

The Complete Bullshit Free And Totally Tested Writing Guide How To Make Publishers Agents Editors Readers Fall In Love With Your Work

The taboo subject of openly refuting free will is now finally out of the closet. This book represents a shorter and easier to read version of its predecessor *The Newer Testament - The Bible of Unfree Will*. In its core essence, this book is *The Newer Testament Edition Two*. Bold, daring, core-shattering, and more to the point than edition one, this work challenges established and well-accepted truths about the freedom of man. This unique literary work is intended for anyone interested in deepening their understanding of why free will is pure nonsense and insanity -- something the entire world may soon need to discover. It's been 520 years since *The New World* was discovered by Columbus. The discoveries of *The Newer Testament* -- editions one and two will make his discoveries look inconsequential by comparison. By reading this book, you will quickly learn why the belief in free will is total, complete, utter nonsense and insanity.

"Always surprises and always entertains." - Jonathan Maberry, *V-Wars* A box set of four books in the bestselling AFTER post-apocalyptic thriller series *The After Series: Books 0-3* When devastating solar storms wipe out the technological infrastructure and kill billions, the few survivors struggle to adapt. But some among them have changed, becoming primal and violent. But the mutants quickly evolve into something even more dangerous to the future of the human race. Rachel Wheeler and her group of friends find themselves caught between the mysterious new tribe, roving bands of scavengers, and rogue military units as they carve out a home in the new world. *After #0: First Light- Prequel novella*. NASA scientists warn of the possible effects of heightened solar activity, but the threat is downplayed until it's far too late. *After #1: The Shock-* Rachel Wheeler flees the dangers of Charlotte to seek her grandfather's remote compound in the Blue Ridge Mountains. She is joined by several other survivors as they fight back against a hostile world. *After #2: The Echo-* The survivors discover the mutant Zapheads are evolving by imitating human speech and behavior, but the threat of savage violence remains. *After #3: Milepost 291-* As Rachel and the others near her grandfather's compound, new dangers emerge, including a military unit that has established its own harsh laws. Look for the rest of the After books: *Whiteout, Red Scare, and Dying Light*. See what happens five years later in the NEXT series.

The tragic and heartwarming saga of the Thompson Sisters has endeared readers worldwide, with more than a quarter million copies sold in six languages. For the first time, the entire saga -- six full length novels plus two bonus novellas -- are under one cover. Adelina Thompson, the hated matriarch and diplomatic wife who has her own tragic secrets. Meet Julia Thompson and Crank Wilson -- the star crossed couple who meet at a anti-war protest in Washington, DC. Alexandra Thompson and Dylan Paris -- can Alex restore love and help heal her war-wounded love? Carrie Thompson and Ray Sherman -- a senseless accident reveals dangerous secrets no one ever expected. *The Rachel's Peril* trilogy: will Andrea Thompson's secrets destroy her entire family? *The Thompson Sisters* *A Song for Julia* *Just Remember to Breathe* *The Last Hour* *Rachel's Peril* *Girl of Lies* *Girl of Rage* *Girl of Vengeance* Bonus novellas: *Falling Stars* *A View From Forever* This anthology will only be available for 14 days.

From bestselling writer David Graeber—"a master of opening up thought and stimulating debate" (Slate)—a powerful argument against the rise of meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled "On the Phenomenon of Bullshit Jobs." It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society's most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capitalism that betrays ideals shared by thinkers ranging from Keynes to Lincoln. "Clever and charismatic" (The New Yorker), *Bullshit Jobs* gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and "a thought-provoking examination of our working lives" (Financial Times).

The Book of Bullshit

The Art of Bullshit

Get Strong. Get Lean. No Bullshit.

The Ultimate in Nonsense

Wake, Lullaby, Tidal, and Elegy Climb/h

Three complete novels in one. This boxed set edition contains the complete text of three bestselling novels by Charles Sheehan-Miles: A Song for Julia, Just Remember to Breathe and The Last Hour

Upon learning about the death of his father, Clay Forester, still grieving over the deaths of his wife and son, sets out to attend the funeral--a journey that forces him to face the past and forgive his father as well as himself.

