Becoming Mrs. Lewis

The Improbable Love Story of Joy Davidman and C. S. Lewis

Along Cornwall's ancient coast, the flotsam and jetsam of the past becomes caught in the cross-currents of the present and, from time to time, a certain kind of magic can float to the surface... Straying husbands lured into the sea can be fetched back, for a fee. Magpies whisper to lonely drivers late at night. Trees can make wishes come true - provided you know how to wish properly first. Houses creak, fill with water and keep a fretful watch on their inhabitants, straightening shower curtains and worrying about frayed carpets. A teenager's growing pains are sometimes even bigger than him. And, on a windy beach, a small boy and his grandmother keep despair at bay with an old white door. In these stories, Cornish folklore slips into everyday life. Hopes, regrets and memories are entangled with catfish, wrecker's lamps, standing stones and baying hounds, and relationships wax and wane in the glow of a moonlit sea. This luminous, startling and utterly spellbinding debut collection introduces in Lucy Wood a spectacular new voice in contemporary British

Christy Brown was born a victim of cerebral palsy. But the hapless, lolling baby concealed the brilliantly imaginative and sensitive mind of a writer who would take his place among the giants of Irish literature. This is Christy Brown's own story. He recounts his childhood struggle to learn to read, write, paint and finally type, with the toe of his left foot. In this manner he wrote his bestseller *Down all the Days*. In a powerful debut, rising star Sophia Thakur brings her spoken word performance to the page. Be with yourself for a moment. Be yourself for a moment. Airplane mode everything but yourself for a moment. From acclaimed performance poet Sophia Thakur comes a stirring collection of coming-of-age poems exploring issues of identity, difference, perseverance, relationships, fear, loss, and joy. From youth to school to family life to falling in love and falling back out again—the poems draw on the author's experience as a young mixed-race woman trying to make sense of a lonely and complicated world. With a strong narrative voice and emotional empathy, this is poetry that will resonate with all young people, whatever their background and whatever their dreams.

Michele Harper is a female, African American emergency room physician in a profession that is overwhelmingly male and white. Brought up in Washington, D.C., in a complicated family, she went to Harvard, where she met her husband. They stayed together through medical school until two months before she was scheduled to join the staff of a hospital in central Philadelphia, when he told her he couldn't move with her. Her marriage at an end, Harper began her new life in a new city, in a new job, as a newly single woman. In the ensuing years, as Harper learned to become an effective ER physician, bringing insight and empathy to every patient encounter, she came to understand that each of us is broken—physically, emotionally, psychically. How we recognize those breaks, how we try to mend them, and where we go from there are all crucial parts of the healing process. *The Beauty in Breaking* is the poignant true story of Harper's journey toward self-healing. Each of the patients Harper writes about taught her something important about recuperation and recovery. How to let go of fear even when the future is murky: How to tell the truth when it's simpler to overlook it. How to understand that compassion isn't the same as justice. The Diving-Bell and the Butterfly (4th Estate Matchbook Classics)

A world at once familiar and unimaginably strange exists all around us, and within us — it is the vast realm of consciousness. In *The Head Trip*, science journalist Jeff Warren explores twelve distinct, natural states of consciousness available to us in a twenty-four-hour day, each state offering its own kind of knowledge and insight — its own adventure. The hypnagogic state, when our minds hover between waking and sleeping, can be a rich source of creativity and even compassion. Then there's the Watch, an almost magical waking experience in the middle of the night that has been all but lost to electric light and modern sleep patterns. Daydreaming and trance, lucid dreaming, the

Zone, and the Pure Conscious Event — from sleep laboratory to remote northern cabin, neurofeedback clinic to Buddhist retreat, Warren visits them all. Along the way, he talks to neuroscientists, chronobiologists, anthropologists, monks, and many others who illuminate his stories with cutting-edge science and age-old wisdom. On this trip, all are welcome and no drugs are required: all you need to pack are a functioning cerebrum and an open mind. Replete with stylish graphics and brightened by comic panels conceived and drawn by the author, *The Head Trip* is an instant classic, a brilliant and original description of the shifting experience of consciousness that's also a practical guide to enhancing creativity and mental health. This book does not just inform and entertain — it shows how every one of us can expand upon the ways we experience being alive.

