

The Geek Baby Book A Memory Journal For Every Geeky First In Your Babys Life

An alphabet book all about geekdom. On board pages. Suggested level: junior.

Explore the colorful world of pop culture with this perfect introduction to all things geek! There are tons of colors -- and playful references -- to be found inside this geeky board book. With nods to science fiction classics and fantasy basics, this book is complete with bright, fun color illustrations and a helpful reference page at the end. Geeky Baby's Guide to Colors is sure to delight any young fan and be the perfect gift for geeky families and parents of all kinds.

Packed with hilarious illustrations and 100 words every geek baby should know (before any others, of course), 100 First Words for Little Geeks is the perfect board book for geek families everywhere. Great Scott!

Winner of the 2021 World Fantasy Award Winner of an 2021 ALA Alex Award Winner of the 2020 New England Book Award for Fiction Winner of the 2021 Ignyte Award Winner of the 2021 AABMC Literary Award A 2021 Finalist for the NAACP Image Award for Best Outstanding Work of Literary Fiction A 2021 Hugo Award Finalist A 2021 Nebula Award Finalist A 2021 Locus Award Finalist A Goodreads Choice Awards Finalist A Most Anticipated in 2020 Pick for Book Riot | Buzzfeed | Paste | WBUR Named a Best of 2020 Pick for NPR | Wired | Book Riot Publishers Weekly | NYPL | The Austen Chronicle | Kobo | Google Play | Powell's Books | Den of Geek "Riot Baby, Onyebuchi's first novel for adults, is as much the story of Ella and her brother, Kevin, as it is the story of black pain in America, of the extent and lineage of police brutality, racism and injustice in this country, written in prose as searing and precise as hot diamonds."—"The New York Times "Riot Baby bursts at the seams of story with so much fire, passion and power that in the end it turns what we call a narrative into something different altogether."—Marlon James Ella has a Thing. She sees a classmate grow up to become a caring nurse. A neighbor's son murdered in a drive-by shooting. Things that haven't happened yet. Kev, born while Los Angeles burned around them, wants to protect his sister from a power that could destroy her. But when Kev is incarcerated, Ella must decide what it means to watch her brother suffer while holding the ability to wreck cities in her hands. Rooted in the hope that can live in anger, Riot Baby is as much an intimate family story as a global dystopian narrative. It burns fearlessly toward revolution and has quietly devastating things to say about love, fury, and the black American experience. Ella and Kev are both shockingly human and immeasurably powerful. Their childhoods are defined and destroyed by racism. Their futures might alter the world. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

A fun, quirky A to Z introduction to all things geeky runs the gamut from Dungeons and Dragons to super heroes; from wizards to warp drive; from Middle Earth to galaxies far, far away. Cool, colorful illustrations and snappy, rhyming text introduce geeks-in-training to their future favorite things. Insider Star Trek references, superpower basics, nods to science fiction classics and more will entertain little ones and the grownups who can't wait to take them to their first Comic Con. A-Z themed spreads are simple, funny and sweet—providing the perfect beginner course in geek iconography.

The Geek Dad Book for Aspiring Mad Scientists

It takes a graveyard to raise a child. Nobody Owens, known as Bod, is a normal boy. He would be completely normal if he didn't live in a graveyard, being raised by ghosts, with a guardian who belongs to neither the world of the living nor the dead. There are adventures in the graveyard for a boy—an ancient Indigo Man, a gateway to the abandoned city of ghouls, the strange and terrible Sleer. But if Bod leaves the graveyard, he will be in danger from the man Jack—who has already killed Bod's family.

A breakthrough parenting book that redefines the meaning of 'geek' and inspires parents to free themselves and their kids from the 'culture of cool.' In a world of superficial values, peer pressure, and out-of-control consumerism, the world needs more GEEKS: Genuine, Enthusiastic, Empowered Kids. Today's 'culture of cool' has changed the way kids grow up. Rather than enjoying innocent childhoods while developing strong, authentic characters, today's kids can become cynical 'even jaded' as they absorb the dangerous messages and harmful influences of a dominant popular culture that encourages materialism, high-risk behaviors, and a state of pseudo-adulthood. Author and mother of four Marybeth Hicks suggests an alternative: bringing up geeks. In this groundbreaking book, she shows parents how they can help their children gain the enthusiasm to pursue their passions, not just the latest fashions; the confidence to resist peer pressure and destructive behaviors; the love of learning that helps them excel at school and in life; and the maturity to value family as well as friends, as well as make good moral decisions. With a foundation like that, kids will grow up to be the coolest adults.

