican government and police force—as well as the vulnerability of ordinary Mexicans—into stark relief. Investigative reporter Anabel Hernández reconstructs the terrible events of that night and its aftermath, giving us the most complete picture available. Her sources are unparalleled. In researching this book, she secured access to internal government documents that have not been made public and to surveillance footage the government has tried to hide and destroy. Hernández demolishes the Mexican state's official version of events, which the Peña Nieto government cynically dubbed the "historic truth." As her research shows, state officials at all levels, from police and prosecutors to the upper echelons of government, conspired to put together a fake case, concealing and manipulating evidence, and arresting and torturing dozens of "suspects," procuring forced confessions to back up the official lie. By following the role of the various Mexican state agencies through the events in such remarkable detail, *A Massacre in Mexico* shows with exacting precision precisely who is responsible for this monumental crime and who needs to be held accountable.

BLOW is the unlikely story of George Jung's roller coaster ride from middle-class high school football hero to the heart of Pablo Escobar's Medellín cartel-- the largest importer of the United States cocaine supply in the 1980s. Jung's early business of flying marijuana into the United States from the mountains of Mexico took a dramatic turn when he met Carlos Lehder, a young Colombian car thief with connections to the then newly born cocaine operation in his native land. Together they created a new model for selling cocaine, turning a drug used primarily by the entertainment elite into a massive and unimaginably lucrative enterprise-- one whose earnings, if legal, would have ranked the cocaine business as the sixth largest private enterprise in the Fortune 500. The ride came to a screeching halt when DEA agents and Florida police busted Jung with three hundred kilos of coke, effectively unraveling his fortune. But George wasn't about to go down alone. He planned to bring down with him one of the biggest cartel figures ever caught. With a riveting insider account of the lurid world of international drug

smuggling and a super-charged drama of one man's meteoric rise and desperate fall, Bruce Porter chronicles Jung's life using unprecedented eyewitness sources in this critically acclaimed true crime classic.

When the lines you thought existed simply vanish? How do you plant your feet to make a stand when you no longer know what side you're on? The war has come home. For over forty years, Art Keller has been on the front lines of America's longest conflict: The War on Drugs. His obsession to defeat the world's most powerful, wealthy, and lethal kingpin?the godfather of the Sinaloa Cartel, Adán Barrera?has left him bloody and scarred, cost him the people he loves, even taken a piece of his soul. Now Keller is elevated to the highest ranks of the DEA, only to find that in destroying one monster he has created thirty more that are wreaking even more chaos and suffering in his beloved Mexico. What drug lords learned from big business How does a budding cartel boss succeed (and survive) in the 300 billion illegal drug business? By learning from the best, of course. From creating brand value to fine-tuning customer service, the folks running cartels have been attentive students of the strategy and tactics used by corporations such as Walmart, McDonald's, and Coca-Cola. And what can government learn to combat this scourge? By analyzing the cartels as companies, law enforcers might better understand how they work—and stop throwing away 100 billion a year in a futile effort to win the “war” against this global, highly organized business. Your intrepid guide to the most exotic and brutal industry on earth is Tom Wainwright. Picking his way through Andean cocaine fields, Central American prisons, Colorado pot shops, and the online drug dens of the Dark Web, Wainwright provides a fresh, innovative look into the drug trade and its 250 million customers. The cast of characters includes “Bin Laden,” the Bolivian coca guide; “Old Lin,” the Salvadoran gang leader; “Starboy,” the millionaire New Zealand pill maker; and a cozy Mexican grandmother who cooks blueberry pancakes while plotting murder. Along with presidents, cops, and teenage hitmen, they explain such matters as the business purpose for head-to-toe tattoos, how gangs decide whether to compete or collude, and why cartels care a surprising amount about corporate social responsibility. More than just an investigation of how drug cartels do business, *Narconomics* is also a blueprint for how to defeat them.

An electrifying account of the Cali Cartel beyond its portrayal on Netflix. From the ashes of Pablo Escobar's empire rose an even bigger and more malevolent cartel. A new breed of sophisticated mobsters became the kings of cocaine. Their leader was Gilberto Rodriguez Orejuela - known as the Chess Player due to his foresight and calculated cunning. Gilberto and his terrifying brother, Miguel, ran a multi-billion-dollar drug empire like a corporation. They employed a politically astute brand of thuggery and spent \$10 million to put a president in power. Although the godfathers from Cali preferred bribery over violence, their many loyal torturers and hit men were never idle. Shaun Attwood's WAR ON DRUGS SERIES - PABLO ESCOBAR, AMERICAN MADE, WE ARE BEING LIED TO and THE CALI CARTEL - are harrowing, action-packed and interlinked true stories that demonstrate the devastating consequences of drug prohibition.

