

The Great European Rip Off How The Corrupt

"Written by an ex-con. Endorsed by PhD's, school principals and judges. Awesome book with an inspiring message: You are loved and you will get through this." -BERT BURYKILL, Vice Magazine
There are nearly three million adults in the U.S. alone that are in prison or jail. Many of these being parents that leave behind unanswered questions with their children: What is jail? Why did this happen? Is it my fault? Is my daddy (or mommy) bad? Do they love me? My Daddy's in Jail is a story of two bears who have a father in prison. The book is narrated by a very odd cockroach.

There are over 195,289 registered charities in the UK spending about 80 billion of our money a year. Charities claim that almost ninety pence in every pound we give is spent on 'charitable activities'. But with many of our best-known charities, the real figure is less than fifty pence in every pound. But does Britain really need so many charities? And do our charities spend enough of our money on good causes? The Great Charity Scandal exposes the truth about Britain's massive charity industry and recommends how we need to change things so more of our money goes where we expect."

Public investment, and particularly infrastructure investment, is important for sustainable economic growth and development as well as public service provision. However, it is also vulnerable to capture and corruption.

Alfred Döblin (1878-1957) studied medicine in Berlin and specialized in the treatment of nervous diseases. Along with his experiences as a psychiatrist in the workers' quarter of Berlin, his writing was inspired by the work of Holderlin, Schopenhauer and Nietzsche and was first published in the literary magazine, Der Sturm. Associated with the Expressionist literary movement in Germany, he is now recognized as on of the most important modern European novelists. Berlin Alexanderplatz is one of the masterpieces of modern European literature and the first German novel to adopt the technique of James Joyce. It tells the story of Franz Biberkopf, who, on being released from prison, is confronted with the poverty, unemployment, crime and burgeoning Nazism of 1920s Germany. As Franz struggles to survive in this world, fate teases him with a little pleasure before cruelly turning on him. Foreword by Alexander Stephan Translated by Eugene Jolas<

The True Story of Britain and the European Union

Winner of the Women’s Prize for Fiction “No one writes like Ruth Ozeki—a triumph.” —Matt Haig, New York Times bestselling author of The Midnight Library “Inventive, vivid, and propelled by a sense of wonder.” —TIME “If you’ve lost your way with fiction over the last year or two, let The Book of Form and Emptiness light your way home.” —David Mitchell, Booker Prize-finalist author of Cloud Atlas A boy who hears the voices of objects all around him; a mother drowning in her possessions; and a Book that might hold the secret to saving them both—the brilliantly inventive new novel from the Booker Prize-finalist Ruth Ozeki One year after the death of his beloved musician father, thirteen-year-old Benny Oh begins to hear voices. The voices belong to the things in his house—a sneaker, a broken Christmas ornament, a piece of wilted lettuce. Although Benny doesn’t understand what these things are saying, he can sense their emotional tone; some are pleasant, a gentle hum or coo, but others are snide, angry and full of pain. When his mother, Annabelle, develops a hoarding problem, the voices grow more clamorous. At first, Benny tries to ignore them, but soon the voices follow him outside the house, onto the street and at school, driving him at last to seek refuge in the silence of a large public library, where objects are well-behaved and know to speak in whispers. There, Benny discovers a strange new world. He falls in love with a mesmerizing street artist with a smug pet ferret, who uses the library as her performance space. He meets a homeless philosopher-poet, who encourages him to ask important questions and find his own voice amongst the many. And he meets his very own Book—a talking thing—who narrates Benny’s life and teaches him to listen to the things that truly matter. With its blend of sympathetic characters, riveting plot, and vibrant engagement with everything from jazz, to climate change, to our attachment to material possessions, The Book of Form and Emptiness is classic Ruth Ozeki—bold, wise, poignant, playful, humane and heartbreaking.

Over the last ten years, New Labour has boasted public spending by around a trillion pounds - that's £1,000,000,000,000 of our taxes - over £50,000 for every household in Britain. But what have we got for our money? Effective and responsive public services that are the envy of the world? Or the creation of a vast, self-serving bureaucracy that has presided over the greatest waste of money in British history? With so much money, a tsunami of extra cash, being thrown at public services - health, education, policing, defence, social services and public administration - there have been some successes. Nevertheless, the results of the Government's tidal wave of extra spending have been worse than pitiful. In department after department, it is the same sorry story - a triple whammy of incompetence, cover-up and cuts that have all but decimated public services, while those responsible have lavished money and honours on themselves David Craig exposes the sometimes tragic, sometimes comic story of how New Labour's years of mismanagement have led to a bureaucratization of Britain that has squandered almost unimaginable amounts of taxpayers' money, caused irreparable damage to all our lives and rewarded the man responsible with the keys to Number 10.