“My name is Harriet Manners, and I am a geek.” The first book in the bestselling, award-winning GEEK GIRL series!

Discover what makes every Aries baby special! This perfect book for your little star is part of a gorgeous and 100% giftable 12-book astrology board book series that shares gentle thoughts about the characteristics of a child born under each star sign. Dear Little Aries, Did you know that you are adventurous, determined, and confident? . . . Every Aries baby and toddler (born Mar. 21-Apr. 19) is going to need this charming, gentle board book that allows grown-ups and children to share the many lovely qualities that make each Aries kid special. Little ones—just like adults—will love knowing what the traits of their star sign are, all the while learning that they are unique, wonderful, and—above all—so loved. The absolute perfect gift for baby showers, first birthdays, and any time a baby is celebrated, the Baby Astrology series lets little ones know that they are ALL stars.

Geek Parenting

#Nerd

Acclaimed authors Holly Black (Ironside) and Cecil Castellucci (Boy Proof) have united in geekdom to edit short stories from some of the best selling and most promising geeks in young adult literature: M.T. Anderson, Libba Bray, Cassandra Clare, John Green, Tracy Lynn, Cynthia and Greg Leitich Smith, David Levithan, Kelly Link, Barry Lyga, Wendy Mass, Garth Nix, Scott Westerfield, Lisa Yee, and Sara Zarr. With illustrated interstitials from comic book artists Hope Larson and Bryan Lee O'Malley, Geektastic covers all things geeky, from Klingons and Jedi Knights to fan fiction, theater geeks, and cosplayers. Whether you're a former, current, or future geek, or if you just want to get in touch with your inner geek, Geektastic will help you get your geek on!

It takes a starship to raise a child. Or a time machine. Or a tribe of elves. Fortunately, Geek Parenting offers all that and more, with thoughtful mini-essays that reveal profound child-rearing advice (and mistakes) from the most beloved tales of geek culture. Nerds and norms alike can take counsel from some of the most iconic parent-child pairings found in pop culture: Aunt May and Peter Parker, Benjamin and Jake Sisko, Elrond and Arwen, even Cersei and Joffrey. Whether you're raising an Amazon princess, a Jedi Padawan, a brooding vampire, or a standard-issue human child, Geek Parenting helps you navigate the ion storms, alternate realities, and endless fetch quests that come with being a parent. Includes parenting experts from across time and space, such as: Luke and Vader Korra and Tenzin Wednesday and Morticia Addams Frodo and Bilbo Rose and Jackie Tyler Carl and Michonne Thor, Loki, and Odin Starbuck, Apollo and Adama Stewie and Lois Sarah Manning and Mrs. S. T'Challa and T'Chaka Spock, Sarek, and Amanda Claudia and Lestat San and Moro Perseus and Zeus Dorothy and Auntie Em Bruce Wayne and Alfred Buffy and Giles Meg Murry and Aunt Beast Orpheus and Morpheus Paul Atreides and Lady Jessica Kal-El and Jor-El Chakotay and Kolopak Scott and Dr. Evil Diana and Hippolyta Alexander and Worf

Fans of Chris Ferrie's Rocket Science for Babies, Quantum Physics for Babies, and 8 Little Planets will love this introduction to organic chemistry for babies and toddlers! It only takes a small spark to ignite a child's mind. Written by an expert, Organic Chemistry for Babies is a colorfully simple introduction to the structure of organic, carbon-containing compounds and materials. Gift your special little one the opportunity to learn with this perfect science baby gift and help them be one step ahead of pre-med students! With a tongue-in-cheek approach that adults will love, this installment of the Baby University baby board book series is the perfect way to introduce STEM concepts for babies and toddlers. After all, it's never too early to become an organic chemist! If you're looking for the perfect STEAM book for teachers, science toys for babies, or chemistry toys for kids, look no further! Organic Chemistry for Babies offers fun early learning for your little scientist!