Materialism and spiritualism are at war. Both sides are limited. The honest and dishonest have been fighting on both sides. This book pokes fun at both. It also dreams of a new manner of envisioning life. Better and freer. We are mind and matter. Eternity, immortality, and infinity are total. Life is forever complete.

Over 1,000 pages sure to delight fans of kickass heroine Urban Fantasy with story of lost dragon egg in this special complete collection of five full length novels written by Author Joanna Mazurkiewicz. Dragon Fever will destroy not one world, but two—unless she can atone for the sins of her past to protect the future. Once upon a time, non-magical warden Fran stole a golden dragon egg. Now her only job is to protect it. So when a crack opens between worlds, she escapes into London, a land she 's only heard of in stories. But death follows her. Hounded by Dark Ones and the knowledge that the egg won ' t survive in the mundane world of humans, Fran gathers a team to save the egg, protect magic, and reveal the truth that could cure many dying wardens. It ' s still not enough. Until she meets Idris, half-mage and half-human. He ' s a Dark One, and Fran ' s convinced he ' s her enemy. Still, there ' s something between them that makes her want to trust him. Between them, they might just be able to save everything.

Immortal

Realizing Awakened Consciousness

Watersong, the Complete Series

This may be the most honest book ever written about Jesus. As a veteran pastor in the United Church of Christ, Dr. Watson shares his thoughts on the timeless topic of Christology--the doctrine of Christ--with new and creative insights, informative and accessible theology, personal anecdotes, and lively wit. Nothing is off-limits in this no-holds-barred contribution to the Jesus genre. Big Jesus is not another theological "spin" on the identity and nature of Jesus of Nazareth, nor is it a sentimental fairytale for those who prefer their Christology to be served up on Sunday mornings with fluffy sheep, little children, and footprints in the sand. This book is for Christian adults with a sense of humor.

Delve into an extraordinary world of dark magic and savage beauty in New York Times bestselling author Amanda Hocking's Watersong series, where love is the most powerful weapon of all. Together for the first time, read all four novels in the Watersong series in a low priced eBook bundle: Wake After a night with three mysterious girls, Gemma Fisher wakes up with amazing new powers. But they come with a price that forces Gemma to choose between her old life and entering a new world brimming with dark hungers and unimaginable secrets... Lullaby Harper Fisher's normal life is upended when her younger sister Gemma runs off with a dangerous clique of beautiful girls. Vowing to get her sister back no matter the cost, Harper must face dangers unlike any she's ever experienced; but will Harper still love Gemma once she learns the truth? Tidal Gemma and Harper are facing the fight of their lives: they've finally found a way to break Gemma's curse to make her human again, but the deadly creatures who cursed her are determined to kill Gemma before she has the chance... Elegy An ancient curse robbed Gemma of everything that matters most: her friends, her family, and the guy she loves. Now that she has the scroll that binds her curse, Gemma finally has the chance to get her old life back. But Gemma and Harper realize that destroying the scroll is not as easy as they hoped.

When a mudslide wipes out multiple members of a wilderness therapy trip, the three remaining teenagers must survive the elements, their demons, and one another.

This textbook covers the material for an undergraduate linear algebra course: vectors, matrices, linear transformations, computational techniques, geometric constructions, and theoretical foundations. The explanations are given in an informal conversational tone. The book also contains 100+ problems and exercises with answers and solutions. A special feature of this textbook is the prerequisites chapter that covers topics from high school math, which are necessary for learning linear algebra. The presence of this chapter makes the book suitable for beginners and the general audience--readers need not be math experts to read this book. Another unique aspect of the book are the applications chapters (Ch 7, 8, and 9) that discuss applications of linear algebra to engineering, computer science, economics, chemistry, machine learning, and even quantum mechanics.