This book discusses feature films that enrich our understanding of doctor-patient dilemmas. The book comprises general clinical ethics themes and principles and is written in accessible language. Each theme is discussed and illuminated in chapters devoted to a particular film. Chapters start with a discussion of the film itself, which shares details behind the making of the film; box-office and critical reception; casting; and other facts about production. The chapter then situates the film in a history of medicine and medical sociology context before it delves into the clinical ethics issues in the film, and how to use it as a teaching aid for clinical ethics. Readers will understand how each film in this collection served to bring particular clinical ethics issues to the public's attention or reflected medico-legal issues that were part of the public discourse. The book is a perfect instructor's guide for anyone teaching bioethics, healthcare ethics, medical sociology, medical history, healthcare systems, narrative medicine, or nursing ethics. "This is a beautiful farewell to two extraordinary people. It enthralled and moved me, and it will move and enthrall anyone who

has ever entered the glorious literary world of Gabriel García Márquez.”—Salman Rushdie “In A Farewell to Gabo and Mercedes Rodrigo Garcia finds the words that cannot be said, the moments that signal all that is possible to know about the passage from life to death, from what love brings and the loss it leaves. With details as rich as any giant biography, you will find yourself grieving as you read, grateful for the profound art that remains a part of our cultural heritage.”—Walter Mosley, New York Times bestselling author of Down the River Unto the Sea “An intensely personal reflection on [Garcia's] father's legacy and his family bonds, tender in its treatment and stirring in its brevity.”—Booklist (starred review) The son of one of the greatest writers of our time—Nobel Prize winner and internationally bestselling icon Gabriel García Márquez—remembers his beloved father and mother in this tender memoir about love and loss. In March 2014, Gabriel García Márquez, one of the most acclaimed writers of the twentieth century, came down with a cold. The woman who had been beside him for more than fifty years, his wife Mercedes Barcha, was not hopeful; her husband, affectionately known as “Gabo,” was then nearly 87 and battling dementia. I don't think we'll get out of this

one, she told their son Rodrigo. Hearing his mother's words, Rodrigo wondered, "Is this how the end begins?" To make sense of events as they unfolded, he began to write the story of García Márquez's final days. The result is this intimate and honest account that not only contemplates his father's mortality but reveals his remarkable humanity. Both an illuminating memoir and a heartbreaking work of reportage, A Farewell to Gabo and Mercedes transforms this towering genius from literary creator to protagonist, and paints a rich and revelatory portrait of a family coping with loss. At its center is a man at his most vulnerable, whose wry humor shines even as his lucidity wanes. Gabo savors affection and attention from those in his orbit, but wrestles with what he will lose—and what is already lost. Throughout his final journey is the charismatic Mercedes, his constant companion and the creative muse who was one of the foremost influences on Gabo's life and his art. Bittersweet and insightful, surprising and powerful, A Farewell to Gabo and Mercedes celebrates the formidable legacy of Rodrigo's parents, offering an unprecedented look at the private family life of a literary giant. It is at once a gift to Gabriel García Márquez's readers worldwide, and a grand tribute from a writer who knew him

well. "You read this short memoir with a feeling of deep gratitude. Yes, it is a moving homage by a son to his extraordinary parents, but also much more: it is a revelation of the hidden corners of a fascinating life. A Farewell to Gabo and Mercedes is generous, unsentimental and wise." —Juan Gabriel Vásquez, author of The Sound of Things Falling "A warm homage filled with both fond and painful memories." —Kirkus "Garcia's limpid prose gazes calmly at death, registering pain but not being overcome by it . . . the result is a moving eulogy that will captivate fans of the literary lion." — Publishers Weekly

mark of God's disapproval. At thirty-five, everything in her life seems to point toward "blessing." She is thriving in her job, married to her high school sweetheart, and loves life with her newborn son. Then she is diagnosed with stage IV colon cancer. The prospect of her own mortality forces Kate to realize that she has been tacitly subscribing to the prosperity gospel, living with the conviction that she can control the shape of her life with "a surge of determination." Even as this type of Christianity celebrates the American can-do spirit, it implies that if you "can't do" and succumb to illness or misfortune, you are a failure. Kate is very sick, and no amount of positive thinking will shrink her tumors. What does it mean to die, she wonders, in a society that insists everything happens for a reason? Kate is stripped of this certainty only to discover that without it, life is hard but beautiful in a way it never has been before. Frank and funny, dark and wise, Kate Bowler pulls the reader deeply into her life in an account she populates affectionately with a colorful, often hilarious retinue of friends, mega-church preachers, relatives, and doctors. Everything Happens for a Reason tells her story, offering up her irreverent, hard-won observations on dying and the ways it has taught her to live. Praise