Nerdy Birdy likes reading, video games, and reading about video games, which immediately disqualifies him for membership in the cool crowd. One thing is clear: being a nerdy birdy is a lonely lifestyle. When he's at his lowest point, Nerdy Birdy meets a flock just like him. He has friends and discovers that there are far more nerdy birdies than cool birdies in the sky.

Alpha Geek 6: ShawPanther shifter Poppy Cain has been living a secret life. She's been hiding her nursing career from an overbearing uncle and terrifying cousins. They run a shady business in town, and when they want to use her as a pawn, Poppy makes a hard decision: run. What she didn't expect was to find a mate in the process. Shit just got real.Shaw Eagan uses his hacking skills for good. Or in the very least, he toes the line. But when the evil Cain family pushes him over the edge, he comes up with a dangerous plan. He clears their bank accounts and steals a mysterious serum to turn himself into a shifter. His family depends on it.When they meet by pure coincidence, sparks fly. Poppy's life is in danger, she has no time for a mate. And Shaw doesn't know she's a Cain. The truth is exposed. Lives are threatened. Trust is on the line. Can Poppy and Shaw put away their pain long enough to survive?Reader's Note: Hang on to your panties, my geek lovers. This one's dirty, fun and action-packed. As with all my books, adults only, please. Enjoy, you awesome freaky readers.

Bringing Up Geeks

In this irresistibly funny follow-up to the breakout bestseller Darth Vader and Son, Vader—Sith Lord and leader of the Galactic Empire—now faces the trials, joys, and mood swings of raising his daughter Leia as she grows from a sweet little girl into a rebellious teenager. Smart and funny illustrations by artist Jeffrey Brown give classic Star Wars moments a twist by bringing these iconic family relations together under one roof. From tea parties to teaching Leia how to fly a TIE fighter, regulating the time she spends talking with friends via R2-D2's hologram, and making sure Leia doesn't leave the house wearing only the a skirted metal bikini, Vader's parenting skills are put hilariously to the test. Plus, this is the fixed-format version, which looks almost identical to the print edition.

Clark Ashton Smith -- one of the "big three" classic authors from the legendary pulp magazine Weird Tales (the others being H.P. Lovecraft and Robert E. Howard) -- began writing early in the twentieth century. By the 1920s, he became a regular poet and author in Weird Tales magazine, helping to usher in its golden age. "The Double Shadow" was originally published by the Auburn Journal in 1933 in an oversized edition limited to only 1,000 copies. Smith carefully signed and hand-corrected many typographical errors for years to come. A collection of six stories ranging from contemporary horror to weird alternate-world fantasy, it remains a fascinating introduction and showcase to his decadently jeweled prose.

Nerdy Babies is a new series that will ignite curiosity in even the youngest readers and encourage them to ask questions and explore the world around them. In Nerdy Babies: Ocean, follow our intrepid infants into the watery depths. Check out animals, plants, and fish that live in the ocean. Plus, learn about the unique ecosystem in this simple text written in question and answer format. With bright artwork by Emmy Kastner, this will be a book that the very littlest nerds will want to return to again and again. Stay curious. There's more to learn about everything!

National Book Award finalist Here is the unforgettable story of the Binewskis, a circus-geek family whose matriarch and patriarch have bred their own exhibit of human oddities (with the help of amphetamine, arsenic, and radioisotopes). Their offspring include Arturo the Aquaboy, who has flippers for limbs and a megalomaniac ambition worthy of Genghis Khan . . . Iphy and Elly, the lissome Siamese twins . . . albino hunchback Oly, and the outwardly normal Chick, whose mysterious gifts make him the family's most precious—and dangerous—asset. As the Binewskis take their act across the backwaters of the U.S., inspiring fanatical devotion and murderous revulsion; as its members conduct their own Machiavellian version of sibling rivalry, Geek Love throws its sulfurous light on our notions of the freakish and the normal, the beautiful and the ugly, the holy and the obscene. Family values will never be the same.