Eat Bacon, Don't Jog

No Bullshit Guide to Linear Algebra

How to Communicate Clearly and Reclaim Our Language

The Total, Complete, Utter Insanity & Nonsense of Free Will

Raising Free People

The Bullshit-Free Book

Breaking Free Together

Bullshit is everywhere. Some of it is just lazy, some is complete nonsense, and yet some is at least trying to communicate something, even if it fails. Bestselling author Kevin Duncan has been on a life mission to improve business language and understanding. In his latest book, he weeds out the worst offenders, and the contexts in which they most frequently occur, to provide readers with a path to clear communication. The book starts with an examination of why we seem to use so much jargon and non-sensical words and phrases in our daily working lives. Duncan then lists and analyses the 100 most popular examples of bullshit used internally and externally, their real meaning, and rates how harmless or dangerous they are. The book ends with advice on dealing with bullshitters and a manifesto to help anyone achieve clear, bullshit-free communication.

I don't do commitment. I have my reasons. But I've discovered some guys just can't take a

hint. So I've been playing a little game. Seeing just how far I can go before I send these guys running for the hills. A little bit of crazy, Keeps me a single lady. Except for this one guy who just keeps showing up. He makes me laugh. He listens. And all the crazy stuff I do doesn't bother him. In fact, I think he likes it. Which is a problem. Because if I'm not careful, I just might get used to needing someone. * * Story continues in the novel Need Me.

Military Sci-Fi Adventure Series - The Apex Trilogy chronicles the zombie apocalypse where the dead have mechs. Dead Mech: In a Post Apocalyptic far future, there is only one thing that can save the fragile civilizations humanity has cobbled together: the mechs. A ragtag crew of mech pilots must battle the undead hordes, cannibal tribes, and religious cults in a daily race to keep humanity safe. But now a threat worse than anything has surfaced and is growing stronger. The undead have reanimated in their own battle machines and created the rise of the Dead Mechs! Dead Mech is a zombie filled, post apocalyptic, military scifi, mecha action/adventure novel like no other! Reviews: "It's mechs. It's zombies. It's zombies in mechs. You already know you're going to buy it. So just get it over with." -New York Times Bestselling Author Scott Sigler "Even if you're (Like me) kinda over zombies, go get this awesome book." -John, Goodreads review "When I started this book I was already a fan of Jake Bible, but THIS book made me an even bigger fan." - Laura, Goodreads review "Giant fighting Robots + Zombies = EPIC"- Amy, Goodreads review "Suspenseful, psychotic, and artistically profane." Mason, Goodreads review The Americans: The exciting sidequel to DEAD MECH is a hellride through Europe, Asia and beyond as American Ghost Heather Walton must save her family, her friends, and an all important cargo. The world has survived the North American zombie apocalypse, but Americans struggle to maintain their place in a world where the powers that be no longer want them. And will stop at nothing to put an end to their standing and their very existence! Reviews: "A very different book from "Dead Mech," but you still have the great characters, non-stop action, and imaginative technologies. I finished it in 2 days (work interrupted me!) And immediately downloaded the final book in the trilogy."- Beth, Goodreads review "4+ stars. All I can really say at this point that might make sense is: what the literal fudgesicle did I just read from cover to cover practically without stopping?"- Ziggy, Goodreads review "Brilliant book, I have read Jake Bibles other Apex Trilogy book - Dead Mech - and thoroughly enjoyed it, and have been waiting for the next part of the trilogy. This book did not disappoint!"- Kay, Goodreads review Metal and Ash: Will fifty foot battle mechs be enough against hundreds of thousands of techno-zombies ready to wipe everything living off the scorched map that is the wasteland? Alliances are formed and broken, mech pilots are made and murdered, secrets are revealed and agendas destroyed, and thousands of bodies fall and rise again What began in the wasteland of DEAD MECH, continued alongside in Europe and Asia in The Americans, now has its epic conclusion in Metal and Ash! Reviews- "Wow wow wow!!!! I literally could not stop reading this book. Action packed all the way to the last page. I'm sad that it's over."- Amy, Goodreads review "A great end to the Apex series."- Matt, Goodreads review "To start in, this was the best of the 3 books. The taboo subject of openly refuting free will is now finally out of the closet. Do we as human beings have the ability to make our own decisions in all matters of life? Is it left up to you and me to decide how our lives will be lived or is it up to God (the entirety of the universe)? We either have free will" or we dont. Many people love to say they have a little free will. A little free will means you do in fact believe in free will. This is a black or white issue. You either have free will or you dont. We cannot have two truths fighting against each other; if two truths do fight against each other then what you have is not truth. There can only be one truth in this matter and its about time to understand that Free Will" Is The Ultimate in Nonsense. By reading this bold and daring little book, you will quickly learn why the belief in "free will" is The Ultimate in Nonsense. This book along with The Newer Testament can prove and persuade you to the truth that free will doesnt exist. This book can also show you how a planet without free will is actually a better and more compassionate planet to live on. Enel Vale went to Emory University and received his masters from Fordham University. He is also a member of Mensa (the top 2% IQ society). He is the host of the "No Free Will" tv show in Manhattan, NY.

