The Cost Of Victory Jay Allan

Interviews with former British Prime Ministers, Foreign Secretaries, and cabinet members cover Britain's postwar relations with Europe, culminating in de Gaulle's veto of British membership in the Common Market in 1963

A Poor Life in a Rich House By: Lyudmila Belding Jay, a man who works a basic job and has a basic life, is suddenly surprised to receive a gift from his Uncle Charles. This is not a typical gift: Jay has been left a 9,000 square-foot house. With extravagant extras that come along with the house, Jay must fight to be able to keep such an interesting home. After finding a few friends to help him with this battle, Jay learns that when you have to fight, and you have friends to help you, you are able to accomplish anything imaginable.

The First World War was a turning point in history. It marked the birth of the modern era and established the pattern for large-scale violence, devastation and genocide throughout the wars of the 20th century. Old empires disintegrated and new nations emerged in the maelstrom of the war and its aftermath. The peace settlements reshaped national boundaries, leaving tensions and rivalries between nation states and people that resonate to the present day. Historians continue to explore and challenge many assumptions and perceptions surrounding the conflict, from its origins and causes, to the responsibility for its conduct, the reasons for Allied victory over the Central Powers, and the consequences and long-term outcomes of that victory. This book is a collection of the latest research findings by scholars from a number of nations, many of them renowned specialists in their field. They gathered for an international conference, 1918 YEAR OF VICTORY, convened by the Australian War Memorial in Canberra in November 2008 to mark the 90th anniversary of the end of the war and to share their insights into issues surrounding the ending of the war, its memory and continuing impact. Lively, authoritative and wide-ranging, the chapters span the themes of war strategy and planning; the problems of raising, training and maintaining armies in the field; developments in technology and weapons systems; the role of command; the evolution of tactics and the use of combined arms; the development of war economies; and the exploitation of human and material resources in war on the home front, on land, at sea and in the air. The Medallic History of the United States of America, 1776-1876

Dick Grayson--alter-ego of the original Robin of Batman comics--has gone through various changes in his 75 years as a superhero but has remained the optimistic, humorous character readers first embraced in 1940. Predating Green Lantern and Wonder Woman, he is one of DC Comics' oldest heroes and retains a large and loyal fanbase. The first scholarly work to focus exclusively on the Boy Wonder, this collection of new essays features critical analysis, as well as interviews with some of the biggest names to study Dick Grayson, including Chuck Dixon, Devin Grayson and Marv Wolfman. The contributors discuss his vital place in the Batman saga, his growth and development into an independent hero, Nightwing, and the many storyline connections which put him at the center of the DC Universe. His character is explored in the contexts of feminism, trauma, friendship, and masculinity.

The Hegemony strikes again¿The Confederation and its allies have won their first victory, retaken their capital from he forces of the Hegemony. But the enemy is not beaten, far from it, and they are back, with an unstoppable weapon, a vast superbattleship, a deadly hybrid of imperial and Hegemony technology, called the Colossus.The great ship is enormously powerful, nearly unstoppable, and in its armored depths it hides a secret, another Hegemony weapon, one that will change the dynamic of the entire war. One that will challenge Admiral Barron, and his officers and spacers, to the greatest test they have ever faced.The battle for the Rim has reached its climactic stage, but even as the Hegemony moves forward to claim victory, an old enemy, a terror from the distant past, is about to return¿and change everything.

This diverse and unique collection of essays examines the role of communication in various aspects of the 2012 presidential campaign. Topics include the early campaign and Romney’s nomination battle, candidate image, the rhetoric and campaigning of Michelle Obama and Ann Romney, issues of race, persuasive appeals to voters, the use of music and social media, and Obama’s second inaugural address.