Feminist Baby is back in the follow-up to the New York Times bestseller by two-time Emmy Award-winning author Loryn Brantz. Feminist Baby is learning to talkShe says what she thinks and it totally rocks! Feminist Babies stand up tall"Equal rights and toys for all!"

Feminist Baby is ready for more adventures--and this time she has friends! Still strong and independent, readers will love Feminist Baby as she continues to teach about feminism in a fresh, accessible way.

#1 NEW YORK TIMES BESTSELLER • Now a major motion picture directed by Steven Spielberg. “Enchanting . . . Willy Wonka meets The Matrix.”—USA Today • “As one adventure leads expertly to the next, time simply evaporates.”—Entertainment Weekly A world at stake. A quest for the ultimate prize. Are you ready? In the year 2045, reality is an ugly place. The only time Wade Watts really feels alive is when he’s jacked into the OASIS, a vast virtual world where most of humanity spends their days. When the eccentric creator of the OASIS dies, he leaves behind a series of fiendish puzzles, based on his obsession with the pop culture of decades past. Whoever is first to solve them will inherit his vast fortune—and control of the OASIS itself. Then Wade cracks the first clue. Suddenly he’s beset by rivals who’ll kill to take this prize. The race is on—and the only way to survive is to win. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Entertainment Weekly • San Francisco Chronicle • Village Voice • Chicago Sun-Times • iO9 • The AV Club “Delightful . . . the grown-up’s Harry Potter.”—HuffPost “An addictive read . . . part intergalactic scavenger hunt, part romance, and all heart.”—CNN “A most excellent ride . . . Cline stuffs his novel with a cornucopia of pop culture, as if to wink to the reader.”—Boston Globe “Ridiculously fun and large-hearted . . . Cline is that rare writer who can translate his own dorky enthusiasms into prose that’s both hilarious and compassionate.”—NPR “[A] fantastic page-turner . . . starts out like a simple bit of fun and winds up feeling like a rich and plausible picture of future friendships in a world not too distant from our own.”—iO9

Can knowing the most superhero trivia in the whole school be considered a superpower? If so, Vincent Wu is invincible. If not (and let’s face it, it’s “not”), then Vincent and his pals Max and George don’t get any props for being the leaders (and, well, sole members) of the (unofficial) Captain Stupendous Fan Club. But what happens when the Captain is hurt in an incident involving BOTH Professor Mayhem and his giant indestructible robot AND (mortifyingly) Polly Winnicott-Lee, the girl Vincent totally has a crush on? The entire city is in danger, Vincent’s parents and his friends aren’t safe, the art teacher has disappeared, and talking to Polly is REALLY, REALLY AWKWARD. Only Vincent Wu has what it takes to save the Captain, overcome Professor Mayhem, rally his friends, and figure out what to say to Polly. But will anyone take him seriously? Seriously. Anyone?? Find out in this action-packed super comedy debut.

Amber How do you politely refuse when the only guy to star in any of your dirty fantasies has just offered to put you up for the foreseeable future and your brother’s just accepted like you were in fact still thirteen and couldn’t make decisions for yourself? You don’t. And, you end up with a roommate who wears a very good elegant mask over the rough and tumble, bad boy core I remember far too well. Only, it’s ten years later and I’m even nerdier than I used to be. It’s ten years later and I couldn’t look worse. It’s ten years later and I can’t keep one guy. It’s ten years later and my brother still teases me mercilessly in front of him. It’s ten years later and Kit somehow looks even better than the guy I spent my formative years crushing on. So, there’s not only the issue that he’s my older brother’s best friend, but also a sex-god this virgin can barely talk to. But that certainly never stopped me from drooling over him and it wouldn’t stop me now. He’s so far out of my league, I wouldn’t even clean in his league. Except, there might just be a smouldering heat in Kit’s eyes that suggests he’s not quite as out of my league as I thought. Just maybe, this geek is about to get a whole lot of chaos. Kit When I find out about my best mate’s little sister’s situation, the offer is out of my mouth before I can stop it; Hawk’s like a brother to me even if Amber’s never looked twice at me. I could never tell if she was scared of me or hated me. But the deal is done. She’s going to bring her bedraggled self upstairs to my penthouse and live with me for as long as she needs. I see the pain she hides away, I see the lack of confidence despite how smart she is, how good. If there’s something I’ve learned, it’s that confidence makes all the difference. So, it becomes my mission to help Amber find her confidence. But I find more than confidence in her and suddenly I’m seeing my best mate’s little sister completely differently. I’ve never known what to say to her. She’s always been good and studious and sweet. She’s always been so far out of my league I wouldn’t even carry bags in that league. Her face is a mask that tells me nothing in between the sparse words that come out of her mouth. Except, there might be something in the way she smiles at me that gives me hope I’m not as far out of her league as I thought. It might just be time that this chaos gets a little geek. Please be aware that this story is set in Australia and therefore uses Australian English spelling and syntax.