for Everything Happens for a Reason “I fell hard and fast for Kate Bowler. Her writing is naked, elegant, and gripping—she’s like a Christian Joan Didion. A New York Times Book Review Notable Book of the Year It was the year after Chappaquiddick, and all spring Carmel McBain had watery dreams about the disaster. Now she, Karina, and Julianne were escaping the dreary English countryside for a London University hall of residence. Interspersing accounts of her current position as a university student with recollections of her childhood and an ever difficult relationship with her longtime schoolmate Karina, Carmel reflects on a generation of girls desiring the power of men, but fearful of abandoning what is expected and proper. When these bright but confused young women land in late 1960s London, they are confronted with a slew of new preoccupations--sex, politics, food, and fertility--and a pointless grotesque tragedy of their own. Hilary Mantel's magnificent novel examines the pressures on women during the early days of contemporary feminism to

excel--but not be too successful--in England's complex hierarchy of class and status.

Narrative film can be a useful way of looking at bioethical scenarios. This volume presents a collection of brief, accessible essays written by international experts from medicine, social sciences, and the humanities, all of whom have experience using film in their teaching of medical ethics. Each author looks at a single scene from a popular film in order to illuminate its ethical dimensions.

His stories include: Being chased by a killer whale or being attacked by a huge octopus. Finding large amounts of gold and silver on sunken wrecks. Locating huge hauls of copper worth millions and tankers full of crude oil. Diving with Great White Sharks. Battling extreme weather conditions including Tsunamis. Fishing for strange and valuable creatures and breaking records while doing it. Frightening near misses and exciting rescues. Historic shipwrecks. Having done all these things, George Bell lives to tell the tale and vividly recounts his life underwater in over 100 short stories. The old man of the sea indeed: it is a title I bear with some pride after sixty years diving and fishing. Some people count their fingers; I count my lives. all, South Africa's coastline is shadowed by the world's mightiest oceans. The Indian Ocean, all the way to Australia, and the Atlantic, all the way to the Americas can both be tempestuous and fickle too. It is also home to many millions of sea life species that don't always see eye to eye with intruders from the one seventh of the earth they're unfamiliar with. To these creatures man's habitat is indeed an island and a small and insignificant one at that. Living and working on the surface and just under the skin of these great earthly creatures we call the Indian and Atlantic Oceans, one faces dangers and a colourful kaleidoscope of events on a daily basis. The nemesis of many a horror story, the killer sharks, are just another part of that great ocean's tapestry. It was quite a life gauntlet for me to run, but I survived the blows largely unscathed. In fact I survived to tell the tale; indeed with many tales to tell. The credit for my initiative in setting them down must include my grandchildren with their constant appeals to Papa, tell us a story. The difficulty was how to set it out, and not to repeat myself. I didn't like them saying O, we've heard that one. Should it be a biography, a fictional novel based on a true story? Might it not be far better for reader and writer alike to skip the boring mess-room bits and sticking to the point in telling a 101 tales. Let that be the only exaggeration, but you will get my drift. You will also be assured that in the telling, you will not only read of my experiences; you will share them with me. I want you to feel the whip of the wind, the aroma of the seas and fill your lungs with the smells of the upper and lower decks. So welcome aboard shipmates; enjoy a life that only the few are privileged to experience. A celebration of the liberating power of consciousness—a triumphant book that lets us witness an indomitable spirit and share in the pure joy of its own survival. In 1995, Jean-Dominique Bauby was the editor-in-chief of French Elle, the father of two young children, a 44-year-old man known and loved for his wit, his style, and his impassioned approach to life. By the end of the year he was also the victim of a rare kind of stroke to the brainstem. After 20 days in a coma, Bauby awoke into a body which had all but stopped working: only his left eye functioned, allowing him to see and, by blinking it, to make clear that his mind was unimpaired. Almost miraculously, he was soon able to express himself in the richest detail: dictating a word at a time, blinking to select each letter as the alphabet was recited to him slowly, over and over again. In the same way, he was able eventually to compose this extraordinary book. By turns wistful, mischievous, angry, and witty, Bauby bears witness to his determination to live as fully in his mind as he had been able to do in his body. He explains the joy, and deep sadness, of seeing his children and of