“Gothic fans rejoice!” (The Globe and Mail) The #1 internationally bestselling author of The Demonologist radically reimagines some of literature’s classic masterpieces—Frankenstein, Strange Case of Dr. Jekyll and Mr. Hyde, and Dracula—in a contemporary novel driven by relentless suspense and breathtaking emotion. This is the story of a man who may be the world’s one real-life monster, and the only woman who has a chance of finding him. As a forensic psychiatrist at New York’s leading institution of its kind, Dr. Lily Dominick has evaluated the mental states of some of the country’s most dangerous psychotics. But the strangely compelling client she interviewed today—a man with no name, accused of the most twisted crime—struck her as somehow different from the others, despite the two impossible claims he made. First, that he is more than two hundred years old, and he personally inspired Mary Shelley, Robert Louis Stevenson, and Bram Stoker to create the three novels of the nineteenth century that define the monstrous in the modern imagination. Second, that he’s Lily’s father. To discover the truth—behind her client, her mother’s death, herself—Dr. Dominick must embark on a journey that will threaten her career, her sanity, and ultimately her life. A “breathtaking story rife with emotion and chilling suspense” (The Big Thrill Magazine), The Only Child fuses the page-turning tension of a first-rate thriller with a provocative take on where thrillers come from. In his latest novel, “Andrew Pyper’s writing is gripping, and readers will undoubtedly make comparisons to Stephen King” (Library Journal) as they stay up all night to discover the last, unforgettable revelation.

General Data Protection Regulation 2016

It's 1940 and Nazi bombs are raining down on London, but 13-year-old bike messenger Jack has just discovered something unbelievable: a stray dog with a surprising talent. Jack navigates the smoky, ash-covered streets of London amid air raid sirens and falling bombs, dodging shrapnel and listening for cries for help, as a bike messenger for fire crews. When Jack finds a dog, miraculously still alive after the latest Nazi bombing of London, he realizes there's something extra special about the shaggy pup--he can smell people who are trapped under debris. With his new canine companion, nicknamed Rip because of the dog's torn ear, maybe Jack can do more than just relay messages back-and-forth--he can actually save lives. And if Jack's friend Paula is right about the impending Nazi invasion, he and Rip will need to do all they can to help Jewish families like hers. There's just one problem: Jack has to convince his ill-tempered father to let him keep Rip. Based on true episodes during the London Blitz in World War II, this action-packed and touching story explores the beginnings of search-and-rescue dogs and the bravery and resourcefulness of young people determined to do their part for their country.

This book contains the General Data Protection Regulation 2016 with official justifications. Legal provisions are accompanied by their recitals. Ideal for any practitioner and anyone interested in European data privacy. "The General Data Protection Regulation is the first directly applicable legal basis valid in all EU member states for processing personal data. It was concluded in April 2016 following a three-year coordination procedure, and replaces the data protection directive from 1995. The updates in the regulation include rights related to data portability and the right to be forgotten. There are changes with regard to data transmission to third-party countries, national supervisory agencies ("one-stop-shops") and their collaboration. But above all, the drastically harsher sanctions in response to violations should be an impetus for all affected companies to review their compliance measures. The European Parliament and the Council have granted a transitional deadline of two years for this purpose."

Selected as one of NPR's Best Books of 2019 Selected by National Geographic as one of 12 "great books for travelers" The prose is colourful and vigorous ... Jubber's journeying has indeed been epic, in scale and in ambition. In this thoughtful travelogue he has woven together colourful ancient and modern threads into a European tapestry that combines the sombre and the sparkling' Spectator 'A genuine epic' Wanderlust Award-winning travel writer Nicholas Jubber journeys across Europe exploring Europe's epic poems, from the Odyssey to Beowulf, the Song of Roland to theNibelungenlied, and their impact on European identity in these turbulent times. These are the stories that made Europe. Journeying from Turkey to Iceland, award-winning travel writer Nicholas Jubber takes us on a fascinating adventure through our continent's most enduring epic poems to learn how they were shaped by their times, and how they have since shaped us. The great European epics were all inspired by moments of seismic change: The Odyssey tells of the aftermath of the Trojan War, the primal conflict from which much of European civilisation was spawned. The Song of the Nibelungen tracks the collapse of a Germanic kingdom on the edge of the Roman Empire. Both the French Song of Roland and the Serbian Kosovo Cycleemerged from devastating conflicts between Christian and Muslim powers. Beowulf, the only surviving Old English epic, and the great Icelandic Saga of Burnt Njal, respond to times of great religious struggle - the shift from paganism to Christianity. These stories have stirred passions ever since they were composed, motivating armies and revolutionaries, and they continue to do so today. Reaching back into the ancient and medieval eras in which these defining works were produced, and investigating their continuing influence today, Epic Continent explores how matters of honour, fundamentalism, fate, nationhood, sex, class and politics have preoccupied the people of Europe across the millennia. In these tales soaked in blood and fire, Nicholas Jubber discovers how the world of gods and emperors, dragons and water-maidens, knights and princesses made our own: their deep impact on European identity, and their resonance in our turbulent times.