Babies can be a joy—and hard work. Now, they can also be a 50-in-1 science project kit! This fascinating and hands-on guide shows you how to re-create landmark scientific studies on cognitive, motor, language, and behavioral development—using your own bundle of joy as the research subject. Simple, engaging, and fun for both baby and parent, each project sheds light on how your baby is acquiring new skills—everything from recognizing faces, voices, and shapes to understanding new words, learning to walk, and even distinguishing between right and wrong. Whether your little research subject is a newborn, a few months old, or a toddler, these simple, surprising projects will help you see the world through your baby’s eyes—and discover ways to strengthen newly acquired skills during your everyday interactions.

Show your little ones how to display HTML elements properly with CSS (Cascading Style Sheets) and familiarize them with the visual patterns and symbols that make up the essential building blocks of the web.

Baby Geek

Age of the Geek

Nerdy Birdy

12 Lucky Animals: A Bilingual Baby Book

Celara is a little girl with a very big imagination. She loves stories in all forms and they often inspire her to express herself in creative ways. When Celara decides she wants to make up her own story, she suddenly finds that her imagination has gone blank. After a lot of work, and a little encouragement from her favorite characters, she discovers that faith in herself is all she needs to make the magic happen.

Provides a collection of ideas for science fair projects and family activities, including making topsoil, understanding calories, and building a MacGyver radio.

This collection examines the nerd and/or geek stereotype in popular culture today. Utilizing the media—film, TV, YouTube, Twitter, fiction—that often defines daily lives, the contributors interrogate what it means to be labeled a “nerd” or “geek.” While the nerd/geek that is so easily recognized now is assuredly a twenty-first century construct, an examination of the terms’ history brings a greater understanding of their evolution. From sports to slasher films, Age of the Geek establishes a dialogue with texts as varied as the depictions of “nerd” or “geek” stereotypes.

Help your future genius become the smartest baby in the room! If you're looking for toddler homeschooling books similar to Baby Loves Quantum Physics then you'll love Nuclear Physics for Babies, the next installment of the Baby University board book series by Chris Ferrie! Mind Body Baby: Chakras

There's a TARDIS cookie jar in our kitchen. A Picard air freshener in our car. And we won't even mention Harry Potter in the bathroom. We're geeks and proud of it! But is there nothing for baby?

Inconceivable! Introducing 100 First Words for Little Geeks, a deliciously nerdy primer for kids learning their first words! Forget apple and dog. Little geeks are ready for holy grail, warp core, and intergalactic catastrophe (okay, forget that last one, but they'll learn tribble and that's about the same thing). Packed with hilarious illustrations and 100 words every geek baby should know (before any others, of course), 100 First Words for Little Geeks is the perfect board book for geek families everywhere. Great Scott!

A Dungeons & Dragons children's book that captures the wonder and whimsy that made you fall in love with the game. "It's never too early to jump into the world of Dungeons & Dragons and now it's even easier for children to let their inner elf shine through."—ComicBook.com We begin with ONE Dungeon Master telling a story of daring deeds, the adventure of TWO heroes and their brave and noble steeds.

