Through a wide spectrum of horror sub-genres, this book examines how the current state of horror reflects the anxieties in Western culture. Horror films bring them to a mass audience and offer new figures for the nameless faceless 'antagonist' that plagues us and provides material with which to build a different understanding of ourselves.

The greatest haunted house story ever written, the inspiration for a 10-part Netflix series directed by Mike Flanagan and starring Michiel Huisman, Carla Gugino, and Timothy Hutton First published in 1959, Shirley Jackson's *The Haunting of Hill House* has been hailed as a perfect work of unnerving terror. It is the story of four seekers who arrive at a notoriously unfriendly pile called Hill House: Dr. Montague, an occult scholar looking for solid evidence of a "haunting"; Theodora, his lighthearted assistant; Eleanor, a friendless, fragile young woman well acquainted with poltergeists; and Luke, the future heir of Hill House. At first, their stay seems destined to be merely a spooky encounter with inexplicable phenomena. But Hill House is gathering its powers—and soon it will choose one of them to make its own. The Case of the Scary Divorce

*Everyone has a dark side. Some are darker than others. Monsters don't just live in your nightmares. They stalk daily life, seeking prey to sate their hungers. They're the prickle along your spine and the dread in your gut. You can't escape them. Hyla and Lizeth thought they'd fought every kind of monster. But they haven't seen anything yet. When a dozen people are killed in one night, united by the same gruesome ritual, the sisters are introduced to a strange and prolific serial killer. A monster in man's clothing. As the dead pile up and the mystery deepens, the sisters begin to fear they've met a foe they can't defeat. A killer with unprecedented reach, a hidden power, and an insatiable appetite. This book is an Indie Author Project (IAP) Select title. IAP Select features the best indie books as curated by Library Journal, library editorial boards, editors and librarians. Women's detective fiction just got a lot more scary. Welcome to the world of *The Frontenac Sisters: Supernatural Sleuths & Monster Hunters*, a new psychological fiction/metaphysical mystery series that is guaranteed to keep you up at night. *The Shadow Mind* is the fourth installment in a planned series of eight books that combine a good old-fashioned amateur sleuth (two, in fact) with spine-tilling suspense, heart-breaking drama, just enough horror to keep you on the edge of your seat, and the heart-pumping adrenaline rush of a fast-paced thriller. Sleuths and sisters Hyla and Lizeth Frontenac run their own unique private investigator business from a small town in the Adirondacks. But they're more often in their 1972 Ford Econoline van, driving across America to investigate the next inexplicable crime. They're not technically professionals. The cases they investigate are more dark and disturbing than the average. More...bizarre. Criminals are cloaked as supernatural monsters, occult forces threaten them at every turn, and the confused victims demand justice. Lucky for the victims, these women sleuths are on the case. And no monster is safe in the path of a determined woman. For readers who enjoy a strong female lead protagonist, this thrilling series of paranormal private investigator mysteries will have you hooked from the first word. From the twisted imagination of mystery, suspense and thriller writer S.H. Livernois.*

*Uncover the twisted tales that inspired the big screen's greatest screams. Which case of demonic possession inspired *The Exorcist*? What horrifying front-page story generated the idea for *A Nightmare on Elm Street*? Which film was based on the infamous skin-wearing murderer Ed Gein? Unearth the terrifying and true tales behind some of the scariest Horror movies to ever haunt our screens, including the Enfield poltergeist case that was retold in *The Conjuring 2* and the serial killers who inspired Hannibal Lecter in *The Silence of the Lambs*. Behind the Horror dissects these and other bizarre tales to reveal haunting real-life stories of abduction, disappearance, murder, and exorcism.*

Scary Cases in Otolaryngology follows a case-based approach that focuses on potential pitfalls, decision analysis, mistakes, and "near misses" in the management of patients with head and neck disorders. This is an invaluable resource for otolaryngologists as it presents difficult cases and builds a discussion around clinical management, prevention, and the legal and ethical aspects of those cases. Current and future professionals in otolaryngology can analyze their own methodologies as well as the work of their peers to continually promote a safer and healthier environment for their patients. Scary Cases in Otolaryngology is an extension of the annual Scary Cases Conference held by the Boston University School of Medicine. The conference began in 2011 and aims to improve patient safety by addressing complex and controversial cases that involve increased risk, complications, and unfavorable outcomes. The cases in the text have been selected from previous conference presentations. This exciting and unique book addresses questions such as Did you make a wrong diagnosis before arriving at the correct one? Do you believe that you did everything correctly and the outcome was still unsatisfactory? Did a patient have a serious condition that was difficult to diagnose? Were there major complications? Did you have a difficult ethical dilemma? Were you required to treat a condition beyond your expertise? This innovative text includes clinical information on cases provided by faculty from top medical schools along with their narratives on what they learned. Contributors also include experts in medical malpractice and malpractice liability insurance. Practicing otolaryngologists, otolaryngology residents, malpractice attorneys, law students, otolaryngology nurse practitioners and primary care physicians will benefit from the examples in these "scary cases."