Draconia World Series. The Complete Urban Fantasy Collection: Twisted Fate, Hatched, Burned, Lost, Reborn

"Best-selling author Kevin Duncan presents the world's most comprehensive collection of total bullshit, diligently collected over 35 years. His incisive take on all this boardroom nonsense lifts the lid on the truth behind business vocabulary, and tells us what people are really trying to say."--Back cover.

This book identifies eight key mechanisms that can transform a set of ideas into a psychological flytrap. The author suggests that, like the black holes of outer space, from which nothing, not even light, can escape, our contemporary cultural landscape contains numerous intellectual black-holes—belief systems constructed in such a way that unwary passers-by can similarly find themselves drawn in. While such self-sealing bubbles of belief will most easily trap the gullible or poorly educated, even the most intelligent and educated of us are potentially vulnerable. Some of the world ' s greatest thinkers have fallen in, never to escape. This witty, insightful critique will help immunize readers against the wiles of cultists, religious and political zealots, conspiracy theorists, promoters of flaky alternative medicines, and others by clearly setting out the tricks of the trade by which such insidious belief systems are created and maintained.

From the bestselling author of Just Remember to Breathe Twenty-seven year old Carrie Thompson-Sherman has the life she always wanted: her PhD, a prestigious fellowship, and an amazing husband. Her charmed life begins to unravel as a jealous colleague puts her fellowship in jeopardy and a hideous secret Ray carried home from Afghanistan comes to light. Hanging on by a single thread, a disastrous accident puts both her husband and her sister's lives at risk.

Heartbroken, Carrie will be faced with the most devastating choice of her life. A choice that will change everything.

"One of the best writers working today. Miss him at your peril." - Blake Crouch, DARK MATTER The first book in the AFTER post-apocalyptic thriller series from an international bestselling author. For fans of post-apocalyptic, zombie, and doomsday thriller fiction. AFTER: THE SHOCK A massive solar storm erases the world's technological infrastructure and kills billions. While the remaining humans are struggling to adapt and survive, they notice that some among them have...changed. Rachel Wheeler finds herself alone in the city, where violent survivors known as "Zapheads" roam the streets, killing and destroying. Her only hope is to reach the mountains, where her grandfather, a legendary survivalist, established a compound in preparation for Doomsday. Other survivors are fleeing the city, but Zapheads aren't the only danger. Rogue bands of military soldiers want to impose their own order in the crumbling ruins of civilization. When Rachel discovers a 10-year-old boy, she vows to care for him even if it means her own chances of escaping are lower. And the Zapheads that were once simple to evade are evolving, developing communal skills even as they lay waste to the society they will eventually replace. ----- keywords: free ebook, free book, post-apocalyptic thriller, dystopian dark fantasy, horror books, action, adventure, free science fiction books, technological,