Start your little gamer on an adventure to last a lifetime with this numerical children's book and introduction to the greatest roleplaying game of all time, Dungeons & Dragons. Written in the rhyming style of classic children's books and filled with adorable owlbears and darling beholders, adorable bugbears and darling drow, it's the perfect book to share the joy of Dungeons & Dragons with a new generation as they learn their numbers—a precursor to every new path in counting. • Perfect birthday gift or holiday gift for gamers of all ages: great thank you gift for Dungeon Masters • Must-have for all gaming parents; a great baby shower gift! • Part of a series with The ABCs of D&D, a children's alphabet book and companion to The 123s of D&D

This book makes a wonderful geek baby gift for your favorite new parents! Grammar for Babies is a delightful series for babies, kids, and adults alike. Explore the possibilities of better grammar with fun characters like Carlos the Comma and Wendy the Word. Refresh your memory while you spend time with your child. Even when the kids aren't around, you may find yourself reading from this series to strengthen your own writing habits. In this book, hang out with Carlos for a fun day on the job. Learn ways to properly use commas and how to avoid common comma mistakes. This book is also great for English as a Second Language (ESL) learners of all ages. Please note: for your favorite big kid, you may also get a version of this book without the Grammar for Babies logo. Don't miss the reviews on that edition! It's the same book with a different title to appeal to older children and encourage literacy for them, too. <http://www.tinyurl.com/CarlosTheComma>

The ultimate book of baby names for comic book nerds, sci-fi fans and more—with the meanings and stories behind more than 1,000 names! Having trouble finding a baby name that celebrates your favorite fandom? Whether you want your child's name to stand out in a crowd or fit in on the playground, Naming Your Little Geek is here to save the day! This ultimate guidebook is complete with every name a geek could want to give their baby—from Anakin and Frodo to Indiana and Clark; and from Gwen and Wanda to Buffy and Xena—plus their meanings, and a list of all the legends who have borne them. Naming Your Little Geek covers everything from comic book superheroes to role-playing game icons, Starfleet officers to sword and sorcery legends with characters who have appeared on film and TV, in novels and comic books, on the tabletop, and beyond. With nearly 1,100 names referencing more than 4,400 characters from over 1,800 unique sources, it's the perfect resource for parents naming a child or anyone looking for a super cool and meaningful new name.

From the creative team of Ruby's Chinese New Year, Chinese medicine practitioner Vickie Lee and illustrator Joey Chou--the visual development artist of Spider-Man: Into the Spider-Verse--present this bilingual baby picture book introducing Chinese characters through the animals of the Chinese zodiac. The adventure loving Dragon, the carefree Horse, and the artistic Goat are just three of the 12 Lucky Animals to be found in the Chinese zodiac, rendered here in bright illustrations. Use the wheel on the back cover to help little readers discover who their lucky animal is and how to pronounce its name in Chinese and English.

It's fast becoming a geek world out there, and all moms need to show off their tech smarts and superhero-like skills in order to keep their savvy kids entertained and engaged. Geek Mom: Projects, Tips, and Adventures for Moms and Their 21st-Century Families explores the many fun and interesting ways that digital-age parents and kids can get their geek on together. Imaginative ideas for all ages and budgets include thrifty Halloween costumes, homemade lava lamps, hobbit feasts, and magical role-playing games. There are even projects for moms to try when they have a few precious moments alone. With six sections spanning everything from home-science experiments to superheroes, this comprehensive handbook from the editors of Wired.com's popular GeekMom blog is packed with ideas guaranteed to inspire a love of learning and discovery. Along the way, parents will also find important tips on topics such as determining safe online communities for children, organizing a home learning center, and encouraging girls to love science. Being geeky is all about exploring the world with endless curiosity. Geek Mom is your invitation to introducing the same sense of wonder and imagination to the next generation.