Erik Cain joined the marines to get off death row. The deal was simple; enlist to fight in space and he would be pardoned for all his crimes. In the 23rd Century, assault troops go to war wearing AI-assisted, nuclear-powered armor, but it is still men and blood that win battles. From one brutal campaign to the next, Erik and his comrades fight an increasingly desperate war over the resource rich colony worlds that have become vital to the economies of Earth's exhausted and despotic Superpowers. As Erik rises through the ranks he finally finds a home, first with the marines who fight at his side and later among the colonists - men and women who have dared to leave everything behind to build a new society on the frontier, one where the freedoms and rights lost long ago on Earth are preserved. Amidst the blood and death and sacrifice, Erik begins to wonder. Is he fighting the right war? Who is the real enemy? Crimson Worlds II: The Cost of Victory - Available Now! Tombstone: A Crimson Worlds Prequel - Available Now! Crimson Worlds III: A Little Rebellion - December 2012

'With great skill, Heather Williams demonstrates the centrality of black people to the process of formal educationthe establish-ment of schools, the creation of a cadre of teachers, the forging of standards of literacy and numeracyin the post-emancipation years. As she does, Williams makes the case that the issue of education informed the Reconstruction periodthe two-cornered struggle between North and South over the rebuilding of Southern society, the three-cornered struggle between white Northerners, white Southerners, and black people over the nature of education, and the less well known contest between black Northerners and black Southerners over the direction of African American culture. Self-Taught is a work of major significance.'' IRA BERLIN University of Maryland ''Self-Taught is not merely the most comprehensive documentation and analysis of African American education in the South during the 18611871 period, it is in every respect the first definitive study of the formative stages of universal literacy and formal education among ex-slaves. Never before has anyone described so fully the broad range of roles and the significant contributions of African Americans to the development of formal and public education in the South for themselves and for the entire region.'' JAMES D. ANDERSON University of Illinois at Urbana-Champaign

The Third Frontier War is raging, and all across human-occupied space worlds are burning. Massive battlefleets struggle for dominance and kilometer-long war ships exchange thermonuclear barrages. Battered in the early years of the war, the Western Alliance is resurgent. The brilliant Admiral Augustus Garret leads the Alliance fleet from victory to victory, taking the war to the very heart of the enemy empires. And on the ground, Colonel Erik Cain, hero of the Marine Corps, leads his crack troops again into combat, seeking the final battle. In the background, the secretive intelligence agencies of the despotic Superpowers plot and scheme, using their own soldiers as pawns in the great game for control of space. But the final battle will be fought in the reddish sands of a backwater world, and the prize will be the staggering secret that has lain hidden in a remote cave for untold centuries. All the Powers struggle for the ultimate victory, but at what cost? The Cost of Victory is the second book in the Crimson Worlds series and the sequel to Marines. Encyclopedia of U.S. Political History explores the events, policies, activities, institutions, groups, people, and movements that have created and shaped political life in the United States. With contributions from scholars in the fields of history and political science, this seven-volume set provides students, researchers, and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day. With greater coverage than any other resource, the Encyclopedia of U.S. Political History identifies and illuminates patterns and interrelations that will expand the reader’s understanding of American political institutions, culture, behavior, and change. Focusing on both government and history, the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered.

It was not inevitable that World War II would end as it did, or that it would even end well. 1944 was a year that could have stymied the Allies and cemented Hitler's waning power. Instead, it saved those democracies—but with a fateful cost. 1944 witnessed a series of titanic events: FDR at the pinnacle of his wartime leadership as well as his re-election, the planning of Operation Overlord with Churchill and Stalin, the unprecedented D-Day invasion, the liberation of Paris and the horrific Battle of the Bulge, and the tumultuous conferences that finally shaped the coming peace. But on the way, millions of more lives were still at stake as President Roosevelt was exposed to mounting evidence of the most grotesque crime in history, the Final Solution. Just as the Allies were landing in Normandy, the Nazis were accelerating the killing of millions of European Jews. Winik shows how escalating pressures fell on an all but dying Roosevelt, whose rapidly deteriorating health was a closely guarded secret. Here then, as with D-Day, was a momentous decision for the president. Was winning the war the best way to rescue the Jews? Was a rescue even possible? Or would it get in the way of defeating Hitler? In a year when even the most audacious undertakings were within the world's reach, including the liberation of Europe, one challenge-savior Europe's Jews-seemed to remain beyond Roosevelt's grasp. Winik provides a stunningly fresh look at the twentieth century's most pivotal year. 1944: FDR and the Year that Changed Historyis the first book to tell these events with such moral clarity and unprecedented sweep, and a moving appreciation of the extraordinary struggles of the era's outsized figures.