Experience the complete ROYAL HEARTBREAKER series in one set - over 800 pages of sizzling, page-turning royal romance! This playboy prince is about to meet his match...but can he put his bad boy ways behind him? When I accidentally wished for my own Prince Charming, I never expected him to actually show up. But life never is as simple as making a wish—and while Prince Leopold is definitely charming, he's also cocky. And arrogant. And a huge playboy. He's everything I've promised myself I'd stay away from. So why can't I seem to resist him? Fairy tales and happily-ever-afters don't happen in real life. Not to ordinary girls like me, anyway. And certainly not with a royal bad boy who's obviously harboring a whole bunch of juicy secrets. But I can't help myself. As my life becomes entangled with Prince Leo's in ways I never could have imagined, I'm forced to wonder: could he be the hero of my dreams? Or is this cocky prince just going to break my heart? What readers are saying about ROYAL HEARTBREAKER: "I freaking loved this story... I seriously couldn't get enough of these two, and the story line was fantastic!!" – Andrea, Amazon reviewer "This was absolutely brilliant! What a hot and sweet, dirty treat!" -Amazon reviewer "I love the characters in this book. They have strong personalities and such chemistry together." – Terry, Amazon reviewer "Funny. Tender. Sweet. Intense. A Saucy fun read." – Kris, Amazon reviewer "Loved, loved, loved this series!! I don't think I can truly describe what a wonderful story this is... It has it all!" – Amazon reviewer "I was addicted to Leo ... This is a MUST read!!!" – Amazon reviewer New to the ROYAL HEARTBREAKERS books? Meet the wild royal siblings of Montovia! Each series contains a complete romance story and can be read on its own, but the following is the chronological order of our books: Royal Heartbreaker series (Prince Leopold + Eleanor Parker) Royal Mistake series (Prince Andrew + Victoria Simpson) Royal Arrangement series (Prince William + Princess Justine) Royal Wedding Fiasco (special bonus book) Royal Disaster series (Princess Sophia + Pax Donovan) Royal Christmas Baby (special bonus book) Royal Escape series (Prince Nicholas + Clara Weaver)

Darker Water: A Friends to Lovers Romance by Lauren Stewart Carson's secret to happiness is to be completely upfront with what he wants, and it has nothing to do with Laney's heart. Her lips? Hell yes. Other parts of her anatomy? You better believe it. But her heart? Nope, not even a little bit. Until it does...a lot. This book is perfect for readers who love Brittany Sahin, Nicole Snow, K.C. Crowne, Lucy Score, and J. Saman.

This is your brain on Grant Petersen: Every comfortable assumption you have about a subject is turned upside down, and by the time you finish reading you feel challenged, energized, and smarter. In Just Ride—"the bible for bicycle riders" (Dave Eggers, New York Times Book Review)—Petersen debunked the bicycle racing— industrial complex and led readers back to the simple joys of getting on a bike. In Eat Bacon, Don't Jog, Petersen upends the last 30 years of conventional health wisdom to offer a clear path to weight loss and fitness. In more than 100 short, compelling directives, Eat Bacon, Don't Jog shows why we should drop the carbs, embrace fat, and hang up our running shoes, with the latest science to back up its claims. Diet and Exercise make up the bulk of the book, with food addressed in essays such as "Carbohydrate Primer"—and why it's okay to eat less kale—and "You'll Eat Less Often If You Eat More Fat." The exercise chapters begin with "Don't Jog" (it just makes you hungry and trains muscle to tolerate more jogging while raising stressors like cortisol) and lead to a series of interval-training exercises and a suite of kettlebell lifts that greatly enhance strength and endurance. The balance of the book explains the science of nutrition and includes more than a dozen simple and delicious carb-free recipes. Thirty years ago Grant Petersen was an oat-bran-, egg-white-, lean-meat-eating exercise fanatic who wasn't in great shape despite all that. Today, at sixty, he is in the best shape of his life with the blood panel to prove it.

