The Emperor's New Underwear

Jack Herer's the Emperor Wears No Clothes

In this retelling of the Hans Christian Andersen story in which two rascals sell a vain emperor an invisible suit of clothes, all the characters are animals.

Published in 1837, Hans Christian Andersen's *The Emperor's New Clothes* tells the tale of two weavers who present a non-existent suit of clothes to the Emperor with the caution that the suit is invisible to those who are unfit for their positions, stupid, or incompetent. As the Emperor parades in his underwear no one dares to say that they see no clothes—with the exception for one small child who exclaims; "he isn't wearing anything at all." Fast forward to the present day and business owners and managers around the world are told that anyone who cannot see the benefits of social media marketing are unfit for their positions,

stupid, or incompetent. As organizations, brands and products fill the social media landscape with meaningless, objectiveless drivel that has interest to no one and serves only to waste resources and alienate customers, a small voice can be heard exclaiming; “who told you that was a good idea?” The caveat to this contemporary tale is that for a very few organizations, brands and products, social media has provided a kind-of marketing panacea. Correction: make that a very, very few organizations. For the rest, they are metaphorically parading in their digital underwear. All is not lost however. Although many have been duped in a new clothes-esque sting, and that their social media marketing efforts are indeed, invisible—but marketing on social media might just be riding to the rescue.

Two rascally weavers convince the emperor they are making him beautiful new clothes, visible only to those fit for their posts, but during a royal procession in which he first wears them, a child whispers that the emperor has nothing on. A modern classic that no child should miss. Since it was first published in 1939, Mike Mulligan and His Steam Shovel has delighted generations of children. Mike and his trusty steam shovel, Mary Anne, dig deep canals for boats to travel through, cut mountain passes for trains, and hollow out cellars for city skyscrapers -- the very symbol of industrial America. But with progress come new machines, and soon the inseparable duo are out of work. Mike believes that

Mary Anne can dig as much in a day as one hundred men can dig in a week, and the two have one last chance to prove it and save Mary Anne from the scrap heap. What happens next in the small town of Popperville is a testament to their friendship, and to old-fashioned hard work and ingenuity.

*Each story takes approximately 10 minutes to read. Rare edition with unique illustrations. Hans Christian Andersen was a Danish author best known for writing children's stories including "The Little Mermaid" and "The Ugly Duckling." But he didn't just write short stories, and his intended audience wasn't restricted to children. In addition to his fairy tales, Andersen wrote poems, plays, novels, travel books, essays, and more. He hungered for recognition at home (Denmark) and abroad—and he got it! Eventually. Today, his stories can be read in over one hundred languages. But no matter what language they're in, Andersen's tales have got something for everyone. In them, you'll find beauty, tragedy, nature, religion, artfulness, deception, betrayal, love, death, judgment, penance, and—occasionally—a happy ending. They're complex tales, but since Andersen himself was pretty complex, we like to think that art imitates life. Or something like that. "The Emperor's New Clothes" (Danish: Kejserens nye Kl?der) is a short tale by Hans Christian Andersen about two weavers who*
