

The Child In Time

In a future where the Population Police enforce the law limiting a family to only two children, Luke, an illegal third child, has lived all his twelve years in isolation and fear on his family's farm in this start to the Shadow Children series from Margaret Peterson Haddix. Luke has never been to school. He's never had a birthday party, or gone to a friend's house for an overnight. In fact, Luke has never had a friend. Luke is one of the shadow children, a third child forbidden by the Population Police. He's lived his entire life in hiding, and now, with a new housing development replacing the woods next to his family's farm, he is no longer even allowed to go outside. Then, one day Luke sees a girl's face in the window of a house where he knows two other children already live. Finally, he's met a shadow child like himself. Jen is willing to risk everything to come out of the shadows—does Luke dare to become involved in her dangerous plan? Can he afford not to?

Nore Roberts didn't ask for a new life, but now that her mom is gone and her dad is newly married, she has to settle in at Shadow Grove, the old Civil War mansion her stepfamily calls home. When she meets her stepmother, Lisette, Nore is shocked by her youth and beauty that gives her chills- and a hint of something sinister. There's hope of becoming friends with her stepbrother and sister, until Nore realizes they're hiding something. When she begins to feel like the target of a deadly plan, Nore starts digging into her stepfamily's past. The skeletons in their closet are more real than she ever imagined. Can Nore expose her stepmother's dark secret before an old and evil magic swallows her up?

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

A Wrinkle in Time

Told in diary form by an irresistible heroine, this “heartfelt, bittersweet, and ever-so-clever coming-of-age fantasy” (School Library Journal, starred review) named one of Publishers Weekly’s Best Books of the Year from the New York Times bestselling author of the May Bird trilogy sparkles with science, myth, magic, and the strange beauty of the everyday marvels we sometimes forget to notice. Spirited, restless Gracie Lockwood has lived in Cliffden, Maine, her whole life. She’s a typical girl in an atypical world: one where sasquatches helped to win the Civil War, where dragons glide over Route 1 on their way south for the winter (sometimes burning down a T.J. Maxx or an Applebee’s along the way), where giants hide in caves near LA and mermaids hunt along the beaches, and where Dark Clouds come for people when they die. To Gracie it’s all pretty ho-hum…until a Cloud comes looking for her little brother Sam, turning her small-town life upside down. Determined to protect Sam against all odds, her parents pack the family into a used Winnebago and set out on an epic search for a safe place that most people say doesn’t exist: The Extraordinary World. It’s rumored to lie at the ends of the earth, and no one has ever made it there and lived to tell the tale. To reach it, the Lockwoods will have to learn to believe in each other—and to trust that the world holds more possibilities than they’ve ever imagined.

Drawing on a variety of theoretical approaches including trauma theory, psychoanalysis, genre theory, narrative theory, theories of temporality, cultural theory, and ethics, this book breaks new ground in bringing together trauma and romance, two categories whose collaboration has never been addressed in such a systematic and in-depth way. The volume shows how romance strategies have become an essential component of trauma fiction in general and traumatic realism in particular. It brings to the fore the deconstructive powers of the darker type of romance and its adequacy to perform traumatic acting out and fragmentation. It also zooms in on the variations on the ghost story as medium for the evocation of trans-generational trauma, as well as on the therapeutic drive of romance that favors a narrative presentation of the working-through phase of trauma. Chapters explore various acceptations and extensions of psychic trauma, from the individual to the cultural, analyzing narrative texts that belong in various genres from the ghost story to the misery memoir to the graphic novel. The selection of primary sources allows for a review of leading contemporary British authors such as Peter Ackroyd, Martin Amis, Ian McEwan, Salman Rushdie, Graham Swift, Sarah Waters and Jeanette Winterson, and of those less canonical such as Jackie Kay, Alan Moore and Dave Gibbons, Justine Picardie, Peter Roche and Adam Thorpe.

“The children and nature movement is fueled by this fundamental idea: the child in nature is an endangered species, and the health of children and the health of the Earth are inseparable.” –Richard Louv, from the new edition In his landmark work Last Child in the Woods, Richard Louv brought together cutting-edge studies that pointed to direct exposure to nature as essential for a child’s healthy physical and emotional development. Now this new edition updates the growing body of evidence linking the lack of nature in children’s lives and the rise in obesity, attention disorders, and depression. A young girl's astonishing, poignant first look into the turbulent heart of things "I had in my care that summer four dogs, three cats, the Moran kids, Daisy, my eight-year-old cousin, and Flora, the toddler child of a local artist. There was also, for a while, a litter of wild rabbits, three of them, that had been left under our back steps.... " Alice McDermott's haunting and enchanting new work of fiction--her first since the bestselling Charming Billy, winner of the 1998 National Book Award--is narrated by a woman who was born beautiful. Her parents decided that her best chance in life was to marry a wealthy man, so she was raised on the east end of Long Island, among the country houses of the rich. On the cusp of fifteen, she is the town's most sought-after babysitter--cheerful, beloved, a wonder with children and animals, but also a solitary soul with an already complex understanding of human nature--when her favorite cousin, Daisy, comes to spend the summer. The narrator's witty, piquant, deeply etched evocation of all that was really transpiring under the surface during that seemingly idyllic season gives her wry tale--infused with suppressed passion, disappointment, and enduring hope--its remarkable vividness and impact. Once again, Alice McDermott explores the mysterious depths of what seems like everyday life with unforgettable insight and resonant emotional power.

