

## The Ghost Of Harry Black

Wings of Destiny fills a significant gap in Australian World War II history by taking the reader beyond the Kokoda trail and into the skies over New Guinea. The book is a biography of Wing Commander Charles Learmonth. Learmonth was involved in the air search for the HMAS Sydney, the air war in New Guinea, the Battle of the Bismarck Sea, and the tragedy of the Beaufort bomber accidents. Author Charles Page takes the reader with Learmonth in his twin-engined Boston attack bomber, She's Apples, describing the brave deeds of No.22 Squadron and its 'Boston Boys.' As well as being a famous pilot, Learmonth was an incurable romantic, and from his tent in New Guinea he wrote to his wife Marjorie almost every day. These letters, combined with his diaries and log book, form the basis of much of this book.

More than any other series, THE AVENGERS typified the Swinging Sixties - beginning in 1961 with Patrick Macnee starring with Ian Hendry in a grainy, realistic spy thriller, and ending in 1969 with Macnee and the glamorous Linda Thorson blasting off into space in a surreal episode appropriately entitled 'Bizarre'. Meanwhile we had seen the memorable Honor Blackman and Diana Rigg in roles unusually progressive for British television. THE NEW AVENGERS in the mid-seventies reflected changing times but retained the essence of the show - as Macnee returned to play alongside another strong, independent heroine in the form of Joanna Lumley's Purdey. And then there was the film... THE AVENGERS DOSSIER is a uniquely comprehensive yet humorous survey of all the show's incarnations. As well as a remarkably detailed episode guide to both series - even covering the kinkiness factor and champagne count in both - this volume gives behind the scenes insights and revelations about every aspect of the programme. The film and its production are examined, and critical essays look at the history behind the cult.

Do you believe in ghosts? You will after reading these original short novels from four of today's best writers of the fantastic. Brian Lumley, a Grand Master of Horror and author of the popular Necroscope series, opens the collection with the tense "A Place of Waiting." The moors of Devon, England, are home to many ghosts, but none as fearsome as the red-eyed specter that refuses to accept his death. His only chance of release, however, comes at a terrible cost. Orson Scott Card puts a new spin on one of literature's most famous ghosts in "Hamlet's Father." What if the former King of Denmark was not killed by his treacherous brother for his crown, but by someone entirely unexpected as punishment for the darkest of crimes? Would his troubled son still seek revenge? The patrons of an Edinburgh tavern are introduced to a beverage with an unusual history in "The Haunted Single Malt" by Marvin Kaye, a clever and spooky story about ghost stories and the people who love them. Tanith Lee offers "Strindberg's Ghost Sonata," a chilling tale set in an alternate Russia. When a poor man is rescued from certain death by hospitable strangers, he discovers that he is not a guest in their haunted tenement building--he is a prisoner destined to become a sacrifice. Unprecedented in scope and detail, Brothers and Strangers is a vivid history of how the mythic Africa of the black American imagination ran into the realities of Africa the place. In the 1920s, Marcus Garvey--convinced that freedom from oppression was not possible for blacks in the Americas--led the last great African American emigrationist movement. His U.S.-based Universal Negro Improvement Association worked with the Liberian government to create a homeland for African Americans. Ibrahim Sundiata explores the paradox at the core of this project: Liberia, the chosen destination, was itself racked

by class and ethnic divisions and—like other nations in colonial Africa—marred by labor abuse. In an account based on extensive archival research, including work in the Liberian National Archives, Sundiata explains how Garvey's plan collapsed when faced with opposition from the Liberian elite, opposition that belied his vision of a unified Black World. In 1930 the League of Nations investigated labor conditions and, damningly, the United States, land of lynching and Jim Crow, accused Liberia of promoting "conditions analogous to slavery." Subsequently various plans were put forward for a League Mandate or an American administration to put down slavery and "modernize" the country. Threatened with a loss of its independence, the Liberian government turned to its "brothers beyond the sea" for support. A varied group of white and black anti-imperialists, among them W. E. B. Du Bois, took up the country's cause. In revealing the struggle of conscience that bedeviled many in the black world in the past, Sundiata casts light on a human rights predicament which, he points out, continues in twenty-first-century African nations as disparate as Sudan, Mauritania, and the Ivory Coast.

Candice Freeman is an A-list celebrity who is accustomed to life in the fast lane. Meadow Cottage is still home to the man who rebuilt it from a derelict ruin twenty years before, the ghost of Harry Black. Candice defies his attempts to force her to leave and they agree to share the idyllic village home. The question is can a mortal and a ghost live together?

*The classic ghost story from the author of *The Mist in the Mirror*: a chilling tale about a menacing spectre haunting a small English town. Arthur Kipps is an up-and-coming London solicitor who is sent to Crythin Gifford—a faraway town in the windswept salt marshes beyond Nine Lives Causeway—to attend the funeral and settle the affairs of a client, Mrs. Alice Drablow of Eel Marsh House. Mrs. Drablow's house stands at the end of the causeway, wreathed in fog and mystery, but Kipps is unaware of the tragic secrets that lie hidden behind its sheltered windows. The routine business trip he anticipated quickly takes a horrifying turn when he finds himself haunted by a series of mysterious sounds and images—a rocking chair in a deserted nursery, the eerie sound of a pony and trap, a child's scream in the fog, and, most terrifying of all, a ghostly woman dressed all in black. Psychologically terrifying and deliciously eerie, *The Woman in Black* is a remarkable thriller of the first rate. The basis for the major motion picture starring Daniel Radcliffe. *Two Against the Underworld* combines and updates two previously published books (*The Strange Case of the Missing Episodes* and *With Umbrella, Scotch and Cigarettes*) to tell the story of *The Avengers* from both sides of the camera. The authors lift the lid on all 26 Series 1 episodes. Comprehensive chapters detail the narratives in extended synopsis form, as well as the production, transmission and reception of each episode, and the talented personnel who made them. The creation of *The Avengers*, Ian Hendry's departure, the series' destiny and the mystery of the missing episodes are explored in a series of essays, each of which is new or revised. *Avengers* writer Roger Marshall and Neil Hendry both contribute forewords to this volume. The book also boasts black-and-white illustrations by Shaqui Le Vesconte and 70 pages of appendices that deal in depth with the unproduced episodes of Series 1, Keel and Steed's further adventures in the comic strip *The Drug Pedlar* and the novel *Too Many Targets*, and much more.*