From the root chakra to the crown chakra, Mind Body Baby: Chakras is a board book that teaches little ones the colors of the rainbow through the energies of the body. This board book introduces the concept of chakras and color to the youngest readers. With simple text and instructive illustrations, babies will learn about each of the seven chakras, the energy centers in our bodies, and how we express this energy in our daily lives. This book also serves as a first introduction to colors! With adorable illustrated babies and a hip design, the Mind Body Baby series is the perfect way for adults and their little ones to create a healthy mind and body connection together. An Imprint Book

A must-have alphabet board book set from the #1 Science author for kids, Chris Ferrie! With simple, colorful explanations of complex STEM topics, this is the perfect baby or toddler gift for your future genius! Introduce babies and toddlers to basic concepts for each letter of the alphabet with this four-book set: ABCs of Space - Explore astronomy, space, and our solar system from A to Z! ABCs of Mathematics- Learn about addition, equations, and more with this perfect primer for preschool math! ABCs of Physics- Explain essential physics words like atom, quantum, Einstein, and Newton! ABCs of Science- Spark curiosity in young scientists by exploring concepts like amoebas, electrons, vaccines, and more! The Baby University ABCs set offers four educational board books for toddlers written by an expert. Each book offers three levels of learning to encourage little scientists to explore and dive deeper into each scientific concept. Its approach to early learning is beloved by kids and grownups! This baby board book set is the perfect way to introduce basic scientific concepts and STEM to even the youngest scientist and makes a wonderful newborn baby gift! If you're looking for other STEM-minded baby toys, books, and gifts, check out the full Baby University series, including Quantum Physics for Babies, Organic Chemistry for Babies, and 8 Little Planets.

Special One Year Anniversary Edition of the award winning novel #Nerd! Includes TWO never before in print bonus scenes, a special note from the author and special recipes! Two people from completely different worlds are about to be thrown together... In more ways than one. She wants to keep her scholarship. He wants to stay on the team. An awkward alliance doesn't even begin to cover Rimmel and Romeo's relationship. But that's about to change. It starts with a dare. An initiation. A challenge. Quickly, it turns into more. But when you're a victim of your status, there is no room for anything real. The rules are clear and simple. Stick to your circle. And never fall in love with anyone on the outside.

The ultimate DIY project guide for techie dads raising kids in their own geeky image, in the spirit of The Dangerous Book for Boys Today's generation of dads grew up more tech-savvy than ever. Rather than joining the Little League team, many grew up playing computer games, Dungeons and Dragons, and watching Star Wars. Now with kids of their own, these digital-age dads are looking for fresh ways to share their love of science and technology, and help their kids develop a passion for learning and discovery. Enter supergeek, and father of two, Ken Denmead. An engineer and editor of the incredibly popular GeekDad blog on wired.com, Ken has created the ultimate, idea-packed guide guaranteed to help dads and kids alike enjoy the magic of playtime together and tap into the infinite possibility of their imagination. With illustrations throughout, this book offers projects for all ages to suit any timeframe or budget. With Denmead's expert guidance, you and your child can: •Fly a night-time kite ablaze with lights or launch a video camera with balloons •Construct the "Best Slip n' Slide Ever," a guaranteed thrill ride •Build a working lamp with LEGO bricks and CDs •Create a customized comic strip or your own board game •Transform any room into a spaceship •Make geeky crafts like cyborg jack-o'-lanterns or Ethernet cuff links Brimming with endlessly fun and futuristic tidbits on everything from gaming to gadgets, GeekDad helps every tech-savvy father unleash his inner kid-and bond with the next generation of brainiacs. THE GEEKS HAVE INHERITED THE EARTH. Computer nerds are our titans of industry; comic-book superheroes are our Hollywood idols; the Internet is our night on the town. Clearly, geeks know something about life in the 21st century that other folks don ' t—something we all can learn from. Geek Wisdom takes as gospel some 200 of the most powerful and oft-cited quotes from movies (" Where we ' re going, we don ' t need roads "), television (" Now we know—and knowing is half the battle "), literature (" All that is gold does not glitter "), games, science, the Internet, and more. Now these beloved pearls of modern-day culture have been painstakingly interpreted by a diverse team of hardcore nerds with their imaginations turned up to 11. Yes, this collection of mini-essays is by, for, and about geeks—but it ' s just so surprisingly profound, the rest of us would have to be dorks not to read it. So say we all.
