

The Eric Carle Museum Presents Golden Legacy Original Art

“Outstanding . . . the poetry in these pages is intelligent, lyrical, as invested in the past as the present and future with witty nods to pop culture.” —Roxane Gay, author of *Hunger* “I’ve never read anything like it. Truly a sublime experience.” —Jason Reynolds, author of *Ain’t Burned All the Bright A* groundbreaking collection about Afropioneerism past and present from Pushcart Prize-nominated poet and New York Times bestselling author Rio Cortez From a visionary writer praised for her captivating work on Black history and experience, comes a poetry collection exploring personal, political, and artistic frontiers, journeying from her family's history as "Afropioneers" in the American West to shimmering glimpses of transcendent, liberated futures. In poems that range from wry, tongue-in-cheek observations about contemporary life to more nuanced meditations on her ancestors—some of the earliest Black pioneers to settle in the western United States after Reconstruction—*Golden Ax* invites readers to re-imagine the West, Black womanhood, and the legacies that shape and sustain the pursuit of freedom. It's Little Frog's birthday, and Mama Frog gets a big surprise when the guests show up for his party -- all the animals are the wrong color! Little Frog tells her she's not looking long enough, and he's right.

A wildly entertaining and surprisingly educational dive into art history as you've never seen it before, from the host of the beloved ArtCurious podcast We're all familiar with the works of Claude Monet, thanks in no small part to the ubiquitous reproductions of his water lilies on umbrellas, handbags, scarves, and dorm-room posters. But did you also know that Monet and his cohort were trailblazing rebels whose works were originally deemed unbelievably ugly and vulgar? And while you probably know the tale of Vincent van Gogh's suicide, you may not be aware that there's pretty compelling evidence that the artist didn't die by his own hand but was accidentally killed--or even murdered. Or how about the fact that one of Andy Warhol's most enduring legacies involves Caroline Kennedy's moldy birthday cake and a collection of toenail clippings? ArtCurious is a colorful look at the world of art history, revealing some of the strangest, funniest, and most fascinating stories behind the world's great artists and masterpieces. Through these and other incredible, weird, and wonderful tales, ArtCurious presents an engaging look at why art history is, and continues to be, a riveting and relevant world to explore.

How to Shake Up Storytime and Get Kids Talking about What They See

A new, interactive approach to storytime, The Whole Book Approach was developed in conjunction with the Eric Carle Museum of Picture Book Art and expert author Megan Dowd Lambert's graduate work in children's literature at Simmons College, offering a practical guide for reshaping storytime and getting kids to think with their eyes. Traditional storytime often offers a passive experience for kids, but the Whole Book approach asks the youngest of readers to ponder all aspects of a picture book and to use their critical

thinking skills. Using classic examples, Megan asks kids to think about why the trim size of Ludwig Bemelman's *Madeline* is so generous, or why the typeset in David Wiesner's Caldecott winner, *The Three Pigs*, appears to twist around the page, or why books like Chris Van Allsburg's *The Polar Express* and Eric Carle's *The Very Hungry Caterpillar* are printed landscape instead of portrait. The dynamic discussions that result from this shared reading style range from the profound to the hilarious and will inspire adults to make children's responses to text, art, and design an essential part of storytime.

"As nighttime falls over the city, two children visiting their grandparents in India find there's so much fun to be had! Whether it's listening to epic stories or observing rituals in the puja room, there are many moments that make this time together special"--Book jacket flap.

Silliness takes center stage in this laugh-out-loud book from the creator of *The Very Hungry Caterpillar*?--now available as a board book Yes, there's something strange, something funny and even downright preposterous on every page of this book.

But it's not a mistake - it's nonsense Nonsense lies at the heart of many beloved nursery rhymes. Children readily accept odd statements like "the cow jumped over the moon" and "the dish ran away with the spoon." This fanciful bending of reality is also basic to surrealism. In this book, nonsense and surrealism combine to spark creativity and imagination.

What's true? What's impossible? What's absolutely absurd? From Eric Carle, creator of the classic, *The Very Hungry Caterpillar*, comes a book to make children laugh and think, preparing them for a lifetime of loving both words and art.

The book also contains an insightful autobiography illustrated with personal photographs, an anecdotal essay by his longtime editor, a photographic essay on how Carle creates his collages, and writings by Carle and his colleagues.