The present study is an attempt to place in historical perspective the relationship between early capitalism as exemplified by Great Britain, and the Negro slave trade, Negro slavery and the general colonial trade of the seventeenth and eighteenth centuries. It is strictly an economic study of the role of Negro slavery and the slave trade in providing the capital which financed the Industrial Revolution in England and of mature industrial capitalism in destroying the slave system.

In this EU referendum year, it's time for people across Europe to look at what really goes on in Brussels in our name. It has been estimated that the EU costs us around £ 1,000 billion a year - an incredible £ 2000 for every man, woman and child in Europe. So what do we get for our money? Politicians and administrators selflessly working to bring us efficient government? Well-targeted regulations that promote economic prosperity? A safe and free society? A well-protected environment? Help for people in poorer countries? Or is our money being squandered by a self-serving euro-elite of unaccountable politicians and incompetent bureaucrats, or else devoured in a feeding frenzy of fraud and corruption where a few lucky insiders become unimaginably rich at our expense? And is the tsunami of regulation pouring out of Brussels in reality strangling industry, destroying jobs, restricting personal freedom, desecrating the environment and further impoverishing the developing world? Using their extensive network of insider sources, David Craig and Matthew Elliott smash through the secrecy and disinformation that are the Brussels hallmark to reveal what our European rulers are really getting up to. The result is a horrifying story of bureaucracy, hypocrisy and kleptocracy - and how we are all suffering as a result.

Since its publication in 2003, The Great Deception has taken on the role of the Eurosceptics' bible, with the third edition helping to fuel the debate during the 2016 EU Referendum. This fourth edition celebrates the moment when the UK has been extensively re-edited to incorporate newly available archive material, and updated to include the tumultuous events of recent years. The Great Deception, therefore, tells for the first time the inside story of the most audacious political beginnings in the 1920s, when the blueprint for the European Union was first conceived by a British civil servant, right up to the point when the UK resumes its path as an independent sovereign nation after 47 years of membership of the EU. Drawing on a wealth of new evidence and existing sources, scarcely an episode of the story does not emerge in startling new light, from the real reasons why de Gaulle kept Britain out in the 1960s to the fall of Mrs Thatcher and the bitter roots in the Maastricht Treaty. The book chillingly shows how Britain's politicians were consistently outplayed in a game the rules of which they never understood. It ends by evaluating the post referendum negotiations and asking whether the beginning.

"Zahra handles this immensely complicated and multidimensional history with remarkable clarity and feeling." –Robert Levgold, Foreign Affairs Between 1846 and 1940, more than 50 million Europeans moved to the Americas in one of the largest migrations of human history, emptying out villages and irrevocably changing both their new homes and the ones they left behind. With a keen historical perspective on the most consequential social phenomenon of the twentieth century, Tara Zahra shows how the policies that gave shape to this migration provided the precedent for future events such as the Holocaust, the closing of the Iron Curtain, and the tragedies of ethnic cleansing. In the epilogue, she places the current refugee crisis within the longer history of migration.

The First Book of Enoch was lost for centuries to the western world although it was kept by the Ethiopian church. In 1773 the Scottish explorer James Bruce heard that the Book of Enoch may have been in Ethiopia so he traveled there and procured three copies. In 1821 Richard Laurence, a professor of Hebrew at Oxford, produced the first English translation. Fragments of ten Enoch manuscripts were found among the Dead Sea Scrolls. It is quoted by New Testament Book of Jude. This book contains all sections of The First Book of Enoch: The Book of the Watchers The Book of Parables of Enoch The Astronomical Book The Book of Dream Visions The Epistle of Enoch It is of particular interest to anyone with an interest in angels and demons, or Bible history in general.