How It Started

The Bullshit-Free Life

From the author of Bliss comes a heartwarming tale of friendship, romance, self-

discovery... and llama drama. When a close encounter with an eighty-foot spruce steals Merry Manning's dreams of Olympic gold, the former ski champ finds herself falling into a career she never expected -- the life of a travel writer. Picturing glamorous trips to exotic places, Merry is speechless when her boss assigns her to the blog, "Don't Do What I Did," and sends her to a middle-of-nowhere llama ranch with instructions to "fall on her fanny" as often as possible. Soon she's eyeball-deep in alpacas, llamas, goats, and all the mess that comes with them. But when the Last Chance Llama Ranch -- and a certain gruff cowboy-- start to grow on her, Merry finds that each life might actually be just what she's been missing. You know what they say: when life gives you llamas....

'The Secret' missed out on lots of things. This book takes up where the secret left off but mentions teh blessing blocker spirits like fundamentalism and humanism that like to bully people out of their dreams and desires.

For readers of The Celestine Prophecy, this is what you've been waiting for. Reality Check was written for everyone else who knows that we're on the verge of pushing Mother Nature and the economy to the breaking point. Reality Check shows the urgent need to reverse humanity's downward spiral by undoing the status quo. Half the book is filled with quotes from the likes of Chomsky, Sagan, Carlin, Goodall, Soros, Orwell, Asimov, Hegel, William James, Sting and the Beatles, as well as some of the most popular TV shows and movies. This over-the-top attempt to avert an "evolutionary crash" hopes instead to turn the situation into an "evolutionary bounce" by galvanizing members of the so-called "choir" who already understand that the status quo needs to be revamped. Otherwise, civilization as we know it won't last much longer. The book addresses everything from parenting to economics, political systems to global warming and general environmental destruction, as well as sociology, history and God. It's time for a reality check! What are you waiting for?

This book is about how to destroy negative energy and replace it with positive energy. I inspired thousands with my teaching and music. I met thousands of good people along the way. It is an awesome feeling to write my own story.

No one is immune to the byproducts of compulsory schooling and standardized testing. And while reform may be a worthy cause for some, it is not enough for countless others still trying to navigate the tyranny of what schooling has always been. Raising Free People argues that we need to build and work within systems truly designed for any human to learn, grow, socialize, and thrive, regardless of age, ability, background, or access to money. Families and conscious organizations across the world are healing generations of school wounds by pivoting into self-directed, intentional community-building, and Raising Free People shows you exactly how unschooling can help facilitate this process. Individual experiences influence our approach to parenting and education, so we need more than the rules, tools, and "bad adult" guilt trips found in so many parenting and education books. We need to reach behind our behaviors to seek and find our triggers; to examine and interrupt the ways that social issues such as colonization still wreak havoc on our ability to trust ourselves, let alone children. Raising Free People explores examples of the transition from school or homeschooling to unschooling, how single parents and people facing financial challenges unschool successfully, and the ways unschooling allows us to address generational trauma and unlearn the habits we mindlessly

pass on to children. In these detailed and unabashed stories and insights, Richards examines the ways that her relationships to blackness, decolonization, and healing work all combine to form relationships and enable community-healing strategies rooted in an unschooling practice. This is how millions of families center human connection, practice clear and honest communication, and raise children who do grow up to feel that they narrowly survived their childhoods.

This book is a collection of rock climbing experiences which captures the essence, the challenge, and the spirit of the sport at its best. describes the historical interplay between events and personalities in Colorado rock climbing, and shows how the concept of the impos was redefined.