The diaries of a remarkable young woman who was determined to live a meaningful and happy life despite her struggle with cystic fibrosis and a rare superbug—from age fifteen to her death at the age of twenty-five—the inspiration for the original streaming documentary *Salt in My Soul* “ An exquisitely nuanced chronicle of a terrified but hopeful young woman whose life was beginning and ending, all at once. ” —Los Angeles Times Diagnosed with cystic fibrosis at the age of three, Mallory Smith grew up to be a determined, talented young woman who inspired others even as she privately raged against her illness. Despite the daily challenges of endless medical treatments and a deep understanding that she ’ d never lead a normal life, Mallory was determined to “ Live Happy, ” a mantra she followed until her death. Mallory worked hard to make the most out of the limited time she had, graduating Phi Beta Kappa from Stanford University, becoming a cystic fibrosis advocate well known in the CF community, and embarking on a career as a professional writer. Along the way, she cultivated countless intimate friendships and ultimately found love. For more than ten years, Mallory recorded her thoughts and observations about struggles and feelings too personal to share during her life, leaving instructions for her mother to publish her work posthumously. She hoped that her writing would offer insight to those living with, or loving someone with, chronic illness. What emerges is a powerful and inspiring portrait of a brave young woman and blossoming writer who did not allow herself to be defined by disease. Her words offer comfort and hope to readers, even as she herself was facing death. *Salt in My Soul* is a beautifully crafted, intimate, and poignant tribute to a short life well lived—and a call for all of us to embrace our own lives as fully as possible.

In this enchanting sequel to the #1 bestseller The Five People You Meet in Heaven, Mitch Albom tells the story of Eddie's heavenly reunion with Annie—the little girl he saved on earth—in an unforgettable novel of how our lives and losses intersect. In Mitch Albom's beloved novel, The Five People You Meet in Heaven, the world fell in love with Eddie, a grizzled war veteran-turned-amusement park mechanic who died saving the life of a young girl named Annie. Eddie's journey to heaven taught him that every life matters. Now, in this magical sequel, Albom reveals Annie's story. The accident that killed Eddie left an indelible mark on Annie. It took her left hand, which needed to be surgically reattached. Injured, scarred, and unable to remember why, Annie's life is forever changed by a guilt-ravaged mother who whisks her away from the world she knew. Bullied by her peers and haunted by something she cannot recall, Annie struggles to find acceptance as she grows. top ten reads of 2017 Cory Taylor wrote this remarkable book in the space of a few weeks before her death from melanoma-related cancer in July 2016. In a tremendous creative surge, as her body weakened, she described the experience of knowing she would soon die. Her powerful and beautifully written book is a clear-eyed account of the tangle of her feelings, her reflections on her life, her memories of the lives and deaths of her parents. She tells us why it was important to her to have the ability to choose the circumstances of her death. *Dying: A Memoir* is a breathtaking book about vulnerability and strength, courage and humility, anger and acceptance. It is a deeply affecting meditation on dying, but it is also a funny and wise tribute to life. Cory Taylor was born in Queensland in 1955. She was an award-winning novelist and screenwriter who also published short fiction and children's books. Her first novel, *Me and Mr Booker*, won the Commonwealth Writers' Prize (Pacific Region) in 2012 and her second novel, *My Beautiful Enemy*, was shortlisted for the Miles Franklin Award in 2014. She died on 5 July 2016, a couple of months after *Dying: A Memoir* was published. 'The book rings louder in my imagination the more time I spend apart from it...Taylor's prose is clear and direct, with flashes of surpassing loveliness...it has a startling offhand grace...Taylor writes that she will most miss her husband and the faces of her children. They will surely miss her, too. But it's at least something — maybe a tiny bit lucky, even — that this gorgeous piece of her remains.' *New York Times* 'If a more open discussion of death is needed in the West, Taylor's book is a manual for the task. It is full of

wisdom and vulnerability; it is also profoundly reassuring. Dying, she repeatedly says, is deeply lonely. No one can do it with you. But this book might be a companion, made all the more solid by its lack of sentimentality and any other false comforts. ' Times Literary Supplement ' A fine and sorrowful finale. ' Sydney Morning Herald ' What is truly profound about this book is that—though it ought to be harrowing—it is astonishingly easy, if not strangely uplifting, to read. In part, this is because the narrative voice is so gentle, and tightly controlled. Every scene has a radiant quality; it glows. ' Conversation ' ...As this quietly remarkable book illustrates, that kind of looking entails its own tribute to the sweetness of life. ' Radio Australia ' Unflinchingly honest...This deep meditation is beautifully written and destined to be an important piece of the conversation surrounding death. Taylor ' s last testament to life is a welcome departing gift from a thoughtful and inspired author. ' STARRED review, Publishers Weekly ' An eloquent plea for a more humane approach to death and a moving meditation on the life that leads to that end. ' STARRED review, Kirkus Reviews ' Brave and funny, rare and honest. '