Corruption is a threat to democracy and economic development in many societies. It arises in the ways people pursue, use and exchange wealth and power, and in the strength or weakness of the state, political and social institutions that sustain and restrain those processes. Differences in these factors, Michael Johnston argues, give rise to four major syndromes of corruption: Influence Markets, Elite Cartels, Oligarchs and Clans, and Official Moguls. In this 2005 book, Johnston uses statistical measures to identify societies in each group, and case studies to show that the expected syndromes do arise. Countries studied include the United States, Japan and Germany (Influence Markets); Italy, Korea and Botswana (Elite Cartels); Russia, the Philippines and Mexico (Oligarchs and Clans); and China, Kenya, and Indonesia (Official Moguls). A concluding chapter explores reform, emphasising the ways familiar measures should be applied - or withheld, lest they do harm - with an emphasis upon the value of 'deep democratisation'.

'It's incisive, it's intriguing, it's fascinating' - Ryan Tubridy, RTÉ 'Fascinating!' Keith Ward, FM104 The definitive account of the rise of the Kinahan gang and the deadly feud that has shocked the nation. He is one of Ireland's most successful CEOs, running a global multinational with operations on every continent and a turnover in the billions. However, Christy Kinahan will never be fêted in the financial press. For his business - drugs, guns, money-laundering, murder - also makes him Ireland's leading criminal. While Kinahan kept a low profile as he grew his empire, by the time his crime cartel shot to public attention in 2010 it was known to European police forces for over a decade. In that year police raided members' homes and premises in Spain, Ireland the UK. By then Kinahan and his sons Daniel and Christopher Jr were already among the richest men in Europe, with an estimated joint worth of €750m. However, events in February 2016 made Kinahan a household name. A daring and deadly gun attack in a suburban Dublin hotel - an attack targeting Daniel Kinahan (who escaped) - stunned the public and exposed the depth of enmity between the Kinahans and the family and associates of the veteran Dublin criminal, Gerry Hutch. Despite an intense garda crack-down on the gangsters' activities, the body count continues to rise. The Cartel gives behind-the-scenes story of that initial Spanish-led raid on the Kinahans. The authors have had exclusive access to the wiretaps that tracked the cartel for two years and talked to key officers who investigated them. They expose the criminal clan's aims and actions - in members' own words - and reveal the surprising truths behind how they built their empire. And The Cartel brings the story bang up-to-date to explain the origins of and fall-out from the feud with the Hatches, one of the most violent and vicious Ireland has ever known - and one that could be the undoing of the Kinahans. The authors' combined depth of knowledge - Stephen Breen has been a crime correspondent for over 15 years and in addition to writing about crime for over a decade, Owen Conlon is a fluent Spanish speaker - has culminated in a detailed and gripping account of double-crossing, vengeance and murder.

With The Respondent: Exposing the Cartel of Family Law, Hollywood veteran Greg Ellis delivers a gripping, unvarnished first-person account of family breakdown and the social, political, and legal forces that are fueling this national health emergency. It further exposes and condemns a gender bias that presumes that fathers are less effective caregivers. Family breakdown is the single greatest threat to American society. Every day, more than 4,000 children lose a parent because of our archaic and inhumane family-court system. Every day, ten divorced men commit suicide. And now, one in three children in our country are without their father. The Respondent is Ellis's personal story about a Hollywood dream razed by internal and external forces. Part memoir, part meditation, and part manifesto, it's a timely and heartrending portrait of perhaps the most misunderstood aspect of the American legal system. Through its candor and moral strength, The Respondent offers guidance and hope. As such, it's an indispensable read for not only parents enduring the grief of child separation, but all interested in learning about the gross overreach and unrelenting brutality of family law.

Environmental Integration in Competition and Free-Movement Laws engages in a comprehensive analysis of the obligation of Article 11 TFEU (integration of environmental protection requirements)

in the three core areas of EU internal market law: competition, state aid, and free movement. It develops a theoretical framework for integrating environmental and other policies and compares how environmental integration takes place within competition, state aid, and free movement law. In turn, it paves a way for a more transparent and consistent integration of environment protection in these three core areas of law. Structured in three parts, this volume (I) offers a detailed analysis of the historical development of environmental integration including discussions of the various intergovernmental conferences which led to a number of Treaty changes, shaping the obligation itself. (II) It investigates which provisions and concepts within competition law, state aid law, and the market freedoms can be interpreted in order to provide a clear demarcation of environmental protection and these areas of law. (III) It analyses how competition, state aid, and free movement law allow for a balancing of the environment against restrictions in cases of conflict.