From a renowned investigative reporter, the true story behind a horrifying Internet abuse epidemic--and the heroes who are out to stop it. The Internet has helped make child abuse terrifyingly common--it is the new face of crime in the 21st century. There are tens, probably hundreds of thousands of children whose sexual abuse has been electronically recorded and distributed on the Internet. As Julian Sher reveals, the men perpetrating these crimes include lawyers, priests, doctors and politicians. They pick their victims from the streets of Bangkok to Boy Scout troops in England, while the police--from a crack image analyst with the Toronto police to an FBI agent who poses as a 13-year-old girl online--work desperately to nab the predators. One Child at a Time goes behind the headlines to show how law officers are fighting back against this tide of abuse, from daring rescues in homes to the seizures of millions of dollars in the offshore bank accounts of the porn merchants. In riveting detail, Julian Sher shows how clue by clue, and image by image, investigators are using cutting edge tools, turning the technology of the Internet against the perpetrators as they race to find and rescue the victims--children who otherwise have no voice. This important book explores the ramifications of a worldwide struggle, from the need for updated legal powers to the unexpected effects the Internet has had on our social fabric. It also includes a full list of resources for concerned parents. Though sometimes harrowing, One Child at a Time is also inspiring--and never less than absolutely relevant.

From the Booker Prize winning author of Amsterdam, a brilliant new novel. On the hottest day of the summer of 1935, thirteen-year-old Briony Tallis sees her sister Cecilia strip off her clothes and plunge into the fountain in the garden of their country house. Watching her is Robbie Turner, son of the Tallis's cleaning lady, whose education has been subsidized by Cecilia's and Briony's father, and who, like Cecilia, has recently come down from Cambridge. By day's end, their lives will be changed --irrevocably. Robbie and Cecilia will have crossed a boundary they had not imagined at its start. And Briony will have witnessed mysteries, seen an unspeakable word, and committed a crime for which she will spend the rest of her life trying to atone... Brilliant and utterly enthralling in its depiction of love and war and class and childhood and England, An Atonement is a profound -- and profoundly moving -- exploration of shame and forgiveness, of atonement and of the possibility of absolution.

In Time to Parent, the bestselling organizational guru takes on the ultimate time-management challenge--parenting, from toddlers to teens--with concrete ways to structure and spend true quality time with your kids. Finding a healthy balance between raising a human and being a human often feels impossible, but Julie Morgenstern shows you how to harness your own strengths and weaknesses to make the job your own. This revolutionary roadmap includes: A unique framework with eight quadrants that separates parenting responsibilities into actionable, manageable tasks--for the whole bumpy ride from cradle to college. Simple strategies to stay truly present and focused, whether you're playing with your kids, enjoying a meal with your significant other, or getting ahead on that big proposal for work. Clever tips to make the most of in-between time--Just 5-15 minutes of your undivided attention has a huge impact on kids. Permission to take personal time without feeling guilty, and the science and case studies that show how important self-care is and how to make time for it.

With the seemingly insurmountable pressures placed on families today, many parents lack the spiritual foundation and practical knowledge to chart a clear-cut course in child-rearing. Parents question whether nurturing their children's souls is even possible in the fast-paced materialistic culture in which we live. Utilizing the insight that springs from her knowledge of Torah wisdom, her personal experiences and the experiences of those she has counseled, Slovie Jungreis-Wolff, a longtime parenting coach and advisor to young couples and families teaches in detail how to approach the entire gamut of issues, with a special emphasis on strengthening the child's morality and character. Parents will learn how to: • Instill simchas hachayim, "true joy," in their children • Value chessed, kindness, in a self-absorbed world •

Create a mikdash me'at, a home filled with calm and reflection • Teach children gratitude and appreciation • And much more... From discipline to sibling rivalry to effective communication skills, Raising a Child with Soul offers unique concepts and pragmatic ideas that can be understood and applied to both Jewish and non-Jewish households.