"How do I get published?" Following the successful publication of his book, Live Like A Fruit Fly, Gabe Berman is asked this question more than any other. Do you know why you don't know how to get published? Because nobody does. And that's why the idea of writing a book is so utterly overwhelming. There isn't a map. You're on your own. Until now. Questions For You: Do you feel destined to be one of the great writers? Are you writing a book? Are you self publishing? Are you looking for literary agents? Do you want to sell books on kindle? If a writer fails at making people fall in love with their words, none of it matters. The Complete Bullshit-Free and Totally Tested Writing Guide reveals what is needed. If your goal is to self publish, sign with a literary agent for traditional publishing, sell books on kindle or even write a captivating blog, Berman's bullshit-free new book is a required reading. A Personal Note From The Author: Get comfortable because I want to tell you something. Ready? You're extraordinary. Yes, I have the right person. You. The person reading these words right now: you're extraordinary. Regardless of how you may feel in this moment and regardless of what you may have heard in the past, you are in fact extraordinary. How do I know? Because you're a writer. And writers, the ones who write from the gut, are absolutely extraordinary. But should you listen to what I have to say? That's a valid question. I'm obviously not Mark Twain or Ernest Hemingway. I'm just Gabe Berman. I was just another ordinary person on this planet of ours. But like you, I chose to be extraordinary. The butterfly flapped its wings. The universe was set into motion. I wrote for the Miami Herald for eight years. My book, Live Like a Fruit Fly-The Secret You Already Know, was endorsed by Deepak Chopra. Look inside and I'll share what I've learned with you. "This amazing little gem of a book should be added to every author or aspiring author's bookshelf (or Kindle) of must-read writing books. In fact, any person who plans to create anything -- writing, music, or art -- can learn from Berman's book. I wish I had this practical, no-nonsense guide when I first started writing." - Rachel Thompson, three-time Kindle bestselling author, Broken Pieces, Mancode: Exposed, A Walk In The Snark

The Newer Testament Edition Two

Often calculus and mechanics are taught as separate subjects. It shouldn't be like that. Learning calculus without mechanics is incredibly boring. Learning mechanics without calculus is missing the point. This textbook integrates both subjects and highlights the profound connections between them. This is the deal. Give me 350 pages of your attention, and I'll teach you everything you need to know about functions, limits, derivatives, integrals, vectors, forces, and accelerations. This book is the only math book you'll need for the first semester of undergraduate studies in science. With concise, jargon-free lessons on topics in math and physics, each section covers one concept at the level required for a first-year university course. Anyone can pick up this book and become proficient in calculus and mechanics, regardless of their mathematical background.

If, as Buddhism claims, the potential for awakening exists in all human beings, we should be able to map the phenomenon with the same science we apply to other forms of consciousness. A student of cognitive social science and a Zen practitioner for more than forty years, Richard P. Boyle brings his sophisticated perspective to bear on the development of a theoretical model for both ordinary and awakened consciousness. Boyle conducts probing interviews with eleven prominent Western Buddhist teachers (Shinzen Young, John Tarrant, Ken McLeod, Ajahn Amaro, Martine Batchelor, Shaila Catherine, Gil Fronsdal, Stephen Batchelor, Pat Enkyo O'Hara, Bernie Glassman, and Joseph Goldstein) and one scientist (James Austin) who have experienced awakening. From the paths they traveled to enlightenment and their descriptions of the experience, he derives three fundamental properties of awakened consciousness. He then constructs an overarching model that explains how Buddhist practices help free the mind from attachments to reality and the self and make possible the three properties of awakening. Specifically, these teachers describe how they worked to control attention and quiet the mind, detach from ideas and habits, and open themselves to compassion. Boyle's account incorporates current theories of consciousness, sociological insights, and research in neuroscience to advance the study of awakened consciousness and help an even greater number of people to realize it.

The Complete Bullshit-Free and Totally Tested Writing Guide: How to Make Publishers, Agents, Editors & Readers Fall in Love with Your Work

A #1 NEW YORK TIMES BESTSELLER One of the most salient features of our culture is that there is so much bullshit. Everyone knows this. Each of us contributes his share. But we tend to take the situation for granted. Most people are rather confident of their ability to recognize bullshit and to avoid being taken in by it. So the phenomenon has not aroused much deliberate concern. We have no clear understanding of what bullshit is, why there is so much of it, or what functions it serves. And we lack a conscientiously developed appreciation of what it means to us. In other words, as Harry Frankfurt writes, "we have no theory." Frankfurt, one of the world's most influential moral philosophers, attempts to build such a theory here. With his characteristic combination of philosophical acuity, psychological insight, and wry humor, Frankfurt proceeds by exploring how bullshit and the related concept of humbug are distinct from lying. He argues that bullshitters misrepresent themselves to their audience not as liars do, that is, by deliberately making false claims about what is true. In fact, bullshit need not be untrue at all. Rather, bullshitters seek to convey a certain impression of themselves without being concerned about whether anything at all is true. They quietly change the rules governing their end of the conversation so that claims about truth and falsity are irrelevant. Frankfurt concludes that although bullshit can take many innocent forms, excessive indulgence in it can eventually undermine the practitioner's capacity to tell the truth in a way that lying does not. Liars at least acknowledge that it matters what is true. By virtue of this, Frankfurt writes, bullshit is a greater enemy of the truth than lies are.