Spoiled Rotten

Outlines of General History, in the Form of Question and Answer

The Epic Conclusion to the Crimson Worlds Series...Erik Cain is the hero of the Marine Corps, a celebrated warrior who has led his grim veterans into every war the Alliance and mankind have faced. But now he has left the Corps, driven to near madness by an overwhelming need for vengeance. He has sworn to kill Gavin Stark, the madman responsible for his mentor's death and, with a small band of dedicated followers, he is pursuing his prey across occupied space.Meanwhile, on a dozen colony worlds, Marines land to face the occupying forces of Stark's Shadow Legions. They are supported by the Janissaries, their longtime enemies, now turned allies, but they are exhausted and outnumbered, facing a vastly superior enemy entrenched and waiting for them. But they are veterans, Marines and Janissaries both, men and women who have battled the armies of the First Imperium and lived to tell the tale. They know what is at stake, and they are determined to prevail, even if none of them come back. And on Earth, the economic collapse Stark engineered has shattered the Treaty of Paris and its century-long prohibition against terrestrial warfare. Millions are already dead as the war between the Superpowers spreads across the Earth, a growing conflagration that could end in apocalyptic nuclear, chemical, and biological exchanges between the powers.Will mankind live under the iron boot of Gavin Stark and his clone descendants forever? Or will Erik Cain and the Marines defeat him once and for all?The Crimson Worlds Series: Marines (Crimson Worlds I) The Cost of Victory (Crimson Worlds II) A Little Rebellion (Crimson Worlds III) The First Imperium (Crimson Worlds IV) The Line Must Hold (Crimson Worlds V) To Hell's Heart (Crimson Worlds VI) The Shadow Legions (Crimson Worlds VII) Even Legends Die (Crimson Worlds VIII) The Fall (Crimson Worlds IX)War Stories (3 Crimson Worlds Prequels) Also by Jay Allan: Gehenna Dawn (Portal Wars I) The Ten Thousand (Portal Wars II) The Dragon’s Banner (Pendragon Chronicles I)MERCS (Crimson Worlds Successors I)March 24, 2015Available Now for Preorder!Into the Darkness (Crimson Worlds Refugees I)June 23, 2015Available Now for Preorder!

Portal Worlds Book II (The exciting sequel to Gehenna Dawn)General Jake Taylor and his army of cyborg soldiers are veterans of Erastus, a planet so brutal, so hellish, it is called Gehenna by the men sent to fight and die there. He and his comrades battled for years in the most appalling conditions human beings have ever endured, believing the entire time they were protecting Earth from bloodthirsty alien monsters. But it was all a lie, the cynical propaganda of the totalitarian regime that rules over all mankind.The alien Tegeri, and their bio-mechanical soldiers Taylor's men call the Machines, were the victims, targeted by a regime that needed an enemy to consolidate its absolute rule over mankind. For decades, men like Taylor and his soldiers were the aggressors, unwittingly fighting an unjust war. But when the Tegeri chose Taylor as their contact and finally told him the horrible truth, he rallied the veterans of Erastus for a new battle, one to free Earth from its self-appointed masters.Taylor's soldiers begin the long campaign back to Earth, toward a reckoning with the brutal government they are sworn to destroy. The heart of this force is the Ten Thousand, surgically-altered Supersoldiers, products of an experimental enhancement program, and the first of their kind. But they are not the last, and on the planet Juno they will meet their counterparts, the Black Corps, a force created by Earth's government specifically to destroy them. The Black Corps outnumbers Taylor's soldiers 2-1, and they have a vast advantage in supply and logistical support. But Taylor's men are veterans of the furnace of Gehenna, and they don't die easily.But there is more at stake than the freedom of humanity, greater consequences to their fight than even Taylor can imagine. For there is another alien race, one shrouded in legend and myth, known to the Tegeri only as the Darkness. Long ago the Darkness made war on the Ancients, the mighty beings that built the interstellar Portals. The Ancients are remembered in Tegeri lore as wise and powerful...almost as gods. But they fell ages past, destroyed utterly by the Darkness.Now that great evil is returning, and this time it will destroy not only mankind and the Tegeri, but all the fledgling races the Ancients planted, hundreds of young sentient species, only now grasping for civilization.The Ancients long ago foretold that an alliance of men and Tegeri would stand and defeat the Darkness and save the galaxy from destruction. But if this prophecy is to come to pass, Taylor and his men must destroy Earth's totalitarian government and bring the dark truth to mankind, that there is another war to fight, one vaster and more terrible than any in human history or legend.Also By Jay Allan:Gehenna Dawn (Portal Worlds I)Marines (Crimson Worlds I)The Cost of Victory (Crimson Worlds II)A Little Rebellion (Crimson Worlds III)The First Imperium (Crimson Worlds IV)The Line Must Hold (Crimson Worlds V)To Hell's Heart (Crimson Worlds VI)The Shadow Legions (Crimson Worlds VII)Even Legends Die (Crimson Worlds VIII)War Stories (3 Crimson Worlds Prequels)The Dragon's Banner (Pendragon Chronicles I)