The Amazing Book of No was just announced as a Winner of the 2015 Readers Favorite Award for K-3rd grade readers. "The Amazing Book of No" is a deceptively simple story that will teach your 3-7 year old how to accept the word "no" when you say it, and why they shouldn't argue. The story is about two moms and their children. One mom says "no" all the time, while the other says "yes" to everything. It is cute and engaging all in one, and designed not to take up too much of a parents valuable time, with the idea being to try and imprint wholesome ideals while kids are young.

Reading this just a few times to your boy or girl at bedtime will ensure you don't have any misunderstandings with your children about the word "NO" as they grow older. This really is: The Amazing Book of No!

In this magical debut -- a finalist for the Pulitzer Prize -- a couple's lives are changed forever by the arrival of a little girl, wild and secretive, on their snowy doorstep. Alaska, 1920: a brutal place to homestead, and especially tough for recent arrivals Jack and Mabel. Childless, they are drifting apart--he breaking under the weight of the work of the farm; she crumbling from loneliness and despair. In a moment of levity during the season's first snowfall, they build a child out of snow. The next morning the snow child is gone--but they glimpse a young, blonde-haired girl running through the trees. This little girl, who calls herself Faina, seems to be a child of the woods. She hunts with a red fox at her side, skims lightly across the snow, and somehow survives alone in the Alaskan wilderness. As Jack and Mabel struggle to understand this child who could have stepped from the pages of a fairy tale, they come to love her as their own daughter. But in this beautiful, violent place things are rarely as they appear, and what they eventually learn about Faina will transform all of them.

Kate has come a long way from her origins as a loner taking care of paranormal problems in post-Shift Atlanta. She's made friends and enemies. She's started a family with Curran Lennart, the former Beast Lord. Kate and her father, Roland, currently have an uneasy truce, but when he starts testing her defences again, she knows that a confrontation is inevitable. The Witch Oracle has begun seeing visions of blood, fire, and human bones. And when a mysterious box is delivered to Kate's doorstep, a threat of war from the ancient enemy who nearly destroyed her family, she knows their time is up.

In this taut, chilling novel from the bestselling, Pulitzer Prize-winning author of The Road, Lester Ballard--a violent, dispossessed man falsely accused of rape--haunts the hill country of East Tennessee when he is released from jail. While telling his story, Cormac McCarthy depicts the most sordid aspects of life with dignity, humor, and characteristic lyrical brilliance. "Like the novelists he admires--Melville, Dostoyevsky, Faulkner--Cormac McCarthy has created an imaginative oeuvre greater and deeper than any single book. Such writers wrestle with the gods themselves."

Child of Time

My Diary from the Edge of the World

'I just wish I had armfuls of time.' These are the poignant words of a four year old facing a life-threatening illness. Armfuls of Time eloquently portrays the psychological experience of such children, who are irreversibly changed from the moment of diagnosis. Barbara M. Sourkes, Ph.D. describes how she works with these children, using drawings, soft toys and dolls, stories and real medical objects, to allow them to communicate their feelings about the treatment they undergo, their relationship with their families, their experience of the illness and living with the threat of loss. Making extensive use of the words of children, offering astute interpretations and sound practical advice, this is a book that will be welcomed by all those concerned with the care of children with life-threatening illnesses.

Teaching a child to tell time is quite challenging. How can you put into words a good explanation as to why numerals are to be read in many ways? When introducing the concept, start with the use of an analog clock because it gives the concept of change through the moving hands. This educational book is perfect for little learners. A gripping novel of family secrets

Set in late 1980s Europe at the time of the fall of the Berlin Wall, Black Dogs is the intimate story of the crumbling of a marriage, as witnessed by an outsider. Jeremy is the son-in-law of Bernard and June Tremaine, whose union and estrangement began almost simultaneously. Seeking to comprehend how their deep love could be defeated by ideological differences Bernard and June cannot reconcile, Jeremy undertakes writing June's memoirs, only to be led back again and again to one terrifying encounter forty years earlier--a moment that, for June, was as devastating and irreversible in its consequences as the changes sweeping Europe in Jeremy's own time. In a finely crafted, compelling examination of evil and grace, Ian McEwan weaves the sinister reality of civiliation's darkest moods--its black dogs--with the tensions that both create love and destroy it. New from the bestselling author of Atonement and The Children Act Trudy has betrayed her husband, John. She's still in the marital home--a dilapidated, priceless London townhouse--but John's not there. Instead, she's with his brother, the profoundly banal Claude, and the two of them have a plan. But there is a witness to their plot: the inquisitive, nine-month-old resident of Trudy's womb. Told from a perspective unlike any other, Nutshell is a classic tale of murder and deceit from one of the world's master storytellers.