A Theory

Bullshit isn't what it used to be. Now, two science professors give us the tools to dismantle misinformation and think clearly in a world of fake news and bad data. "A modern classic . . . a straight-talking survival guide to the mean streets of a dying democracy and a global pandemic."—Wired Misinformation, disinformation, and fake news abound and it's increasingly difficult to know what's true. Our media environment has become hyperpartisan. Science is conducted by press release. Startup culture elevates bullshit to high art. We are fairly well equipped to spot the sort of old-school bullshit that is based in fancy rhetoric and weasel words, but most of us don't feel qualified to challenge the avalanche of new-school bullshit presented in the language of math, science, or statistics. In *Calling Bullshit*, Professors Carl Bergstrom and Jevin West give us a set of powerful tools to cut through the most intimidating data. You don't need a lot of technical expertise to call out problems with data. Are the numbers or results too good or too dramatic to be true? Is the claim comparing like with like? Is it confirming your personal bias? Drawing on a deep well of expertise in statistics and computational biology, Bergstrom and West exuberantly unpack examples of selection bias and muddled data visualization, distinguish between correlation and causation, and examine the susceptibility of science to modern bullshit. We have always needed people who call bullshit when necessary, whether within a circle of friends, a community of scholars, or the citizenry of a nation. Now that bullshit has evolved, we need to relearn the art of skepticism.

She was his parole officer. He was her parolee. Their attraction led to a forbidden love that couldn't be given up. Not for anything. Brooke struggles with the stress, the fear, and the recent changes in her life. While Cole tries to figure out how to help her, protect her, and keep himself from going back to prison in the process. When the past continues to show up unexpectedly, attempting to wreak havoc in their lives, all of their truths must be laid bare, and not only theirs. Can they fight the battles ahead, lay their pasts to rest, and break free, together?

Day One: A series of terrorist attacks spread a cloud of noxious gas over highly populated areas. Day Two: Higher brain function erodes in those exposed to the gas. Their bodies begin to distort, faces distending, skin sallowing, teeth elongating. Day Three: The infected disappear into the shadows, fleeing the harsh daylight which has begun to sear their flesh. Day Four: The world is DEVoured. Life isn't kind to Lance York. A full-time job has eluded him for years, his wife loathes the sight of him, his bank accounts are empty, and his wealthy father-in-law revels in his failures. After he lunges in front of a car to save a sick and disoriented woman, Lance awakens in a quarantined hospital. A devastating plague is spreading worldwide, driving those infected with it insane. Their bodies begin to mutate into horrors that have haunted mankind's nightmares for centuries. The world descends into chaos as the infected flee to the shadows, emerging at night to devour the remnants of civilization. With the help of an unlikely ally, Lance must navigate through the collapsing city of Pittsburgh, striving to escape the madness of the apocalypse that unfolds around them. Reviews for *The Hunger*: "...zombie like creatures that shy away from the sun and ravage at night" "My thought was "Zombie vampires?", but it gets worse." "Full of interesting characters, humor, survival, and the end of the world as we know it" "Dystopian fiction with nonstop action, horror, humor, and suspense" "it creates a very realistic apocalyptic situation." "the best free post apocalyptic fiction" "The story really gets interesting when Lance meets a sassy, strong female" "I've read several free zombie books and this is the best one" Keywords: free ebook, horror, zombies, vampires, freebie, free, post apocalyptic, free vampire books, free zombie books, free dystopian fiction, free horror books, free end of the world books, free post apocalyptic books