Volume 2 of The Cambridge History of the First World War offers a history of the war from a predominantly political angle and concerns itself with the story of the state. It explores the multifaceted history of state power and highlights the ways in which different political systems responded to, and were deformed by, the near-unbearable pressures of war. Every state involved faced issues of military-civilian relations, parliamentary reviews of military policy, and the growth of war economies; and yet their particular form and significance varied in every national case. Written by a global team of historical experts, this volume sets new standards in the political history of the waging of war in an authoritative new narrative which addresses problems of logistics, morale, innovation in tactics and weapons systems, the use and abuse of science; all of which were ubiquitous during the conflict.

How the Politics of Patronage Corrupted the Once Noble Democratic Party and Now Threatens the American Republic

A popular columnist for The Weekly Standard, conservative journalist Jay Cost now offers a lively, candid, diligently researched revisionist history of the Democratic Party. In Spoiled Rotten, Cost reveals that the national political organization, first formed by Andrew Jackson in 1824, that has always prided itself as the party of the poor, the working class, the little guy is anything but that—rather, it’s a corrupt tool of special interest groups that feed off of the federal government. A remarkable book that belongs on every politically aware American’s bookshelf next to Jonah Goldberg’s Liberal Fascism and The Forgotten Man by Amity Shlaes, Spoiled Rotten exposes the Democratic Party as a modern-day national Tammany Hall and indisputably demonstrates why it can no longer be trusted with the power of government.

A weekly review of politics, literature, theology, and art.

Critical Theories and the Budapest School brings together new perspectives on the Budapest School in the context of contemporary developments in critical theory. Engaging with the work of the prominent group of figures associated with Georg Lukács, this book sheds new light on the unique and nuanced critiques of modernity offered by this school, informed as its members’ insights have been by first-hand experiences of Nazism, Soviet-type societies, and the liberal-democratic West. With studies of topics central to contemporary critical theory, such as the political and historical consciousness of modernity, the importance of bio-politics, the complexity of the human condition, and the relevance of comedy and friendship to developing critical perspectives, the authors draw on the works of Ágnes Heller, Maria Márkus, György Márkus, and Ferenc Fehér, demonstrating their enduring relevance to critical theory today and the ways in which these philosophers can inform new perspectives on culture and politics. An innovative reassessment of the Budapest School and the importance of its legacy, this book opens a much-needed and neglected dialogue with other schools and traditions of critical theorizing that will be of interest to scholars of sociology, philosophy, and social theory.

A definitive history of mescaline that explores its mind-altering effects across cultures, from ancient America to Western modernity Mescaline became a popular sensation in the mid-twentieth century through Aldous Huxley's The Doors of Perception, after which the word "psychedelic" was coined to describe it. Its story, however, extends deep into prehistory: the earliest Andean cultures depicted mescaline-containing cacti in their temples. Mescaline was isolated in 1897 from the peyote cactus, first encountered by Europeans during the Spanish conquest of Mexico. During the twentieth century it was used by psychologists investigating the secrets of consciousness, spiritual seekers from Aleister Crowley to the president of the Church of Jesus Christ of Latter-day Saints, artists exploring the creative process, and psychiatrists looking to cure schizophrenia. Meanwhile peyote played a vital role in preserving and shaping Native American identity. Drawing on botany, pharmacology, ethnography, and the mind sciences and examining the mescaline experiences of figures from William James to Walter Benjamin to Hunter S. Thompson, this is an enthralling narrative of mescaline's many lives.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

