"This book presents an investigation of abnormal mental or psychic phenomena.

Twenty--even ten--years ago the phenomena which Professor Flournoy here describes in detail, and of which he offers a keen, skilful, psychological analysis, would have met with the sneers of popular science and the

widespread and

this area is manifesting

now beginning to
assume their rightful

study and observation.

The author undertakes a
careful study of Mlle.

Smith. Guided by two
principles he refers to
as the "Principle of
Hamlet" and the

"Principle of La Place",
Professor Fournoy
concludes that Mlle.

Smith really possesses

the faculty of telekinesis--the ability to move ponderable objects situated at a distance, without contact and contrary to known natural laws. On the other hand, he does not believe the phenomena manifested by her to be of supernormal origin. The various alleged "spirit" messages,

apparently supernormal

Mlle. Smith's subliminal