"A fascinating and frightening book" (Los Angeles Times)—the bestselling true story about a house possessed by evil spirits, haunted by psychic phenomena almost too terrible to describe. In December 1975, the Lutz family moved into their new home on suburban Long Island. George and Kathleen Lutz knew that, one year earlier, Ronald DeFeo had murdered his parents, brothers, and sisters in the house, but the property—complete with boathouse and swimming pool—and the price had been too good to pass up. Twenty-eight days later, the entire Lutz family fled in terror. This is the spellbinding, shocking true story that gripped the nation about an American dream that turned into a nightmare beyond imagining—"this book will scare the hell out of you" (Kansas City Star).

From Riccardo Freda's *I Vampiri* in 1956 to *Il Cartaio* in 2004, this work recounts the origins of the genre, celebrates at length ten of its auteurs, and discusses the noteworthy films of many others associated with the genre. The directors discussed in detail are Dario Argento, Lamberto Bava, Mario Bava, Ruggero Deodato, Lucio Fulci, Umberto Lenzi, Antonio Margheriti, Aristide Massaccesi, Bruno Mattei, and Michele Soavi. Each chapter includes a biography, a detailed career account, discussion of influences both literary and cinematic, commentary on the films, with plots and production details, and an exhaustive filmography. A second section contains short discussions and selected filmographies of other important horror directors. The work concludes with a chapter on the future of Italian horror and an appendix of important horror films by directors other than the 50 profiled. Stills, posters, and behind-the-scenes shots illustrate the book.*

Traces the giallo mystery/horror genre from its genesis in Italian cinema of the 1960s and 1970s to its contemporary place in the global cult-film canon. Italian giallo films have a peculiar allure. Taking their name from the Italian for "yellow"—reflecting the covers of pulp crime novels—these genre movies were principally produced between 1960 and the late 1970s. These cinematic hybrids of crime, horror, and detection are characterized by elaborate set-piece murders, lurid aesthetics, and experimental soundtracks. Using critical frameworks drawn from genre theory, reception studies, and cultural studies, *Giallo!* traces this historically marginalized genre's journey from Italian cinemas to the global cult-film canon. Through close textual analysis of films including *The Girl Who Knew Too Much* (1963), *Blood and Black Lace* (1964), *The Bird with the Crystal Plumage* (1970), *The Black Belly of the Tarantula* (1971), and *The Case of the Bloody Iris* (1972), Alexia Kannas considers the rendering of urban space in the giallo and how it expresses a complex and unsettling critique of late modernity. Alexia Kannas is Lecturer in Media and Cinema Studies in the School of Media and Communication, RMIT University in Melbourne, Australia. She is the author of *Deep Red*.

Horror Stories a collection of scary tales, poems, and ideas is terrifying experience. Jam packed with tons of creepy pasta like stories and concepts. this is a great book of scary stories to read in the dark.

It is the very stuff of legend. A man from the very bottom of the American caste emerges, seemingly out of nowhere, captures the nation's imagination and improbably -- within four odd years, defies gravity and rises to the dizzying height of the American presidency thereby becoming the first non-white in history elected to lead an overwhelmingly white nation. A Cinderella like fairy tale? No. That's the story of President Barack Obama. Seismic and epic, it is a biblical tale of the trials, travails, tribulations and dazzling triumphs of the rejected stone that became cornerstone of Moses as pharaoh. Reviled and vilified like his legendary idol, Abraham Lincoln, whose election sparked the American civil war, Obamas election likewise triggered a cold uncivil civil war. That notwithstanding, his achievements are impressive even historic. Regarded as a Gettysburg-like pivotal moment in American history, Obamas metaphorical conquest of the American presidency is a monumental achievement, a crossing of the Rubicon and a historic 1066-type turning point matched in its sheer historic weight and majesty only by the achievements of Washington and Lincoln. It reboots American democracy and heralds a new Yes We can! era of American and world history with new and expansive possibilities already evident in the unusual and iconoclastic demographic profiles of many of his wannabe successors. It gives credence to the creed All men are created equal and confers legitimacy on American democracy. It redounds to the credit of the nation, and burnishes her image as the pacesetter in the quest for interracial harmony. Citing these and Obamas many other achievements such as saving a moribund economy and reforming healthcare, the author predicts that Obama will be revered as one of Americas greatest presidents.

R. Austin Freeman was a popular mystery author of the early 20th century. Some credit him with having invented the 'inverted detective story' – a plot structure in which the commission of the crime is described at the beginning, and details the detective's attempt to solve the mystery. Many of the hardboiled and pulp detective stories, particularly dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these works in affordable, high quality, modern editions, using the original text and artwork.

The book offers a new way of examining crime, criminal victimization, and crime control through the lens of appearance. It covers timely topics, such as human trafficking, terrorism, racial profiling, and the effects of inequality on appearance. It offers policy and legislative recommendations and discussions of social movements.