A comprehensive history of the people and cases that have changed history, this is the definitive account of the nation's highest court Recent changes in the Supreme Court have placed the venerable institution at the forefront of current affairs, making this comprehensive and engaging work as timely as ever. In the tradition of Howard Zinn's classic A People's History of the United States, Peter Irons chronicles the decisions that have influenced virtually every aspect of our society, from the debates over judicial power to controversial rulings in the past regarding slavery, racial segregation, and abortion, as well as more current cases about school prayer, the Bush/Gore election results, and "enemy combatants." To understand key issues facing the supreme court and the current battle for the court's ideological makeup, there is no better guide than Peter Irons. This revised and updated edition includes a foreword by Howard Zinn. "A sophisticated narrative history of the Supreme Court . . . [Irons] breathes abundant life into old documents and reminds readers that today's fiercest arguments about rights are the continuation of the endless American conversation." -Publisher's Weekly (starred review)

The stunning conclusion to the Portal Wars trilogy...Jake Taylor and his cyborg soldiers have fought their way from one Portal planet to another, moving steadily homeward with one goal in mind - the utter destruction of the corrupt rulers who sent them to hell to fight and die as pawns in a dishonest war, one started not by the alien enemy, but by Earth's own government, as a tool in its plot to seize total power.And now, after the fighting, the suffering, the bitter losses...finally, it is time. Time for the final invasion of Earth. Time to liberate their homeland from the totalitarian government that controls it utterly, to find those responsible for all that has happened...and to kill them all.Jake and his warriors are hopelessly outnumbered, but they are determined to battle to the last, to sacrifice all for any hope of victory, however small. But Taylor and his soldiers are not alone in their fight, for in Earth's shadows, in the rotting slums and the remote countryside, in dark corners and crumbling cellars, a spark of defiance has survived and grown, men and women who remember liberty, and are willing to die for the chance to regain what they lost a generation before. They are preparing...and waiting. Waiting for the chance to strike a blow for freedom.But those who cling to power will not give it up easily. Indeed, the politicians who run UNGov will see Earth a charred ruin, the dead lying in unburied heaps before they will yield their positions. The battle is about to begin...and it will not end until only one side remains.Is Jake Taylor willing to go all the way, to fight to the end, do whatever he must...to accept nothing less than death or total victory, whatever the cost?Also By Jay AllanThe Far Stars SeriesShadow of Empire (Far Stars I - Nov 3, 2015)Enemy in the Dark (Far Stars II - Dec 1, 2015)Funeral Games (Far Stars III - Jan 19, 2016)All Far Stars books are available for preorderCrimson Worlds SeriesMarines (Crimson Worlds I)The Cost of Victory (Crimson Worlds II)A Little Rebellion (Crimson Worlds III)The First Imperium (Crimson Worlds IV)The Line Must Hold (Crimson Worlds V)To Hell's Heart (Crimson Worlds VI)The Shadow Legions (Crimson Worlds VII)Even Legends Die (Crimson Worlds VIII)The Fall (Crimson Worlds IX)Crimson Worlds War Stories (Crimson Worlds Prequels)Crimson Worlds Successors SeriesMERCS (Successors I)The Prisoner of Eldaron (Successors II)The Black Flag (Successors III - Coming 2016)Crimson Worlds Refugees SeriesInto the Darkness (Refugees I)Shadows of the Gods (Refugees II)Revenge of the Ancients (Refugees III - Coming 2016)Portal Wars SeriesGehenna Dawn (Portal Wars I)The Ten Thousand (Portal Wars II)Homefront (Portal Wars III - Coming Feb 2016)Pendragon ChroniclesThe Dragon's Banner (Pendragon Chronicles I)

Follows the Irish from their first arrival in the American colonies through the bleak days of the potato famine, the decades of ethnic prejudice and nativist discrimination, the rise of Irish political power, and on to the historic moment when John F. Kennedy was elected to the highest office in the land.