*When Petey is born, he is a normal, healthy rat with two round, dark ruby eyes. Life is good, and he is happy. Then, things begin to change and his eyes are opened to a different side of life. Petey and his siblings find themselves at a pet store waiting patiently for*

someone to adopt them. But one day, a huge fight breaks out in the rat bin, and Petey is severely injured. He's worried about what's going to happen to him; he certainly does not want to end up as a feeder rat. Then, through a strange twist of fate, Petey finds a new home with a loving family. It's an adoption that changes all of their lives. Based on true events, *Petey the One-Eyed Rat* is a tale of love, loyalty, despair, faith, and courage. It is a story of serendipity—the amazing way that paths cross unexpectedly to create powerful, unlikely connections such as the one between Kim, the psychologist, and Petey, the one-eyed rat.

This story is a follow up to *Captain Thomas*, fiction set in present day Falmouth some 300 years later where the University faculty is flourishing and the high street is failing, as with many other towns up and down the country with online selling, there's an uneasiness about UK departing the European Union. Thomas buys the old M&S site and plans a playhouse for his plays, some which are already running in London, this attracts interest from successful fellow writers, who come down. Thomas has an accountant living with him, who took early retirement, she has three daughters, one finished university, one about to finish and another in sixth form. It commences on Falmouth's Church street, where Thomas's girl friend is shopping and he's gone into the Brig. Now completed and in four parts.

Marx, Lenin, and the Revolutionary Experience offers a fresh look at Communism, both the bad and good, and also touches on anarchism, Christian theory, conservatism, liberalism, Marxism, and more, to argue for the enduring relevance of Karl Marx, and V.I. Lenin as democratic revolutionaries. It examines the "Red Decade" of the 1930s and the civil rights movement and the New Left of the 1960s in the United States as well. Studying the past to grapple with issues of war and terrorism, exploitation, hunger, ecological crisis, and trends toward deadening "de-spiritualization", the book shows how the revolutionaries of the past are still relevant to today's struggles. It offers a clearly written and carefully reasoned thematic discussion of globalization, Marxism, Christianity (and religion in general), Communism, the history of the USSR and US radical and social movements.

Whilst searching a windswept mountainside for the fabled ghost moth fungus, a young Tibetan boy unearths a mysterious relic. Moments later the People's Liberation Army of China marches into his isolated village in the valley below and begins to dismantle an ancient way of life. As the brutal oppression grows, the boy's precious find becomes first a symbol of hope for the villagers then a tool of survival for a people and a religion. It must be preserved at all costs. Sixty years later, mountain guide Neil Quinn is wrapping up his last climb of the season on the highest mountain in Tibet when a transport shortage leaves him stuck in an empty base camp. An earthquake sets off a chain of mysterious events that directly connect the English climber to the ongoing tragedies of a troubled land where the Chinese authorities strive still for complete control. Unsure of precisely what he witnessed yet determined to protect its truth, Quinn returns to Kathmandu and enlists the help of a famous historian of the Himalayas, an erstwhile American journalist, and a cast of locals as enigmatic as that ancient city—each with their own reasons for joining his quest. Manipulation and murder dog their every step as they strive to piece together a complex puzzle from Tibet's tortured past while navigating the treacherous present.

White men still hold most of the political and economic cards in the United States; yet stories about wounded and traumatized men have become a staple of popular culture. Why are white men jumping on the victim bandwagon? Examining novels by Philip Roth, John Updike, James D. Salter, and Pat Conroy and such films as Deliverance, Misery, and Dead Poets Society—as well as other writings, including The American Mind—Sally Robinson argues that white men are tempted by the possibilities of pain and the surprisingly pleasurable relief that can come from living in crisis.

*Religion and the Rise of Jim Crow in New Orleans* examines a difficult chapter in American religious history: the story of race prejudice in American Christianity. Focusing on the largest city in the late-nineteenth-century South, it explores the relationship between churches—black and white, Protestant and Catholic—and the emergence of the Jim Crow laws, statutes that created a racial caste system in the American South. The book fills a gap in the scholarship on religion and race in the crucial decades between the end of Reconstruction and the eve of the Civil Rights movement. Drawing on a range of local and personal accounts from the post-Reconstruction period, newspapers, and church records, Bennett's analysis challenges the assumption that churches fell into fixed patterns of segregation without a fight. In sacred no less than secular spheres, establishing Jim Crow constituted a long, slow, and complicated journey that extended well into the twentieth century. Churches remained a source of hope and a means of resistance against segregation, rather than a retreat from racial oppression.

Especially in the decade after Reconstruction, churches offered the possibility of creating a common identity that privileged religious over racial status, a pattern that black church members hoped would transfer to a national American identity transcending racial differences. Religion thus becomes a lens to reconsider patterns for racial interaction throughout Southern society. By tracing the contours of that hopeful yet ultimately tragic journey, this book reveals the complex and mutually influential relationship between church and society in the American South, placing churches at the center of the nation's racial struggles.
